Canada Railway Loan Bill.

IMPORTANT DEBATE IN THE HOUSE OF COMMONS.

In the House of Lords on the 11th inst., the Duke of Buckingham, in moving the third reading of the Canada Railway Loan Bill, said it was not a measure emanating from the present government, but one for the completion of negotiations which had been carried on with successive governments for many years past. The proposal was that this country should guarantee to Canada the interest of a loan of £3,000,000 for the execution of the Intercolonial railway.

LORD LYNDEN said he did not intend to oppose the bill, although he entertained strong objections to its principles. A defence could only be directed against the United States, and, though he did not believe the United States were inclined to attack Canada, he thought it was unwise to be thus showing our weak points to our neighbors. To be constantly dwelling on the point of the colony was offering a temptation to aggression. Moreover, if we should ever be embroiled with the United States it would be very inexpedient to carry on war on the most disadvantageous ground that could be selected, and the inhospitable nature of the country was really its best defence; whereas if this railway fell into the hands of the enemy it would become a useful instrument of aggression. He should like, also, to know what the colonists were doing for themselves. It was true that they offered a gallant resistance to the Fenian raids, but he understood that they had done little or nothing towards the fortification of Montreal, which it had been agreed should be undertaken by them, while we bore the cost of fortifying Quebec. The defence of the colonies ought to rest on the public spirit of the people on their determination to repel aggression from the enemy, but as long as we went on lending them money and guaranteeing their loans it was hardly in human nature to expect that they would show any self-reliance. We had withdrawn our troops from New Zealand, and according to Sir G. Grey, the result had been most salutary; but a contrary policy towards Canada would incite the people to extort money from the mother country for they would know that they had only to raise the bugbear of an American invasion in order to procure immediate assistance. As long as we let it be understood that war with Canada meant war with England, we offered a temptation to the United States to threaten our frontiers, and encouraged the colonists to rely upon us instead of upon themselves.

EARL RUSSELL—I heard my noble friend who has just sat down say that it was very unwise to be constantly calling out that Canada was defenceless. I quite agree with my noble friend, but if that be so, I think your lordships have reason to complain of my noble friend's speech which dwelt chiefly on that very theme. I confess I am apt to think that, though there may be difficulties in such a course, we are bound from a feeling of national honor, to support our colonies in time of danger, and it is quite possible that the difficulties which stand in the way of our doing so may be overcome. It is not for me to say what may be the military defence of Canada. We all know that there is a very extensive frontier to be defended, and that the United States are very populous; and we have seen of late years that they can place on foot an immense and efficient army in a short time. All this is known to all the world; it does not require that we or the United States should proclaim it; but still we have seen that a country like this may be able to annihilate some very difficult things. It has often occurred to me that if our ancestors about half a century ago thought it right to defend Portugal, a small country having a comparatively extensive frontier, confronted with Spain, and did it with success, the defence of a colony like Canada, may not be so hopeless as my noble friend supposes. Spain was not the only country which Portugal had to dread. France was another. With Spain by a family compact, and both these countries were able to throw a seemingly overwhelming force upon Portugal, which there was every likelihood of their being able to conquer and overrun. Nevertheless, we kept to our treaty with Portugal, and we were always ready to give her assistance. It might be said that there were difficulties which both France and Spain had to encounter in carrying out their designs against Portugal. But that was a time when the sovereign of France was the greatest general of modern times, and had the greatest armies at his disposal. We would think, then, that the case was quite hopeless, for there were 300,000 or 400,000 men who could be always sent under one of the great marshals of the empire against her, and Portugal must be cut off. But we too, had a great general, but above all we had spirit and determination to defend Portugal, because she was our friend and ally, and that defence succeeded. The spirit remains the same, there still remains Portugal, and I defy you to say that the defence of Canada is a bit more difficult than the defence of Portugal at that time. (Hear, hear.) I will not attempt to show the way in which we could

defend Canada—that is a question for military authorities. But there is this great consideration, that a State has often a difficulty to encounter which may make her hesitate to go to war, because, although conquest may be apparently easy, it may lead to other wars, or may excite jealousy and hostility toward other powers that make it. Therefore, a country which may be disposed to enter upon a war of aggression is often deterred from doing so. I don't know that any one could say Belgium would be able to resist the whole power of France if turned against her, or that Sweden could resist the power of Russia if turned against her. But there is a sense among great powers that an unprincipled aggression solely for the sake of ambition may be the cause of very great misfortunes to the people that make it. These attempts, therefore, that seem so easy from a military point of view are not attempted. That appears to me to be something like the position of the United States in relation to Canada. My hon. friend has said that if we have any honor among us an unprincipled attack upon Canada would give rise to a war between us and the United States. That is a motive, and I trust would be a motive with the United States for refraining from such an attack. It is impossible not to see that the United States must be sensible that it would be something like the position of the United States in relation to Canada. My hon. friend has said that if we have any honor among us an unprincipled attack upon Canada would give rise to a war between us and the United States. The Luxemburg Question.

EXCITED STATE OF FEELING AGAINST PRUSSIA IN FRANCE.

Writing from Paris on the morning of the 11th April, the Paris correspondent of the London Times says:

"The tone of the German press, the demonstrations of the Berlin meetings, and the arrogant and insulting language towards France are beginning to rouse a spirit among the French people, who, of all those with whom they have been brought into contact in war or in peace, have the least liking for Prussians. Until now there was no wish, no thought of war for the annexation of Luxemburg or any other territory; but, really, when France is haughtily told that the possession of a fortress by Prussia is with a view to facilitate an invasion of her territory and a march on Paris, it is no wonder that a feeling of resentment should be excited which, if not taken long to appease, the Prussians believe that France is not prepared at this moment to go to war, that she requires time to organize her army, and that they may be offensive with impunity; but the excitement is dangerous, and if persevered in, will have the effect of making the French people unite as one man to avenge the insult. No one who is in the habit of mixing in French society can be blind to the change that is coming over the most pacific and patient on reading or hearing of the provocations that are flung at this country. Indeed things are coming to such a point that were contingents of men and money demanded from the French Chambers to-morrow I should be surprised if they were not granted. The question of war or peace being mooted the other evening at the Tuilleries, one very highly placed and very pacific functionary remarked that in actual circumstances there was no choice but between an act of folly and backing out of the affair altogether—'une folie ou une reculee.' 'then,' answered the Emperor, 'my choice would be for the folie, but for the reculee, never!'"

The Government is now showing every disposition to come to a compromise with the Commission on the army Organization Bill, and to lose as little time as possible, and make all reasonable concessions to complete it. The scarcity of experienced military officers is felt. In consequence the regulations introduced last year by many of these officers are coming to take situations in various branches of civil administration. The war now admitted, and in case of them would probably be a service. In this case probably be a considerable modification of the liberal than the position that M. Walpole, to Italy, as he is his abode at his men's call.

"The arrangement of the Grand Regal part of the same command offered to that in the people. A militia says that vocation in that ominous

On the Paris correspondent of the London Times says: "I hear of war, which is a serious treat between France and the Prussians, from a special not alluded from the columns of the regular are and with find are the

COMMERCIAL.

BELLEVILLE MARKETS.

INTELLIGENCER OFFICE,
Belleville, May 4, 1867.

Today the market has been a little more active, but deliveries have been comparatively light. Fall wheat, some offering, would bring \$1.50 for choice. Spring wheat has advanced to \$1.75 to \$1.80. Rye has also advanced to 85c to 90c. Other grains but very little change. The Wool Season is just about commencing, but the price of wool—25c is not very encouraging to farmers. The following are our quotations:

FALL WHEAT—None offering.
SPRING WHEAT—\$1.75 to \$1.80.
BARLEY—55c to 60c.
RYE—55c to 60c.
OATS—For local consumption, at 40c. to 45c.
PEAS—70c to 75c.
BEANS—80c to 85c.
BUCKLE—\$1.50 to \$1.60.
MUTTON—6c to 7c per pound.
BUTTER—12c to 13c. Roll sold to-day at 14c. to 16c.

EGGS—8c to 10c.
HIDES—\$7.00. Mutton \$5.00.
SHEEP—\$1.00 to \$1.50.
CALF—10c to 12c per lb.
DRESSING—50c.

TALLOW—Rough, 5c to 6c; rendered, 5c.
WAX—35c is the highest offered.
POPCORN—35c to 40c.
CORN—80c to 85c.
HAY—\$15.00 to \$17.00.
CLEAN—15c.
CORN—80c to 85c.
FLOUR—No. 1, \$5.50 per 100 lb.; No. 2, \$5.50 per 100 lb.; No. 3, \$5.00.

GEORGE ROCHE,

HATTER & FURRIER.

All the latest styles of

Felt & Silk Hats,

KEPT always on hand. Also, a great variety of

CLOTH CAPS.

All orders promptly executed. Remember the stand.

Neelson's Block, opposite Apothecaries Hall, Front Street, Belleville.

N. B.—The highest price in CASH paid for Hare Fur, Seal, Felt and Silk Hats ironed and repaired.

May 1. 1D-6m

At several points on the Lake shore the peach trees are injured. No damage is reported in the interior of the State. Grapes and fruits generally are not badly damaged.

FIRE AT CHICAGO.—FOUR FIREMEN BURIED BENEATH THE WALLS.

CHICAGO, May 4.—A fire took place at 89 Water street last night, total loss \$35,000, four firemen were buried beneath the falling walls, three were taken out dead and the other will probably die.

FIRE—TWO CHILDREN BURNED TO DEATH.

PHILADELPHIA, May 4.—Two children were suffocated in Locust Street this morning. Their mother had left them locked up in a room, and this they set fire to by playing with matches. The fire was extinguished and the children taken out dead.

FIRE AT ROCHESTER.

ROCHESTER, May 4.—A fire this morning burned property to the amount of 100,000 dollars. Three or more lives were lost. The fire began soon after midnight, and continued until eight o'clock this morning. Palmer's block, Main St., and several adjoining stores were destroyed, also the Washington Hall block on the same street. When its immense roof fell in, three or four men were burned in the ruins. The charred and mangled bodies of John Pike, Henry Forrester, and Joseph Worth, were taken from the ruins. It is feared several other persons have perished.

BUSINESS NOTICE.

TRUTH STRANGER THAN FICTION.—To-day was noticed on Front Street, in this place, a very elegantly attired young gentleman. He was evidently a stranger in town, to judge from the fact that although the thoroughfare was crowded with pedestrians, who all seemed to regard him with admiration, yet none recognized him. There was something in his appearance, however, which attracted considerable attention, viz: his close resemblance to a well-known young gentleman residing here. Could it be him? But no—it was impossible, such a wonderful improvement is not so easily effected. He pursued his course until he arrived at a neat, quiet cottage, where love, peace and plenty seemed to reign supreme. Here he passed and rang the bell, when a sweet-looking young lady (who had but recently assumed the duties of a loving wife) appeared. The gentleman enquired if Mr. was at home, and was told he was not, but was expected almost immediately. He stated that he was an old friend of his and would very much like to see him, upon which the lady invited him in and requested him to be seated. Before doing so, however, while the lady was looking in another direction, he slyly stole a kiss, whereupon the lady, very indignant, ordered him to leave the house at once. "Let me own house," said Well, that is a good joke. Mary, don't you know your own George?" The lady was very much pleased when she discovered it was her husband who had perpetrated the joke, and said, "Why, my dear George, how much improved you are; I don't believe I could not have recognized you in that beautiful suit of clothes. Where did you get them?" "I purchased them at J. Muir & Co's Clothing Emporium for an exceedingly low figure. They please me very highly. They have a beautiful stock of Clothing, Gent's Furnishing and Boots and Shoes."

POLICE COURT.

A LONE YIDDER.

A very interesting lady of uncertain age, hailing from Cohour, was brought before the Police Magistrate by Capt. James, who prosecuted her for vagrancy. She pleaded sickness, widowhood and respectability, being a branch of the O'Keanes in Wicklow, but her commitment for 20 days appeared to afford her considerable satisfaction, anticipating recovery during the forced absence from her usual habits.

ASSAULT.

A man named Michael Mullins was arrested by Sgt. Roche for a brutal assault upon Morris Moorman and Stephen Young on Wednesday night last, in a Tavern on Front street. Moorman was unable to attend, but Young fully proved the assault upon himself, and the case was laid over until Monday, bail being accepted for the prisoner's appearance.

A case and cross case between George Meggin and Orrin Baldwin, of Thurlow, for assault and trespass, was also laid over until 11th inst., for the purpose of obtaining additional evidence.

DEPRESSED CASE.

Tucker against Wilson for assault, from previous day, was held by pro and Wilson fined \$5 and costs. The charge against Schwab was withdrawn on payment of costs.

Doctors as well as the Clergy recommend the Fall Killer to every well regulated household.

The Legislature of Prince Edward Island met on the 18th ult. The Governor's speech contains little of interest.

The whole number of sewing machines manufactured up to the close of last year, computed at 75,000, and the present rate of manufacture is about 200,000 per annum.

A barrel of flour can be purchased in Paris, sent by rail and steamer to Liverpool, and thence transported in a sailing vessel to Boston, at less expense than it can now be purchased in the latter city.

Florida produces lemons that weigh over a pound, and they are twice the size in circumference. They are obtained by a cross between the common lemon and the sour orange.

SPECIAL NOTICE.

specially for that branch of photography.

Feeling assured that he can excel anything on the continent, they cordially invite all who wish something far surpassing anything they have yet seen, to give them a call.
FORREST & LOGG.
P. S.—Rooms opposite the Anglo-American House, Front Street, Belleville. May 2. 2D3m

Canada at the Universal Exhibition.

A special correspondent of the London *Canadian News*, writing from Paris, says:—
"The Exhibition opened yesterday, or rather the building opened, as the exhibition was not ready. Two thirds of the articles are yet to be placed and at least one half of the stands and cases to be put up. Russia, Japan, China, and Australia—the most distant countries—were the most advanced in preparation. Even the French department, despite the superhuman efforts of the last few days and nights, was only partially complete; the United Kingdom and Germany in a similar predicament; the United States and South American States, if possible, more backward still."

"There was a large muster of colonists, including several from the new Dominion. The Hon. Mr. McGee, with Messrs. Bosange and Daley, for Canada; Dr. Honeyman, for Nova Scotia (whose section is one of the most complete in the building); Messrs Phillips, Miller, &c., of Montreal; Mr. Boyd, of Toronto; Messrs Belford and Foster, of the Toronto press. Mr. Gordon Brown, who is also here, was, I regret to say, too ill to be present. The colonial commissioners, in common with the Imperial Commissioner, received the Emperor and Empress at the intersection of the British department—Lord Houghton acting as representative of all. The Emperor looked like a girl of twenty-five and was in truth, the fairest fair of the many thousand fair women there assembled. The day was lovely, but the enthusiasm was not overpowering. It will be a month yet before the interior arrangements are really complete."

"You will be pleased to learn that on the nomination of his Grace the Colonial Secretary, the Hon. Mr. McGee, of Canada, has been appointed one of the jurors, on behalf of Great Britain, at the Paris Exhibition."

"The situation of Canada and the cluster of colonies surrounding her is strikingly favourable in the building. The whole northern apex or end of the immense oval building is assigned to Great Britain and the British possessions; and in a straight line—like the chord of an arch—the Canadian states run in front of the whole from side to side of the edifice, or, more strictly speaking, from the common centre of all corridors or avenues—the Picture Gallery—to the wall of the external or Machinery Gallery. On one front we face the United States; on another Brazil and the South American States; immediately around us are India, Australia, the Mauritius, Zanzibar, and the Cape Colony—Scotland—the United Kingdom filling up all the interior space. When our collection is completely placed our friends will, I think, have reason to be satisfied."

"Our stalls and emplacements are ornamented with *landscapes* or canopies, representing our native woods very tastefully done from the designs of Mr. Tache and very much admired. The buttresses are imitation of black walnut, and the cornices, &c., of bird's eye maple—two of our most celebrated furniture woods. The square, or Main Court, is a forest tent, suspended from the roof and supported by ten pillars representing trees, which produce a very agreeable and pleasing effect. On these pillars escutcheons proper to Canada will be placed, and the interiors will be occupied by representations of forest scenery."

"The nearly 600 exhibitors in Canada who are interested directly and indirectly are interested generally in the success of our section here will be glad to learn that already our woods and our minerals begin to attract general attention. Sir William Logan's collection of minerals will be found to have vastly improved since former exhibitions; and the fact of Mr. Richardson dedicating his main edition to Logan is the best proof of the advances made by the Canada survey of late years, not only in local but in general discoveries. Mr. Richardson, of Sir William's staff, is very busy getting up his branch, and when the great map arrives it will be the first complete demonstration yet made of our mineral riches and resources. In former exhibitions our trophies of woods were usually in pyramid shape; this time they are arranged in the form of an immense Doric portico, the lintel stone being represented by a 'stick' of yellow pine fifty feet long and weighing about ten tons."

"Canada is represented in class IX (photographs) by eight exhibitors; in class XXVI (leather and fancy work) by sixteen exhibitors; in class XXVIII (linen yarns, flax, and hemp) by eleven exhibitors; in class XXX (woolen yarns and fabrics) by twenty-eight exhibitors; in class XL (mining and metallurgy) by sixty exhibitors; in class XLII (products of agriculture) by twenty exhibitors; in class XLIII (agricultural products not used as food) by forty-two exhibitors; in class XLVI (leather and skins) by nine exhibitors; in class XLVII (agricultural apparatus) by eight exhibitors; in class XLIII (machines) and class LIV (machine tools) by fourteen exhibitors; in class LXI (carriages) by eight exhibitors; and in the next class (other light and harness) by seven exhibitors. Of cereals and other farinaceous products used as food (class LX).

BELLEVILLE, TUESDAY, MAY 7.

CANADIAN BANK OF COMMERCE.—The Toronto Evening Telegram says that this bank was opened for the transaction of business on Monday for the first time.

CARR & JOHNSTON, of St. RICHMOND, et al.—The Defendant's solicitor in this case desires to say that the Bill to which we referred yesterday for an injunction was dismissed with costs, and that he has been paid said costs.

GOLD NEAR SYDENHAM.—The Kingston Whig of yesterday says:—Yesterday a specimen of gold in quartz, said to have been taken from a farm in the township of Loughboro', convenient to Sydenham, was brought to the city, and being practically tested showed a yield of gold of one grain to the pound!

PROVINCIAL EXHIBITION.—The Kingston Whig says:—Exhibitors of sheep at the next Provincial Fair, to be held in Kingston in September, will have to bear in mind that all sheep intended to be shown must be shorn close after the 25th ult., and none shorn before will be admitted for competition. This is an admirable rule, and will have the effect of giving all a fair chance. It should have been adopted long ago.

BLACKWOOD'S MAGAZINE.—The contents of the April number just received are: "Elizabeth and Mary," "Herman's Ancient Christianity," "The Moral and Political Revolution in Japan," "The Army," "Manhood Suffrage and the Ballot in America," "A Letter never sent," "Brownlow," "The Ministers and their Messengers," republished by the Leonard Scott Publishing Company, 140 Fulton St., N. Y. city at \$3 a year.

THE EMPRESS.—It will be seen by advertisement that another steamer has been placed on the route between Trenton and Montreal. The Empress which formerly plied between Ogdensburg and Montreal, will leave Trenton every Wednesday, making the round trip once a week. She has an upper cabin, is one of the finest boats on the Bay and River, and is commanded by one of the most experienced sailors on the lakes.

DRILL ASSOCIATION.—We notice with great pleasure that a Drill Association is intended to be formed in this town. The advertisement in another column requests Volunteer Officers and Military School and Military Board Certificate men to attend a meeting on Thursday evening next at the Drill Shed. We hope the Association will be a success. It is well known that a man without constant practice soon becomes "rusty" at drill, and although the Hastings Volunteers, more particularly the 15th and the Rifle Company, have already established a name for themselves, as to efficiency, we have heard more than one officer complain of the want of opportunity to keep up to the mark. This is a step in the right direction, and it is to be hoped that it may become one of our institutions.

The Richardson Mine.

A special telegram to the Montreal Gazette dated Belleville, May 4, after giving the particulars of the shipment of the four barrels of quartz, states "that the same not having been properly shipped under a Consular certificate, the Consular agent here was informed of the fact, and he telegraphed to the authorities at Rochester, where the shipment lies in bond, to have the same seized and held until examined and valued. The public will therefore soon be in possession of all the facts as to the richness of this celebrated mine upon the most undoubted authority. This clever move on the part of Messrs. Diamond and Dickson, solicitors for the Belleville company, was of course not made for the purpose of proving that the mine was no humbug, but to make the Chicago men account for the property they have removed in contempt of the injunction and with the intention of ulterior proceedings."

We may as well state that the facts above given were known to the writer, but he was not permitted to make them public.

We learn since that the barrels have been seized at Rochester, and that two parties in the interest of the Belleville company are now in Rochester, waiting the action of the Customs authorities, and to ascertain the value of the quartz and dust.

We may also state that within the last two days propositions have been made to the Belleville Company by Messrs. Lombard & Hardin, with a view to effect a compromise, and have the case taken out of court. It would be very gratifying to have the case settled in some such manner, for then there would be a likelihood of having the Richardson mine developed at an early date.

—The Paris correspondent of the New York Tribune, in order to give his readers an idea of the size of the exhibition building, asks them to imagine a structure 150,000 yards square set in a park three times that size. As this makes the building cover an area of 22,500,000 yards and a park in proportion, we submit that it is asking too much of the imagination.

—The falling off of incomes in New York is remarkable. May has this year returned by the census ranging from \$50,000 to \$200,000, this year return almost nothing. Mr. Claflin, whose income last year was something over half a million, this year returned twenty-five dollars. Mr. Stewart, who passes for a wealthy man generally, is still worse off, having no income at all. Where is the revenue to come from? where the money to pay other taxes?

What They Will Do.

It is amusing to watch the variety of methods the Brown party have of creating political capital. They go the full figure for the doctrine that the "end sanctifies the means," even to taking dead men from the tombs, and placing their names on prominent Committees. They take a renegade Conservative and pitchfork him into a prominent position, because he bows the knee to the great Ontario, and because they hope to split the ranks of the Conservative party, while they know they can cast their entire vote for him. They throw overboard the constant Reformer, because he has a mind of his own, and will not consent to be dragged into the mud, whenever it suits Mr. Brown's pleasure. In fact they do all sorts of extraordinary things, are guilty of the most monstrous inconsistencies, and resort to the most contemptible subterfuges, to carry their point. As we said, they go to the tombs for great men's names, to swell the list of their Reform Committees.

The Leader has a case in point, which shows the length this party will go to in order to make political capital. It seems that a short time ago, a meeting of the Reform Association of Toronto, was held in that city, and in order to make a show of respectable names, parties who were hundreds and thousands of miles away, were made to appear as being present, and one of them—Peter R. Lamb—was who has been in the cold ground for two years. Committee making material must be scarce when a man who has been dead two years, is made to swell the list of the re-organizers. The Leader says: "There is always a peculiar appropriateness in this sham of setting up dead men to fight dead issues over again; for if we are to have a resurrection of questions that have been dead and buried years ago, why not use dead men's names for our counters? If the party resurrectionists are to go back to legendary politics, why not make use of the names of dead men? The parading of the name of a man that has been dead for years is another illustration of the dishonesty of the mode in which the names of the pretended committee were selected. The thing was made all the worse by the meeting being represented as one of this very committee. Many of those who were made to appear to have been present were hundreds and thousands of miles away; in England, in the United States, here, there and everywhere; or at least had long been in the cold grave."

The Leader makes a capital suggestion in closing as follows: "We observe that one of the Miss Foxes is again going in to the spirit rapping business; and we would suggest that before using any more dead men's names on his committees, Mr. Brown should employ this medium to ascertain whether the defunct approved of the reorganizing movement before taking liberties with their names and memories."

From the Maritime Provinces.

From our exchanges in the Maritime Provinces received this morning, we gather the following items:—
The leaders of the Union party in Nova Scotia are preparing for the election campaign in real earnest.
The Halifax people are now moving vigorously in the matter of a Provincial Agricultural and Mechanical Exhibition.
The Newfoundland Legislature has passed an Act empowering the New York, Newfoundland and London Telegraph Company to raise an additional \$500,000 for the purpose of laying a submarine cable to Sydney via St. Pierre, and erecting a new line through the country to Cape Ray. This has been rendered necessary by the increase of the Atlantic Cable traffic.

We clip the following from the Halifax Colonist: "A leading Anti-Confederate from a western district, a tanner who has been loud in his denunciations of the ruin that the Union with Canada was to bring upon the Province, was somewhat astonished while in the city a few days ago, to receive from the agent of a Canadian firm an order for three thousand dollars worth of upper leather, it having been ascertained that that article can be manufactured better and cheaper than in Canada. The leather is to be furnished by the first of May, whether it shall be subject to duty or not."

The Prince Edward Islander in noticing the Governor's speech, says it is entitled to notice by reason of what it does not contain. On the subject of Confederation His Excellency said not a word, and the Islander takes him to task for ignoring such an important subject. The Islander admits that large majorities of the members of the late Houses of Legislature declared against union submitted to them; but the people of Prince Edward Island have never had the matter submitted to them; and the Islander believes that they would assent to Confederation upon what they might consider fair terms.

—The March report of the Commissioner of Agriculture dwells upon the ravages committed by dogs among the sheep in the United States. In 1860, 500,000 sheep were killed by dogs, and their value was \$2,000,000. The number of dogs in the country is computed at 5,000,000, their annual expense \$10 per head, and the sum total of their extermination \$50,000,000—an immense sum to bestow upon the dogs, and the most of which are worthless, and many of them causing great mischief to the farmer.

THE INTELLIGENCER.

Board of Common School Trustees.

MONDAY, May 6, 1867.
The regular monthly meeting took place this evening. The chairman, Mr. M. Powell, and Messrs. Thompson, Smith, Walton, and Shepard were present.

The monthly reports of the Teachers were laid before the Board and examined. It being found that reports from schools Nos. 2 and 3 were not complete, on motion they were referred back to the Teachers for correction.

A petition from P. R. Covert, asking for remission of taxes, was not granted.

The Local Superintendent's report for the month showed the total and average number of scholars for the month ending 30th April, to be as follows:

No.	Scholars.	Average.
1.—Mr. Macdon.	197	151
2.—Mr. Jeffers.	201	166
3.—Mr. Ashby.	180	131
4.—Mr. McKewen.	191	141
5.—Mr. Pollock.	92	40

The chairman reported verbally respecting the school lot on Taylor's Hill, stating that the Finance Committee of the Town had failed to agree upon recommending an appropriation for the purchase of said lot as required by the Board, and had reported on the 21st inst. that the Council had taken no action. Several members of the Board stated that constant complaints were being made as to the state of the No. 4 school house, as to its unsuitability for school purposes, and urging the building of a new school house. After some further conversation in reference to the subject, it was decided to hold a special meeting on the 21st inst. to consider the matter. The meeting was held on the 21st inst. and the Council would again meet, and to dispose of the question in some way.

The Board then adjourned.

NEWS FROM MADOC.

From our own Correspondent.

Rain and Mud—Lombard & Co., will sink more shafts—Cariboo Cameron at work—Gold Exhibited—Where does it come from?—The Potash Barrels—Petersboro Company—False Reports—Assault on Court of Revision—"Honest Joe"—Hotel Keeper at El Dorado—Post-Office Wanted—Pete's Examiner.

Still it rains, and it rains everywhere, and as a matter of course, the roads have not improved much of late.

We have not so many strangers around as usual to-day, but those who are here seem to be quite satisfied as to the prospects of the country, and are inclined to invest if a fair opportunity offers.

Lombard & Co. are preparing to sink two shafts outside of the "disputed territory" on Richardson's lot. The result is looked forward to by the El Doradoists with a great deal of interest. Said a resident of El Dorado to me to-day, "there is enough gold in that hill to make the whole place rich." I hope so, but am inclined to think that the amount got by outsiders will be given for value received.

The report is that "Cariboo" Cameron & Co., have purchased Samuel McMahon's farm, which is a part of 18, in the 8th concession, and intend to proceed at once to develop it. It is said they were induced to do this upon the result of the examination of the Richardson mine.

By the way, some beautiful specimens of gold were being exhibited as from the Richardson mine within the last few days, and some of the parties are not inclined to say how they were got.

The story of the four potash barrels full of quartz, &c., being shipped to Belgrade, and supposed by many to be true, others, however, think it a "canard."

Hon. Sidney Smith was here on Friday and Saturday looking after the interests of some Peterboro Company. About the time he was leaving he was introduced to Mr. Lombard, who said if he had known that he was in visiting the neighborhood of the mine, he should have been happy to have given him an opportunity to go to the inside of it. I wish he had; it would do more to satisfy the public than half a dozen raps, for even now there is a report among strangers that the whole thing was a humbug, and intended for the benefit of the Hotels at El Dorado and the sale of lots outside. While I do not believe there is any truth in this connection with the richness of the "Richardson mine," still it is just what might be expected from the course taken. Breaking the law never brings any good results to those who break it.

A party was arrested here to-day under a warrant from W. H. Tumely, Esq., for threatening to assault Mr. Lumley. Before it came to trial Mr. Lumley withdrew the complaint, by the prisoner promising "never to have anything to do with him again." Two dollars and fifty cents costs were paid, and the prisoner was discharged a poorer and to be hoped a wiser man.

The Court of Revision closed their sitting on Friday, and adjourned until the last Thursday in May. The Messrs. Fox, Smith and Lumley are the only parties who say they they received from a part of the Court. Well, it is hard to please everybody. I wonder if any one ever succeeded fully in pleasing one, and that one himself.

"Honest Joe" still avers that there is no mistake in the "Downing Rapids" mine; and as soon as certain arrangements are completed he will ascertain this for himself, and the gold developments of that region.

The "Hotel Keepers" at El Dorado are feeling rather glum over the \$5 a month license the toll they have to pay for the privilege of shutting shop; so much the better for the rest if they do.

A Post Office is badly wanted at the mine either under Upper Level El Dorado; the village is anxious to get it.

The "Express" carried by Messrs. Pettibon, McGrover & Co. is a very great convenience to this community, and from their reports it is evident that the Express Company have won the good wishes of the country for their success.

From Bridgewater.

Mr. Edron.—It may not be interesting to your readers to know that we are still finding shows of gold in Elzevir.

On Lot 3, 4th Concession, Messrs. Harrison and Breeze have begun sinking a shaft, and have taken from crushed quartz two shows of flour gold; they are down about nine feet and the indications are getting better as they proceed. From this shaft I hope we shall be able to report more fully next week.

On Lot 1, 4th Concession Elzevir we have found a fair show of gold in Quartz Rock taken from a vein twelve feet wide. This vein is traceable for near half a mile, and on the topmost peak there are evident signs of an upheaving of the quartz, which is greatly shattered. A short distance southwest of this point there has evidently been a great depression of the rock and earth; at this place the rock appears equal to that at the Richardson mine, and from sounding, it appears to be hollow underneath. There is a chimney in this part which drains off the surface water from the hole, and shows conclusively that there must be a large cavity or pocket in the rock below.

It is my intention to work into this cavity as soon as possible, and from present appearances I feel confident we shall make a good strike.

There are some ten distinct veins of quartz between this vein and Bridgewater, all within three-quarters of a mile, several of which are over a foot in width, all of which are traceable through the clearings from ledge to ledge as far as can be seen for the woods.

There are parties working on Lot 3, 1st Concession. The person in charge informed me that they had found a show of gold on that lot. He also informed me that he found gold on Lot 3, 1st Concession Elzevir, which he declared to be good.

Robert Barry, Esq., informed me that more gold had been found on his lot 5, in 3rd Concession. This lot has not been worked for some time, owing to the accident which happened some few weeks ago, but I understand work has again been commenced.

I am informed that parties commenced to work to-day on Lot 4, 1st Concession of Elzevir, where there is a fair show of quartz. This lot with No. 3, will be worked by separate companies.

On Lot 3, 2nd Concession Elzevir, Mr. Maxwell has leased a portion of land for mining and the parties are to commence work this month. From the appearance of the earth and quartz, I believe they will be successful. Owing to the heavy rains there can be but little done; the earth is full of water and with the present rain must continue for some time longer, which makes it bad for prospecting.

I am pleased to hear that all doubt as to the richness of the Richardson mine, has vanished by the last raid upon it. While it gains confidence, it also removes the doubts from many a mind as to gold being there at all, many having believed the mine played out.

Still, however, in this law-abiding country, that the parties who made the raid are highly culpable. Yours, &c.,

BILLA FLINT.

May 6th, 1867.

FROM TWEED.

From our own Correspondent.

Gold not all in Madoc—Stages—How gold may be obtained—Gold at Downey's Rapids—Powell at work—More Gold—New Shaft—Taxation—Cheese Factory.

TWEED, May 6, 1867.

Although the land in this part of the country does not lie exactly in the range of the Richardson Mine, yet many farmers and others are working on the belief that all the gold was not placed in that one spot, and finding that their land abounds in quartz veins, are digging with right good will, and in the business of the village it has already created a decided improvement. The mail line of stages, formerly run by sun-shine and his shadow, has been superseded by a first-class four horse line of stages. We have also a first-class line of stages running from the Village to Belleville daily, and also an accommodation line. The greater part of the gold-seekers were amateurs at the business, and imagined that gold was to be found in abundance lying on the top of the ground, and chunks of the metal of less than a pound were to be discarded by all except the poorer class of miners; so when they found that gold was to be obtained only by hard digging, backed up by perseverance most of the gold-seekers were discouraged and gave the thing up in disgust, but since gold has been found in this immediate neighborhood the thing has received a fresh impetus.

A quantity of sand was brought to the village Saturday, said to have been taken from a claim near Downey's Rapids, about 5 miles from the village, and upon its being washed a fine show of gold was the result. The party who brought it in the morning saying that if any person doubted about the gold coming from where he said it did, they might come and examine and satisfy themselves; so much were the people convinced of the party's truthfulness that for the adjoining fifty acres \$5,000 was offered, and as the writer thinks, foolishly refused.

Mr. Powell, of Richardson mine notoriety, began opening the Vandy mine, about two miles distant from the Village, next week. He appears to be sanguine of success, as he says "outside of the Richardson mine, he would rather dig there than any place in the country."

A quantity of gold was shown in the village a few weeks since, said to come from a creek on Lot No. 4, in the 10th concession of Elzevir, on the old Kalarad road.

Messrs. Wright, Shaveran & Co., intend opening on Lot No. 18, in the 11th concession of Hungerford, next week. The old mine has offered \$20,000 for 30th share.

A large number of others are digging in all directions, but I think very few are rewarded as yet anything but good prospects for their labor.

Considerable dissatisfaction is evinced by the farmers in this Township that the taxation should be so much in advance of what it has been, and the Court of Revision, which lasted year, and the Court of Revision, which lasted

for two days, was beset by a large number of clamorous applicants for low taxation.

The farmers through this part of the country have just begun to find out that they have a gold mine on all of their farms, in the shape of cows, if they only use them to advantage. Stimulated by the high price of Factory Cheese, and also by the success of similar undertakings during the last year, they are erecting a Cheese Factory near the Village, and Mr. Jamieson informs me that they expect to manufacture the milk of three hundred cows. We wish such enterprises succeed, and feel convinced that in less than five years Cheese Factories will be as thick as school houses throughout the country. What it has done for farms in New York State it will do for us; and there we find farms that average but seven bushels of wheat to the acre, when used as dairy farms bring from one to two hundred dollars an acre, and ready sale at that.

SPECIAL TELEGRAMS.

FROM OTTAWA.

OTTAWA, May 7th.—It is understood that the Hon. Messrs. Campbell and Cockburn will arrive in town this evening.

Brough or Preppy the American burglar, arrested a short time ago, was tried on three indictments before the assize court yesterday and found guilty on all. Sentence not yet passed on him. His accomplice, Sinnott, who broke jail last week is said to have got safe off to the States.

Yesterday morning, a respectfully dressed man tried to commit suicide by jumping off the Queen's wharf; he was rescued by some boatmen who happened to be present.

The weather continues rainy. Agricultural operations in this section are in a very backward condition.

FROM MONTREAL.

MONTREAL, May 7th.

A Cabinet Council is to be held at Ottawa on Friday, at which all the Ministers in the country will be present. It is expected Mr. Cartier will have arrived in time by the *Natierian*, which passed Father Point yesterday.

It is believed that Mr. McDougall will be the leader of the Reform section of the government from Upper Canada.

Engineer officers have arrived at Long-ridge and have commenced preliminary operations in regard to fortifications.

A considerable quantity of war material is ordered to be sent to the city.

New Brunswick journals announced that the Hon. J. Rose will be Lieut.-Governor of that Province, and that a gentleman of New Brunswick will be Lieut.-Governor of Ontario.

The water in the harbor is still very high and it has rained constantly since Saturday.

Ten vessels with provisions and general cargoes, have sailed for St. Johns, Newfoundland, and Harbour Grace.

LONDON REFORM MEETING.

New York, May 7.—The *Herold's* special dated London, (evening), May 6th, says:—The Reform Demonstration in Hyde Park, to-day, was an immense affair. It numbered at least 100,000, embracing roughs, gentlemen, women, children and working men. Sir Robert Walpole's Proclamation, "that the assembly was illegal," was posted around in every available spot, but proved utterly abortive.

The morning papers had announced that the Government would not attempt to put down the meeting, but all the troops in London and vicinity were under arms, and a large force of Police was concealed in a secluded part of the park, and vehicles were kept ready to convey them to any point in case of need.

Fifteen reported meetings were organized all at once, at one of which a woman spoke in favor of female suffrage. One stand was devoted to offensive speakers. Most of the revolutionary sentiments uttered by the speakers were loudly cheered.

As the Police passed by the crowd, the Reformers endeavored order and carried out that idea by driving off the trees in the park the roughs who had perched in their branches.

The entire press denounces the course of the Government.

The Tories treat the meetings as a mob victory, while the reformers claim them as a splendid popular triumph. The bitterest feeling exists on both sides, and London is intensely excited. Some of the meetings are still in progress, and will continue until a late hour.

POLICE COURT.

ASSAULT.

David Pringle charged Oliver Walsh with an assault, but withdrew his complaint on payment of costs.

AGGRAVATED ASSAULT.

Michael Mullins on bail from Saturday, appeared to answer to the charge preferred against him by Morris Moorman, whose face presented the various hues of the rainbow, an ugly gash over the eyebrow and one hand bandaged. Dr. Dorland proved to the extent of the injuries, none of which were dangerous. The case was fully proved and the prisoner was fined \$5, which he paid and was discharged. Mr. Douglas appeared for the prosecutor and Mr. Dickson for the defence.

In the case of Young against the same person, he was fined \$5 and costs.

HORSE STEALING.

A man giving the name of J. Warner, hired a valuable horse, silver mounted harness and buggy in Kingston, on the 4th inst., from the firm of Wilson, Davis, & Co., he conveyed them to the 6th con of Sidney, and sold them to a farmer there for \$50, receiving \$10 as part payment, with which he encamped to Madoc. Capt. James is off after him and we hope to report his arrest in our next report.

—A prolific new gold field is said to have been discovered in Australia.

—The Legislature of New Brunswick met on the 1st of May.

—The Mexican Empire is at an end, and Maximilian is reported to be captured.

—A revised edition of the "Queen's Regulations," in which several important modifications will be made, will be promulgated about the 1st of May. A new "Field Exercise" will also appear about the same time.

—A Kingston paper states that several cases of desecration have recently occurred from the gunboats lying in the harbor. More stringent measures have been taken to prevent a recurrence of such unseemly conduct on the part of the soldiers.

Too LATE REGRETS.—The moment a friend, or even a mere acquaintance, is dead, how surely there starts up before us ideal instances of unkindness of which we are guilty towards him. In fact, many and many an act or word which, while he was in life, did not seem to us to be unkind at all, now "bites back" as if it was a serpent, and shows us what it really was. Alas! 'twas thus we caused to suffer him who now is dust, and yet we did not pity or reproach ourselves.

There is always a bitterness beyond that of death in the dying of a fellow-creature to whom we have been unjust and unkind.

SPECIAL NOTICE.

PERRY DAVIS' VEGETABLE PAIN KILLER.—We ask the attention of the public to this long tested and successful Family Medicine.

It has been favorably known for more than thirty years during which time we have received thousands of testimonials, showing this medicine to be an almost never-failing remedy for diseases caused by, or attendant upon,

Sudden Colds, Coughs, Fever and Ague, Headache, Biliousness, Pains in the Side, Back and Limbs, as well as in the Joints and Limbs; Nausea and Rheumatic Pain in any part of the system. Toothache and Pains in the Head and Face.

As a Blood Purifier and Tonic for the Stomach it seldom fails to cure Dyspepsia, Indigestion, Liver Complaints, and Stomachic, Heartburn, Kidney Complaints, Sick Headache, Piles, Anemia, Pains in the Stomach, Brain, Faints, Windcolic, Old Sores, Swelled Joints and General Debility of the System.

It is a prompt and sure Remedy for Cramp and Pain in the Stomach, Painters' Colic, Diarrhoea, Dysentery, Summer Complaint, Cholera Morbus, Cholera Infantum, Scalds, Burns, Sprains, Bruises, Frost Bites, Chills as well as the Stings of Insects, Scorpions, Centipedes, and the Bites of Poisonous Insects and Venomous Reptiles.

Two Free Directions accompanying each bottle. It has been tested in every variety of climate and by almost every nation, and is the most constant, comfortable and inimitable friend of the Missionary and the Traveller, on sea and land, and no one should travel on our lakes and rivers without it. Price, 15 cts. 50 cts. 50 cts. per Bottle. PERRY DAVIS & SONS, Manufacturers and Proprietors, 200 St. Paul Street, Montreal, C. E.

April 20th 1887.

QUEEN

INSURANCE COMPANY

CAPITAL, - - - \$10,000,000.

FIRE AND LIFE.

LIFE DEPARTMENT.

THE principles on which this Company is

formed contain all the elements required

to develop the benefits of Life Assurance, and

afford every facility to intending assurers.—

One of the advantages secured by those who

insure their lives with this Company is that

their entire expenditure for Management is

absolutely restricted by the Deed of Settlement

to Ten per Cent. of the Net Life Income. This most important restriction

tends to the interests of participating policy

holders and closely watches and carefully

attended to by the Company. Attention is

especially called to this point, as the proportion

of premiums expended for Management

Must Largely Influence Profits and Bonuses.

The next division of profits takes place in

1888, and all those who wish to participate in

the profits should insure at once.

M. BOWELL,

Intelligencer Office, Agent.

May, 1887.

NEILSON'S HALL.

Howorth & Rathwell's

ORIGINAL TABLEAU

OF THE

LOLY LAND,

will be exhibited in this town for

TWO NIGHTS ONLY,

Wednesday & Thursday, May 8 & 9.

PATRONISED by the elite and fashion in

every city and town, which it has

been exhibited. The monster exhibition of

the world. The only complete and perfect

representation of the Holy Land in existence.

Proclaimed everywhere by the press and

public to be the No Plus Ultra of exhibi-

tions. Now on one of the most interesting

tours ever known in the history of exhibi-

tions. Overwhelming audiences. All rivalry

at a discount. The people crowd on mass

to the Great Tableaux. The Halls not large

enough to contain all who desire to attend

the entertainment. A new era—Present

given away nightly.

Howorth & Rathwell's stupendous tableaux

will certainly open at the time and place an-

nounced. Read their advertisements and

notices given by the press of the character

and style of their exhibition. We published

a card in the Toronto Globe against impos-

itors taking the name of the Holy Land.

Doors open at 7 o'clock. Exhibition to

commence at 8. Admission 25 cts. Children

15 cts.

Grand Matinee on WEDNESDAY

at 4 p. m. Children 10 cts. which it has

REMOVAL.
Belleville Temple of Fashion.

T. WALTERS.
Having Removed
his place of busi-
ness to the
VICTORIA BUILDINGS,
begs respectfully to re-
turn thanks for the lib-
eral patronage received
during the past 7 years,
and now having removed
to a more commodi-
ous store, would beg
to call attention to a
much larger and better stock than heretofore.

You will find a good assortment of
TWEEDS, CASSIMERES,
BROADCLOTHS,
Doeskins, Vestings, &c.
Gentlemen's Furnishing Goods.
Also, a cheap assortment of
READY-MADE CLOTHING
constantly on hand.
Orders work promptly attended to—
Please call before purchasing elsewhere.

You will find
My stock is good, my price is just,
I deal quite fair, I desire to trust;
Whoever will may deal with me,
Their humble servant I will be.
Belleville, May 1, 1867. T. WALTERS. 1D-II

EXCELSIOR!
OWING to the press of business in Pho-
tography, and the great demand of
their many friends and customers for the
PORCELAIN PICTURE,
the subscribers have engaged a
Foreign Artist,
especially for that branch of photography.
Feeling assured that he can excel any
thing of the kind, they cordially invite
all who wish something far surpassing any-
thing they have yet seen, to give them a call.

Cheap Railways.

In a new and undeveloped country, where
money bears a high, or comparatively high
rate of interest, it will generally be found
advantageous to make improvements, such
as the building of railways for instance, in
an economical manner as is consistent with
a fair degree of permanence. If a railway
be built through an unsettled tract of land
at a cost which necessitates delay in con-
structing, and subsequent high rates of
freight, the opening up and cultivation of
that land, though rendered more easy than
if there were no means of communication
are still retarded, as compared with what
would have taken place had the railway
been earlier built and its charges been more
moderate. Under such circumstances, it
will be found better to construct a narrow
gauge, light rail road, rather than a broad
gauge road with rails of Bessemer steel.

The rolling stock, also, should not be of
the most expensive kind, on the contrary,
of the most economical, but so long as it does
not fall below the point of unserviceable-
ness. Before the cheap road shall have
worn out, it will probably have earned
money enough to gradually re-lay it in a
more permanent manner, and settlers will
have been attracted to the country, which
previously had been almost valueless, but
which, by being brought within reach of a
market, have become highly profitable to
their cultivators.

Mr. G. Laidlaw, of Toronto, has published
as a pamphlet a letter addressed by him
to the people of the Counties of Bruce and
Grey, showing the advantages, practicability
and cost of a cheap railway through those
counties; and in so far as he confines him-
self to his text, we think his proofs and ar-
guments are, for the most part, incontroverti-
ble. From the testimony of the various
engineers, including Mr. Fitzgibbon, Chief
Engineer to the Government of Queensland,
Australia; J. E. Boyd, New Brunswick;
C. Phil, Chief Engineer of the Norwegian
Government railways, and the English firm
of Sir Charles Fox & Son, it would appear
that the first cost of a narrow gauge road,
say 3 ft. 6 in. gauge, is fifty per cent. less
than one of a 4 ft. 6 in. gauge, the gain
being made on every single item almost, in
the construction of the road; in earth,
masonry, rails, chains, engines, rolling stock,
&c. A narrow road can also be built with
sharper curves, and can, therefore be adapt-
ed more readily to the country through
which it is to run. And although a high
rate of speed may not safely be reached
on this style of road, still a uniform speed
of 15 or 20 miles per hour can very well be
maintained. On this point, however, Mr.
C. Phil is of opinion that, were it necessary,
there would be no danger in running at a
much greater speed. He says he has run an
engine at "upwards of forty miles an hour
with as much feeling of ease and security
as I have felt when running any engine on
a broader gauge." It would also seem that,
should the traffic of the road increase so
much as to exceed its carrying capabilities,
it would still be no more costly to build a
second line on the cheap principle in addition
to the one already laid, than it would have
been to have built a broad gauge road in
the first place.

In portraying the advantages to be
gained from a railway, Mr. Laidlaw espe-
cially insists on the immense profit to be
derived from the shipping of cordwood to
Toronto and a market, instead of farmers
being obliged to spend much time and
money in clearing their land and destroy-
ing the cordwood, and then hauling it to
no doubt that even a small profit per cord
on fuel sent to Toronto and there sold would
further up to be a very large total in favor
of that section of the country through which
the railway is intended to pass.

We should be glad to see this railway in
course of construction; and we have no
doubt that if the cheap system be proved to
be as well adapted to this country as it
has been in India, Australia, Norway and
Sweden, it will be introduced generally
throughout the rich and undeveloped sec-
tions of the Province, whose progress would
be thereby stimulated and increased in a
ratio equal to that of Canada at large under
the benefits derived from the great but ex-
pensive railways in existence.—*Montreal
Trade Review.*

—Her Majesty's screw corvette, *Wharfedale*, 21
guns, which left Halifax on the 20th ult., arrived
in Quebec on the 6th inst.

—The French crown diamonds are shown in
the Paris Exhibition; the case in which they
are placed being lowered in the ground every
night.

—The Queen proceeds to Balmoral on the 20th
May, and preparations are being made for her
residence during the summer months at her
highland home.

—The *Journal de Bruxelles* attributes the fol-
lowing words to Marshal Niel, Minister of War:
"Let me know the day when the Emperor Na-
poleon wishes to have five hundred thousand
men on the eastern frontier, and they shall be
there."

—Ida Lewis, daughter of the keeper of a light-
house at Lime Rock, R. I., is a second Grace
Darling. On Sunday last she rowed out for
several miles and rescued a man who for hours
had been lying upon the rocks wet from the
storm and exhausted in body, his hands were
capitulated and there being no means of escape
possible. The brave girl took up the half-in-
fante body, placed it in her arms, and pulled
across the harbor to Newport. The Providence
press says this is the fifth instance in which this
intrepid young woman has rendered valuable as-
sistance to persons in peril of a watery grave.

Daily Intelligencer.

BELLEVILLE, WEDNESDAY, MAY 8.

TELEGRAPHIC NEWS!

BY ATLANTIC CABLE.

*LONDON, May 8, 2 p. m.—The Conference of the Great Powers adjourned till to-morrow.

LONDON, May 8, noon—Consols, 91½; 1 C, 75½; Erie, 41; Bonds, 71½.

LIVERPOOL, May 8, noon—Cotton easier uplands 11d to 11½; do Orleans 11½; Breadstuffs firm: Red wheat 13s 9d; Corn 48s to 48½; Provisions quiet; Pork 77½; Lard 43s 9d; advanced to 52s. Produce generally unchanged. Petroleum has declined to 1d to 1½. Other articles unchanged.

Money quiet; Consols 91½; Bonds 71; Erie 40½; 1 C 73.

LIVERPOOL, 2 p. m.—Cotton declined. Since noon market dull, uplands 10½ to 11. Other articles unaltered.

AMERICAN DESPATCHES.

HURRICANE.

NEW ORLEANS, May 7.—In the hurricane on Sunday the Mississippi burst the banks below the City, destroying telegraph poles and property for a considerable distance. The extent of damages is not known.

MINING STOCK.

SAN FRANCISCO, May 7.—Not for three years past has the Mining Stock Market been so active, and prices unchanged. Wheat dull.

RECONSTRUCTION.

FORTRESS MONROE, May 7.—The most gratifying reports have been received from registration districts of this State south of the James River, which furnish conclusive evidence of the conciliatory manner in which the inhabitants are receiving the registering officers, and assisting them in the preliminary measures of the Reconstruction Bill. The utmost good feeling exists towards the colored people now that the question of their suffrage is settled. The capitalists and land owners are beginning to see the prime virtue of creating modes of employment, and are offering them lands on favorable terms and furnishing them with agricultural implements and materials.

SPECIAL TELEGRAMS.

FROM TORONTO.

MAY 8th.
A despatch from London says that a series of burglaries have been committed there.

A new oil well has been struck in Ennis, Killen, at a depth of 640 feet.

FROM OTTAWA.

OTTAWA, May 8.

The Queen's Proclamation creating the Dominion of Canada, and appointing members of Senate, will be issued in about three weeks, and the Act will take effect the first week in July, when Lord Monck will be sworn in as the first Viceroy or Governor General; then will follow the appointment of Privy Counsellors and Lieutenant Governors, and the general organization of Departments of the Confederate and Local Governments. Election can hardly take place before August or September.

FROM MONTREAL.

Steamer *Ureica* struck a rock in Lachine Rapids—fills with water—No lives lost.

MONTREAL, May 8th.

The steamer *Ureica* struck a rock while shooting the Lachine Rapids yesterday, and began to fill rapidly. They then ran her upon a sandbank. Her main deck is above water. It is supposed she will be in running order in about ten days. No lives lost. A steamer was despatched for the passengers this morning.

BUSINESS EDUCATION.—We observe by the *Globe* that Mr. Geo. Walbridge, of this town, a graduate of Bryant, Stratton & Otis's Commercial College, Toronto, has been appointed Assistant Teacher in that Institution.

THE HOLY LAND.—Our readers will remember that Howarth & Rathwell's original tableaux of the Holy Land, will be exhibited for the first time, to-night, in Nelson's Hall. It is highly spoken of by the press in those places where it has been on exhibition, and is well worthy seeing.

MR. PEABODY.—It is said that Mr. Peabody intends to exhibit the portrait with which he was recently presented by Queen Victoria, in the States and Canada, and that the proceeds shall be devoted to the Southern Relief Fund and some local charity. It is said to have cost \$75,000, and is the finest enamel portrait ever taken.

MORIA FIRE COMPANY, No. 1.—At the annual meeting of this company, the old officers composed of the following gentlemen were re-elected:—J. R. Mason, Captain; N. C. Co. Virg. Selden, 1st Lieutenant; Clark Edwards, 2nd Lieutenant; John Walker, Secretary; Jacob Ashley, Treasurer; Richard Clark, Foreman; Branch; Lewis Pasco, Foreman Suction Hose; James Blacklock, Esq., is Chief Engineer, and Wm. Davis, Esq., Assistant Engineer.

Grand Trunk Railway.

From the Annual Report of the Managing Director of the Grand Trunk Railway, submitted to the London meeting, we gather the following interesting information. Last year's traffic shows that the Company earned the largest amount of gross traffic ever carried on the line, disturbed as its operations were by Fenian attacks and the abrogation of the Reciprocity Treaty, and confined as it was by the limited quantity of the rolling stock. The year's traffic was in gross £1,356,795, an average of £26,092 a week. With additional rolling stock, the weekly average might have been much greater. For the want of this rolling stock the Company has been obliged to refuse large quantities of "goods traffic," offered by the American lines terminating at Detroit and Sarnia.

To show the increase which has taken place during the last five years, the earnings of the present mileage in 1861 were £17,700 per week; in 1866 £26,092, equal to an increase of 47½ per cent. In the last five years, the Company have only been able to add the following new equipments to its rolling stock, viz:

Engines	31
Passenger coaches	30
Goods waggons	299
Timber	60

The traffic increased 47½ per cent., the expenses increased about 12 per cent., and the percentage at which the traffic was worked was reduced from 79 per cent. to 60 per cent. of the gross receipts. It would seem from these figures that the outlay during the last five years for additional rolling stock has produced a very large increased amount of annual gross traffic. A smaller increased traffic has been carried at a smaller percentage of working cost, proving that additional traffic produces an enlarged proportion of net profit. Mr. Brydges refers to the change in the position of the Railway which the Imperial Legislation has brought about within the last few weeks, and says now the company will have to set to work to enlarge the carrying capacity and to strengthen and improve the road, so as to establish it as the main route between Europe and the West. He further says he "has not the slightest hesitation in recording his conviction of the certainty that an outlay of £200,000 within the next two years for additional plant would produce a "twice equally beneficial result as regards both gross traffic and net profit, as has been the case with the increased plant put upon the line between 1862 and 1866."

If this rolling stock is procured, Mr. Brydges estimates that it would produce an annual income of £1,664,000, and taking the ordinary expenses at a rate, with such a gross traffic, as high as 55 per cent., would yield a net profit of £748,800.

The report enters at some length into the operations of American Railroad Companies, showing that their working expenses were much heavier than those of the Grand Trunk.

Mr. Brydges considers that to properly maintain the 1,377 miles of railway now worked by the Grand Trunk Company it will require an outlay annually of £125,000, prices of labor and material in the United States to remain at their present rate.

Respecting the quality of rails, Mr. Brydges says: "Experience has proved, both in England and America, that whilst iron rails of the best description will only last from seven to nine years, steel rails will last at least six or seven times as long, in addition to the much diminished risk from breakage, which is so serious in a severely cold climate like ours. It would most unquestionably be very greatly to the advantage of the company in respect to the cost of working our traffic if future renewals were done with steel instead of iron rails—the difference in the cost of the two being charged to capital."

The report closes with the following suggestion:—It seems unfair to burden a revenue—kept down by the want of sufficient plant to develop itself and depleted by the temporary derangement of a currency in which a part of its daily earnings are of necessity received—with an outlay of renewals greater than they should be for the circumstances already mentioned. The suggestion, therefore, that an amount somewhat equivalent to the yet unexpended extent of the original deficiency in the outlay for the construction of the line should be applied to the relief of the present heavy expenditure for renewals, seems to be a simple act of equity to the bond holders. If it is combined with a general scheme for supplying the company with sufficient plant to enable it to earn an amount of net revenue which will gradually put in end, by the paying of cash dividends, to the present addition to the nominal capital of the company by the issue of certificates for interest which is not earned.

A man, unknown, was killed near Colongue, on Monday morning, by a freight train running over him. His head and one arm were cut off. Mr. Goring has accepted a reparation to be a candidate for both Houses of the Legislature, for the city of London.

The Queen's Birthday.

Preparations are being made throughout the Province to do honor to the birthday of our beloved Sovereign, and judging from the announcements we see in the papers, it is likely to be celebrated with more than usual enthusiasm. In Belleville the day will be right royally honored. The programme of the day's proceedings has not yet been made public, but as it will be seen by an advertisement, arrangements have been made to wind up the day's amusement with a grand torch-light and masquerade procession. Julien's Tin Band has increased the number and size of some of its instruments, and it will no doubt form an interesting feature in the procession. The programme of the day's proceedings, embracing the civil, and military display, will be published in a few days.

Mining Intelligence.

Our correspondents from Madoc, Bridge-water and Marmora have kept our readers fully advised of all that is transpiring in the gold region. Their reports of discoveries outside of the Richardson mine are encouraging, and will stimulate miners and others to prosecute operations with greater energy. There has been so much rain and the season has been so backward, that but very little real mining has been done as yet. But with so many Companies and Capitalists in the field, we must naturally expect fresh developments before long.

In addition to what our correspondents furnish, we may state that Mr. M. J. Ellerbe brought us to-day some fine specimens of gold which he said he had washed from the sand in the creek at Lower Eldorado. He also says that gold in small quantities is continually being found in the same creek. He exhibited a piece of quartz in which there was a good show of gold, which came from Lot 24 in the 5th Concession of Marmora.

Mr. John R. Mason brought to this office to-day a fine specimen of lead ore which came from Lot 7 in the 6th Concession of Madoc. He said it had been assayed and yielded ten per cent. of silver and 60 per cent. of lead. Outcroppings specimens of this valuable mineral may be seen at the Anglo-American and at the Dafe House.

Since yesterday's report nothing further has transpired with respect to the Richardson mine: nor no further progress has been made in the negotiations between the rival claimants. A special messenger was sent to Rochester last evening by the Belleville Company to look after its interests.

NEWS FROM MADOC.

From our own Correspondent.

Gold at Downey's Rapids—Quartz Mill—Mining Act—Tavern Licenses—The Four Barrels—Another Discovery.

MADOC, May 7, 1867.
Mr. Grant, the miner I alluded to last week in connection with the discovery of gold at Downey's Rapids, says that he has carefully examined the vein of quartz in the shaft sunk, and is fully satisfied that the quartz is sufficiently fine to pay for crushing. He states further that there is no need of any fears as to the genuineness of the discovery, for he has tested it carefully, and there is no humbug in the report of gold being found there in the quartz.

As soon as the Quartz Mill of Messrs. Turley & Gilbert, which is on its way here is set up and at work, no doubt the quartz will be pretty fairly tested all over the Township, and experienced miners predict with fair prospects of success.

Farmers are complaining of the wet weather, and so are miners. In fact the whole community are looking forward with anxiety to settled fair weather.

There is a strange feeling against paying for Licenses to prospect, as they term mining, until gold is found. I suppose it is like paying taxes at which every true Briton is supposed to grumble right or wrong. It will take some time however for people to get used to the working of the Act, especially the Tavern Licenses.

The removing of the quartz from the "Richardson Mine" in barrels is no doubt true. Madame Rumor says it was barreled on Sunday night, taken out of the mine, and secreted in the neighborhood, where it remained until Tuesday night. It was then put aboard a wagon and taken by the way of Marmora to Stirling; this occupied two nights and from Stirling via Trenton to Brighton, where it was shipped on board the *Coronation* directed to Coburn & Co.

A beautiful specimen of gold was exhibited here last night by a party who states that it was taken from another part of Madoc than the Richardson mine, and says the quartz is quite as rich as the specimen, he will make the place public so soon as he has secured his title, &c. The sooner the better if the story is true.

GRANT.

The harbor at Buffalo is not yet open for navigation.

The precautions adopted in Prussia to prevent the introduction of the cattle disease are so minute that calves of carrier pigeons are not allowed to cross the frontier to leave the country, from the fear that in returning home they may bring the infection with them.

FROM BRIDGEWATER.

From our own Correspondent.

Drive to Bridgewater.—The Village—Hotels and strange Bedfellows—Church—Gravel—The Precious Metal—Indications Auriferous—Gold found in different places—Strangers arriving—Silver—A Mining Company.

BRIDGEWATER, May 6, 1867.

A drive to Bridgewater is very pleasant, if the weather proves fine; but the day I chose for my departure from your town was anything but a pleasant one—it rained all day; but having travelled the road before when the weather was beautiful, I was still able to a certain extent to appreciate the scenery along the road, that is to say as much as I could see of it, the stage between Belleville and Bridgewater (by which I made my journey) being a covered vehicle, which prevents you seeing a very great deal of the surrounding country, unless you sit alongside the driver, a position not to be desired on a wet day. But still I appreciated the covered conveyance of the day I performed my pilgrimage, as it kept me dry, and I did not arrive here dripping wet, with much anxiety of mind respecting future rheumatic pains and such other "ills the flesh is heir to," and which a man so much dreads when he is away from home comforts.

A stranger arriving here, no matter whether he enters the village from the East, West, North or South, or any of the minor points of the compass, cannot fail to be struck with the general neatness of the place, the beautiful Church built of marble, which stands on a hill and is quite an ornament to the village, and the air of respectability about the inhabitants in general.

Having arrived at Bridgewater the stage stops at the Hotel, which is a very commodious one, where (after having given it a trial) I must say that you meet with every accommodation of the most comfortable kind. The stage is a fine affair, a fact which surprised me not a little, considering the size of the place, and also calling up sundry remembrances of village hotels—and town hotels, too, I may say—with ill cooked victuals, small attendance, and smaller bedfellows, who paid nothing for their bed and took their board out of me, rendering sleep next to impossible. But here I was glad to find things different; there was every accommodation and all the comforts that can be found at any Hotel in Town. The house, though a large one, is well filled with guests daily, and I may add nightly; but a vast addition is being made to it which is rapidly approaching completion, which "mine host" informed me, when his house was full would enable him to count his lodgers by hundreds.

The Church is the next thing I must dwell upon. The inhabitants are justly proud of their Church, and any one wishing to go in on a week-day can do so. The interior is much after the same style as the Wesleyan Methodist Church in Belleville, and the congregation must, I imagine, be a spirited, go-ahead sort of a congregation, for I noticed a Melodion and sundry music books, which showed that they had a choir, and were doing the thing it ought to be done.

The Church was built by general subscription, to which the Hon. B. Flint, the proprietor of the place, was a large contributor.

There is a large Grist Mill with excellent water power, and I was told how many run of stones there is, but that not being the particular kind of stone you wish me to report upon, I have not paid the attention to it I ought to have done, but I know it struck me as being a good number.—Higher up the stream there is a Saw Mill in full operation, which, till lately, was running night and day; also a Scythe manufactory, conducted by Mr. Robinson, and a Hammer manufactory, the proprietor of which—Mr. Warren—was, I believe, once a Townsman of yours. In addition to this there is a Tannery and Carding Mill, also several houses in course of erection. In fact the first time I visited this place is hardly two years since, and I am surprised when I look around me and see the many improvements which have taken place since then.

But I presume the bulk of your readers wish for information respecting the precious metal more than a description of the place itself. Well, I will give them all the information I have obtained so far, merely stating by way of preface that I wish to proceed with caution in the performance of my duties as your correspondent, so that after I have announced a certain statement as a fact, I may not be reduced to the painful necessity of admitting that I have been hoaxed.

The indications all round here are decidedly auriferous, and what is better the real article itself, that is gold, has been found in sufficient quantities to encourage the miners to keep on with their work, and encouraging it certainly is, for you must bear in mind, that where they have been digging elsewhere, they had got to some depth before they discovered the precious metal at all. Here it has been found a few feet from the surface, and in one instance I am told, on the very surface. That there are really some encouraging indications about here, may be gathered from the fact of the number of strangers arriving daily, not idle adventurers, but serious looking men with knitted brows and pursed lips, looking like men of affairs, and who go one spot to another in search of their heart's desire. They can be seen any day discussing the peculiar merits of pieces of quartz though what the result of the discussion is, they generally keep to themselves; but judging from appearances and all I hear I think they are pretty well satisfied that

there is gold here in paying quantities.—I have only been able to visit one mine yet myself, but from all I saw there, I believe I am justified in stating that there is every prospect of ultimate success, and I know a fact, that gold has already been found there in two instances. On another occasion, I saw a man with a bag on his shoulder, the external appearance of which looked so like quartz in the interior that I took the liberty of following him to a person in the village, who is I am informed a Geologist, and well versed in these matters. I inquired about picking up some of the conversation and opinion of the Geologist as I could, and found that in this case there was a decided opinion of this sample containing silver; but the carrier of the mineral did not feel inclined to divulge the whereabouts of the article in question. Of course, I hear every owner of land say he is satisfied there is gold on his lot, and making allowances for that hopeful disposition inherent in man, I am bound to say that the prospects here are most encouraging to the gold seeker, and we should no doubt have had good results before this if the weather had permitted, but rain has interfered very much with mining. I hope in my next visit to give a further account of the operations of the miners, also, the result. I may add before I close, that a rumour has reached me, that some of the villagers have formed themselves into a mining company, have bought a lot, or are about buying one with the intention of working it themselves, with what results it will be my duty to inform you hereafter. People who are prospecting miles back of this, I am told, very good results.

POLICE COURT.

ASSAULT.

James McCutty of the 1st con. Thurlow, charged James F. Sager of the same place with committing an assault upon him, aided and abetted by Edward Long. The charge against Long was dismissed, but that against Sager was fully proved. Fined \$25 including costs which was paid and the case terminated.

HORSE STEALING.

The Chief of Police accompanied by Mr. Wilson of Kingston, proceeded to the 6th con. Sidney on Monday evening, and recovered the horse, buggy, and harness, stolen from the latter on Saturday morning; they then proceeded to Madoc, and thence to Eldorado, but could obtain no clue to the robber's location; he slept in the house of Mr. Dale, Sidney, on Saturday night, and was driven next morning to Wallbridge's Mills on his way, as he stated, to Madoc, but he must have taken another route, and Capt. James was reluctantly compelled to return.

If the farmers and others would afford assistance and information to the Police, instead of facilitating offenders to escape, their own property would be better secured from strange characters that are every day arriving in this midst.

SPECIAL NOTICE.

PERRY DAVIS' VEGETABLE PAIN-KILLER.—We ask the attention of the public to this long tested and unrivalled Family Medicine. It has been known for upwards of thirty years during which time we have received thousands of testimonials, showing this medicine to be almost never-failing remedy for diseases caused by, or attended by, Sudden Colds, Coughs, Fever and Ague, Headache, Bilious fever, Pains in the Side, Back and Loins, as well as in the joints, and all the numerous kinds of Rheumatic Pains in any part of the system. Toothache and Pains in the Head and Face.

It is a Blood Purifier and Tonic for the Stomach, it seldom fails to cure Dyspepsia, Indigestion, Liver Complaints, Acid Stomach, and Pains for the Stomach, Sickness, Headache, Piles, Asthma, Phthisis, Rhegms, Boils, Pimples, Warts, Old Sores, Swelled Joints, and General Debility of the System.

It is also a prompt and sure Remedy for Cramp and Pain in the Stomach, Pains in the Head, Pains in the Chest, Pains in the Back, Pains in the Limbs, Cholera Infantum, Cholera Morbus, Cholera, Scalds, Burns, Bruises, Sprains, Frost Bites, Cuts, and all the various kinds of Pains, Swellings, and Ulcers, and the Bites of Poisonous Insects and Venomous Reptiles.

See Directions accompanying each bottle. It has been tested in every variety of climate and by almost every nation known to America. It is the most constant and powerful and inimitable friend of the Mother and the Nurse, and is so well adapted to use should travel on our lakes and rivers without it.

Price 60 cts. per bottle. Sold by all Druggists and Grocers. PERRY DAVIS & SON, Manufacturers and Proprietors, 280 St. Paul Street, Montreal, C. E.

April 10, 1867. 106m-1156m

Testimonials to Mr. Walden.

We take great pleasure in recommending Mr. J. E. Walden to the public, as he comes so well recommended from his long and successful career. He is a native of Vermont, and has been in the service of the Government for many years. He is a man of high character, and his services to the country are well known. He is a man of high character, and his services to the country are well known.

This is to certify that I have suffered from Rheumatism in my right shoulder, and that I have been cured by the use of Mr. J. E. Walden's Medicine. I have been cured of my Rheumatism, and I am now able to do my work. I have been cured of my Rheumatism, and I am now able to do my work.

WEST HALF OF LOT NO. 17, In the 9th Concession, GOLD REGIONS OF MADOC! FOR SALE BY PUBLIC AUCTION.

To all whom it may Concern.

AUDIT OFFICE,
OTTAWA, Feb. 19, 1867.

COMPLAINT having been made that certain

Fire Insurance Companies

Not incorporated by any statute of this Province, have not published the statement of

Assets and liabilities.

Amount of capital stock.

Amount paid thereon.

Nature of assets.

Amount of losses.

due and unpaid.

adjusted and not due.

in suspense and waiting for final

audit.

tested, and for what cause.

Amount of all other claims against the

company.

Amount of premiums earned and unearned

during the past year.

The whole as required by the Act 2d Vic.

cap. 30, sec. 11.

Notice is hereby given, that Insurance

Companies not complying with the said Act

are liable to the

PENALTY OF \$1,000.

For each default, as provided in the said Act.

JOHN SIMPSON, Assistant Auditor.

March 7, 1867.

GODEY'S LADY'S BOOK

For 1867

The Fashion Magazine of the World

LITERATURE, Fine Arts, and Fashions.

The most magnificent Steel engravings.

Double Fashion Plates. Wood engravings

of every subject that can interest ladies.

Crochet knitting, Netting, Embroidery. Ar-

ticles for the Toilet, for the Parlor, the Boud-

oir, and the Kitchen. Everything, in fact,

to make a complete Lady's Book.

THE LADIES' FAVORITE FOR 37 YEARS.

No Magazine has been able to compete with

it. None attempt it.

GODEY'S RECEIPTS

For every department of a household. They

alone are worth the price of the Book.

Model Cottages (no other Magazine gives

them), with diagrams.

Drawing Lessons for the young. Another

specialty with Godey.

Original Music, worth \$3 a year. Other

Magazines publish old worn out music; but

the subscribers to Godey get the best music

stores.

Gardening for Ladies. Another peculiarity

with Godey.

Fashions from Messrs. A. T. Stewart & Co.,

of New York, the only merchants, who ap-

pear in Godey, the only Magazine that has

them.

Ladies' Bonnets. We give more of them

in a year than any other Magazine. In fact,

the Lady's Book enables every lady to be her

own bonnet maker.

MARION HARLAND, Authoress of

"Auntie," "Hidden Path," "Moss Side," "Ne-

mes," and "Mittan," writes for Godey each

month, and for no other Magazine. A new

novel by her will be published in 1867. We

have also retained all our old and favorite

contributors.

TERMS OF

GODEY'S LADY'S BOOK FOR 1867.

(From which there can be no deviation.)

The following are the terms of the Lady's

Book for 1867.

One copy, one year, \$3 00

Two copies, one year, 5 50

Three copies, one year, 7 50

Four copies, one year, 9 00

Five copies, one year, and an extra

copy to the person sending the club,

making six copies, 14 00

Eight copies, one year, and an extra

copy to the person sending the club,

making nine copies, 21 00

Eleven copies, one year, and an extra

copy to the person sending the club,

making twelve copies, 27 50

All additions to clubs at club rates.

Godey's Lady's Book and Arthur's Home

Magazine will be sent, each one year, on

receipt of \$4 50.

We have no club with any other Magazine

or Newspaper.

The money must all be sent at one time

of any Club.

Canada subscribers must send 34 cents ad-

ditional for each subscriber.

LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERALITY IN THINGS NOT ESSENTIAL—CHARITY IN ALL.

No. 7.

The Valley of the Shadow

I.
There's a stream in a desolate valley,
A stream that is sombre for aye;
No barks on it blithesomely dally,
Nor winds o'er it wantonly play.

Nor winds o'er it wantonly play;
No bird dips a wing in its waters,
Nor tree, save the cypress, a spray.

But a ferryman grim in that valley,
A ferryman grim in that valley,

A ferryman wrinkled and gray,
Rows over the crowds that there rally
Forever, by night and by day—
Rows all of them over the river,
Through thither as fast as they may.

Like pilgrims, down into that valley,
Rogues pass the hills for

From over the hills far away,
By many a pathway and alley,
Awake, incessantly stray
The young and the old, bearing with them
E'en those who have lived but a day.

A mystery hangs o'er that valley,
A shadow of gloom and decay;
No songs echo there musically,

There none are light-hearted and gay
The chill of the grave falls upon them,
As frost on rath blossoms of May.

II.

Above the dark stream in that valley
Float clouds like yarrow phantoms o

Below, the old boatman keeps tally,
And, willing or not, they must go
With him, every soul, o'er the ferry,
And back they may fare nevermore.

Some gladly, 'tis said, reach that valley

Discourse of a glory to come,
And thence, if they could would not save
But others with horror are dumb,
And fain would retreat o'er the mount
But are powerless, motionless, numb
Far off, we have dreams of that valley
Strange dreams, that haunt, ghost-like

When from it a mist, magically—
A vapor mephetic—outrolls,
And the sound of our hearts in their thrall
Seems that of a bell when it tolls.

For ever tend all to that valley
Who breath this still faltering breath;
In vain on the way you may dally,
An inner voice warningly saith;
For the valley is the Valley o' the Shave.

The Queen as a Peacemaker

The Springfield *Republican*, one of the most respectable and influential journals of the United States, says: "The cable has brought the welcome news that the impending war in Europe has been averted, and that the peace of Victoria of England is the peace of the world."

... powers in May, to settle the Luxembourg question on the basis of guaranteed neutrality of the duchy, has been agreed by the parties most interested."

The New York *Commercial Advertiser*, edited by the veteran journalist, T. W. Weed, quotes the above and adds: "Nor is this the first successful effort in the same direction of the good Quaker." It goes on to say that the "thoughtful and

ly interposition, upon the Trent affair, a war between England and America averted. England meant war, and instant preparations for the emergency. The ministers if they did not

took a step which would have precluded war—a step which, by the Queen's position, was so modified as to result in a treaty. The details to which we refer are most interesting, but for the present

fidential. We hope, ere long, to
liberty, by disclosing what came
knowledge, in London, at the criti-
ment, to render just praise to the
tive wisdom and womanly sympathy

“Nor should history be left with materials to make up a truthful record of action and feeling in France and England towards this government during

bellion. Our people, and for a long
our government, trusting to tradi-
collections of amity with France,
collision with England, were misled.
England seemed more unfriendly
France, and while English capital

France, and while English capital
ed vessels to burn our ships and
our commerce, the English govern
jected the repeated offers and efforts
French Emperor to acknowledge the
pendence of the Confederate States

A SENSIBLE GIRL.—A gentleman, having a strong partiality for a young lady whose name was Noyes, was desirous to ascertain her sentiments. For this purpose he took her aside, and said to her, "I have a great regard for you, and I am desirous to know what you think of me."

he said to her one day, with that kind and manner which means either earnest, as you chose to take it—"If to ask you whether you are under monial engagements to any one who of your name (No yes) might I take

answer!"—"The first," said she, in the same tone.—"And were I to ask whether you were inclined to form such an engagement, should a person offer who loved you, and who was not indifferent to yourself, what would you answer?"

of your name might he then take as answer?"—"The last,"—"And if I tell you that I love you, and ask you to form an engagement with me, then what price will your name may I take?"—"Oh, the price of the blushing girl," she replied, and she took the hand of the young man.

Some men keep very savage dogs and

their houses so the hungry poor who
to 'get a bite,' may get it outside the

Daily Intelligencer.

BELLEVILLE, THURSDAY, MAY 9.

TELEGRAPHIC NEWS!

BY ATLANTIC CABLE.
PEACE CONFERENCE.

NEW YORK, May 9.
The Herald's special dated London, May 8th, says: The first session of the Peace Congress after its organization in this city yesterday, was not merely a formal meeting of the Great Powers' representatives as some persons here affirm—but one at which the Luxembourg question was discussed with a view of bringing the difficulty between France and Prussia to a speedy close.

Names of plenipotentiaries: England, Lord Stanley, President. France, Prince de la Tour d'Auvergne; Prussia, Count Bernstorff; Austria, Count Apponyi; Russia, Baron Brunnow; Italy, Marquis de Azzio; Luxembourg, Baron de Tornaco; Belgium, M. Van de Weyer; Netherlands, Baron Bentinck.

The proceedings are to be kept secret till the close of Congress. It is known, however, that France is willing to accept the neutralization of Luxembourg and dismantling and razing the fortress, so it may not remain as a menace. Prussia is not disposed to consent to this unless all the Great Powers now represented in the Congress give a guarantee of the settlement. The giving of this guarantee would bind them to engage in war against the future designs of either France or Prussia seeking aggrandizement in this direction. England hesitates to give such a guarantee; but is rather in favor of the idea of the people of Luxembourg for annexation to Belgium. The guarantee question being discussed, and points at issue and basis of action being defined, the session has adjourned to Thursday, to enable the representatives to have telegraphic communication from their respective Governments. Meantime pending the issue of the deliberation of the Peace Congress, great war preparations are going on both sides, notwithstanding official denials to the contrary.

France is buying arms both in England and Spain, and Prussian troops of regular army are being held in readiness to support the garrison in Luxembourg.
The Herald's special dated Berlin, May 8th, says: Count Bismarck in conversation on the aspect of affairs on Thursday, declared that the situation is now more serious than ever. In addition to the Count's opinion, I may say, that Russia is looking out for her chance of aggrandizement in the East, and Poland by the opportunity of a general war. Muskets are being converted into breech loaders for all the Russian army.

The general opinion on the continent is that the maintenance of peace depends on the action of the London Conference. Fears are entertained that the failure of the representatives there assembled may bring on a general European war, in which each country caring little for the Luxembourg question, or the future position of the people of the grand Duchy, will endeavor to forward their own particular designs by force of arms.

American Despatches.

FEARS OF RIOT.

NEW YORK, May 9.—The Times gives much prominence to the following statement:

"We have received directly from the police authorities of this City, information of recent organizations, which are now in progress for the purpose of resisting by violence and bloodshed, if necessary, the execution and enforcement of the excise laws, which are obnoxious to a large class of our citizens."

FIRE.

MEMPHIS, May 9.—A fire broke out this morning, in the Commercial buildings, Miss Mary Ennis, was fatally injured, and Charles Smith killed. Loss about \$200,000.

WRECK.

SAN FRANCISCO, May 9.—The bark M. B. Scandon, was wrecked on the Columbia River, on May 5th. Boat and Cargo total loss. Vessel valued at \$25,500.

RAILWAY ACCIDENT.

CLEVELAND, May 9.—A collision occurred on the Bellefontaine and Indianapolis Rail Road, near Duff, Ohio, last night between two trains. The two Engineers and one Fireman were killed, and two injured.

DELEWARE RIVER RISEN 24 FEET.

EASTON, Penn. May 9th.—The Delaware River has risen 24 feet, and is now at a stand. The Delaware division of the canal is under water and damage cannot be estimated.

DAILY INTELLIGENCER.

Going Up.

Flour is still going up, and goodness knows where it will stop. It is a long time since bread was as dear on this continent as it is now, and from the state of the market, it will likely be dearer before it is cheaper. The spectacle of taking "coals to Newcastle" is seen in the importation of wheat from Liverpool to New York. It was only the other day that a shipment of 5000 barrels of flour was made from Toronto to Chicago, and it is said that when the canal opens, wheat will be shipped from England via New York to Rochester and Oswego. "It's an ill wind that blows nobody good," and while the poor of our large cities and towns are suffering in consequence of the high price of bread, the farmers and holders of grain are reaping a rich harvest.

Inspector's Report.

From the official report of Col. A. A. Campbell, Gold Mining Inspector, made on the 6th inst., we learn that about one hundred shafts have been sunk in Madoc and adjoining Townships, but owing to the heavy rains, nothing is doing at present. Within the last month from 3000 to 4000 persons have visited Madoc, a large proportion of whom are still in the neighborhood prospecting. He reports the increase in the settlements around the mines as extraordinary. At Eldorado, where last fall there was but one log shanty, there are now eight dwellings, and new ones are going up every day. Thirty Mining Licenses have been issued. A crushing machine is to be put up in a few days at Eldorado or Bannockburn, by Messrs. Gilbert & Turley.

The Harbor.

The proprietor of the steamer Bruce, having made an offer to drag the Harbor with the rake, the Chairman of the Harbor Committee gave him permission to do so. Accordingly the Bruce has made a trial, the result of which will be made known at a meeting of the Harbor Committee called for this evening.

Hon. John A. Macdonald.

This gentleman was waited upon by a deputation from Ottawa the other day, requesting him to represent Ottawa in the House of Commons and in the Assembly of Ontario. Mr. Macdonald took the offer as a high personal compliment, but having been requested by his old constituents at Kingston to be a candidate for the House of Commons, and having represented that constituency for over twenty-four years, it would scarcely do to turn his back upon the good old city. With respect to the representation of Ottawa in the Legislature of Ontario, he would not be prepared to give an answer until next Monday.

Divinity Examinations.

The Board of Examiners for Central Canada of the W. M. Church, commenced their session in the Bridge Street Church in this town on Wednesday morning. This session comprises the Peterboro, Cobourg, Belleville and Kingston Districts, from which the following candidates presented themselves—

4th year—Jas. McClung, Samuel Connor, James Jones.
3rd year—J. C. Howell, B. A.; William J. Shaw, L. A., LL. B.; J. H. Chant.
2d year—Jno. Robinson, Geo. H. Squire, B. A.
1st year—Thos. M. Campbell.

Primary Students—W. Edwards, E. Richardson, A. Magwood, G. Scott.

The course of study comprises the subjects of Church History, Systematic Theology, Ethics, Mental Philosophy, Biblical Criticism, Logic and Rhetoric. The examinations, we understand, are being most thoroughly conducted.

FROM OTTAWA.

OTTAWA, May 9th.

Hon. Mr. Cartier did not arrive by the Western. Hon. Mr. Campbell and Hon. Mr. Cockburn arrived today. Hon. Mr. Galt, Sir Narcisse Belleau and Hon. Mr. Langevin arrived today.

A meeting of the Executive Council was held yesterday afternoon.

Yesterday afternoon the body of an old man, name unknown, was found in a stable. Cause of death unknown.

SAN DELMON.—The Halifax Unionist justly characterizes a "bad definition" of the idea of drawing party lines in the absence of party question. It says, "the idea of supporting party for the sake of party is a bad delusion. In this progressive age, old party names must necessarily be broken up, for at best they are a delusion and exist only in name."

RAIN! RAIN! RAIN!—For the last few weeks there has been a perfect deluge, and there is scarcely any appearance of cessation of the rain. The ground is thoroughly soaked, the creeks are large rivers, the little rivulets are big streams, and lowlands are small ponds and lakes. Farming is out of the question, and the only satisfaction to be derived is that grass is benefiting by the excessive moisture. Unless it holds up pretty soon, there is a gloomy prospect ahead.

Town Council.

Wednesday, May 8th, 1866.
PRESENT.—His Worship the Mayor, Messrs. McIntosh, Sutherland, LeVeque, Jones, Waters, Foster, Kennedy, Brown, Henderson, Tannhill.
Minutes of former meeting read and approved.

Mr. LeVeque moved the adoption of the clause of the report in relation to the \$200 unappropriated funds of last year, in Ketchikan Ward. He explained that \$200 had been voted last year for Ketchikan, which had not been expended, and he proposed that thatsum in addition to the appropriation which would be made for that Ward this year, should be used in continuing the paving and macadamizing of Front Street, as far as possible. This unappropriated \$200 belonged to that Ward by right and should be granted.

The Mayor moved to put further expenditure on Front Street until other parts of the town were put into better repair. They never could get at what the first piece of work cost. Mr. LeVeque.—Oh, yes.

Mr. LeVeque.—The Mayor's motion might, but we outside could not. Other roads were almost impassable, and he would oppose any further expenditure on Front Street until they were better able to spend the money.

Mr. Waters called attention to the state of the roads leading to Pitt's past, which were almost impassable. In reference to the job on Front Street, he had been chairman of a committee to ascertain the cost.

Mr. LeVeque.—Did you have any difficulty in ascertaining the cost of that job?
Mr. Waters.—No, I had very little difficulty in finding it out, the work cost somewhere about \$1,200, but the job being being he believed \$1,000, but it was a good job.

Mr. Kennedy contended it was an excellent job and should be continued. Mr. LeVeque.—All travelled that street, and all were benefited by it. It could be built cheaper now than when it was commenced. Front Street paid most of the taxes.

Mr. Holden said he thought it a very important matter, and would support it. Mr. Waters, that any expenditure on Front Street, and the wall be deferred till the summer. He said that the other work done, as well as at a much less cost, and he had nothing to do with had been done before, and was glad of it, but thought they should not do the work over until it was too late to proceed with it, and then the same difficulty would occur, as occurred when the other work was done, and the effect would be the same, it would cost more than the estimate. If anything was to be done it should be decided now, so that arrangements could be made to procure and raise the money.

Last year it was decided to complete the wall, and an appropriation made. It was opposed to any wooden structure. If the work could be done for \$200 or \$400 he was sure the people would be satisfied.

The Mayor said the road in front of Gersham Reed's was almost impassable, and the sidewalk near the Hotel was broken, and other parts of the town just as bad. If those on Front Street paid more taxes they had greater benefit. He had lived 30 years in Belleville, and never heard of an accident for the want of that wall.

Mr. Brown.—If this is to be discussed left be done fairly. The work on Front Street was well done, and if the money appropriated to that work had not been expended they were entitled to it now, and had a right to the benefit of it. He had a distinct recollection of an inquiry being held on the body of a person drowned for the want of a protection, when it was with difficulty that the town was prevented from being sued for damages. If Mr. Holden will change his resolution so as to prevent any expenditure he would support it, but could not do so unless he was satisfied that the work was well done. If there is any money to spend it should be spent in general improvements, and not all on Front Street.

Mr. Sutherland said if it did cost a large amount it was of general advantage as it was necessary to put the town in a better position. The Committee have had under consideration the return of the Collectors' Rolls, and they recommended that the collectors be directed to make a final return of the rolls for the year ending on the 1st of January to the Treasurer on or before the 15th of June next. He received any money on account of the taxes included in such rolls, and in the event of the said collector being authorized to take such rolls he said he was authorized, at law or otherwise, and without further reference to the Council, to compel such collector to collect the amount remaining due from that collector.

Mr. Holden, Chairman of Market and Police, reported by By-Law the appointment of two Police-men, and the repealing of certain clauses in the present By-Law, establishing the Police Magistrate's salary leaving him what the law allowed.

Mr. Robertson reported verbally, that he had written to Mr. Butt, the proprietor of the Fire Engine, who had since visited the town, and after examining the engine, pronounced it well kept in good order, but condemned the coal which had been used, stating that it was a wonder that steam had been "got up" at all with it. If proper coal were procured, the engine would do all he had guaranteed it to do, but if they were not satisfied with it he would not be.

The Mayor stated that he had an interview with Mr. Butt, who said the engine was well kept by the care taken, and that it was a good engine as could be procured of that size, but complained of the coal, and requested that some be sent for, so as to enable him to test it properly.

Mr. Robertson stated that he would take steps to procure the coal required.

Mr. Sutherland thought the town was quiet as ever it was. Mr. Waters had got to learn what they wanted with more Police-men. Mr. Robertson said there was a resolution on the books authorizing the committee to appoint two more Police-men. At that time some wanted a den appointed, Mr. Kennedy thought since economy was the order of the day it would be better to let it stand.

The motion being put for suspending the rates the yeas were—

Yeas—Messrs. Holden, Foster, McIntosh, LeVeque, Jones, and Robertson.
Nays—Messrs. Kennedy, Brown, Henderson, Sutherland, Waters and Tannhill.

The motion requiring a two-third vote, was declared lost. Mr. Holden asked leave to withdraw the By-Law. He said that it appeared the members for Ketchikan Ward had enough influence to keep their own, and he would not expect them to do so. Mr. Brown and Mr. McIntosh said they had been ordered to make that report, and gave they rejected he would have no more to say.

The application of Mr. John Lazer for the removal of the market from the old site, which to exhibit his new position was granted.

Mr. Sutherland moved the Council into Committee on Motion of Mr. Robertson, Dr. Handet, George Jones and John Mc Donald were appointed a Board of Health.

Mr. Holden moved the adoption of his By-Law in reference to Billard Saloons. This By-Law provides for any saloon to be kept open after 12 o'clock at night, he would not expect them to do so. Mr. Brown and Mr. McIntosh said they had been ordered to make that report, and gave they rejected he would have no more to say.

The application of Mr. John Lazer for the removal of the market from the old site, which to exhibit his new position was granted.

Mr. Sutherland moved the Council into Committee on Motion of Mr. Robertson, Dr. Handet, George Jones and John Mc Donald were appointed a Board of Health.

Mr. Waters.—No, I had very little difficulty in finding it out, the work cost somewhere about \$1,200, but the job being being he believed \$1,000, but it was a good job.

Mr. Kennedy contended it was an excellent job and should be continued. Mr. LeVeque.—All travelled that street, and all were benefited by it. It could be built cheaper now than when it was commenced. Front Street paid most of the taxes.

Mr. Holden said he thought it a very important matter, and would support it. Mr. Waters, that any expenditure on Front Street, and the wall be deferred till the summer. He said that the other work done, as well as at a much less cost, and he had nothing to do with had been done before, and was glad of it, but thought they should not do the work over until it was too late to proceed with it, and then the same difficulty would occur, as occurred when the other work was done, and the effect would be the same, it would cost more than the estimate. If anything was to be done it should be decided now, so that arrangements could be made to procure and raise the money.

Last year it was decided to complete the wall, and an appropriation made. It was opposed to any wooden structure. If the work could be done for \$200 or \$400 he was sure the people would be satisfied.

The Mayor said the road in front of Gersham Reed's was almost impassable, and the sidewalk near the Hotel was broken, and other parts of the town just as bad. If those on Front Street paid more taxes they had greater benefit. He had lived 30 years in Belleville, and never heard of an accident for the want of that wall.

Mr. Brown.—If this is to be discussed left be done fairly. The work on Front Street was well done, and if the money appropriated to that work had not been expended they were entitled to it now, and had a right to the benefit of it. He had a distinct recollection of an inquiry being held on the body of a person drowned for the want of a protection, when it was with difficulty that the town was prevented from being sued for damages. If Mr. Holden will change his resolution so as to prevent any expenditure he would support it, but could not do so unless he was satisfied that the work was well done. If there is any money to spend it should be spent in general improvements, and not all on Front Street.

Mr. Sutherland said if it did cost a large amount it was of general advantage as it was necessary to put the town in a better position. The Committee have had under consideration the return of the Collectors' Rolls, and they recommended that the collectors be directed to make a final return of the rolls for the year ending on the 1st of January to the Treasurer on or before the 15th of June next. He received any money on account of the taxes included in such rolls, and in the event of the said collector being authorized to take such rolls he said he was authorized, at law or otherwise, and without further reference to the Council, to compel such collector to collect the amount remaining due from that collector.

Mr. Holden, Chairman of Market and Police, reported by By-Law the appointment of two Police-men, and the repealing of certain clauses in the present By-Law, establishing the Police Magistrate's salary leaving him what the law allowed.

Mr. Robertson reported verbally, that he had written to Mr. Butt, the proprietor of the Fire Engine, who had since visited the town, and after examining the engine, pronounced it well kept in good order, but condemned the coal which had been used, stating that it was a wonder that steam had been "got up" at all with it. If proper coal were procured, the engine would do all he had guaranteed it to do, but if they were not satisfied with it he would not be.

The Mayor stated that he had an interview with Mr. Butt, who said the engine was well kept by the care taken, and that it was a good engine as could be procured of that size, but complained of the coal, and requested that some be sent for, so as to enable him to test it properly.

Mr. Robertson stated that he would take steps to procure the coal required.

Mr. Sutherland thought the town was quiet as ever it was. Mr. Waters had got to learn what they wanted with more Police-men. Mr. Robertson said there was a resolution on the books authorizing the committee to appoint two more Police-men. At that time some wanted a den appointed, Mr. Kennedy thought since economy was the order of the day it would be better to let it stand.

The motion being put for suspending the rates the yeas were—

Yeas—Messrs. Holden, Foster, McIntosh, LeVeque, Jones, and Robertson.
Nays—Messrs. Kennedy, Brown, Henderson, Sutherland, Waters and Tannhill.

The motion requiring a two-third vote, was declared lost. Mr. Holden asked leave to withdraw the By-Law. He said that it appeared the members for Ketchikan Ward had enough influence to keep their own, and he would not expect them to do so. Mr. Brown and Mr. McIntosh said they had been ordered to make that report, and gave they rejected he would have no more to say.

The application of Mr. John Lazer for the removal of the market from the old site, which to exhibit his new position was granted.

Mr. Sutherland moved the Council into Committee on Motion of Mr. Robertson, Dr. Handet, George Jones and John Mc Donald were appointed a Board of Health.

Mr. Holden moved the adoption of his By-Law in reference to Billard Saloons. This By-Law provides for any saloon to be kept open after 12 o'clock at night, he would not expect them to do so. Mr. Brown and Mr. McIntosh said they had been ordered to make that report, and gave they rejected he would have no more to say.

The application of Mr. John Lazer for the removal of the market from the old site, which to exhibit his new position was granted.

Mr. Sutherland moved the Council into Committee on Motion of Mr. Robertson, Dr. Handet, George Jones and John Mc Donald were appointed a Board of Health.

Mr. Sutherland moved the Council into Committee on Motion of Mr. Robertson, Dr. Handet, George Jones and John Mc Donald were appointed a Board of Health.

Mr. Holden moved the adoption of his By-Law in reference to Billard Saloons. This By-Law provides for any saloon to be kept open after 12 o'clock at night, he would not expect them to do so. Mr. Brown and Mr. McIntosh said they had been ordered to make that report, and gave they rejected he would have no more to say.

Mr. Sutherland moved the adoption of the clause of the report in relation to the \$200 unappropriated funds of last year, in Ketchikan Ward. He explained that \$200 had been voted last year for Ketchikan, which had not been expended, and he proposed that thatsum in addition to the appropriation which would be made for that Ward this year, should be used in continuing the paving and macadamizing of Front Street, as far as possible. This unappropriated \$200 belonged to that Ward by right and should be granted.

The Mayor moved to put further expenditure on Front Street until other parts of the town were put into better repair. They never could get at what the first piece of work cost. Mr. LeVeque.—Oh, yes.

Mr. LeVeque.—The Mayor's motion might, but we outside could not. Other roads were almost impassable, and he would oppose any further expenditure on Front Street until they were better able to spend the money.

Mr. Waters called attention to the state of the roads leading to Pitt's past, which were almost impassable. In reference to the job on Front Street, he had been chairman of a committee to ascertain the cost.

Mr. LeVeque.—Did you have any difficulty in ascertaining the cost of that job?
Mr. Waters.—No, I had very little difficulty in finding it out, the work cost somewhere about \$1,200, but the job being being he believed \$1,000, but it was a good job.

Mr. Kennedy contended it was an excellent job and should be continued. Mr. LeVeque.—All travelled that street, and all were benefited by it. It could be built cheaper now than when it was commenced. Front Street paid most of the taxes.

QUEEN'S BIRTHDAY.

The Mayor was requested to make his proclamation, calling upon the people to observe the day of 2nd May as the Public Holiday.

The Council adjourned at 11 o'clock.

Arrival of the China.

NEW YORK, May 9.—The China mails arrived late last night with London papers of the 27th.

A small expedition is to be despatched to Africa to learn the fate of Dr. Livingston. Nearly all the Tailors' shops in Paris are closed, and 30,000 have thrown themselves out of bread.

It is believed in Paris that Jules Favre's demand for leave to question the Government on the Luxembourg question, would not be allowed in the Legislative body.

The memorial Diplomatic says it is believed in diplomatic circles that Duke Grammont brought from Paris a basis of intimate understanding between France and Austria in view of eventualities, should war be inevitable.

Victor's letter to the King of Prussia, energetically insists that he should spare Europe the calamity of a war in which England would necessarily preserve absolute neutrality, as she disapproves of the excessive claims of France.

The European Times of the 27th says: Every day diminishes the prospect of peace between France and Prussia. The war fever is gradually rising in Paris. The hatred of the French towards Prussia increases and preparations for decisive struggle in each country is pushed forward with extraordinary vigor.

Rumour declares that Victor Emmanuel is to receive a French loan, or perhaps a gift of twenty millions sterling.

The Court of Berlin makes a demand from Germany beyond the pale of a hundred thousand men within a month of breaking out of the present war.

There is just a possibility that peace may still be preserved, the Court of Berlin having consented to the demolition of the fort of Luxembourg.

POLICE COURT.

DRUNK.

The Police Magistrate held a levee at his office yesterday for the purpose of receiving applications for the license of the public house. Miss Emily Johnston, from Leveson, was presented by Police Constable Allen, who found her in a state of intoxication at the previous night. She pleaded that the quantity of the former exceeded the latter, that it was possessed of greater strength than the States "tangle leg," and that it permitted to leave Belleville she would not again subject the worthy patron of the "County House" to any unnecessary trouble. Her feminine pleading proved too much for the feeble hearted Cadi, and he sent her away with a reprimand.

VAGRANCY.

Two very frequent occupants of the cells were taken to the County House, and not "all the tears that sorrowing maidens shed" could prevent the Magistrate from committing Miss Mary McGinnis and Miss Ellen Green to 30 days free lodging in the County House. They left the Court threatening to annoy the "Police" on their release from captivity.

LOOKING FOR LEAVE OF ABSENCE.

Mrs. Sophia Blanchard sought permission to make a trip to Colchester, in the absence of the worthy Chairman of the Poor Committee, but Mr. Bartlett declined to grant her leave for travel, although she procured the following strong recommendation in her behalf from a well known genius in town:

DEAR SIR—This will be handed to your Honor by an exile from Erin. She is a widow with fifty-five small orphans and is in most deplorable circumstances. She is an unbeliever in Pope Pius IX, and is desirous of visiting her friends in Colchester. I ask it as a personal favor for you to guarantee her passage, and I swear by the Holy Toe of St. Simon, she is not a Fenian. Yours, &c., HENRY IVIN.

Arrivals at the Dufoe House.

MAY 9, 1867.

George Robertson, Kingston; T. Elliott, Montreal; J. Bergin, Cornwall; G. H. Gordon, Trenton; H. H. Bell, Watertown, N. Y.; E. C. White, Watertown, N. Y.; J. D. Doolittle, Watertown, N. Y.; F. C. Wilson, Hamilton; Robert Roy, Rochester, N. Y.; John A. Cameron, Glasgow; G. Hamilton, London; J. P. W. New, Newcastle; Robert McIntosh, Newcastle; Hugh Russell, Montreal; J. B. Curran, Oswego; Oscar J. Dunlop, Albany, N. Y.; Chester Unger, Brighton; J. Stephenson, Toronto; Dr. Hevil, Quebec; J. Hall, Peterborough; P. D. Doolittle, Montreal; W. C. Cook, Toronto; J. F. PERRY DAVIS' VEGETABLE PAIN KILLER.—We ask the attention of the public of this long tested and unrivalled Family Medicine. It has been favorably known for more than thirty years during which time we have received thousands of testimonials, showing this medicine to be a most reliable remedy for diseases caused by, or attendant upon:

Sudden Colds, Coughs, Fever and Ague, Headache, Biliousness, Pains in the Side, Back and Lungs, as well as in the joints, Rheumatism, Neuralgia and Rheumatic Pains in any part of the system, Toothache and Pains in the Head and Face.

As a Blood Purifier and Tonic for the Stomach it seldom fails to cure Dyspepsia, Indigestion, Liver Complaints, Acid Stomach, Heartburn, Kidney Complaints, Headache, Piles, Asthma, Phthisis, Ringworms, Boils, Felons, Whitlow, Old Sores, Scrofulous Swellings and General Debility of the System.

It is also a prompt and sure remedy for Cramp and Pain in the Stomach, Spasms, Colic, Diarrhoea, Dysentery, Summer Complaint, Cholera Morbus, Cholera Infantum, Scalds, Burns, Sprains, Bruises, Frost Bites, Chilblains, as well as the Stings of Insects, Scorpions, Centipedes, and the Bites of Poisonous Snakes and Venomous Reptiles.

See Directions accompanying each bottle.

It has been tested in every variety of climate and by almost every nation known to Americans. It is the almost constant companion, and indispensable friend of the Missionary and the Traveller, on sea and land, and no one should travel on our lakes and rivers without it.

Prices, 15 cts., 25 cts., 50 cts., per Bottle.

PERRY DAVIS & SON, Manufacturers and Proprietors, 380 St. Paul Street, Montreal, C. E.

April 30th 1867. 106m-11W6m

Dr. George Potts,

BEGS to inform his friends of Belleville and its vicinity, together with his friends of Prince Edward, that he has resumed the practice of his profession among them. Office at present within a few doors North of Brown's Foundry, next door to the Widow Trill's Shop, nearly opposite to Reed's store, Front Street, on the way to the Grand Trunk Station.

Young Gentlemen wishing to study Medicine will be received as pupils and prepared for the matriculation examination, now required by the Medical Council of Upper Canada.

QUEEN

INSURANCE COMPANY

CAPITAL, - - - \$10,000,000.

FIRE and LIFE.

LIFE DEPARTMENT.

THE principles on which this Company is

founded contain all the elements required

to develop the benefits of Life Assurance, and

afford every facility to intending assurers—

One of the advantages secured by those who

insure their lives with this Company is that

the outside expenditure for Management is

absolutely restricted by the Deed of Settlement

to Ten per Cent of the Net Life Income.

This most important restriction shows that the interests of participating policy

holders are closely watched and carefully at-

tended by this Company. Attention is es-

pecially called to this point, as the proportion

of premiums expended for Management

Must Largely Influence Profits

and Bonuses.

The next division of profits takes place in

1868, and all those who wish to participate in

the profits should insure at once.

Howorth & Rathwell's
ORIGINAL TABLEAUX

OF THE
HOLY LAND,
will be exhibited in this town for
TWO NIGHTS ONLY,
Wednesday & Thursday, May 8 & 9.

PATRONISED by the elite and fashion in
every city and town in which it has
been exhibited. The monster exhibition of
the world. The only complete and perfect
representation of the Holy Land in existence.
Proclaimed everywhere by the press and
public to be the *Ne Plus Ultra* of exhibi-
tions. Now on one of the most interesting
tours ever known in the history of exhibi-
tions. Overwhelming audiences. All rivalry
at a discount. The people crowd *en masse*
to the Great Tableaux. The Halls not large
enough to contain all who desire to attend
the entertainments. A new era—Presents
given away nightly.

Howorth & Rathwell's stupendous tableaux
will certainly open at the time and place an-
nounced. Read their advertisements and
notices given by the press of the character
and style of their exhibition. We published
a card in the *Toronto Globe* against impos-
tors taking the name of the Holy Land.

Doors open at 7 o'clock. Exhibition to
commence at 8. Admission 25 cts. Children

A Clergman in the Divorce Court.

In the Divorce Court, the case Boot vs.
Boot was heard. This was a petition by a
wife for a judicial separation, on the ground
of adultery. The respondent, who is a
clergyman of the Church of England, denied
the charge. The Queen's Advocate and Dr.
Tristram appeared for the petitioner; the
respondent conducted his case in person.

The petitioner is the daughter of Mr. G.
Smith, a magistrate and a gentleman of
property in Cornwall; and she married the
respondent, the Rev. Richard Webster Boot,
in January, 1859. They afterwards lived
together at Penzance, near Dudley, the re-
spondent being the perpetual curate of that
place, and they had three children. Mr.
Boot got into difficulties, and in October
1865, he was obliged to leave Penzance, and
has never since returned to his family.—
Mrs. Boot and her children have since re-
sided at her father's, in Cornwall, and have been
supported by him. The adultery was al-
leged to have been committed with a girl
named Eliza Brinton, who went into the
nursery's service in August, 1863, as a
nursemaid being then thirteen or fourteen
years old. In January, 1865, she left his
service and the respondent afterwards put
her to school, and from time to time from
that date to the present he has travelled
about with her to London, to Paris, to
Brighton, to Havre, and other places. They
lived together in these places in lodgings
and hotels, passing as father and daughter,
and occupying separate bedrooms. On two
occasions, however, they had occupied the
same bedroom, and according to the evi-
dence of a French chambermaid, they had
on one of these occasions, at Havre, slept in
the same bed. Several letters were found
in the respondent's cash-box after his de-
parture, written to him by Eliza Brinton,
while she was at school, and before she left
his home, and they were produced. They
were all in the most affectionate terms. She
addressed him as "My very dear, dear
minister" and "My dearest Elby," and
signed herself "Your ever loving and af-
fectionate Elsy." Several well-written letters
by the respondent to his wife since he left
were also read. They were full of expres-
sions of affection and piety, and contained
some solemn denials of the truth of the
charge of immorality which had been
brought against him. The only witness
called by the respondent was the girl Eliza
Brinton, who is now between seventeen and
eighteen years old. When in the witness
box she addressed him and spoke of him as
"Papa," and he called her "My child." She
positively swore that no impropriety had
ever passed between them, and said that
he had adopted her as his daughter,
paid for her maintenance, and repaired
and repaired. 1D-6m

BELLEVILLE, FRIDAY, MAY 10.

TELEGRAPHIC NEWS!

BY ATLANTIC CABLE.

ENGLISH MARKETS.

LIVERPOOL, May 9 (p.m.)—Money active, consols advanced, London now quoted 91½; 5 20's 72½; C. 75½; Erie 41½; Cotton regular and quotations fluctuating.

LONDON, May 9 (2 p.m.)—A year firm and quiet at 24s per cwt. for No. 2 Irish standard.

American Despatches.

GREAT FRESHET.

NEW YORK, May 10.—There is a great freshet along the Erie rail road. At Oswego the bridges were carried away. As Manley the track was covered with sand two or three feet deep.

EUROPEAN CORRESPONDENCE.

NEW YORK, May 10.—The *Herald's* Paris correspondence, referring to the war preparations of France, says: The military scenes witnessed in the streets of Paris, moving of artillery wagons, guns, gun carriages, and munitions, were similar to those when just previous to the war and Italian campaign.

The *Herald's* Berlin correspondent says Prussia made her preparations steadily, and without a noise or excitement as in France, but on a very extensive scale orders for the mobilization of the Guards and the 8th, 9th, 10th and 11th Army Corps were made out in Berlin, and extensive promotions had taken place in the army.

The *Invalide Russe*, of St. Petersburg, refers to the violence and murders perpetrated by the Turks in Crete, and the sublime heroism displayed by the Christians in resisting them. The editorial writer adds that the western press sympathize with the Turks, and that the Sultan would not order such a course if not assured of the sympathy of one or two of the Cabinets.

WRECK.

TOMAS RIVER, N. J., May 9.—The *Herald's* Tomas River, N. J. correspondent says the schooner *Joseph Holmes*, from Virginia, came ashore at Long Ranch, on May 8th. The Captain, Holmes, and two men were lost.

JEFF, DAVIS AGAIN.

NEW YORK, May 10.—The *Times* special says, Chief Justice Chase had nothing to do whatever with the issue of the writ of *habeas corpus* in the case of Jeff. Davis, and that his name was attached as a mere matter of form. The commander at Fortress Monroe, will put the prisoner in the hands of the United States Marshall, who will be responsible for his custody. Mr. Davis will be furnished rooms at Spottswood House, Richmond, until after hearing of return to the writ. Thus the Government does not release its hold upon the prisoner, and the matter of bail has not been thought of. The case is one merely as to why Government holds the prisoner.

RIOT AT RICHMOND.

RICHMOND, Va., May 9.—A serious riot occurred this morning. A fight took place, and a negro was arrested. The mob of negroes rescued him, but he was again captured. Three policemen were injured with passing stones. The mob swelled to nearly one thousand blacks. A company of soldiers charged bayonets and drove them away. The riot is not likely to be renewed.

ACCIDENT TO D. B. SOLMES, ESQ.—The *Picton Gazette* says: We regret to announce that D. B. Solmes Esq., was the victim of an accident on Saturday evening, which well nigh deprived him of life. He was returning home from Green Point, and when in the vicinity of Walter Stickney's opened his umbrella, at which his horse took fright, ran away, and threw Mr. Solmes several feet. When found he was insensible, with a severe contusion above the right eye, and remained in a state of semi-consciousness for some 10 hours. From the best information we have been able to get, he is gradually improving, and will likely be "all right" in a few days. His friends will be rejoiced to learn that the accident, although a severe one, will not long prevent Mr. Solmes from prosecuting his canvass with vigor, and in the meantime let not the vigilance of his supporters slumber, but rather let more determined action be put forth to make up as far as possible for the time lost in consequence of the accident.

Our Manufactures.

NO. 2.

WALKER & CO'S FOUNDRY.

The firm of J. M. Walker & Co., occupy the premises formerly in the possession of the Messrs. Patterson and carry on the same description of business. Although established but little over two years, they have worked up a trade which extends over the whole of our County, and a considerable portion of the Counties adjoining. Their manufactures comprise everything in the Foundry line, and they enter largely into the manufacture of Agricultural Implements, Mill Machinery, &c., &c. Within the last year their business has more than doubled, and now reaches to between \$20,000 and \$30,000 a year. A steel plough, combining some valuable improvements, which they manufacture, is much sought after by good farmers, and indeed all the Agricultural Implements are made of the best material, have the latest improvements, and are obtaining an extensive sale throughout the country. Their machinery, of which they have a large quantity, and which embraces all the modern improvements, is run by water power, of which they have an ample supply throughout the greater portion of the year. Within a short period this machinery has been added to, and judging from the amount of business done, they will soon need to largely increase their facilities. The firm of the Messrs. Walker is composed of practical men, who act in the capacity of foreman for each department, and thoroughly understanding their business, they must succeed. They cast about two tons of iron a week, and use a large amount of steel which they import direct from England. They give employment to twenty-five men, whose wages average from \$175 to \$200 a week.

TWIN & CO'S SEWING MACHINERY.

In the upper part of the same building is the extensive Sewing Machine Manufactory of C. E. Irwin & Co. This useful article has become indispensable in the domestic circle, in the shop and in the factory, and you can scarcely go into any large well-to-do family without hearing their cheerful clack strike on your ear. Instead of the pale-faced sewing girl, wearing out her fingers, dimming her eyes, and wearing out the little life she has, in the never ceasing stitch, stitch, stitch, you see rosy faces and laughing eyes, and hear the musical clack of the magical instrument. It is only a few years since this firm established their factory here, and it was not until a year or two ago that the extent or value of their business was made known. It was not until the firm had made their machines as perfect as skill and ingenuity could make them that they introduced them into the market. The best evidence that they have got a good machine is seen in the fact that at both the Provincial Exhibitions in Canada East and Canada West they have repeatedly carried off the first prizes, and had one of their machines purchased by the Canadian Commissioners, and sent to the Paris Exhibition. And there is no reason why just as good Sewing Machines cannot be made here as in the United States or in any other part of Canada. Any one going into the factory of Messrs. Irwin & Co., and witnessing the various machines in operation, examining the material of which they are made, and knowing that none but first-class workmen are employed, may very easily satisfy themselves that just as good, just as durable, and just as highly finished machines can be made here as elsewhere. This firm employs twenty men in the factory, and have besides twenty agents in different parts of the Province. During the past year their business has almost doubled. At present they have four hundred machines under way, and they can turn out about twenty a week. Within the last year or two they have added certain descriptions of machinery by which they now make everything connected with the Sewing Machine, on the premises. All the castings are made by Messrs. Walker & Co. Their business is a gratifying evidence of Canadian enterprise, and we wish the firm every success.

Those Barrels.

The Rochester *Union* of May 4th, contains the following account of the raid on the Richardson mine, and the contents of the new famous potash barrels. This story is a fair sample of how news travels; whether the *Union* is burlesquing or serious, we know not, but one thing is certain, it is most egregiously mistaken:

The steamer *Corinthian* brought to this port last night, four barrels containing mud, from the Richardson gold mine, Madoc, C.W. This mud is on its way to Boston to be subjected to a close assay for the purpose of determining how much, if any, gold it contains. This Richardson mine is inclosed and has been excavated for a considerable distance from the surface. The Canada party owning this mine sold it to a Chicago Company, which failed to pay as agreed. A Boston company then entered into a contract for the purchase of the

mine. These Boston people did not intend to purchase a gold mine, but gold. They went to Madoc, where since with the aid of men, and took possession of the mine. After pumping out the water they scraped up four barrels of mud and shipped it for Boston, as stated above. It is reported that their explorations were quite satisfactory, and that they would take the mine on the terms agreed upon for the purchase.

ANOTHER VERSION.

The Rochester *Democrat* of the 8th, also contains an account, and though not so far astray as the *Union*, it is still wide of the mark as to facts, still we give it to show what others say:

"One day last week the *Corinthian* brought to this port four casks of earth and sand, supposed to be richly impregnated with the precious metal. It was intended to be sent to Boston for assay, but there is a hitch in the matter which may change its destination. It appears that Mr. Richardson, the original owner of the land on which the mine is located, sold or agreed to sell the mining privilege to parties living in Boston, Mass., and Belleville, C. W. But afterwards he received a more advantageous offer from Leonard & Hardin, of Chicago, and sold to them also. The latter caused the four casks of 'glittering earth' to be mined, and shipped it off. But a consignment certificate arrived with it, and the Boston and Belleville owners have come on, protesting against the removal of the property. They are accompanied by the United States Consul at Belleville. What interest he has in the matter we cannot say. At any rate the four casks of earth are now in Rochester, in possession of Collector Kelly. What disposition of them will finally be made can only be conjectured. The contents of the casks are asserted to be worth \$150,000. We haven't faith enough to believe that they are worth one quarter or one eighth of that sum in themselves; but there may be very good reasons why certain parties are not anxious to have their value tested by a scientific assay. Mind, we do not say that there *are* any such reasons."

SPECIAL TELEGRAMS.

FROM OTTAWA.

OTTAWA, May 10.

The Government Inspector reports respecting the Chaudiere mines, that during March and April \$6240 worth of gold had been taken out of Delory mine.

FROM MONTREAL.

MONTREAL, May 10.

A sad tragedy occurred on the *Notestrian* on her way to this port. A lady, name unknown, discovering a former husband on board was seized by remorse and sprang overboard and was at once lost to view. The vessel was heaved to and the life buoys sent over, but in vain.

A company of the Royal Canadian Rifles is to be transferred from St. Johns to Kingston about the 14th.

A hat about 15, son of Mr. Gibson, Clerk in the locomotive office, Point St. Charles was accidentally struck by a passing car while he was on the track, and killed.

BELLEVILLE CHURCH CLUB.—At a late meeting of the above club the following officers were elected: President, C. J. Stirling; Vice-President, A. Robertson; Treasurer, C. Henry; Secretary, E. R. Benjamin; Committee, J. Reeves, W. C. Nunn, Wm. Mills, S. S. Lazier, F. Bogart, C. Miller and James Liston.

PARTY LINES.—The New York *Albion* says: "Oppositionists in Canada West would, if they could, revive old party lines and issues, must find new men to aid them in their plans, for we are convinced that the Western Canada Delegates are too well disposed with their work to lend a hand in undoing it just now."

THE CURRENCY QUESTION.—At a meeting held on Monday evening by a number of citizens, it was decided to purchase John Zell's lot, in the Front of Sidney, and form a Joint-stock Company, under 22 Vic., Cap. 67; and a Committee of five from each Protestant Church was appointed to ascertain the number of lots that can be sold at the present time, and report at a meeting to be held on the 27th inst., at 7½ o'clock, at the office of C. L. Coleman, Esq., lots not to be less than 100 feet (superficial).

GRAND TRUNK, BELLEVILLE.—For some months there has been an increase in the traffic at Belleville Station. We have been favored with the receipts for the month of April, which show an increase over corresponding months of last year of \$1094.60 on passengers, and \$984.41 on merchandise received. The receipts on freight forwarded are the same as last years. This looks very favorable and speaks well for the increased activity of business in this town and locality.

THE DOMESTIC SPINNER.—This is emphatically the age of labor-saving machines. Go where you will, into the dairy, in the domestic circle, in the shop, in the counting house, in the factory, or in the field, you find the inventive genius of man has accomplished labor, and lessened the cost of production fifty and a hundred per cent. The sewing machine has taken the place of the needle, the reaping machine of the sickle, the spinning Jenny of the old spinning wheel, and a hundred other machines have supplanted the old fashioned custom of doing business. Among the new labor saving machines we have recently examined, is the "Domestic Spinner," of Mr. John Lazier, which is one of the simplest and most ingenious contrivances for the kind of work it performs yet produced. The inventor of this machine is a Belvidere, and the inventor has just introduced them into the market. It spins, reels, doubles and twists, and is adapted to all custom cards. The rolls are placed on an ordinary spool, holding about two pounds of wool, and the machinery is so

FROM BRIDGEWATER.

Mining Operations.—More shows of Gold.—Lands Changing.—Modest Demands of 1899.—Miner's Study.—Chinese Cradle.—Wait Fair Weather.

From our Own Correspondent.

BRIDGEWATER, May 9, 1867.

Rain, rain, rain, and still it rains even when I write, everything looking dull, cattle looking low spirited, farmers rueful, and miners in the dumps, as all operations of course cease in such weather as we are having now, but we hope for the best.

Mining operations have been carried on with vigor when the weather has permitted. The mine I mentioned as having visited in my last, is being worked by Messrs. Harrison and Breeze. They have had a further show of gold and are expecting soon to find more, the indications becoming stronger the deeper they go, but nothing will be done of any moment till the weather is more propitious; then many who are now idling their time away will become vigorous miners, and we shall really see what this section can produce; and I shall be both surprised and disappointed if it does not turn out quite equal to any of the districts where gold has been found. I am strengthened in this by sundry conversations I have had with men from California and other gold countries, who one and all agree that there is every appearance of the precious metal being beneath our feet; certainly it is that. Farm Lots have changed hands at a high figure, and two time as ago could have been purchased for three dollars an acre or less, and this to men who were not likely, judging from appearances, to sink any funds unless there was a pretty sure prospect of a good return for the outlay. As a proof of this, I have been told of a good authority, of one lot of a hundred acres close by here, which the owner was offering for one hundred dollars before the gold excitement commenced, and two gentlemen from West Virginia here and went away highly delighted at having purchased this lot at an amount much higher than this, the exact sum my informant could not tell me, but both buyers and sellers were perfectly satisfied with their bargains. I saw two gentlemen from Belleville here to-day who are representatives of a company, were in search of mineral lands. One lot of one hundred acres, they will, I think, purchase, the price asked being two thousand dollars. Some merriment was caused by the modest manner in which the land owner asked seven hundred pounds an acre for his lot; but as the prospects were known to be good, they have made a bargain the result of which is not at present known, and they are expecting the lot now. Several representatives of companies have been here and all express themselves satisfied with the general indications.

I told you in my last of a company having been formed here who had, or were about to purchase a lot; they have made a purchase of land of Mr. B. Cornell, who lives just outside the village, and have commenced work—but, being stopped by the weather, and have only got about two feet from the surface. The company consists of what they have seen, and having inspected the quartz myself, I think they have every reason to expect a successful issue to their undertaking. Another company has been formed here, and wrote to you; but where the land is that they are about to purchase, they have not thought it prudent to make known; but success to them say I, for it looks like business when people in the immediate neighborhood are not afraid to invest their capital, it shows to say the least, that gold seeking has honor in its own country.

My attention has been called to two useful articles, one an invention, and the other an improvement on an invention by Mr. George Wolfe of this place; the first is a miner's shanty, this is a very complete affair, it is movable, requires neither nails nor screws, but is grooved together, has a door and window, is twelve feet square inside measurement, and makes a very neat looking house, beds can be so arranged inside as to give four men separate sleeping places, and leave a space ten feet by twelve for cooking and other purposes; he tells me two men can put the house up in half an hour and take it down in less time; the whole building contains one thousand feet of inch lumber only, and the price is such as would induce any miner to become a purchaser.

The second is an improvement on the "Chinese Cradle," which consists of one strainer instead of two, and by arranging this one in a particular manner, he claims that it can be washed better and more effectively than the original, and with no possibility of loss.

I said in my last, that I heard there were some good prospects back of this—the daily reports go to strengthen the previous rumors, but I will defer saying any more till I have certain information on this subject. In my description of the village, I ought to have mentioned in addition to the factories I enumerated, the extensive cabinet manufactory, owned by Messrs. Frost Brothers, and the large iron foundry, belonging to Mr. Garrett, the machinery of these establishments is worked by steam power.

Should the weather prove favorable, the miners are expected to go to the surface with will, and then I hope to be able to report a "paying" show of the precious metal.

—The Buffalo "Commercial" tells the story of a man from the country, who called at a hardware store in that city, and after being shown a large assortment of saws, turned to the clerk, remarking, "my wife's patty sick, let me buy an even thing if she gets better, guess I'll eat it, but she'll eat it too, before I buy any axes."

can House, Front Street, Belleville.
May 2. 2D3m

The Bitterness of Falsehood.

A dying father once stretched out his hand
to his little white-headed boy, a youth of
seven years old, and said affectionately—
"My little boy, I am very sick, and wish
you to run down to Mr. B's, and get me the
medicine written on this paper."

The druggist's store was about half a mile
distant, but when the boy got there he found
it shut; and although Mr. B. lived but a
quarter of a mile off, he concluded not to go
and find him, but to return home. On his
way back he contrived what he should say,
and in doing so, called in the aid of falsehood.
At length he arrived. His father said—
"My son has got the medicine; I hope, for
I am in great pain."

The boy then replied to his father, who
thought little of what he was doing—
"No sir, Mr. B. says he has none."

The dying man answered—
"My little son, will then see his father suf-
fer much pain for want of that medicine? The
child went out of the room and wept
bitterly."

Soon after he was called back to take a fond
farewell of his best earthly friend; for the
little boy's mother was dead; and as the dy-
ing father told his son that in a few hours he
would be a fatherless orphan; that he must
make God his father; and love and obey him;
that he should always speak the truth, because
the eyes of God was always upon him; with
many other admonitions, accompanied by
prayer, it seemed as if the child would sink.
He felt so guilty. Sobbing, he rushed from
the bedside and wished he could die.

The dying man could speak no more, and
O how much that little boy would have given
to ask his father's forgiveness for the lie he
had so wickedly told him! O, how his heart
ached! He ran to the druggist's, got the
medicine, and rushed to the death-bed, some
crying—
"O here, father!" but he was hushed—his
father was dead. And the last time he ever
spoke to him was to tell him a lie. O bitter,
bitter falsehood! gall and wormwood are
sweet compared with thee!

Twelve years afterwards, and while at
college, this little boy, now a young man,
went to the grave of his father, and as he
stood over his tombstone he seemed to see
his pale face again, and to hear his voice.
Hear what he says—
"O, the thought of that sin cuts me to the
heart. It seems to me that worlds would
not be too much to give could I only call loud
enough to him to ask forgiveness. But it is
too late, and I must live and die weeping
over that falsehood."

The Sabbath a Loving Day.
"Mother, I suppose one reason why they
call the Sabbath a holy day is because it is
a loving day," said a little boy, as he stood by
his mother's side, and looked up into his
mother's face.
"Why, is not every day a loving day?" asked
his mother. "I love father, and father loves me,
and we both love you and the baby, every
day as well as Sunday."

"Well, but you have no time to tell us so
on week days," said the little boy. "You
have to work; and father has to go off early
to his work, and in a little while he comes
home!" but on Sunday he takes me to his
knee and tells me Bible stories; and we go to
God's house together; and oh, it is such a lov-
ing day!"

"Yes my child," said the father: "it is a
holy, loving day. God gave it to us in love,
that tired men might rest from their hard
work, and fathers, who see so little of their
children on other days, might teach them and
enjoy them on that day. God is love, and
Jesus Christ is love, and the Sabbath is a gift
of love."

Are there any parents whose duties will not
allow them to pay special attention to their
children on Sunday? The above question of
the little boy came a hint so suggestive of
what might be done to make children love the
Sabbath that earnest attention to it by pa-
rents would well repay them.

Power of Christianity.
So have I seen the sun with a little ray of
distant light challenge all the power of dark-
ness, and without violence and noise climb-
ing up the hill, hath made night so retired
that its memory was lost in the joys and
spiritualness of the morning. And Christi-
anity, without violence or armies, without
strength or human eloquence, without chal-
lenging of privileges or fighting against,
without alteration of government and scandal
of prices, with its humility and meekness,
with tolerations and patience, with obedience
and charity, with praying and dying, did in-
sensibly turn the world into Christian, and
persecution into victory.—Jerney Taylor.

A Fable.
A young man once picked up a sovereign
lying on the road. Ever afterwards, as he
walked along, he kept his eye steadfastly on
the ground, in hopes of finding another. And,
in the course of his long life, he did pick up
at different times, a good amount of gold and
silver. But all these discoveries he was looking
for them, he saw not that heaven was bright
above him, and nature beautiful around.
He never once allowed his eyes to look up
from the mud and dirt in which he sought
the treasure, and when he died a rich old
man, he only knew this fair earth of ours as
a dirty road to pick up money as you walk
along.

"For what do you wish at me, sir?" said
a beautiful young lady, elegantly dressed, at
a party, an evening or two since. "I beg
your pardon, madam," replied the other. "I
winked as men do, looking at the sun—your
splendor dazzled my eyes."

BY ATLANTIC CABLE.

NEW YORK, May 11th.—The *Herald's* London special says, The Fortress of Luxemburg will be evacuated by German troops and razed to the ground. No troops will be retained within the territory of Luxemburg except a force which may be necessary to maintain order and preserve peace. The pressure which was exerted on the plenipotentiaries in the Congress by the defiant attitude which the opposing Powers maintained towards each other, combined with the knowledge which the members had of the great war preparations which were being carried on the continent led to a very speedy action on the part of the confederate representatives.

In the House of Commons on the evening of the 9th, Lord Stanley congratulated the House and Country at large, on the fact that the good sense and moderation of the powers primarily interested as parties in the Luxemburg difficulty had the effect of arresting the unspeakable calamities which would ensue to the people from a European war. With respect to the part taken by Her Majesty's Government in the matter, the Cabinet acted in accordance with constitutional usages on their ministerial responsibility as the official advisers of the Crown and Sovereign, which responsibility as well as the reasons which induced them to undertake it, they were ready to vindicate in Parliament and before the country. The matter had become very critical, ministers were informed every moment by telegram and otherwise of the increasing gravity of the case, so that Lord Stanley would not take upon himself to postpone or delay an arbitrament desired by all the parties interested, and imposed on the Conference, when by so doing he would most likely prevent altogether the maturing and giving expression to the sentiment. With reference to the guarantee of the neutrality of Luxemburg he (Lord Stanley) regretted to observe that the House of Commons should show a susceptibility with regard to the action of the Cabinet. The members of the House were aware that England, and what was an uncommon occurrence, the remainder of the Great Powers who were parties to the Luxemburg and Belgio-Holland Treaty of the year 1839, had absolutely guaranteed the territory of Luxemburg to the King of Holland at that time. What the Government had now done was to adapt that guarantee to the present circumstances of the case and render it efficacious in view of the changes that had taken place in the Germanic Confederation. Ministers had not extended, but on the contrary had rather limited the guarantee incurred in 1839, and by that action contracted the responsibility which the country sustained under it. The present negotiations would be brought to a conclusion within the space of a few days, and then the whole of the papers connected with the proceedings of the London Peace Congress of 1867 would be laid before Parliament. Lord Stanley followed the close of Lord Stanley's speech.

During the close of the debate in the House of Commons on the Disraeli compromise amendment, Mr. Gladstone said, the Government bill was shallow, transparent and dissembling pretence of a measure for the restoration of the franchise, and he deplored of its even being made a good or beneficial one, by amendment in the House. Mr. John Bright delivered a speech in which he declared that the Derby bill was the most unjust and offensive measure ever submitted to the Commons of England.

Mr. Roebuck and Mr. Disraeli defended the Government bill and plan. The debate closed after the speech of the Chancellor of the exchequer.

Strangers were then excluded from the House and the division taken, when the doors were opened, it was declared the vote was for the Government bill thus:—For Government, 323, against 256. Majority for Government 67. The announcement of the result was read amid loud and protracted cheering from the Ministerial benches.

LONDON, May 10.—The Right Hon. S. H. Walpole, Home Secretary has resigned his position in the cabinet.

LONDON, May 10.—The Hon. Gathorne Hardy has been appointed Home Secretary in the place of Mr. Walpole, the Duke of Devonshire replaces Mr. Hardy as chairman of the poor law board.

LONDON, May 10, (evening).—The success of the Derby Government in the vote on the Reform Bill ensures its preservation.

The sentence of the convicted Fenian, Doran, has been commuted to a long term of imprisonment.

Earl Derby officially says the Government will not make public the real history of the recent Fenian uprising on account of apprehended troubles with certain foreign governments, which are involved in the plot. The treaty of the great powers on the Luxemburg question will be formally signed by the participants to-morrow.

PARIS, May 10.—The new Franco-American Telegraph Co., which proposes to lay an electric cable between Brest and Halifax, has been promised the support and assistance of the Imperial Government.

LIVERPOOL, May 10th.—Petroleum, 11d. per gallon for spirits and P. A.; 2s. 6d. for refined; ashes, pot 3s. 6d. cwt.; spirits turpentine 35s. 3d.; rosin, common Wilmington, 6s. 9d. fine American, 13s. per cwt.; tallow, 45s. 9d. clover seed, 57s.

LONDON, May 10th., (Evening).—Iron steady at 53s. per ton for Scotch pig. Oil quiet and unchanged; in prices Calcutta Lined Crude, 65s. per quarter.

LONDON, May 10, evening.—Consols closed steady at 92 for money; American securities closed at following quotations: 520's, 72½; 11 C. 76, Erie, 42½.

LIVERPOOL, May 10, evening.—Cotton active and closing firm—middling upland 11½; do Orleans 11½; sales of the day 30,000 bales. Breadstuffs closed easier. Barley, 4s. 9d. for 60 lbs. Oats, 3s. 1d. for 45 lbs. Wheat, 13s. 9d. for Western red, and 14s. 6d. for California White. Pease have declined to 43s. 6d. Provisions unchanged; Pork, 77s. 6d.; Beef, 12s. 6d. per bbl. Lard, 53s. per cwt. Bacon, 39s. Cheese, 60s. for middling American.

LONDON, (noon) May 11.—Consols 92½; Erie 45; 11 C. 76½; Bonds, 78. Sugar 24s. 3d. for No 12 Dutch Standard. All other articles unchanged.

LIVERPOOL, (noon) May 11.—Cotton quiet, at 11½d. for upland; 11½d. for Orleans; sales 11,000 bales. Breadstuffs quiet. Corn 43s. 6d.

American Despatches.

GOLDEN CITY.

SAN FRANCISCO, May 10.—The Steamer *Golden City* sailed for Panama to-day. She carried out \$1,072,000, also 11,656 barrels of flour.

THE FENIAN OUTRAGE.

NEW YORK, May 11.—The *Times* special says Sir Frederick Bruce has called our Governments attention to the Fenian outrage on the British schooner *Eden* at Cleveland. The United States District Attorney will prosecute the offenders for whatever crime they may be deemed guilty.

PURCHASE OF THE ISLAND OF ST. THOMAS.

NEW YORK, May 11.—Senator Doolittle was given authority to treat with Denmark for the purchase of the Island of St. Thomas while in Europe.

FROM OTTAWA.

OTTAWA, May 11th.

Parliament is further prorogued till the 25th of June. Discount on American invoices 26 per cent.

Hon. Mr. Cartier sailed on the 2nd and is expected home by the middle of next week.

FROM MONTREAL.

MONTREAL, May 11th.

Mr. Starnes, our Mayor, and several other gentlemen of all parties in politics are stirring themselves to get up a demonstration in favor of Cartier when he returns next week. Their efforts so far have been most successful. It is said the corporation will take lead in the display.

PERSONAL.—The Hon. A. Bryan, who has held various official positions in the United States, under Presidents Buchanan and Lincoln, paid our town a visit during this week, on his tour through Canada. He speaks in the highest terms of Canada and the Canadian people. He proposes visiting Montreal and other points of interest before returning home. Let us hope he may carry with him many pleasing recollections of his visit to this country.

THE EIGHT HOUR SYSTEM.—The strike on the part of the employed in Chicago, on account of the refusal of employers to accede to the demand made that a day's work should consist of eight hours only, is resulting in favor of the employers, who collected workmen from other places, and so many arrived that there was reason to fear the strikers would be permanently thrown out of employment, and to prevent this most of them have gone to work. The *Tribune* says the only place where work has not been resumed, are the Railway shops. This system of strikes never accomplishes any permanent good, but creates much dissatisfaction and loss to both workmen and employers.

Two Weights and two Measures.

Under this caption the *Intelligencer* and *Leader* are striving to make a virtual capital out of the fact that Mr. Greely said at the Convention that he would have preferred a Legislative Union, and intimate that he will "follow spang like or be driven where and whenever Mr. Brown pleases." Both the *Leader* and the *Intelligencer* know that this statement, during the past four years, has not echoed Mr. Brown, and they both make this statement when they have known that Mr. Greely, before his nomination said that "he would not be carried through the dust by any political party." Be truthful gentlemen.

So says the *Picton Times*, and we are glad to find that Mr. Greely has so soon after becoming a Candidate for the local legislature in Prince Edward, found it necessary to disavow any leanings to the Brown party. Let him continue this course, and he will soon find Mr. Brown's organ directing its thunderbolts at him.

We know well that the *Times* has been a constant opponent of Confederation from the beginning, and we know that Mr. Greely as the Editor of that Journal, stated that fact at the Reform Convention, and that he would prefer a Legislative to a Federal Union, thus echoing the sentiments of the Hon. John H. and Mr. C. Cameron; and that notwithstanding this the *Globe* accepts Mr. Greely as one worthy of support and countenance, in whom the future destinies of the New Dominion can safely be trusted, but opposes the election of the others though holding the same sentiments, as dangerous enemies to Confederation.

It was this point that we wished to point out, shewing the inconsistency and no-principle tactics of the *Globe*. Of this the *Times* has no cause of complaint. If Mr. Greely and the *Times* for the "past four years have not echoed Mr. Brown," it is to be regretted that in the fifth year they have returned to their old love, and are now following "spang like" the dicta of that journal, in endeavoring to establish a party cry without party principles and adopting a name without at the same time, informing the electors what it means, and what are the distinctive points which are to guide them in their future legislation. So far the following is complete. What does Mr. Greely mean by declaring, if he did so, and we accept the declaration, that "he would not be carried through the dust by any political party?" Are we to understand that he wishes to be considered what is styled an "independent member," eschewing both sides of the House? Or does he mean that he will support a coalition in future? Or that he is in favor of a continuance of the present coalition? Or in fact that he has no party, belongs to no party, and does not intend to be identified with any party? If any of these positions be his, why did he accept a nomination from what was called a Reform Convention, and declare his adhesion to that party name, though holding views diametrically opposed to those of the leaders of that party? The whole thing is a broad farce, for him to talk about not being "carried through the dust by any political party." We venture to predict, that if the electors of Prince Edward give him a four year lease of a seat in the Legislature of Ontario he will be as humble and docile a follower of the great Ontario as any man in the West; unless indeed we are to understand that the declaration of not being "carried through the dust by any political party" on the part of Mr. Greely, as an intimation that he intends to use the mighty and gigantic intellect with which he has been blessed, in the moulding and chiselling into shape a party of his own, of which he will become the wielding power in the State. If this be his meaning we admire his ambition, and shall be delighted to see him soar above his fellows, and leave in the shade the now aspiring aspirant for the dictatorship. We cannot help expressing our belief, however, that a much less praiseworthy object is in view. The electors of Prince Edward are not over and above fond of George Brown or his antecedents, hence the necessity of disowning him by Mr. Greely, until elected. This game has been played successfully before in that County, and no doubt it is thought can be again, but we mistake the character and honesty of the electors, if they are humbugged by any declaration on the part of Mr. Greely, that "he will not be carried through the dust by any political party." His acceptance of a nomination by purely one party, shows its absurdity. Mr. Ross, who declared himself always a Reformer at the same convention that nominated Absalom Greely, is also playing a little game in the same way, of which we may have a word to say hereafter, when it will be seen that he is not so immaculate he professes to be, but quite as tricky as similar politicians.

FROM MARMORA.

Hastings Drill Association.

Last night the adjourned meeting of this Association was held at the Armory of the 15th Battalion. The Minutes of the preceding meeting were read and in accordance therewith Col. Campbell, 15th Batt., was appointed President; and Lieut. Colonel Brown, 49th Batt., and Capt. Nunn, 3rd. Batt., G. T. R. B. Vice Presidents. Lieut. Crowther, G. T. R. B., was appointed Secretary. The following gentlemen were present, and from such a commencement we may well hope that the Association will be a great success:

15TH BATTALION.—Lieut. Col. Campbell, Lieut. Col. Sutherland, Major Wallbridge, Capt. and Adj. Hulme, Capt. Stephens, Capt. Wills, Capt. Holton, Lieut. Robertson, Lieut. L. Crozier.

49TH BATTALION.—Lieut. Col. Brown, Major Bowell, Capt. James, Capt. Hamblay, Ensign Carruthers.

3RD. BATTALION, G. T. R. B.—Capt. Nunn, Capt. Murphy, Lieut. Crowther, Ensign Hennessey.

MILITARY BOARD.—Mr. Terwilliger, Mr. Stevens, Mr. J. Thompson.

MILITARY SCHOOL.—Mr. E. Harrison, Mr. J. Crozier.

Steam Fire Engine.

Notice was given that the Steam Fire Engine "Moira," would be tested at 2 o'clock yesterday afternoon, under the supervision of Mr. L. Button, the manufacturer; but owing to the heavy wind that prevailed, it was considered advisable to postpone the trial until 5 o'clock, when the steamer was brought out, and at 20 minutes past 5 "fired up." Coal formerly purchased for the engine and pipe wood were used, and in nine minutes after the lighting of the fire, steam went up to 20 lbs., and in 15 minutes 50 lbs. of steam were raised, and the water propelled to the height of three stories, through 350 feet of hose. Mr. Button then put on all the pressure that the steamer could produce with the steam at 60 lbs., and threw water to the top of Mr. Vair's building, when the hose burst near the Engine and stopped, further experiments were abandoned. Mr. Button went before the Committee and stated his conclusions as follows: That he considered the coal an inferior quality, and would only produce an ordinary amount of steam, and could not keep it up beyond 50 lbs.; that for the purpose of testing the Engine he considered the coal as worthless. In view of these facts, and to give the Engine and Mr. Button every opportunity of testing her capacity, Mr. Robertson, Chairman of the Committee, directed Mr. Button to proceed to Toronto and procure the requisite coal, called the "Erie Kenel," and give the Steamer another trial on Monday. We understand that Mr. Button proceeded to Toronto by the 7:30 train last evening. It is still contended by practical parties that the Engine has no boiler surface sufficient to generate the proper quantity of steam; and by others, that it is wholly the fault of the fuel. Another trial with the proper quality of coal will decide these points.

FROM MARMORA.

From our own Correspondent.

Effect of opening the Richardson Mine—Gold and silver—How procured—Metals—Native productions—Exports and Imports—Rains interest—Emigration and British Capital.

MARMORA, May 6th, 1867.

The recent developments of the Richardson Mine, by putting the question concerning gold out of the region of doubt and of uncertainty, will act as a renewed stimulant to exploration, and will excite speculators to more intense activity.

It cannot be supposed that this is the only rich deposit of gold in that part of the country, for the operation of the same causes on the actions of the same material law, would produce very similar effects, no doubt, over a great extent of country. The discovery of such a rich deposit of gold by a mere accident must be followed by a succession of similar discoveries, as the result of well sustained efforts and researches, wherever outward appearances seem to warrant such an expectation.

The probability of possibility of obtaining, by some fortunate speculation, that which under ordinary circumstances could not be procured by the labor of a life, must exercise an overwhelming influence over the minds of hundreds and thousands of the community. Metals and minerals, being for the most part hidden from view, and belonging to the region of uncertainty as to their value, quantity and quality, must excite speculation and produce continual excitement, unknown to the common pursuits and ordinary prospects of mankind.

Our native productions, such as grain, lumber, potash, &c., are now supplemented in an extraordinary manner. The imports of this Province, hitherto continually falling to be in excess of its imports, will now (after a certain time) be decidedly in the

other side of the scale, and this great Northern Confederation, begin to possess a position of importance amongst the powers of the world. The want of capital, the high rate of interest on money, the high will now be in the way of raising a remedy from the operation of natural causes, or the supply of native productions. Emigration and British capital will now be induced or driven from former channels and from foreign investments of a more than doubtful character, and will find an outlet in the direction of the great Confederation of the Colonies of the Western Continent.

FROM BROOKLIN.

SPECIAL CORRESPONDENCE.

ONTARIO CONFERENCE.

Brooklin is again in a state of excitement, but not this time with small fever. For the information of your readers I may state that about three weeks ago the citizens of Brooklin were thrown into a state of wild excitement. As the first began to leave the ground a person discovered an oil spring in the banks of a little creek that runs through the village. The oil seemed very pure, and for a time flowed quite freely. Property began to rise in value, and men were rich in anticipation; but, *mirabile dictu*, wonderful to tell, when they dug and traced it to its source they found their way into the central portion, and here had been stored a barrel of oil, and it had leaked away and filtered through the ground and oozed out of the creek bank. Now the oil speculation is very dull.

But now, they have another kind of excitement, for here are upwards of a hundred black coats. Last Wednesday morning the Ontario Annual Conference of the Methodist Episcopal Church of Canada commenced its fifth session in the M. E. Church, Brooklin. Bishops Philander Smith, D. D., and James Richardson, D. D., preside alternately. Bishop Smith, who is the senior officer of the conference, is the increased force of infirmities. Not long will the good old Bishop remain below. Bishop Richardson, the loyal old warrior, looks still fresh and vigorous. Long may they live to serve their church.

This Ontario Conference was created about five years ago from parts of the old Bay Quinte and Niagara Conference. The bounds embrace the central portion of the Upper Province, being situated in the East at Belleville, and running West to Wellington Square, the division line running from there in a North-westerly direction until it reaches Lake Huron. The Conference is divided into three Districts, which again are divided into upwards of fifty Districts.

The ministers have come up to their usual gathering, looking very well and cheerful; death has not entered into the ranks the past year. The missionaries this year are looking well, rather better dressed than usual—this is a good sign of temporal and spiritual prosperity of the church and country.

The business of the Conference has passed off very well, the Conference funds and membership are increasing, and are very satisfactory. South Ontario, the people are certainly satisfied with the cooling Confederation. North Ontario has moved and had a convention, and selected their local Candidates.

Brooklin, May 11th, 1867.

For the Intelligencer.

ADDRESS OF THE EXERCISES DEGREE TEMPLE OF SOUTH HASTINGS, TO THE ELECTORS.

As we are about to enter upon a new era in our political history, we think the present a fitting time to address the public in reference to the character of those who are to represent us in our country, and to the manner in which we should elect them.

We contend that such representatives should be strictly sober men, and men who would assist in all proper legislation, by which the evils flowing from the use of alcoholic liquors, may be lessened.

The following may be given as some of the reasons for urging the friends of peace, sobriety, and government, to elect only such men to represent them:—

1st. We require sober men, because brains which at each pulsation receive streams of alcohol, cannot perform the mental labor required of them.

If we hesitate to employ drunken workmen to perform bodily labor, much more should we hesitate to employ drunken men to think for us, and to enact laws to bind us.

2nd. Because the County requires better laws in respect to the manufacture and sale of alcoholic liquors.

No man is fit to sit in the Legislatures of this Country who is not prepared to vote for every proper measure by which that traffic, which causes three-fourths of the pauperism and crime in our Country, may be decreased.

3rd. Economy requires such men. Drunken men are proverbial for lavishness, and wine is one of the most potent means of corruption; hence we want sober representatives.

Our Country requires the productive labor of its 10,000 habitual drunkards; their families require their earnings; their neighbors require the peace and security for which they now pay but do not get; hence we want a temperance legislation.

4th. Because the friends of whiskey are already organized under the name of the "Licensed Victuallers Association," for the avowed purpose of electing only such men as will pass measures to abolish even the restrictions by which they are now bound.

They demand that even the Sabbath shall be given to them, so that they may get in exchange for their vile drinks, the hard earnings which properly belongs to the drunkards family.

In conclusion dear friends, by the tavern-keepers themselves. Will you assist the rum-sellers in hunting their prey; or will you assist us in securing the peace, health, and good legislation. Let the polls decide.

—Capt. King, who lost his foot at Fort Erie, is said to be at the point of death.

—A party of Germans in Cleveland boarded a British schooner on Monday, and tore down her colors.

—Whipping has been gradually abolished in the schools of France, Prussia, Holland and Germany.

New Importations!

SYNOPSIS

GOLD MINING ACT OF 1864,

37 and 28 Vic. Chap. 9, and the

Gold Mining Amendment Act 1865,

29 Vic. Chap. 9.

THE Gold Mining Act of 1864 provides that Governor

in Council may erect Gold Mining Divisions.

Governor may appoint Officers for Divisions.

Two Divisions erected in Lower Canada: "Chaudiere

Gold Mining Division," Richard Pope, Esq., Gold Min-

ing Inspector, St. Francis de Bonaventure, and "St. Fran-

co Gold Mining Division," J. K. Gilman, Esq., Gold

Mining Inspector, Montreal, 16th July, 1864, amended

30th July, 1864 and 23rd Sept., 1865.

One Division erected in Upper Canada by Proclama-

tion, 3rd March, 1867: "Queen's Gold Mining Division,"

consisting of the Townships of Barrie, Clarendon, Pal-

merston, Miller and North and South, in the County of

Frontenac, the Townships in the County of Hastings,

consisting of the Townships of Millard and North,

the Townships in the County of Addington, situated

north of the Townships of Sheffield and Barrie, the

Townships in the County of Hastings, situated north

of the Townships of Sidney, Thurlow and Tyndburgh,

the Township of Peterborough situated north of the Township

of Lindsay, Alfred Argus Campbell, Esq., of Belleville

Inspector.

No person to mine without a license.

Two kinds of Crown Lands Gold License, "Gold License,"

"\$2 per month, for unworked Crown Lands, and the

other "Private Lands Gold License," \$1 per month, for

private lands, the user first obtaining consent of the

proprietor.

Crown Lands Gold License may state "gold work

claim on unworked Crown Lands as follows:

On a river or large creek, 20 feet front by 50 from the

water's edge. On small creeks, 40 by 50 from centre

of stream. In gully, 60 feet along same, and from hill

to hill. On surface or hill side, 60 feet square. In case of

hill tunnel, officer may grant larger claim. In bed of

river officer to determine size and position of claim.

QUARTZ MINES.

To each miner, 100 feet along lead by 100 on each side

of the lead. For companies, 25 feet additional

along lead for every additional miner, but not to

exceed 500 feet altogether.

Claims to be claimed by the officer, and to be laid out

in quadrilateral and rectangular shapes, horizontal, and

bounded under the surface by lines vertical to the hori-

zon.

Crown Lands licensee to work continuously and renew

license at one time.

No person to occupy more than one claim on Crown

Lands at one time.

Discoverer entitled to free license for one year in

maneuver provided by Act.

Party wants to be left between claims on Crown Lands,

party removing party wall to construct a new mode of

access to water.

Crown Lands licensee not to cause damage to others.

General use of water reserved opposite claim on

Crown Lands.

Registration of claim on Crown Lands temporarily

unworkable, allowed for \$1. Proviso: claim to be

marked.

Penalty provided for removal of stakes on claims.

All licensees to make returns.

Quartz crushing machines to be licensed. Fee \$5

per month. Books to be kept and returns furnished.

Act extends to parties mining near Gold Mining Di-

visions.

Sale of liquor prohibited except under license, monthly

fee, \$5.

EXCELSIOR!

OWING to the press of business in Pho-
tography, and the great demand of
my many friends and customers for the
PORCELAIN PICTURE,
the subscribers have engaged a
Foreign Artist,
especially for that branch of photography.
Feeling assured that he can excel any-
thing on the continent, they cordially invite
all who wish something far surpassing any-
thing they have yet seen, to give them a call.
P. N.—Rome opposite the Anglo-Ameri-
can House, Front Street, Belleville.
May 2. 2D-Wt

Charge of the Light Brigade,

New York, March 17th, 1867.
"A POKE" IN FOUR GASTOS.
By Alfred Tenny's son—the Post Laureate.

CANTO I.
Faintly pour trayeth how Patriotism is propa-
gated, also the Progress of Puffer-
ing Paglits; otherwise, the Charge of the
Blatant Blaguard Brigade, or how Ireland
was Liberated.

Half a square, half a square,
Half a square onward,
Straight for a whiskey shop
Dashed the Six Hundred;
Eye at a rapid rate,
Corn in a liquid state,
Into their gapping maws,
Fouled the Six Hundred;
"Charge it," quoth Captain Post;
"Charge it," echoed back the host.
"Roberts will pay the shot
For the 'soft corn' we got,"
Cried the Six Hundred.

Sheweth how out of "pure cussedness" and
"spelling for a fight," each fifty fennel
furiously fought forty, lightened foes, and
most metropolis multivulvered many med-
dling Metropolitans—the true oppressors of
Ireland.

Up from the whiskey den,
Six Hundred drunken men
Blathered and blundered;
"Be Gorras" to right, "Be Gorras,"
"Be Jerabers" to left of 'em,
Metropolitans front of 'em
Trembled and wondered
Savage the raid they made;
Blatant, Blaguard Brigade.
After the trembling "Met,"
Rushed the Six Hundred.

INTRODUCTION.
Mourish of Penny Whistles. Inter Horace
Greely, as chorus reciting an original
"Pome" entitled "Horatius Variations"
—(See N. Y. Tribune of the last four years)
—consisting of changes rung upon "Ire-
land's wrongs," "Fennias rights," "Make
me State Governor," "Echoes in the dis-
tance," "Wait till you get it," How are
Horras?" "Also, poor York!" Retirement
of Chorus in dignit.

CANTO III.
Touchingly telleth how those that thirsted for
glory, getting generally gutted, got glori-
ously gobbled by brass-buttoned bunglers
"bearing balloons"; that they thereupon trav-
elled to the Tomba, (Nora, at 222 Ponce-
Street) thereafter turned towards the town
turnpike to toil there, reading respectful
resolutions referring to recently retired Col.
Lynch and his staff, M. P. P.'s (Members
Provincial Penitentiary).

Fennias vanished at last;
And when the fight was past,
"Those that had tumbled
Calmly slept in the mud,
As all true heroes should,
Dreamed of their laurels won,
Muttered and mumbled.
Came Metropolitans,
Gathered the fallen ones
Of the Six Hundred;
Gobbled the gay brigade,
Blatant Blaguard Brigade
All that was left of the
Irish Republic
(Mighty Wickliffins!)
Scoured the Six Hundred.

CANTO IV.
Containeth the "More Ale" and sheweth that
too much ale is an ailment that causeth much
ailing. Also facetiously alludeth to a cer-
tain voracious river, and expatieth the
position of the "Polek" who sitting on a
stump and clapping his hands, cryeth,
"Seed 'em!" "Seed 'em!"
When will their black eyes fade?
When will the fens be paid
Of the less lucky ones
Of the Six Hundred?
A viper once, warned, they say,
But—let 'em bite, we say;
Bite every one of 'em,
"Atch," mother's son of 'em,
Till braggart Jonathan
Learns who his blundered.

Blunbrook, Isle of White. G. W. J.

High Salaries.
"I am afraid," said a very good member
of a Church to a ministerial friend, "that
those high salaries are going to injure the
ministry."
"Ah?" said the minister, "how much
did you give your minister twenty years
ago?"
"Four hundred and seventy-five dol-
lars."
"What did you charge him for wood
then?"
"A dollar and a half a cord," and drew
his wood every winter."
"How much would you charge him
now?"
"About six dollars."
"How much did you use to charge for
butter?"
"Why from ninepence to a shilling."
"How much would you ask now?"
"I should want fifty cents."
"That tells the story," said the minis-
ter; "a thousand dollars now is worth only
about four hundred dollars twenty years
since."

How ministers are to be injured by
doubling old salaries, even were it done,
it is difficult to see. Think of it, Church
members!

A Texas Judge writes that there will be
no court held in this county this spring,
because the Indians have stolen all the
horses, and lawyers and clients cannot pro-
cure conveyance.

TELEGRAPHIC NEWS!

THE PEACE CONFERENCE.

FRENCH, GERMANY, RUSSIA AND GREECE ARMING.

English Intervention.

MILITARY CONSCRIPTION IN GREECE.

MARKETS.

BY ATLANTIC CABLE.

LONDON, May 12.—The treaty which was signed yesterday by the members of the Peace Congress, has been ratified by their respective Governments. By the terms of the settlement, the Port of Luxembourg is to be vacated by the Prussians within a month from the date of treaty.

BERLIN, May 12.—The French Cabinet has made satisfactory explanations to Prussia in regard to recent warlike preparations in France.

New York, May 12.—A cable despatch to the *Mercantile*, dated May 11th, says: Notwithstanding the satisfactory solution of the Luxembourg question by treaty arrangement, fears are entertained and generally expressed that war has been only postponed by the work of the diplomatists. Warlike preparations are still actively carried on in France, Germany, Russia and Greece. It is said that before the close of the peace congress, a proposal is likely to be addressed by England to all Powers inclined to belligerent action, in which Queen Victoria will recommend and urge a general disarmament. Should this proposal be entertained, another Congress will probably assemble in London to second its formal adoption and uniform execution by all the great Powers; but it is thought that even this proposition will not be successful in securing the maintenance of peace.

The fourth military conscription during this year has been put in force in Greece, by which the Greek army has been increased thirty thousand men. The construction of the navy is also engaging serious consideration of the Greek Government. Large enrollments of seamen are now in process of completion.

A telegram from Berlin announces the death of Gov. Wright, on the 11th inst., of dropsy.

LONDON, May 12th, noon.—Consols opened 92; Erie 42½; Central Mt. 6½; S. & O. 7½; No. 12 Dutch standard sugar 24 3/4; Scotch pig iron 38½; Coal, Linsed 65; Linsed Oil 38; Sperrin oil 218½; Whale oil 420.

LIVERPOOL, May 13, 2 p.m.—Breadstuffs and Provisions unchanged.

Steamship *Dordrecht* from New Orleans, April 12th, has arrived here.

LONDON, May 13, 2 p.m.—No. 12 Dutch standard sugar 24 3/4; do other articles unchanged.

American Despatches.

FIRE.

New York, May 12.—The large Hat Factory of Double Day & Co., Mannerock, was burned a few days ago. Nearly a thousand persons were thrown out of employment.

CHICAGO MARKETS.

CHICAGO, May 11.—Flour firm but unchanged. Wheat, No. 1, nominal, 82½ to 83 1/2; No. 2, 82 1/2 to 83. Corn unsettled, opened at 81 1/2; No. 1, and declined to 81. Oats unsettled and dull at 65½. Rye firm and higher, Barley unchanged. Highwines dull and nominal. Provisions dull. Cattle firm and steady. Live Hogs active and firm at 60 to 60 1/2 for fair and good.

JEFF DAVIS IN RICHMOND.

RICHMOND, May 11th.—The crowd around the Spottwood House dispersed after vainly waiting to see Mr. Davis. This evening he received visits of nearly a hundred prominent citizens, there was no restraint on his movements and he has the liberty of the house.

RICHMOND, Va., May 12.—The following is generally understood to be the programme in court to-morrow. The prisoner will be produced by Gen. Purton, and the judges will discharge him, he will be immediately rearrested on a bench warrant, to answer to the indictment found by the Grand Jury at Norfolk. Mr. O'Connor's council, has stated to his friends that he will insist on immediate trial. Another of his counsel states that if the trial is not granted, a motion for bail will be insisted on. The general opinion is, no trial will take place now and perhaps not until June. Horace Greeley and A. Sechell of New York, and A. Welch, and Gen. Jackson of Philadelphia, are here to go bail. It is generally believed that Davis will be held in custody until his trial.

RICHMOND, May 12.—Jeff Davis has been admitted to bail in the sum of \$100,000. Horace Greeley, Augustus Schell and Judge Jackson of Pennsylvania, becoming bondsman.

Arrivals from Europe.

IRISH TENANT BILL.

FRENCH GRATITUDE.

QUEEN OF SPAIN SOLD HER JEWELS.

FRENCH PREPARATIONS FOR WAR.

PRUSSIA, TURKEY AND CANDIA.

FRENCH TERRITORIAL AGGRANDIZEMENT.

THE "TORNADO."

GALWAY STEAMERS TO BE SOLD.

Fenian Prisoners.

FRANCE ENCOURAGING THE SULTAN.

New York, May 12th.—The *Palmyra* from Liverpool, via Queenstown, and the *Harmonia* and *New York* have arrived.

The Irish land tenant Bill has been discussed at length in the British House of Commons. Mr. Gregory moved an amendment declaring that no bill of the kind could be acceptable, which did not provide for the adoption of a term of leases in Ireland.

Warm gratitude is expressed in French circles to Queen Victoria, whose personal intervention would prevent the great calamity of war; it would tend to draw closer bonds of unity between the two countries.

The Queen of Spain sold almost all her jewels in London. A single diamond watch and chain brought £24,000 sterling.

It is stated that France continues to prepare for war, and troops are arranged so that they can be concentrated almost immediately; but the organ generally favored peace.

The King of Prussia and Bismarck are expected to visit Paris after the close of the Prussian Chambers. The King's speech at the opening thereof, said they met to ratify the national unity.

Omar Pasha and another Turkish general were moving to surround the insurgents in Candia. It is reported that Rosa Binehr became tired.

Duke Grammont, the French minister at Vienna, stated to Baron Buns that France gives up all ideas of territorial aggrandizement.

Lord Stanley had expressed to the Spanish government, the satisfaction of England at the solution of the case of the *Tornado*.

The Galway line of steamers *Iberia*, *Columbia*, and *Anglo* are advertised for sale. Twelve Fenian prisoners were brought from Thurles, Tipperary, to Newgate, April 29th and lodged in jail for trial.

The *Invalide Russe* has an editorial on the Eastern question, hinting plainly that France with at least one other of the great powers secretly encourage the Sultan to despise the demands of the insurgents and disregard the counsels given on behalf of the Christians.

BARONETCY EXTINCT.—The only surviving member of the noble H. H. Lafontaine died at the St. Lawrence Hall, Montreal, on Friday, the 10th inst. He was only forty years old, and the title dies with him.

LINK OF STEAMERS.—It is stated that the Cabinet on Saturday last, sanctioned the establishment of a weekly line of steamers from Quebec to the Lower Provinces, which means, we suppose, that a subsidy will be given.

THE NEW SENATORS.—It is stated in the *Toronto Leader* on the authority of a telegram from Ottawa, that the names of the Senators for the Province of Ontario and Quebec, have been sent to England, by the Atlantic cable, for the Queen's approval.

MINERAL AND METALS.—To-day we publish the first of a series of letters on the metals and minerals of the rock townships by Mr. James T. Bell. From Mr. Bell's intimate acquaintance with his subject we anticipate that these letters will be useful to many of our readers and acceptable to all.

DES COTTON'S CALIFORNIA MINSTRILLA.—By reference to our advertising columns, it will be seen that the above mentioned troupe will appear at NEWMAN'S HALL on Tuesday EVENING, the 14th inst. The Hamilton Spectator, of the 4th, says:—The troupe is unquestionably the best that has ever visited our city; the jokes are free from vulgarity, the delineations of character exceedingly natural, and the dancing and songs are much above the average. The troupe will perform in Belleville but one night.

Mining Intelligence.

THE COOK FARM.

We have been informed upon reliable authority that on Thursday last Mr. Donald McGregor went to the Cook farm, lot No. 19, in the 2nd concession Madoc, to see whether gold could really be found in the Creek. He tried one pan full dug from out of the centre of the creek at the foot of a bluff, and on washing it, found from 50 to a 100 colors of gold.

DESPERADO MINE.

The Desperado mine on lot 19, in the 5th concession, is now being worked, the shaft is sunk some 20 feet, and we are told that every painful gush of gold.

GOLD IN TUDOR.

Mr. David A. Welch, formerly of this town, now of Ottawa, informs us, that he took last week from his lot in the 6th concession of Tudor, a substantial show of gold, ore of the specimens being a nugget weighing nearly one pennyweight. The gold has been assayed by Mr. J. T. Bell and found to be of fine quality. It was within four feet of the surface. Mr. Welch has already sold one claim to Mr. E. Miles of Ottawa for \$50.

LOT NO. 28, 2ND CONCESSION MADOC.

We have been shown some sand taken from a creek on Lot No. 28, 2nd concession of Madoc, by Mr. Wm. Foot and D. Anderson of Quebec, from which we picked a number of colors, which were pronounced good gold by Mr. McFee, Jeweler; since which Mr. J. T. Bell has assayed the sand, and found one grain of gold in one ounce of sand.

Mineralogy.

NUMBER I.

To the Editor of the Daily Intelligencer.

SIR,—As the chief interest of the community, both in town and country, centres at present in the gold mines of the North Riding, I have thought that it would not be inappropriate to the time, or unacceptable to yourself or your numerous readers, to give you a few loose notes on the mineralogy characteristic of the district, so far as I have yet ascertained them, and from time to time as I have the opportunity of making myself more thoroughly acquainted with its leading features; more especially with respect to the metallic ores, and minerals which have such an economic value as to render their pursuit a profitable occupation.

I shall not attempt to convince those persons who still disbelieve, or pretend to disbelieve the existence of a rich gold mining country in our rear townships, but merely say in passing to those who are honest in their disbelief.

"Where ignorance is bliss, 'Tis folly to be wise."

To those who from envy or any other cause, wilfully reject the evidence which meets a candid person at every turn, and loudly proclaim their conviction that the whole affair is an imposition, "a gigantic swindle," I would say that they surely do not consider how much the mischievous absurdity of their conduct might injure their own prospects and circumstances as well as those of their neighbors, were the facts which they pretend to dispute not too well established to be shaken or obscured by their breath. To both classes of doubters, I would also say, that it is an unhappy circumstance that can travel from Dan to Beersheba, and then cry "all is barren."

Expressing at the same time my own deliberate opinion, that as yet no one has the most remote idea of the actual riches which are a waiting their development within a circle of some 50 miles in diameter, which Madoc, Elzevir, Tudor, etc., may be taken as the central portion. I shall proceed with my "loose notes" without further preamble or delay.

Gold, being at once the chief object of research, and the most valuable of the metals, is entitled to the first notice; and as I have daily proof in the various substances which are submitted to me for assay or for my "opinion," that many persons are engaged in searching for gold who do not know that metal when they see it, I shall begin by teaching the unpractised miner who may read these notes, how to distinguish "the real stuff," should he be fortunate enough to find it.

When a miner, then, finds a piece of bright yellow metallic substance, resembling gold in his opinion, let him lay it upon a piece of iron or steel, the handle of his crow-bar, or the face of his pickaxe, and strike it with a smart blow with a hammer. If it breaks to pieces it is not gold; but if it flattens out without breaking, it has stood the first test, it is *maluable*.

Let him then apply the edge of his knife to the side of the metal, and if he can cut it as he can cut a piece of the rim of a silver coin, but rather more easily, and the piece cut off does not crumble, it has stood the second test, it is *ductile*.

Let him then drop a small quantity of nitric acid (aqua fortis) upon the metal. If it is base, the surface will in a few seconds turn green, and small bubbles of gas will begin to rise through the liquid, but if it is "real gold," the acid will have no more effect than on so much water, and it has stood the third test, and its character may be considered as fully established.

In my next, I shall treat of what are commonly called "indications of gold."

Yours, etc. JAMES T. BELL.

Belleville, May 13th, 1867.

Out at Night.

For The Daily Intelligencer.

On my way home a few evenings ago my attention was attracted by a noise which I heard in the vicinity of the Lower Bridge, and when I reached there was much surprised at seeing a bunch of five or six persons whose attention was apparently absorbed in looking at a brace of coddgers, whose tempers were getting "the better of their judgment." Having a prying curiosity to ascertain the cause of the squabble and not wishing to be seen, I, as the saying is in Ireland do—I do not mean those of the human species but the quadruped—backed up into the doorway of Mr. Pretty's shop for concealment and shelter from the night wind to watch what was going on and might happen, thinking as I did, that so much powder would not be expended, without having somebody *kill*. And what do you think I saw just as you could say "Jack Robinson" the right arm of one of the coddgers was propelled with such force by that portion of his body which stands at right angles therewith when it is in an outstretched position, that it came accidentally in contact with the nasal organ of the other coddger and down he came like a pan-cake on mother earth—on, but on the side-walk, making such an indentation there-in—he being heavy and the board on which he fell rotten, that an old lady coming along shortly afterwards, unfortunately happening to step on the identical plank, it gave way, spraining her ankle very badly. The jokers looking on thought it time to interpose, and having placed their "cane" on their respective heads, and assuming the slaughter that might ensue if they were allowed to remain in "battle array," advised them to strike for their homes and their liberties, their lives and their families—if they have any such luxury as the latter—we have heard and read of the battle of "Bull's Run," but it was not a patch compared with this so far as speed is concerned. When they reached their respective homes—which are about half a mile apart—the slaughter that might ensue if they were allowed to remain in "battle array," advised them to strike for their homes and their liberties, their lives and their families—

one got possession of an old fuse which his Great Grand Father used in 1812, and which has not seen day-light since, and the other of an old cavalry pistol, but as they could not discern one another, and no other person being worth powder and shot, they fired them in the air and got "knock, ed into a cocked hat for their pains," the fire-arms like themselves being rebellious and disposed to kick. The next day I saw the two coddgers together as loving as Turtle Doves. It is beside my purpose to tell what they quarreled about, but there must have been cause, otherwise they would not do so unless for a bit of *diversion*. I laughed myself flat and was very glad that the quarrel did not result in having Coroner's run themselves out of breath next morning at day-break, thereby, resulting in many instances in heart disease—a disease to which young ladies and gentlemen as well as soldiers are very subject. I am told that a legal question is likely to arise as to who is responsible to the old lady for the injury she has sustained. It will be argued no doubt that it was he who broke the plank by falling thereon, but the other lady actually walked over the plank, and if it were not for the right arm of his friend he would not have fallen, while the Town Fathers be sued, my friend Mr. Grant, who will be called as a witness will say that due and proper diligence were used in keeping the plank of the Town in proper repair, that the lumber was sound and nails the length of a harrow tooth used to hold it.

Q IN A CORNER.

May 10th, 1867.

Active Military Preparations in France.

Paris (April 24) correspondence of the London Times.

There is now no doubt of the extensive war preparations by the French Government, in spite of all denials to the contrary, official and semi-official. I heard yesterday, from an officer of high rank, that twenty battalions of Chasseurs, and the whole of the Infantry of two corps *d'armee* are actually armed with the Chassepot (or, as the men love to call it, the *Pierpont*) musket. As this weapon is said by competent judges to be superior in every respect to the Prussian needle-gun, and as the men seem convinced of the fact, there is no fear of any panicking on that score. The commands are said to be tactically arranged, in case of the worst; the Emperor, it is said, will take the Command-in-Chief, with Count Palikao (Gen. Montauban) for his Major-General, and Marshals McMahon and Bazaine are, as might be expected, to have important positions. It is certain that the war spirit is beginning to pervade the troops, who have learnt to hate the Prussians more than any other enemy they ever came in contact with. A change, too, seem to be gradually coming over the population—the masses and the population of Paris. It is a great advance when we hear them say the Emperor is in the right when he insists not on the annexation of Luxembourg, but on its evacuation by the Prussians. The visit of Prince Napoleon to Prangins, his seat in the Canton of Yverdun, and which the *Moniteur* announces in rather an unusual manner, is supposed to mean something political—in fact, that he is to meet there, or in some other place near the Italian frontier, an agent of the Italian Government.

Letters from Toulon mention that the engagement of volunteers for the crews of the fleet, which has now been provisionally suspended, has now been re-established, and on most favourable conditions by Ministerial instructions, which order that, no great rigour should be exercised in selecting willing young men who may present themselves. It is hoped by this measure to man the ships without having recourse to any levy of the seamen on the maritime inscription, who would in that case be reserved for cases of urgency.

Life in San Francisco.

The following is a translation of an article by J. S. Hittell, published in Philby Jacoby's "San Francisco German Almanac" for 1867.

SAN FRANCISCO, styled figuratively the Golden City, has a population of one hundred and twenty thousand. The people are mostly Americans by birth, but there are also many French-Americans, Spaniards, Italians, Spanish-Americans, Scandinavians, Dalmatians and Chinese. There are French, German, Italian and Spanish newspapers: French German and Chinese Churches; and French, German and Chinese theological companies, which perform occasionally. The religion in which public services are generally held are Jewish, Buddhist, Catholic, Protestant and Spiritualists. If the rites of the Mohammedan, Mormon or Pagan worship are celebrated, the fact is not generally known.

In the matter of public amusement the city is destined to be one of the most favored. The mild winter and cool summers are favorable to out door life. The people spend much of their time in the open air. Processions, picnics, excursions and public displays are frequent. There is a fair throughout the year. Two theatres are open almost constantly, and we have an opera every day, besides numerous concerts and lectures. Those who wish to go out in a buggy usually drive to the Golden Gate beach, on a romantic road, over the hills west of the city. The chief summer resorts are the various towns and warm springs of the valley near the bay, the Geysers, the Big Trees, Yosemite and Santa Cruz.

The number, however, of those who come to San Francisco for pleasure is much greater than those who leave it. Every body who lives on the Pacific slope is in fact a home in this city, or at least to spend some time here. The miner who has made a successful strike, the farmer who has had a golden crop, the lawyer who has accumulated a nice property by practice in the interior, looks forward to the day when he can enjoy the fruits of his labour in the metropolis of the Pacific. There is a multitude, a variety, and a rapid succession of entertainments of every kind in any city of the New World save New York. The most costly productions and the greatest delicacies of all quarters of the globe are here collected. Montgomery street, although shorter than Broadway, is not less brilliant. Our hotels are palatial in size, furniture, cost and management. When we see city not yet out of her teens rivaling in luxuries the capitals of Europe, what grandeur may we not expect for her mature years?

There are a vast number of benevolent and social associations in this city. There is no almshouse in the city, or for that matter none in the State.

San Francisco is, in proportion to its size, the busiest seaport in the world. No other city twice its size has so large a foreign trade. The annual exports are about \$70,000,000; the imports nearly as much; the manufactures are worth nearly \$20,000,000; the real estate sales amount to about \$12,000,000, and the value of the land, buildings and movable property of the city is about \$300,000,000, although assessed for taxation at only \$80,000,000. We send away about forty tons of silver and six tons of gold every month—the former metal in bars fitted for export, and the latter in small bags about six inches long, three inches wide and two inches thick. Wagons loaded with precious metals are seen in the streets every day.

The profit of merchants and the wages of mechanics and laborers are high. The general style of living is luxurious. Travelers have observed that in no place do the mass of the people live in more comfort than in San Francisco. Miser's habits are very rare, and even prudent regard for the future is not so common as it should be. One of the evidences of the common extravagance is observed in the fact that many persons refuse to take any care of their bodies. Half-dimms, which are the smallest coins in use, are less prized here even by the poorest than cents are in New York. The draymen carry gold watches; the washerwoman dresses in silks; the chambermaid is unhappy if her bonnet is not of the latest Parisian fashion.

EXTRAORDINARY RITUALISTIC FUNERAL IN LONDON.

The Rev. Warwick Reed Wroth, incumbent of St. Philip's, Clerkenwell, for about twelve years, was buried at Highgate with great Ritualistic pomp under the auspices of the "Provost and Guild of St. Albans." The body left Mr. Wroth's house for the church at ten o'clock. At the church the body was met by the choir, and the procession was headed by a cross-bearer, the choir each having a crape scarf over the surplice; then came the clergy, two and two, followed by the three officiating priests and the mourners. The funeral service was preached by the Rev. A. B. Mackenzie, incumbent of St. Albans, Holborn. During the preliminary service the coffin was in the centre of the chancel, three lights burning on either side of it, pots of beautiful flowers laid round it, wreaths laid on it. The coffin was of polished oak, with coped top, and a large cross extending the whole length. Over the coffin was a handsome violet pall, with a white cross over the length and breadth of it, and rich borders embroidered with white silk. The incumbent's staff was hung in black, decorated with flowers. English paper.

A California story tells of a man who resolved to quit drinking, and went to a notary to get him to draw up an affidavit to that effect. The document was drawn, read, and proved, the party held up his hand and murmured the usual "help me." It was properly sealed and delivered. "What's to pay?" asked the notary. "To pay to pay?" exclaimed the party; "nothing of course—this is a labor of love." "Nothing to pay?" returned the notary, but very grateful, "You're a wick. Let's take a drink!"

New Importations!

SYNOPSIS

GOLD MINING ACT OF 1864,

27 and 28 Vic. Chap. 9. and the

Gold Mining Amendment Act 1865,

29 Vic. Chap. 9.

THE Gold Mining Act of 1864 provides that Governor
 in Council may appoint Officers for Divisions.

Two Divisions erected in Lower Canada: "Chaudiere
 Gold Mining Division," Richard Pope, Esq., Gold Min-
 ing Inspector, St. Francis de la Prairie, and "St. Fran-
 cis Gold Mining Division," J. K. Tinnam, Esq., Gold
 Mining Inspector, St. Francis, 16th July, 1864, amended
 28th July, 1864 and 23rd Sept. 1865.

One Division erected in Upper Canada by Proclama-
 tion, 21st March, 1867: "Quartz Gold Mining Division,"

constituting the Township of Barrie, Carleton Place,
 Milverton, and North and South Canaan, in the
 County of Frontenac; the Township in the County of
 Renfrew, situated in the Township of Mallett, in the
 County of Hastings; the Township in the County of
 Hastings, situated in the Township of Addington,
 situated north of the Township of Addington, in the
 Township of Sarnia, Thurlow and Tyndal, in the
 Township of Sarnia, Thurlow and Tyndal, in the
 County of Peterborough situated north of the Township
 of Belmont, Alfred Argyle Campbell, Esq., of Belleville
 Inspector.

No person to mine without a license.

Two kinds of licenses, one for Crown Lands Li-
 censes, at \$2 per month, for the whole Crown Lands, and
 the other Private Lands Gold License, at \$1 per month, for
 private lands, to be issued on first obtaining consent of the
 proprietor.

Crown Lands Gold License may stake 5000 work
 claim on unoccupied Crown Lands as follows:

ALLUVIAL MINES.

On a river or large creek, 20 feet front by 50 from the
 water's edge. On small creeks, 40 by 50 from centre
 of stream. In gulch, 60 feet along same and from hill
 to hill. On surface or hill side, 60 feet square. In case of
 hill tunnel, officer may grant larger claim. In bed of
 river officer to determine size and position of claim.

QUARTZ MINES.

To each miner, 100 feet along lead by 100 on each side
 from the centre of the lead. For companies, 25 feet ad-
 ditional, along lead for every additional miner, but not to
 exceed 500 feet altogether.

Claims to be classed by the officer, and to be laid out
 in quadrants and rectangular areas, and to be bound
 and staked under the surface by lines vertical to the hori-
 zon.

Crown Lands license to work continuously and renew
 license.

Persons to occupy more than one claim on Crown
 Lands at one time.

Discoveries entitled to free license for one year in
 manner provided by Act.

Party wishing to be free license on Crown Lands,
 party removing party wish to construct a new mode of
 work to work.

Crown Lands license not to cause damage to others.

General use of water reserved opposite claim on
 Crown Lands.

Registration of claim on Crown Lands temporarily
 unworkable, allowed for \$1. Provision: claim to be
 marked.

Penalty provided for removal of stakes on claims.

All licenses to make returns.

Quartz crushing machines to be licensed. For \$5
 per month. Books to be kept and returned.

Act extends to parties mining near Gold Mining Di-
 vision.

Sale of liquor prohibited except under license, month-
 ly fee, \$5.

Provisions made for appointment of constables and
 policemen, and for preservation of game.

Persons working under Gold Mining Patents to furnish
 returns and pay royalty, &c. (only one such patent
 exists, viz.: for the Township of Renfrew, and the
 Chaudiere—none of the Divisions erected, and royalty
 since constituted to fees under Gold Mining Act).

Governor in Council may make regulations.

Officers may convey on view.

THE GOLD MINING AMENDMENT ACT OF 1865.

Repeals clause in Gold Mining Act of 1864, providing
 that no license fee shall be exacted for exploring for
 gold until the precious metal is discovered.

Enacts that Tavern License provision in previous Act
 may be applied to territory covered by Mining Patents.

And that disputes between miners and miners' officers,
 in Gold Mining Division, may be determined by officer
 of division.

INFERIOR METALS AND SALE OF MINERAL
 LANDS.

The following are the Regulations:—

DEPARTMENT OF CROWN LANDS.

Ottawa, 12th July, 1866.

REGULATIONS for the sale of Mineral Lands ap-
 proved by His Excellency the Governor General in
 Council.

1. That each regular mining tract in unsurveyed ter-
 ritory shall consist of blocks of two hundred or four hun-
 dred acres.

2. That the dimensions of each regular mining tract of
 four hundred acres be forty chains in front by one hun-
 dred chains in depth, smaller tracts, except on lake-
 and rivers, in the same proportion. The bearings of the
 outlines to be North and South, and East and West ac-
 cording to the true meridian, or the meridian of the
 Township, and parallel to the outlines of the Township
 wherever.

3. That mining tracts bordering upon lakes and rivers
 shall have their frontage upon such waters, and shall be
 subject in all cases to the public rights in navigable or
 floatable waters; and that mining tracts, so situated,
 shall have a mean depth of one hundred chains back
 from such river or lake, (exclusive of road allowance or
 of chain in width, which shall be reserved along the
 margin of such river or lake) in conformity with the
 above mentioned bearings.

4. That mining tracts in unsurveyed territory shall be
 surveyed by a Provincial Land Surveyor, and con-
 sidered to be laid down on the office maps of the
 territory at the cost of the applicants, who shall be re-
 quired to furnish with their application the surveyor's
 plan, field notes and descriptions thereof in accordance
 with the foregoing regulations, and to pay the cost of the
 Department, and pay the price of one dollar per
 acre, into the Department of Crown Lands at the time of
 making application.

5. That in surveyed townships, lots presenting indica-
 tions of minerals be sold on the above conditions, but
 not less than one dollar per acre in any township, and at
 the same price as each lot of gold and silver, and if
 it is more than one dollar per acre.

6. That mining lands in surveyed townships be sold
 by the local agents of gold and silver, and to the
 territory shall be sold by the department.

7. The above regulations do not apply to mines of gold
 and silver.

GOLD AND SILVER.

8. That in selling the lands in the gold mining division
 the Government shall discriminate as far as possible
 between purchasers for actual settlement, bona fide, and
 those for mining or speculative purposes; selling to the
 former for the present price and terms (subject to an
 increase to \$2 1/2 per acre, under the order of 8th August,
 1864, where actually worked for gold and silver, and to
 for one dollar an acre, cash.

9. That in all letters Patent for lands, the clause re-
 serving all mines of gold and silver be retained.

10. All previous regulations inconsistent with the
 above are cancelled.

The Fenian Outbreak.

"General" Massey Turned Informer.—
Extraordinary Disclosures of the Fenian
Ramifications.

According to "General" Massey, who has
turned informer, the Fenian conspiracy in
Ireland forms but part of a more general
organization, extending not only to Amer-
ica but over the whole of Europe. Massey,
who failed on his last rising, appears to
have thought it better to become an infor-
mer and from the high position he held in Fen-
ian circles, has been able to impart most
valuable information concerning the great
secret of the conspiracy. "General" Massey
was the principal witness for the Crown before the
grand jury, he gave what, if it be true, is
considered most important information,
which would tend to the belief that Fenian-
ism has received encouragement from sev-
eral parts of the continent. The Crown
have also been put in possession of what are
alleged by him to facts relative to the part
taken by some of the rising, appear to be
in the United States assisting the society.—
He has been removed to comfortable quar-
ters while the detectives are engaged in-
quiring into matters sworn to by him. His
evidence is expected to be surprising, and
it is likely that the list of prisoners will be
enlarged.

THE ESCAPE OF KIRWAN.
No trace of Kirwan has been discovered.
The policeman who had charge of the pris-
oner had been promised a draught by the
resident pupil on the previous day, and
when he went into the ward he saw a wo-
man rekindling the fire. He then went out
again, shutting the door behind him. Kir-
wan immediately requested the woman to
leave the room, which she did. A few
minutes after his escape was discovered.

By an almost accidental circumstance
Kelly, who had charge of Kirwan on the
night of his escape from the Meath Hospital,
has been identified as a person who had
been in the habit of attending Fenian meet-
ings in Dublin. He is the first member
of the constabulary force against whom a
charge of Fenianism has been brought. All
the untold prisoners in Kilmalmain Gaol,
where Kelly was confined, were paraded
before an informer, with a view to having
an individual charged with attempting to
seduce soldiers, identified. The object for
which he was brought was not gained, but
he pointed out Kelly as one who had at-
tended several meetings of Fenians with
him. This led to a close examination
Upon the evidence of this witness the pris-
oner, who had been in custody on suspicion
of having assisted Kirwan, has been
remanded on a charge of complicity in the
movement.

THE RUSS OF INFORMERS TO GIVE EVIDENCE.
The Irish-Americans who lately came
over with the intention of fomenting treas-
on, by force, a little surprised when a copy
of the evidence to be used against them is
given them. They could hardly have be-
lieved that some who had come over with
them, and took part in the Fenian meetings
held, but a day prior to the movement,
would have been the first to betray them.
One of these Joyce, was brought up charged
on the information of a person who came
over from America with him, with being a
member of the Brotherhood, and having
combined to levy war against the Queen.
Joyce was in custody of one of the detec-
tives. The informer gives his name as
Lieutenant J. J. Cullen, of the Federal Army.
Cullen occupied a seat under the bench,
and appeared perfectly indifferent to the
gaze of those whose curiosity was excited by
his presence. Several times he complained
of the treatment he was at present receiving,
and of the character of the food supplied
to him. When paid last July, the witness box
he verified his information respecting the
prisoner. All the Fenian informers have
been brought to Dublin to have their evi-
dence prepared for the commission. But
the Government now feels a difficulty in
dealing with the number of informers that
are so rapidly coming forward, and they
will be obliged to decline the services of a
great many, for it has turned out that in
their eagerness to save themselves they have
sworn too much, and the police have re-
commended that they be sent back to their
prison cells. It is now stated that the chief
informer, Massey, is none other than Patrick
Corcoran, who held the rank of colonel in
the Federal army.

THE INDICTMENT AGAINST THE PRISONERS.
Those prisoners whose connection with
the conspiracy dates from the earlier part
of its existence, are likely to be the first ar-
raigned. General Burke, Captain McCafferty,
Edward Duffy, and Flood, will be amongst
these, and fourteen others will be indicted
for having conspired last July and since, to
depose the Queen. The overt acts consist
of consultations, agreements, and plans
entered into with Stephens, O'Mahony,
Kelly, Doran, Kilbride, Gordon, McTear,
and a host of other Fenians, some of whom
made their appearance in Ireland last
month, and are now in custody. It is
charged that they assembled a large number
of traitors at Clonsilla, and having armed
whereby they might effect their purpose.
The remaining over acts relate to the ar-
med assemblage at Tallaght, to commit a
cruel slaughter of the faithful subjects of
Her Majesty to the assault of the police.

barrack of Glenoulen; to the "warlike attack" on that of St. Stephen; to the attacks on the barracks, and to the insurrectionary tumult in Drogheda. All these occurrences are made acts, of the originators, of the conspiracy, and evidence of a purpose traitorously to wage war upon the constables and soldiers of the Queen. One of the counts alleges that they met and consulted to seduce the subjects and troops of Her Majesty. They formed plans, and made arrangements as to times and places, when and where they should attack and did draw up and array themselves in a warlike manner, to destroy the constitution and government of the realm. In sustenance of these allegations there is a list of nearly 200 witnesses.

FENIAN PRIVATEER.

NEW YORK, May 13.—The *Evening Express* intelligence is anxiously awaited by enthusiastic members of the Fenian Brotherhood from a steamship rumored to have sailed from this port a fortnight ago, with a full crew, all well armed, for the purpose of harassing British commerce.

JEFF DAVIS WELCOMED BY NEGROES—HE IS TO VISIT CANADA.

RICHMOND, Virginia, May 14th.—Mr. Jefferson Davis came out of the Court House and entered a carriage after his release. There was a loud cheer from a crowd of negroes, and about fifty gathered and shook hands with him. He will visit Canada in a day or two to see his children.

It is stated that the Grand Jury indicted Jno. C. Breckenridge, Judge H. W. Thomas, and four others for treason.

The following telegram was received by Judge Underwood in Court Room to-day, a short time before he admitted Davis to bail:—"WASHINGTON, May 13th. To Judge Underwood. Beware of Grevelly. Remember Libby Prison, Andersonville, and Bell Isle. Fifty millions are looking on and expect you to do your duty, while three hundred thousand graves cry out aloud for revenge. Signed, YOUR FRIEND."

Jefferson Davis on his release telegraphed to his brother, Joseph C. Davis, in Mississippi, the fact, and informed him he would write from New York. Davis and family went on board the steamer *Nagara* to-night; she sails for New York to-morrow. He goes thence to Canada.

FORTRESS MONROE, May 14.—The reception of the intelligence of Norfolk yesterday of the action of Judge Underwood in bailing Jeff Davis occasioned great congratulations. News paper offices were crowded with persons eager to obtain particulars.

NEW YORK, May 14.—The *Herald's* Havana correspondence says the situation of the Banks was worse than in April.

The ship *Ocean Hawk* had been given up to the Government, the authorities insisting on her payment of a fine of \$12,000.

A number of discharged officers and soldiers of the Spanish army shipped for Vera Cruz, most of them going to Mexico to take service under Maximilian's government.

THE HARBOR.—The steamer *Bruce* tried the drag in the harbor, but was unable to make it worth the satisfaction of the Committee. It is quite evident that to clean the harbor effectually, a dredge is required.

The Raid on the Richardson Mine.

Some of our exchanges, among them the *Hamilton Times*, and *Toronto Leader*, have insinuated that the raid upon the Richardson mine, a full description of which we gave at the time, was a preconcerted and prearranged trick, on the part of those interested to nullify the community into the belief that the mine was much richer than it really is, and that the whole affair was done in the interest of speculators. The absurdity of such a supposition is too transparent to require a denial. The parties most interested in this mine are Messrs. Lombard & Hardin on the one side, and a Belleville company on the other, both of whom are sparing neither time nor means to secure this mine. Is it at all likely that two parties would be fighting a Chancery suit, with at least ten lawyers under pay, merely for the pleasure of losing their money, each threatening to carry the suit to the Privy Council. If a swindling speculation were contemplated as is insinuated, it might be accomplished at a much less cost to the interested parties. The secrecy with which those barrels were taken, the close watch that was kept on every movement, and the expense which has been incurred to secure them by both parties, is evidence incontrovertible that there is no collusion. If there were, the whole thing might have been accomplished at much less trouble, and without expending a dozen lawyers, and incurring the expenditure which such a course necessarily involves. If there were no other evidence to prove the honesty of the parties engaged, this latter fact alone should be sufficient.

Whatever the *Leader* may think of the raid, it is compelled to admit that gold really exists in Madoc. On the 13th it says: "Within the past few weeks many emigrants and others having applied to Mr. Donaldson, the emigration agent in this city, for information relative to the character of the golden region of Madoc, that gentleman determined to visit Madoc in order to make a personal inspection. He returned on Saturday last bringing with him several specimens of gold quartz, and the residue of a pan of earth taken from a shaft situated about eight miles from the Richardson mine, in which there were fine specimens of gold. This pan, which was taken from a shaft now being sunk by Messrs. McQuarrie and Johnson, contained many small particles of the precious metal. Mr. Donaldson, however, is unable to say whether gold can be obtained in paying quantities, as he had not sufficient time to make a thorough examination of the mines that are being opened."

From the Maritime Provinces.

Our exchanges from the maritime Provinces furnish several items of interesting news.

DOUBLE SEATS IN NEW BRUNSWICK.

In Nova Scotia the Parliament has passed a Bill, prohibiting members of the House of Commons from holding seats in the Local Legislature, and *vice versa*. The question is now being agitated in New Brunswick, and the *St. John's News* writes strongly in favor of the principle, and against what it terms "political pluralists." The strongest argument advanced is the fact that the two legislatures might possibly meet at the same time, and that the local and sectional views which would necessarily be inculcated and practiced in a local parliament would unfit the member, for the higher sphere of legislating for the whole Dominion, and that the time required for both positions would be greater than most men would be willing to give. There is much "force" in these objections, particularly the latter. In a new country like this, where we have so few whose business relations would justify the giving of their whole time to politics, it is but reasonable to suppose that the interests of the Local, or those of the Dominion would be neglected. On the other hand, the exclusion of our best men from the local legislature would prove an incalculable loss to all the Provinces, particularly at the present moment, when the best and most practical minds are required to set the different parts of this great machinery at work.

NEW BRUNSWICK SENATORS.

The *St. John's*, New Brunswick *News*, publishes a new list of names, which it says it is "confident will be found to be correct." The list is as follows:—Hon. Messrs. John Ferguson, Peter Mitchell, David Wark, E. B. Chandler, A. E. Botsford, A. R. McClelland, John Robertson, R. L. Hazen, W. H. Steevens, Wm. Todd, R. D. Wilmut, W. H. Odeven.

CONFEDERATION.

The Confederation meeting in Halifax was one of the most enthusiastic political gatherings that has been held in our sister city in a long time. Telling speeches were made by the candidates, and also by Dr. Tupper, Mr. Archibald and others.

THE INTERCOLONIAL ROAD.

In reply to an address presented to Mr. Archibald, one of the New Brunswick Delegates to England, by the people of Colches-

ter, he says in reference to the Imperial guarantee, for the construction of the Intercolonial Railway.

"If the Union had to construct a road of capital borrowed on its own credit, it could hardly hope to obtain the money at a rate less than six per cent. If now we raise it four per cent, we may set aside one per cent as a sinking fund, and shall save one per cent. Let us compute the value of this saving. One per cent set aside annually, and invested on interest, will, in 37 years, pay off the entire principal. By the guarantee Bill, then, Great Britain confers on us the means of extinguishing this debt in one period, besides saving us another sum of equal amount. In other words, the Imperial guarantee is equivalent to a gift to this country of \$3,000,000. Yet this magnificent donation is what the opponents of Union, with two of the members of this country sustaining them, have endeavored to persuade the British Government to withhold. It is in Colchester that such conduct is to meet with approbation?"

ST. JOHN'S, NEW BRUNSWICK, MARKETS.

The *News* of the 8th, says:—A further advance in the price of flour has taken place within the past few days. The demand which has arisen in Canada upon the opening of the River St. Lawrence has stimulated prices there, and rates are quoted about 50c. higher than a week ago. Super fine is now held in this market at \$9.75 to \$10.25 for the range of fair to choice. Corn Meal is firm at \$3.25 to \$3.35; Rye Flour \$7.25 to \$7.50; Oatmeal \$6.90 to \$7.

PRINCE EDWARD ISLAND.

The address in reply to the speech passed in the P. E. Island Legislature on the 23rd ult. Some of the old worn out topics connected with the Land Question were introduced into the debate, with little profit to those who employed them. Mr. Whelan's name was bandied about the debate, but the attempt of one ungenerous colleague to prove him dishonest, by telling of his views for office, was crushed effectually by Mr. Brecken, who is politically opposed to Mr. W. The Queen's Partnership will likely remain in the hands of Mr. Whelan, as there is no member of the Legislature willing to take it. Considerable progress appears to have been made in supply.

And in the raising the Tariff the *Islander* says:—

"The intention of His Excellency's tenant League administration to raise the duty on rum, gin, &c., was made known to the friends of the 'Ministers of the Crown' especially, and the consequence was that spirits were ordered by telegraph from the neighboring Provinces. A large quantity arrived, as anticipated, and was entered, at the old duty. All the stock in the Bonded Warehouse, which was large, was immediately entered, and on Monday morning a full cargo came in from the States, in time to escape the higher duty. This was a year's stock, or thereabouts, of rum and gin entered at the old duty, and the 'Chancellor of the Exchequer' must have been aware that his additional duty will yield no revenue. How far it will benefit the Prime Minister, one of the chief distillers in the Island, we leave to be decided by his colleague, the Hon. R. P. Haythorne, some time ago a professed enemy of protective duties. Mr. Haythorne will probably agree with us that, according to the plainest principles of political economy, the additional duty on rum and gin, which he and his associates have just imposed, will be paid by those who also sell rum and gin; and that, although the consumers will pay the duty, the money will go, not into the Treasury, but into the pockets of those who held the stock which will supply this year's demand. The Liberals—those 'able men' who are so ready to put every thing to rights—to reduce taxation and introduce the reign of universal prosperity, have made a beginning, and have at least demonstrated their incapacity."

New Brunswick Legislature.

The legislature of New Brunswick was opened at Fredericton, on the 11th inst. by the Lieut. Governor. The principal topics alluded to in his opening address, were a congratulation at the success of the delegates in arranging with the Imperial Government for the Union of British North America, and at the action of the Imperial Parliament in "guaranteeing the interest of \$3,000,000, sterling, for the construction of the Intercolonial Railway," a work "necessary for the defence of the Province,"—the development of its resources,—the "advancement of its material interests,"—"the more perfect union of the different provinces,"—and the consolidation and "perfection of British power on this continent." He also said, he "considered it his imperative duty to express his opinion 'as to the necessity of the nation being placed upon a more efficient footing; for the determination evinced by the Imperial Government to maintain the integrity of this portion of the empire demands corresponding exertions on the part of the province.' But as the power is given to the House of Commons, to deal with this subject, he would not press it further upon them."

GOLD FROM HINCHINBROOK.—Joseph F. Way Esq., brought to this office to-day, a gold nugget weighing thirteen penny-weights, and worth about \$12. It is reported to have been found in the bed of a stream in the Township of Hinchinbrook, and from the source of our information, we have reason to believe the discovery to be genuine. Jewelers who have examined it, pronounce it a pure native specimen.

MR. ROCHESTER.—The *St. John's* leaves this afternoon, at 2 o'clock for Oswego, touching at Mill Point and Pictou.

COPPER.—The Hon. Bills File has just shown us a fine sample of grey copper, taken from the south half of lot No. 9, in the 14th Con. of Humberford. The sample shown us, was taken two feet from the surface; silver has also been found in this quartz. Parties are now working this mine, and in a short time we shall be enabled to inform our readers of the result of the copper.

THE STEAM FIRE ENGINE.—The Steam Fire Engine was again tested this forenoon and afternoon; a great variety of opinions were expressed by lookers on, some saying she was perfectly worthless, others that she worked as well as the same sized steamer in cities across the lines. The whole matter lies in a nutshell, and we don't see that the Committee has any very difficult part to perform. If she comes up to that guarantee, well and good; if not, further over to the maker, and get one that will.

WHAT DOES IT MEAN?—Amongst the late news from Europe a very significant statement made by Earl Derby. He announces officially that the history of the Fenian plot will not be made public at present in consequence of apprehended difficulties with foreign governments involved therein. Of course the only government here referred to, is the United States, which has officially condemned the Fenian movement. The expression is very significant, and is suggestive of trouble. Has Massey who turned Queen's evidence, let out some secrets implicating the United States Government?

FROM OTTAWA.

OTTAWA, May 14.

The Executive Council met yesterday, and will meet to-day.

The 100th Regiment is to be replaced by the 59th.

The booms on the Gatineau River broke yesterday, and 2000 logs escaped into the Ottawa.

Wood is selling in Hamilton, C. W., at 85 and 80 per cord.

The Review of Regulars and Volunteers at Toronto yesterday was very successful.

The *Great Eastern* is not to return to New York, the speculation not paying.

The United States is threatened with more Indian wars.

The dock laborers at Kingston struck for advance of wages on Monday.

Herring have appeared in great abundance at Gaspe.

There were ninety-nine deaths last week in Montreal.

Hon. John A. Macdonald won't be a candidate for the Ontario Legislature for Ottawa.

FROM MADOC.

From our own Correspondent.

Fine Weather.—Meeting of Practical Miners—Dissatisfaction with Gold Mining Act—Resolutions passed—What they want—Lot 15, 6th concession—Quartz Veins—Gold Found in the Alluvial—16 in the 6th—Concave's Farm—In this Acta Fenian discouraged—Mounted Police—Volunteer Company.

Madoc, May 11th, 1867.

At last! fine weather with a fair prospect of its continuance, which is indeed very acceptable to all classes of the community.

Last night there was a meeting of practical miners from California, British Columbia, Colorado and Nova Scotia, at the North American Hotel, for the purpose of taking into consideration the present Gold Mining Act, so far as its provisions apply to the Quinte Gold Mining Division. A good deal of dissatisfaction exists among miners and farmers with reference to the Law. Several of the villagers were present and the meeting was organized by appointing A. F. Woon, Esq., Reeve, chairman, and B. FRALICK, Esq., Secretary. Several resolutions were passed by the meeting with reference to desired changes in the Law, and a committee of the Chairman and Secretary were appointed to embody them in a memorial to the Governor in Council. The principal changes asked for, were:—Doing away with a miner's license until *Gold is found*—increasing the size of claims in the alluvial from 25 x 50 to 100 x 100 ft. and in place of a free license for one year to the first discoverer of gold in any neighborhood near by it, a free claim of 200 x 200 ft. The meeting also recommended that discretionary power be given the Gold Inspector to grant yearly licenses to parties mining at a distance from the Inspector's office, under such cases, requiring returns at periods of not less than three months. The meeting also was unanimous in the opinion that no fees should be exacted from Quartz Crushing Machines for the first year, as the development of the country would very much depend upon the facilities offered to test the quartz in the different localities.

Mr. Fletcher, a Mineralogist from Toronto, who has been examining the Quartz Formation throughout this section of the country for some time, was lately employed by a company in Toronto to examine the N. West part of Lot 15, in the 6th concession Madoc, which you will remember, I reported as having been purchased from Mr. John N. Mallon, South. Barr. Mr. Fletcher reports that he has found three "lodes of quartz" varying in width as follows:—2ft., 3ft., and 4ft. One of them has a vein of heavy spar, and he states that the development is the "one of the N. York kind," and the location of the "most convenient" that he has seen in the Township, "as there will be" no difficulty in keeping a quartz mill steadily employ-

ed." One of the men in his employ states that small particles of gold were found in the alluvial at the foot of the hill in which the "lodes" were developed, but of this however the appearance are very much in favor of such a discovery. The quartz "lodes" are from one to two hundred feet from a shaft that is being sunk by Mr. Johnson on the 34th Con. of Humberford, and from which John Johnson reports that he has taken gold at different times but in small quantities.

Mr. Cooke is being bothered a good deal by parties prospecting on the creek, where gold was discovered last fall. He has filled the spring and creek running from it with brush and logs for some distance, but with little avail, for parties still continue to dig in the vicinity, and in almost every case report as washing gold from the sand in the stream. In the mean time Mr. Cooke is taking his time with reference to it—attending for the present to his farm which so far to him has yielded a certain supply of the precious metal, though the process has been a little longer.

MONDAY, May 13, 1867.

To-day the clouds again look lorry and threatening rain. Farmers wear discouraged faces, and fear that sowing will be late. "Seed time and harvest" is the promise, however, and on it we can safely rely.

The barracks and stables for the Mounted Police begin to show form and fine appearance; if fine weather only continue, the men will soon be in their new quarters.

Captain Howe's Volunteer Company, were out drilling on Saturday, and made a fine appearance considering they have no uniforms yet.

A large supply of lumber is being offered by the different mills, and prices are falling somewhat. Farmers are pretty active. Our lumber is not likely to go to the American market this year as it did last, but present prices can scarcely be maintained long. Common lumber green at the mills brings \$12 per thousand, and the seasoned lumber in proportion, but of the last article not much is to be found.

GRANITE.

POLICE COURT.

ASSAULT.

MAY 13th.

The case of Mezzigan against Baldwin, for assault, adjourned from 3rd instant, was withdrawn on payment of costs, and the cross case for trespass, with a similar result.

THE GREAT PIO RAID.

The Police on Friday last made a raid on the swinish race, and summoned the owners of about 30 of those animals for permitting them to run at large. Some were adjourned, some dismissed, and the others mulcted one dollar and costs each. It is to be hoped that this preliminary lesson will be salutary one, otherwise the proprietors will not escape heavier punishment.

Some of the Celtic owners with a traditional reverence for "the pig-the-craythar" fought the battle bravely, and such exhortations as the following were loudly uttered:—"Campbell! 'Hud the barter enclosed, but beggars some food, they escaped." "Arrah, the council might let the poor devils alone." "God help the poor man who is forced by hunger to feed, with my apple, all the harm done." "Och, let us go this time any how." "I sent mine to the country a week ago, but they came back again had luck to them."

After the pigs and their owners were disposed of, Miss McMullen asked McMahon, one week out of gaol, and a native of Cornwall left her appearance, and was committed for 30 days, she appeared before the court, the magistrate and stated she left her boots in gaol, as she knew that she would pay that interesting institution another visit.

Arrivals at the Dafoe House.

MAY 14th.

Morgan Jollett, Stirling; R. H. Holland, Madoc; T. B. Warren, Belleville; Mrs. Wigate, Odessa; Rev. F. G. Croft, Cambridge; Campbell; J. Barr, Toronto; W. J. Webster, J. Gray, Montreal; E. Beniff, Geo. Smith, Madoc; A. Wills, Toronto; Geo. W. Clark, Madoc; M. M. Bortz, Newmarket; A. E. Tybe, Mexico; N. Y. M. B. McGregor, Madoc.

Arrivals at the Anglo-American.

MAY 14, 1867.

Williams, W. T. Rogers, Napawee; W. Monahan, Toronto; J. Buckley, Napawee; B. Fralick, Madoc; Julius C. Mayne, Minnesota; C. V. D. Symonds, Buffalo; S. J. Jones, New York; Jas. E. Berry, Chicago; J. McAllister, N.Y.; S. M. Davis, Robert Bird, Sidney; Gordon McWilliams, Marston; A. McMahon, Toronto; E. Beniff, Madoc; H. Crook, Northport; E. Cooke, Madoc; Ben Cotton's, Munster, 18 performers.

SPECIAL NOTICE.

PERRY DAVIS' VEGETABLE PAIN KILLER.—We ask the attention of the public to this long tested and unrivalled Family Medicine. It has been found to be known for more than thirty years during which time we have received thousands of testimonials, showing this medicine to be an almost never-failing remedy for all diseases caused by a sudden or gradual attack.

Sudden Colic, Coughs, Fever and Ague, Headache, Rheumatic fever, Pains in the Side, Back and Limbs, as well as in the Joints and Lungs; Neuralgia and Rheumatic Pains in any part of the system; Toothache and Pains in the Head and Face.

As a Blood Purifier and Tonic for the Stomach it seldom fails to cure Dyspepsia, Indigestion, Liver Complaints, and Stomach Troubles. It is also a powerful Sickness Remedy, Piles, Asthma, Phthisis, Rheumatism, Hoarseness, Whooping Cough, Sore Throat, and all the Bites of Poisonous Insects and Verminous Repellents.

It is a prompt and sure Remedy for all Cramps and Pains in the Stomach, and for all Diseases of the Digestive System, Summer Complaints, Cholera Morbus, Cholera, and all the Bites of Poisonous Insects and Verminous Repellents.

See Directions accompanying each bottle. It is sold almost everywhere, and is a most valuable friend of the Traveller, on sea and land, and to one should travel on our lakes and rivers without it. Price, 15 cts. per bottle, 50 cts. per bottle. PERRY DAVIS & SON, Manufacturers and Proprietors, 200 St. Paul Street, Montreal, C. W. 1867.

HINTS ON GRAZING.

The earlier cattle can be put on grass the better. Cattle never forget an early bite of new grass, and it is wonderful what improvement a good straw yard bullock will make in four or five weeks at the beginning of the season. But much depends on the weather. During the whole of April, and the early part of May, the weather is so unsteady, and the cold nights, when the animals are exposed in the fields, take off the condition which the grass put on. The grazer will find it of great advantage to house his cattle at night during this season. In Aberdeenshire, the 10th May is about the earliest period when cattle should be put to grass. When there is new grass, it is necessary to be careful, at the beginning of the season, if much rain falls, not to allow the cattle to remain on the young grass. They must be shifted immediately, and no one can get the proper advantage of such grass who is deprived of the power of shifting the cattle into a field of older grass till the land again becomes firm from the cattle. A field of new grass has sometimes been entirely ruined in one night when heavily stocked with cattle. When wet and cold, the cattle wander about the whole night, and in the morning the fields are little better than ploughed land. In fact the fields so injured will never recover till broken up again. Mr McCobb's own practice is to pasture almost all the new grass; but the moment the calves begin to injure the grass, they are removed. New grass fields are difficult to manage in another respect. The grass comes very rapidly about the 10th of June, and if the grazer is not a good judge, what he is about, it will get away, in a few days become too rank, and will lose its feeding qualities during the remainder of the season. By the middle of July, it will be nothing but withered herbage. Young grass ought to be well eaten down, then relieved for two or three weeks, then the cattle allowed to return. It requires practice to know the proper time to put these cattle, to secure the full benefit of the season. In June, miscalculation may cause a heavy loss.

WHEN A HORSE IS UNSOUND.—Any of the following defects constitute unsoundness in a horse:—Lameness, of all kinds and degrees.—Diseases of any of the internal organs.—Cough of all kinds, as long as it exists. Colds or catarrhs, while they last. Raring; broken wind; grease; mange; scabs and glanders; murgins or staggers; spavins; convulsed feet; contracted feet; splinters and ringbones; enlargements of the sinews or ligaments; catarrhs and other defects of the eyes, impairing sight.

The following may or may not occasion unsoundness, according to the state or degree in which they exist: Corns, splinters, thrushes, bone spavins, through pins, wind cabs, cribbing. Cuts are unsoundness unless the horse has worked with them for some months without inconvenience.

Cutting, particularly speedy cutting, on stuttees unsoundness when it can not be remedied by care and skill. Quidding, when a confirmed habit, injures the soundness of a horse.

Defects called, blemishes are: Scars from broken knees; capped hocks, splinters, bog spavins, and thorough pins; loss of hair, from blisters or scars; enlargements from blows or cutting, and specks or streaks on the corner of the eye.

Viewers: Testiness; shyness; jolting; running away; kicking; rearing; weaving or moving the head from side to side, strutting, quidding, slipping the halter.

Farmers should not neglect to give their horses proper exercise. Do not suffer the horses to stand the whole week in the stable but give, at least, one hour's exercise daily. Give sloppy food at least twice a week, and throw a lump of rock salt in the manger.

BOXES.—The Massachusetts Farmer gives the following directions for dissolving boxes: Take a few barrels—old sugar casks are as good as any—and put in at the bottom a layer of wood shavings, then a layer of bones, and then upon it another layer of wood shavings, and so on alternately till the barrels or casks are filled. If the bones are particularly broken with an axe or otherwise, they will facilitate their dissolution. These ashes now must be kept moist by adding water from time to time, and if they stand out doors under the shade of some old tree on the north side of a building, they will require less frequent attention. An occasional wetting with chamber ley is beneficial.—In from ten to six months, according to the size of the bones and the care with which the ashes are moistened, the bones will be dissolved, and the compost is fit for use. This is the most economical method of reducing them, and if every farmer would pick up the bones that are scattered about his premises and treat them in this way he would show signs of thrift.

A cynical journalist says the reason so many marriages occur immediately after a great war is that bachelors become so accustomed to straggle that they learn to like it, and after the return of peace they enlist in matrimony as the next thing to war.

Since the Government was established, the United States have acquired the following territory, on the terms named: 1. The purchase of Louisiana and Mississippi Valley, in 1803, from France, for \$15,000,000. 2. The purchase of Florida, in 1819, from Spain, for \$3,000,000. 3. The annexation of Texas, in 1845. 4. The purchase of California, New Mexico and Utah, from Mexico, for \$15,000,000 in 1848. 5. The purchase of Arizona from Mexico, for \$10,000,000 in 1854. 6. The purchase of the immense Russian possessions, running down to the line of the North Pole fifty four forty north latitude, at which line it strikes the British possessions, for \$7,300,000.

Portable and Stationary Steam Engines of any capacity. Engine and Wood Lathes, Iron and Wood Planers, Shingle Machines of various patterns; also, Agricultural Implements of the most improved style and make. Their Horse Powers and Threshing Machines, with or without cleaners, are unsurpassed.

Brown's Ploughs are admitted to be of the most improved style and manufacture. They consist of some fifty different patterns, and their celebrated STEEL PLOUGH is the best in the country.

Amongst their other manufactures may be enumerated: Horse Hoes, Cultivators, Harrows, Clod Crushers, Corn and Drill Ploughs, Seed Sowers, Rollers, Straw Cutters and Stump Machines, and Improved Grain Grinders and Mills.

In the Stove Department

They are unequalled. They continue to manufacture Box, Parlor and Cooking Stoves of various designs, &c., &c., and their "Northern Farmer" Cooking Stove is without a rival for farmer's use.

Potash Kettles cast in loam, lip up, of various sizes and of the best material.

Gold Crushers

Of the newest style and patterns made to order.

Their facilities for manufacturing are such as to enable them to successfully compete with any similar establishment in the Province.

Every description of patterns made to order. Repairs done on the shortest notice. All kinds of Brass Castings made to order.

Belleville, May 1. 1D-1

The Daily Intelligencer.

WILL appear about five o'clock every afternoon (Sundays excepted) and will be furnished by Carriers at the rate of \$2 a year if paid in advance, \$3 a year if not, and subscribers \$5 a year. \$2 50 for 6 months; \$1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable despatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Manawatu and other points, who will furnish us with early and full information respecting the Gold Regions, and of matters of general interest.

Special attention will be paid to reporting the proceedings of the Ontario Gold Corporation, Public Meetings, &c., and in short, nothing pains non-existence will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

A large circulation has already been obtained for it, not only in Belleville, but in the various villages in the County. Arrangements have been perfected by which the paper can be obtained in Madoc the next morning after publication, at Eldorado the next afternoon, and the other villages a few hours after its issue from the press.

As thousands of strangers will flock to the gold regions this Spring and Summer, it is expected that several hundred copies will be sold daily in addition to the regular subscribers.

It will therefore present unrivalled advantages for general advertisement.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 6 months, \$5 00

Half Square, 6 months, \$10 00

One Square, 6 months, \$20 00

Two Squares, 6 months, \$30 00

Four Squares, 6 months, \$50 00

Notices of Births, \$5 00

Do of Marriages, 50

Do of Deaths, 50

"BUSINESS NOTICES"—All matter under this heading, led or solid, 10 cents per line, measured by a scale of solid minion.

Advertisements contracted for at a space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements, inserted at 7 cents per line for the first insertion, and 3 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at \$2 per annum if called for at the Office, or sent by mail; and \$2 50 if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING.

Six lines and under, first insertion, 0 50

Each subsequent insertion, 0 10

Above six lines, first insertion, 1 00

Each subsequent insertion per line, 0 02

"BUSINESS NOTICES"—10 cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock noon, on Thursday to insure their appearance.

All advertisements without written directions inserted null and void, and accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices low as any other establishment in the County.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Store, Madoc, and at El Dorado. Wilson's Drug Store, Belleville, and at El Dorado.

All orders by mail promptly attended to.

Debts and Taxation in the States.

An idea of the burdens laid upon the
people in the United States is given in the
following from the New York Evening
Post:

"If borrowed dollars the edge of 'hard-
ship,' the financial police of this state is
and need of the griddlestone. Our state
debts amounts to over fifty millions of dol-
lars. The debts of the counties are at
least seventy-five millions. This city owes
nearly or quite forty millions. All these
debts are growing."

"With these very intelligible figures be-
fore them, it was not unreasonable to ex-
pect that the Albany legislators would ex-
amine appropriation bills attentively, and
would be chary of raising the present rate
of taxation. Indeed, to do them justice,
they did reject four or five bills which in-
volved that unpleasant consequence. But
the bills which passed have raised the rate
of state taxation to over seven mills on
every dollar of valuation. This is a serious
advance from the three mills levy of
ten years ago."

"Of the taxes paid by the people of this
state, this year, about sixty millions of
dollars will go to the national treasury,
thirteen millions to the state, and thirty-
seven millions to the several counties."

"The population of the state in 1865
was 3,851,777. Estimating the present
population, in round numbers, at four mil-
lions, every man, woman and child in the
state must pay this year \$27.50. The
largest vote ever polled in this state was
751,010. Estimating the present number
of electors at 750,000, each elector must
pay this year \$146.66. The number of
landowners in the state in 1865 was 379,998.
If the number has now reached 400,000,
every landowner is taxed this \$275. The
last census gives the number of families in
the state as 780,931. If there are now 800,
000, each family is taxed this year \$137
50."

"It is perhaps some poor consolation to
know that some of our neighbours are not
much better off. The state debt of Massa-
chusetts is nearly twenty-eight millions
of dollars, and the debts of the towns amount
to about twenty-seven millions more. The
legislature is now engaged upon a bill
which will add five millions more to the
total."

NEW PRINTING PRESS.—There has just
been completed and put in running order
at the government printing office at Wash-
ington one of the most wonderful pieces of
mechanism in the shape of a printing press
that has ever been exhibited. The press is
of the Bullock patent, and as an exhibition
of some of its powers we will mention:—
The press will print in one hour 30,000
sheets of 64 pages of document matter.—
While doing this it feeds itself, the paper
going in in rolls, sets the paper, cuts the
sheets, folds them, and, by a dial attached
to the press, keeps tally of the number of
sheets printed. Only two men are required
to have entire control of the press, thus
doing away with the necessity of persons to
supply it with sheets (or as a ball feed-
er). The invention is certainly a wonder-
ful one, and has been visited by a large
number of persons who could not realize
the power and utility of the machine.

A young man, seventeen years old, has
been arrested in Lexington, Miss., charged
with five murders. The Lexington, Miss.,
Advertiser, speaking of his arrest, says:—
"The premises of his father were surround-
ed, and in a short time he was discovered
emerging from an open field, endeavouring
to reach the woods, some distance off. He
was hotly chased, and was captured after
one of the pursuers fired a shot at him, mak-
ing a slight flesh wound in his face and brought
him to the ground. He was carried to
Noblesburg county, the scene of his last crime.
It seems young Fitzgerald killed a negro
in De Soto County, in this State, a white
man in Tennessee, a freedman on his
father's premises since the surrender, assassi-
nated Mr. John W. Shilcutt on the 16th
of February last, at the residence of Colonel
Richard Cooper in this county, and his
crimes culminated in the murder of Mr.
Nunn, of Summerville, on the 12th, and his
capture on the 18th."

—The Superior Court at Borel has decided
that an assignment to an official assignee, res-
ident out of the district where it is made, is null.
—The Kingston News objects to the return of
Hon. John A. Macdonald for both houses for
Kingston.

—Several magnificent sleeping cars have re-
cently been turned out by the Great Western
Railway works-shops at Hamilton. They cost
\$15,000 each.

—An old woman near London, C.W., be-
lieving her pigs bewitched, burned one, be-
lieved the other and boiled its heart in accordance
with ancient usage, howling incantations, and
doing generally as witch-burners used to do two
hundred years ago.

A London correspondent says that in the
Times office a new printing machine is erected,
which will print 50,000 copies of a sheet per
hour. It will print on a continuous sheet,
which will afterwards be cut into separate cop-
ies of the Times.

A little girl of three years was saying
her prayers, not long since, when her little
brother, about four years old, came slyly
behind and pulled her hair. All without
moving her head, she paused and said:—
"Please Lord, excuse me a minute while
I kick Herby."

American Despatches.

RIOT AT MOBILE—A NUMBER SHOT.

NEW YORK, May 15.—The *Herald's* Mobile special gives the following additional particulars of the riot last evening:

Judge Kelly had been speaking a quarter of an hour when there appeared a disposition to create disturbance. Cries of "put him down" was now heard. Mr. Kelly replied, "you cannot put me down, the 15th Infantry are at my back, and it they cannot keep the peace in Mobile the United States army can." The tumult suddenly broke out at this point by a sudden rush towards the platform and a general scattering of the crowd. This rush seemed significant for a while; a cry of "fire" was then raised and instantly a perfect fusillade of pistols were opened on the crowd, who occupied the platform. Some friends succeeded in getting Judge Kelly away unharmed. The firing was directed right and left among the crowd in the streets who were flying in all directions. It is impossible to tell how many were shot. It is known that two negroes and one white man were killed. It was evidently a preconcerted affair, and was probably stimulated by incendiary articles in the rebel press for the past few days. Col. Shepard at once despatched a body of troops to the Brattle house where Judge Kelly is stopping. They are now on the ground in front of the Hotel. It is stated that several white men who had no part in the attack were shot in the melee.

If any disposition to renew riots is shown, it is probable the city will be placed under martial law. The whole military force who are encamped about a mile from place of meeting have been ordered into the city, and are now posted at different points prepared for any attempt of renewal of riot.

MISCELLANEOUS.

NEW YORK, May 15.—12,826 steerage passengers have arrived at New York since the 1st inst., from European ports.

The steam train *Dunderberg*, the most powerful engine of naval warfare afloat, has been sold to the French Government for \$3,000,000.

The *Times* special says—No truth what ever in the statement that the United States Grand Jury at Richmond has indicted Judge Thomas and J. C. Breckenridge for treason.

NEW YORK, May 15.—The steamer *Java*, from Queenston on the 5th, arrived today.

FROM OTTAWA.

OTTAWA, May 15.

The officials of the Crown Lands Department have received orders to prepare for removal on the 30th June, one half of the department to Toronto, the other half to Quebec.

The changes in departments will involve the removal of some seventy families from this city; their places will be more than filled by the arrival of about one hundred families of officials from the Maritime Provinces.

PENITENT.—A telegram from Montreal states that the Government have received information of another intended Penitist raid.

GOVERNOR'S RESIDENCE.—It would appear from the following that the Governor-General will not reside at Ottawa, at least for the present. The *Quebec Chronicle* says: "It is reported that orders have been received to put the Vice-Royal residence at Spencer Wood in order for the early reception of the Governor-General and family."

Our Mineral Wealth.

While every one is talking about gold, reading about gold, thinking about gold, dreaming about gold, and digging for gold, it is well not to lose sight of the fact that other metals besides gold are to be found in great abundance in the back country. Metals, too, which when fully developed will be great sources of wealth and prosperity as another California or Australia would be. Look at the iron mines of Pennsylvania and Ohio, and see what towns they have built up, what cities are dependent upon them for their prosperity, what they have done for the commerce of the world, how many hundreds of thousands they clothe and support, and then remember that we have inexhaustible mines of the same metal, and of a quality from 20 to 30 per cent better. If we were to be dependent alone upon our iron mines to make Belleville one of the first cities of the Province, and the County one of the most wealthy and prosperous in the new Dominion, we should have no misgivings about our future. For there is enough of iron in the back country to build up a dozen cities like Pittsburg. But Iron and Gold are not the only metals found in abundance at our very doors. We have Lead, and Copper, and Silver, and Antimony, and then we have Marble and Lithographic Stone, all of which have been found in considerable quantities.

The Copper Mines in Belmont, in Lake, in Madoc, and in Elzevir, have not been worked to an extent to warrant us in saying that they are inexhaustible, but sufficient is known to warrant miners and capitalists extending their explorations for this metal. Of Lithographic Stone we develop long since made prove that we have an abundance, and the quality is amongst the best in the world. Of Marble we have the white, the gray, and variegated, of excellent quality, and enough of it to supply the Dominion of Canada for a thousand years. The Lead Mines of Tudor have been worked enough to satisfy us that there is a large supply, and that it is as rich as any on the Continent. This valuable mineral is not confined to Tudor, but has been found in other Townships, and in some instances associated with Silver and Antimony.

Several discoveries of Silver have been recently reported, one of the most promising of which comes from Elzevir, lot 18, in the first concession. This lot is owned by a number of gentlemen, residents of Belleville, and in prospecting not long since, a large vein of galena was discovered, from which some specimens were taken and given to Mr. J. T. Bell, of this Town, to assay. The following is his report:—

Assayed May 6th, 1867, from Lot 18, 1st Concession Elzevir.

An impure galena containing
Sulphur, 25 per cent..... lbs. 12 00
Antimony, 25..... 25 00
Lead, 25..... 55 00
Silver,..... 0 50
Earthy impurities (slag & loss),..... 7 70
100 00

PER TON OF 2,000 LBS.
Sulphur,..... lbs. 240 00
Antimony,..... 500 00
Lead,..... 1100 00
Silver,..... 6 00
Earthy impurities (slag & loss),..... 154 00
lbs. 3000 00

Silver, 6 lbs. Avordupois, equal to 87 oz. 12 dwts. Troy of Silver per ton of 2000 lbs.

JAMES T. BELL, Assayer.

It will be noticed by this assay that the yield of silver alone is over \$87 to the ton. If the vein turns out to be as large as anticipated, this will be one of the most valuable mines yet discovered.

PERSONAL.—E. W. Holton, Esq., Mrs. Holton, Mrs. Flint, wife of the Hon. Bill Flint, and Robert Bird, Esq., of Sidney, left Belleville today, and will sail on Saturday next in the *Northern* for Europe. We wish them a pleasant voyage and safe return.

MILITARY CERTIFICATES.—We see by the last official *Gazette*, that sergeant Jeremiah Thompson, No. 1 Company, 15th Battalion, obtained a 2nd class certificate from the Military Board of Examiners, lately held in Kingston. The same *Gazette* contains the names of Messrs. Matthew M. Thompson, William M. Anderson, and Allen T. Kennedy, as having obtained second class certificates from the military school at Kingston.

THE LUMBER TRADE.—The *Quebec Chronicle* through the courtesy of a gentleman thoroughly acquainted with the lumber trade, gives statistics of the quantity of red and white pine manufactured upon the Ottawa and its tributaries, and the St. Lawrence, during the year. The amount of white pine manufactured upon the Ottawa and tributary streams was 15,745,000 feet, and on the St. Lawrence, 5,000,000 feet, making a total of 17,745,000. With respect to red pine, the grand total for both the Ottawa and the St. Lawrence is set down at 800,000—being much less than last year; a large quantity having been left over on the market last autumn. These figures will therefore show about 18,500,000 feet as representing the manufacture of both sorts of pine this year, being an increase of a million feet, or thereabouts, over the previous year. The quality, we are assured, is much superior to that of the lumber taken out during the preceding year.

Board of Trade.

At a meeting of the Board of Trade, held last night in the Town Hall, Robert Tannahill, Esq., in the absence of the President, was called to the chair. Mr. John A. Phippen was admitted a member of the Board.

Mr. Bowell gave notice that at the next meeting of the Board he would move a resolution making certain amendments in the Constitution and By-Laws of the Board.

On motion of Mr. Ritchie, seconded by Mr. Vair, John Parker Thomas, Esq., was appointed an Official Assignee for the County of Hastings, and the meeting adjourned.

Town Council.

MAY 15th, 1867.

A special meeting of the Town Council, called by his Worship the Mayor at the request of the Chairman of the Fire, Water and Gas Committee, to take into consideration the question of the efficiency of the Steam Fire Engine, was held at 11 o'clock this forenoon.

PRESENT.—His Worship the Mayor; Messrs. A. Waters, G. E. Henderson, James Kennedy, A. Robertson, Capt. McIntosh, W. A. Foster, Jas. Brown, R. Tannahill, J. Sutcliffe.

Mr. Robertson, Chairman of the Fire, Water and Gas Committee, said that his object in requesting His Worship to call together the Council was that they might express their views respectively upon the Steam Fire Engine, and conclude what was to be done with it, as the Committee did not wish to take the responsibility of deciding the matter themselves; that he had requested Mr. Button to be present before the Council, but that he had replied that it was his intention to proceed home this morning, and visit Belleville again soon with a better quality of coal, than the proposed satisfactory people.

Mr. Robertson proposed the guarantee, stating that the Engine would throw water through 3000 feet of hose, 60 feet.

Messrs. Henderson, Kennedy, Waters and McIntosh contended at some length that the Engine did not come up to the guarantee, and considered that a first class engine should be procured and this one returned, and that it should first be tested through 3000 feet of hose.

Mr. Tannahill believed the Engineer, Mr. Rankin, was incapable of working the Engine, and that she did very well in the morning under the control of Mr. Button, but not subsequently.

Mr. Brown defended the Engineer and if the Engine played as well in future as she did yesterday morning, considered it would come up to the guarantee, and in reply to Mr. Sutcliffe said as to whether better fuel would make any difference in working the Engine when 60 to 70 lbs of steam could be raised with the present coal, said that if the coal were such that the steam could be regulated more steadily.

Mr. Blacklock was examined. He said he was not prepared to make a report, that the Engine was handy to handle, at a small distance would do good service, at a large distance it would not come up to the guarantee; does not know much about steam engines.

Capt. Mason said that he considered Mr. Button would work the engine up to the guarantee, and if a party could be procured to do the same work, the engine would be satisfactory; it should have a fireman and a boiler.

Mr. Rankin contended that the boiler was too small. Mr. Button told him to say to Mr. Robertson that he would be back in June with good coal, and would satisfy the people or take the engine away.

The Council requested the Chairman of the Committee to write to Mr. Button, asking him what he proposed doing with the engine, stating that they were not satisfied with yesterday's test; the Council to take such further action as they may deem necessary after receiving his reply.

BURGLES TOOLS.—While Mr. A. L. Bopart was superintending the removal of some lumber from the yard in rear of Robertson & Stewart's law office, yesterday evening, he came across a carpet bag, which contained a full kit of burglar's tools. Amongst the tools were a brace, several bits for boring iron, some cold chisels, two iron jimmies, a dark lantern, and a large wallet. The tools were all new, and well made. The carpet bag had evidently been secreted there some time, and the tools were doubtless those used in the attempt to blow up the safe of Robertson & Stewart some time since. The smaller tools were wrapped up in a copy of the *Police Gazette*, a paper which circulates largely amongst thieves and prostitutes. The tools were given to Capt. James, Chief of Police, who has them in charge.

Hon. John A. Macdonald is to be received by his constituents on his arrival in that city on Thursday night, the 16th inst., when he will give them an account of his stewardship.

The population of Hamilton, exclusive of the military is 21,485. The value of real estate \$5,240,225; taxable income \$1,025,520; personal property \$1,704,150; non-resident lands \$194,940; Total \$9,162,543. Live stock in the city, cattle 474; sheep 5; horses 108; swine 570; dogs 888.

The *New York Tribune* is very angry with Earl Russell for having expressed the opinion that Canada would be defended, and intimates that if he do not behave ourselves the Yankees will show us whether we are cowards and cowards and liberties against their or not. A free and united people however need not fear what a decided faction ridden people can do.

The Hamilton correspondent of the *Leader* of the 10th inst., says, after detailing the proceedings of the no principle convention in Hamilton, "I have it upon unquestionable authority, that in order to carry the convention, some one (the name is not given) (the gentleman who received the nomination) 'two dollars each to a number of persons, who I consider well enough known members of the association, and voted for Mr. Williams in the convention.' If this were done by any other than the one and the same party, it would be called corruption and all vile names."

FROM MADOC.

From our own Correspondent.

Sale of Gold Land—19 in the Bed—Report about Sunday Working—The Gold Mining Act—The Gold Inspector.

MADOC, May 14.

It is reported, and I think can be relied on, that Mr. John Cooke has arranged for the sale of a part of his lot on which gold was found last and this spring for the sum of \$4,000 and one twentieth of the gold found. A Mr. Benson is the party negotiating, and the Hon. Sidney Smith is one of the company for whom the purchase is made. As there is no doubt that gold has been found repeatedly on this lot, (W. hall 19 in the 3rd concession), the price is certainly very reasonable, and when compared with the prices asked by many for lands, where there is scarcely any appearances of quartz, let alone gold, it is cheap.

Mr. Anstee, who has charge of the Richardson mine on behalf of Lombard, Hardin & Co., asserts in the most positive manner that the report that the mine was worked on Sunday the 28th of April is not true, and that the letter of your correspondent to that effect should be corrected. If the report is not true, all I have to say is that the community thereabouts fully believe it, and several parties at Eldorado have stated to me that they heard the reports of the blasts several times during the Sunday referred to. Mr. Anstee says people were out shooting and that the reports of the guns may have been mistaken for blasting. I hope this is so, and that Mr. Anstee who was, he says, there all that day, ought to know, his statement will carry weight. However, your correspondent was not the first to put this report in circulation, for you will see by the "Chronicle" of the 1st May, that the information received direct from the mine on Monday, by the "Belleville Community" selectors, was to the effect that the mine had been worked all the day before.

I mentioned in my last communication that a meeting had been held at Hodgins' Hotel, to take into consideration the provisions of the Gold Mining Act, and the result is, to-day a memorial is being circulated for signatures to the same effect. The Gold Inspector so far has won the good opinion of all with whom he has come in contact in his official capacity, and no blame is attached to him for carrying out the provisions of the law; on the contrary he is believed to be acting in the most careful and prudent manner, but after all he will be compelled to enforce his provisions even though they may be distasteful to himself.

I think the Government will on consideration, use the power the act gives them, and moderate some of its provisions.

GRANITE

To the Editor of the Daily Intelligencer.

DEAR SIR,—In that admirable novel, "The Devil on Two Sticks," the hero is carried into mid air, and the roofs of the houses in Madrid removed, that all the various scenes enacted underneath might be presented to the observer. It has often struck me that in our small town of shingled roofs, could a similar movement be performed, some amusing traits of Belleville life might be similarly displayed, but as the days of romance have fled, and not even spiritualistic humbug is believed in, we must abandon fiction for truth, doubts for realities, and give to "airy nothing, a local habitation and a name."

You know I am, or was, the favorite bird of Minerva, and that the amount of wisdom attributable to our family was principally picked up in midnight wanderings and daily reveries. How my ancestors ever immigrated to this continent is a matter of historic doubt, but there is a tradition amongst us that Captain Miles Standish, the Puritan leader, brought two of our family in his good ship *May Flower* to New England; that a branch settled in Acadia, and their descendants, travelling southward, soon spread through Canada, and at this day the old red house, overlooking the Mohr from Meyer's orchard, contains the cradle of the Belleville branch of my beloved ancestry. I often spread my wings for a flight over our interesting Town, and as those wanderings must necessarily be at night, I observe some strange incidents, some of which I will trouble you with from time to time. The grave and gay—the gentle and severe—will be presented to your readers, and I will have the satisfaction of sustaining the family character for deep observation and time honored wisdom.

Yours sincerely,

THE BELLEVILLE OWL.

Belleville, May 15, 1867.

Butter Packing.

To the Editor of the Daily Intelligencer.

SIR,—Knowing your valuable paper to have a good circulation among the country merchants, in the town and around it, I have taken the liberty to address you a few lines on the subject of "Butter Packing." Too little care is generally taken in assorting the various colors, in order to make the package uniform, and therefore free of sale in other markets. If the dealers were to keep, say three tubs open at a time, and pack the butter as they receive it, they would be well repaid for their extra trouble by the extra price that would be paid for it for shipping purposes. For the English market, well assorted tubs of butter, like it is almost unsalable in anything like a fair price; Canadians are so very indifferent in this important particular that the English cannot rely on them, and French but-

ter is fast superseding that which comes from Canada. I have very recently returned from England and find it to be the case, for every day steamers arrive from France with clean, neat and good tubs of butter which the grocers readily buy, seeing, as it does, the families they supply, better than any they can procure elsewhere. Again, it is not filled with salt (too much of which, alas, Canadian farmers use), but it is just tempered with it to such a degree as to render it wholesome and palatable. Now, sir, are we to be outwitted by the French; are we to allow the English to buy their butter in preference to that which comes from here; from a colony they ought to support? Certainly not, but most assuredly it will be unless the farmers are reformed. And how shall they be reformed, but through the medium of that great engine of instruction and progress—the Press? It belongs to the Press of Canada to agitate this subject until farmers and country merchants awake from their indifference and take their stand for either good or evil, care or neglect, advancing the interests of the country and community in which they live, or letting them droop to a premature grave, when Canadian butter will be regarded in the home markets as unworthy of the attention of the people, for the reason, that in the first place so little of that virtue was bestowed on it by those whose duty and interest it was to do so. Apologizing for trespassing on your time and columns, and trusting reformation may soon commence its great work in the butter trade, I beg to subscribe myself, sir,

Your obedient servant

Belleville, May 14th, 1867. "EXCELSIOR."

Ritualism to be Abandoned at Kingston.

The deputation named by the congregation of St. George's to visit upon the Bishop, to consult with him on the propriety of doing away with recent changes in the mode of celebrating divine service in the Cathedral, met his Lordship on Friday; and to-day met to make public the result. Mr. Ross reported that having met the bishop, the deputation stated that they did not wish to discuss the objectionable points on their merits, but merely to state them as being distasteful to the congregation, and ask that they be discontinued. The main points were, first, "the officiating clergymen turning to the East when the creed was being said"; second, "one of the clergymen facing the table when kneeling"; third, "some of the congregations bowing at the gloria patri"; fourth, "the trained responses of the choir"; fifth, "singing at a certain part of the Communion service in the middle of a prayer"; sixth, "chanting the psalms at evening service"; and lastly, "whether further changes contemplated?" "The Bishop stated that he did not turn to the East himself, but that he could not instruct his clergy not to do so; that the trained responses of the choir should cease, and that as regarded the chanting of the psalms at evening service, he would ascertain the wishes of the congregation, and leave it to them. The other matters, he thought it was the province of the congregation to deal with. He said that he entirely disapproved of Ritualism as practised in England. No further changes, he assured them, were contemplated. The deputation expressed themselves satisfied, so far as the points considered were concerned, and understood that the remaining objections should be further pressed; and, if not done away with before that time, they should be laid before the synod.—*Kingston News.*

Newspaper Boasting.

Prentice of the *Louisville Journal* thus "takes off" some of his contemporaries, who are constantly boasting of their "immense business":—

"The daily circulation of our paper—to actual bona fide paying subscribers—is just five million six hundred and twelve thousand and forty-two sheets. We have employed upon the paper five hundred compositors and one hundred and eleven editors, nine hundred carriers, three hundred and twelve mailing clerks, and other aids too numerous to mention. We have taken especial charge of the falls of Ohio and use them exclusively for 'wetting down' our paper. We have eleven paper mills in constant operation, and a number of which turn out two hundred thousand bundles of paper daily. It requires a seventeen storey Hoe's presses to work off our vast edition, and we are compelled to engage all the coal that is mined in the Lehigh valley, as well contract all that comes down the Ohio river, to supply our engines with fuel. Our correspondents are all graduates of the first universities and colleges in the world, and are stationed in every city, town and hamlet on the habitable globe."

LOOK OUT FOR NO. 1.—Before leaving your measure for clothing be sure you examine J. Muir & Co.'s stock. An excellent assortment to select from.

The Medical Council of Upper Canada is in session in Ottawa.

It is proposed to open in London a new Museum, to be devoted exclusively to the exhibition of articles from the Isle of Wight.

Seven burly cases, and one of garrotting, are reported in the *London Press* as having occurred in that City within a few days.

A contemporary says that small, neat gutta percha cars are now generally worn by the ladies whose own cars are coarse and excessive. The natural ears being easily concealed under the heavy masses of false hair now so fashionable. This is the only step in the way of making the female sex as unattractive in pursuit of what Lord Lytton would style "the deceptive."

The Sunday schools of the Wesleyan denomination in England well exceeded the average of the last educational report shows a total of more than 524,000 children in the number having increased by 177,000 during the past ten years; whilst in the same period the church members, now numbering 351,000, have increased by 67,000.

The New Confederate Cabinet.

(From the Scottish American Journal.)
While the completion of the Confederate
Cabinet must ultimately be determined by
the completion of the first Confederate
Parliament; while the pure and sound sys-
tem of British responsible government is to
be carried out in the new dominion; and
ministers held to a strict accountability to
the Legislature, it is well known to be the
strong desire of the former authorities from
the Queen downwards, to have the Gov-
ernment-General select his first set of advisers
from among those who have stood honestly,
faithfully, truly and steadily to the prin-
ciples of Union, and who have contributed
most directly to the consummation now
reached.

We do not see how the wisdom of this course
can be called in question. While it is pos-
sible enough (and from present appearances
even probable) that in some of the Pro-
vinces, especially in Western Canada, the
old dividing lines of parties may be and
by be restored, it cannot be said that the
coalition of parties formed to give effect to
confederation has fulfilled its mission. It
has laid the foundation, with Imperial
help, of the new structure. It has got the
whole outline of the enlarged system drawn
out. It has overcome all the preliminary
difficulties of organization; and it has up to
that extent completed the provisional
task assigned to it. But those members
of the coalition who did most of that pre-
liminary work are those, we must believe,
best fitted at least to set the new machinery
in motion. The delegates from each se-
parate province know each other. That is
an important point. They are likely to be
able to enter into a new executive council
with something like harmony of purpose.
They can each speak with more or less con-
fidence for the particular part of the Con-
federacy which they individually represent.
They enjoy the entire respect of the Crown,
and, to sum up their prolonged and ardu-
ous labors entitle them to the additional
honor of beginning the new order of govern-
ment, and to the gratification of trying
their hands as statesmen upon a larger
scale than they have ever before had an
opportunity for.

**A Child's Account of his Mother's
Murder.**
A fearful story of a murder was artlessly
told by a child, ten years of age, in the
Manchester Coroner's court. The boy's
mother was the victim; his father the mur-
derer. This was the narrative:—"Last
Tuesday, I went with father, (Woods, an
old soldier), to Salford Backs. Father
drawing his pension, father called at several
public-houses, and got drunk. We got
home at ten minutes to four o'clock. Father
bade mother go upstairs. He was cross
with her because she had half a muggin of
whisky. Mother went upstairs, and
father ordered me to draw the blind of the
lower room window, to lock the door, and
to bring the key. I did all this, and went
to bed, as father told me. When I got up
stairs mother came under the bed, saying,
"Don't tell him where I am." Father came
up in about ten minutes, and ordered her
to come from under the bed. She refused.
Father sent me for two penny cakes. When
I brought them father was sitting on a chair.
Mother was still under the bed. Father
afterwards said several times, "Elizabeth,
come from under the bed," but mother
would not move. Father then sent me
downstairs for a knife. I fetched it, gave it
to father, and got into bed. Father had
then in his hand a stick, with which he
kept mulling mother. I and two little sis-
ters crept beneath the bedclothes because
we were afraid. We heard mother scream
several times, and we dared not look out
until after the scuffling. When we did look,
we saw father undress and get into bed.
Afterwards we heard mother say, "Give me
a drink of water." I got up and saw mother
on the floor, with her head upon the hearth-
stone. She asked me to put a pillow under
her head. I did so, and saw blood on the
hearth. Later on mother said to father,
"Give me a spoonful of water before I die."
Father got up and gave her some. He
raised her head, it fell back, and he got
into bed again. Before father gave her the
water, I said, "Mother, when are you going
to die?" She said, "Soon." Shortly after-
wards the murderer got up, and called in
the neighbors, said his wife had cut her
own throat. The woman was then lying
dead, covered with blood, with her head on
the hearthstone and her feet beneath the
bed in which the three affrighted children
were lying.

In a snow storm at Pittsfield, Mass., the
other day, a bag of netting was found, filled
with moss and hair. A local paper
adds: "The bundle has been identified and
proves to be a lady's waterfall. How it be-
came detached from the wearer is unknown,
but the conjecture is that the owner, caught
in a storm, was obliged to throw overboard
her ballast in order to make headway."

Milton was asked, "How is it that in
some countries a king can take his place on
the throne at fourteen years, but may not
marry until he is eighteen?" Because,"
said he, "it is easier to govern a kingdom
than a woman."

COMMERCIAL.

SPECIAL NOTICE.

PERRY DAVIS' VEGETABLE PAIN KILLER.—We ask the attention of the public of this long tested and unrivalled Family Medicine. It has been known for more than thirty years during which time we have received thousands of testimonials, showing this medicine to be an almost infallible remedy for diseases caused by, or attendant upon:

Sudden Colds, Coughs, Fever and Ague, Headache, Biliousness, Pain in the Face, Stomach, and Rheumatic Pains in any part of the system. Toothache and Pain in the Head and Face.
As a Blood Purifier and Tonic for the Stomach it seldom fails to cure Dropsies, Indigestion, Liver Complaints, Acid Stomach, Heartburn, Kidney Complaints, Sick Headache, Piles, Asthma, Pleurisy, Rheumatism, Boils, Felons, Whitlows, Old Sores, Swelled Joints and General Debility of the System.

It is also a prompt and sure Remedy for Cramp and Pain in the Stomach, Painful Cuts, Burns, Dysentery, Summer Complaint, Cholera Morbus, Cholera Infantum, Scalds, Burns, Sprains, Bruises, Frost Bites, Chills, as well as the Stings of Insects, Scorpions, Centipedes, and the Bites of Poisonous Insects and Venomous Reptiles.
See Directions accompanying each bottle.
It has been tested in every variety of climate and by almost every nation known to Americans. It is the almost constant companion and infallible friend of the Traveller, on sea and land and no one should travel on our lakes and rivers without it.
Price, 12c. per bottle, 50c. per bottle.

MORTGAGE SALE

OF

Town Lots and Buildings,
IN THE TOWN OF BELLEVILLE.

UNDER and by virtue of a mortgage dated 23rd October, 1861, and made between Peter Mabey of the first part, and John Bell, Esquire, of the second part, there will be sold, for default of payment of Mortgage money, at the Court House, Belleville, on

Saturday, the 1st day of June,

A. D. 1867, AT 12 O'CLOCK, NOON.

The following valuable property, viz: all those certain parcels or tracts of land and premises situate in the Town of Belleville, in the County of Hastings, being composed of lots numbers one, two and five of Ponton's block, the description and plan of which is registered in the Registry Office of the County of Hastings, on the twenty-ninth day of August A. D. 1853, being the property conveyed by the said Mortgage.

The property consists of those three desirable rough cast and gravel residences with out-houses and gardens, on the east side of the Trenton road, a short distance above the

American Invoices--Discounts.

FINANCE DEPARTMENT, CUSTOMS,

QUEBEC, 6th March, 1863.

IT is directed by the Hon. The Finance Minister, that heretofore Notices be published and furnished to Collectors of Customs, as to the rate of discount to be allowed on American Invoices, which is to be in accordance with the price of gold as represented by Exchange, at a rate equal thereto. Such notices to appear every Saturday in the Canada Gazette.

R. S. M. BOUCHETTE.

FINANCE DEPARTMENT, CUSTOMS,

OTTAWA, 11th May, 1867.

IN accordance with the above Order, Notice is hereby given that the authorized discount is declared to be this day 25 per cent, which percentage of deduction is to be continued until next Weekly Notice, and to apply to all purchases made in the United States during that week.

THOMAS WORTHINGTON,

3D14t Assistant Commissioner of Customs.

Government House,

OTTAWA

Thursday, 21st day of March, 1867.

PRESENT:

HIS EXCELLENCY THE ADMINISTRATOR OF THE GOVERNMENT IN COUNCIL.

WHEREAS it has been represented to His Excellency the Administrator of the Government in Council through the Hon. the Commissioner of Crown Lands, that Gold has been discovered, and is found to exist in various parts of the Townships herein after named, and whereas it is expedient that the tract and portion of the said Townships should be brought under the operation, and be made subject to the provisions of "The Gold Mining Act";

His Excellency in Council on the recommendation of the Hon. the Commissioner of Crown Lands, and under and in virtue of the authority given and conferred by the 2nd section of the Act 27 and 28 Vic. Cap. 9 has been therefore pleased to order, AND IT IS HEREBY ORDERED, that the tract of the Country comprised within and constituting the Townships of Barrie, Clarendon, Palmerston, Miller and North and South Canoto, in the County of Frontenac, the Townships in the County of Kenora situated north of the Townships of Miller and Canoto, the Townships in the County of Addington, situated north of the Townships of Sheffield and Barrie, the Townships in the County of Hastings situated north of the Townships of Sidney Thurlow and Tyendinag, the Township of Belmont and the Townships in the County of Peterborough, situate north of the Township of Belmont, be and the same is hereby declared to be a Gold Mining Division for all the purposes of the Act in the name of "The Quinte Gold Mining Division."

INSURANCE COMPANY

CAPITAL, \$10,000,000.

FIRE and LIFE.

LIFE DEPARTMENT.

THE principles on which this Company is founded contain all the elements required to develop the benefits of Assurance, and afford every facility to intending assureds.

One of the advantages secured by those who insure their lives with this Company is that the outside expenditure for Management is absolutely restricted by the Deed of Settlement to Ten per Cent. of the Net Life Income. This most important restriction shows that the interests of participating policy holders are closely watched and carefully attended to by the Company. Attention is especially called to this point, as the proportion of premiums expended for Management.

Must Largely Influence Profits and Bonuses.

The next division of profits takes place in 1868, and all those who wish to participate in the profits should insure at once.

How the Levees are Destroyed.
The levees, which are great mounds of
earth built to prevent the Mississippi from
flooding the adjacent country, have an enemy
more powerful to destroy than man is to
construct. It is the clayish, a little in-
significant creature, but who does a significant
work. This destruction is thus de-
scribed.

The clayfish is a dirt digger. Insus-
sible as the white ants, they live like troglody-
tes, in dark caverns, along the side of every
stream, pool, lagoon or river, in the banks
of which they scoop out their habitations—
Taking up their abode in countless millions
within the levees, where they find a secure re-
fuge, they honeycomb in every direction,
daring only to show their heads when they are
enlarged with the wants of the growing col-
ony. The planter, congratulating himself
on the solid bulwark that fences his property
little fancies what a mere shell it has become
under the claws of these tireless voracious
earth. The little rift widens, and with a sud-
den crash the embankment gives way, his
fair fields are swept by the resistless torrent,
and horses, cattle, barns, sometimes himself
and family, are borne off on the boiling flood.

REMOVAL.
Belleville Temple of Fashion,
T. WALTERS.
Having Removed
his place of busi-
ness to the
VICTORIA BUILDING,
been respectfully re-
quested for the lib-
eral patronage received
during the past 7 years,
and having renou-
ed to a more com-
modious store, would
call attention to a
much larger and better stock than heretofore.
You will find a good assortment of
TWEEDS, CASSIMERES,
BROADCLOTHS,
Doeskins, Vestings, &c.
Also,
Gentlemen's Furnishing Goods.
Also, a cheap assortment of
READY-MADE CLOTHING
constantly on hand.
Ordered work promptly attended to—
Please call before purchasing elsewhere.
You will find
My stock is good, my price is just,
I deal quite fair, but for to trust;
Whoever will may deal with me,
Their humble servant I will be.
Belleville, May 1, 1867. T. WALTERS. 1Df

BELLEVILLE, FRIDAY, MAY 17.

TELEGRAPHIC NEWS!

BY ATLANTIC CABLE.

BELM, May 16, evening.—The North German Gazette, the organ of Bismarck, says that the final execution of the treaty signed at London, and the evacuation of the Fortress of Luxembourg by Prussia, will be difficult within the date prescribed by the London Conference, and that Prussia will need more time.

New York, May 17.—The *Herald's* London special of the 15th, says a numerously attended and very influential meeting of the Reformers of England was held in St. James' Hall, in this city, today. The assemblage was called with the view of supporting a proper and well adjusted plan of household and lodger franchise, and some of them present were inclined to accept what are known as the Cabinet concessions on these points.

Mr John Bright delivered an address to the assemblage. He argued forcibly against the Derby Bill and its amendments, and showed that mere justice to the will of the people, as is expressed at this and other meetings, the Liberal members of the House of Commons should reject the measure altogether by voting against it unanimously at the third reading, and thus compel the Cabinet to submit the question of reform to the people at large.

LIVERPOOL, May 17, noon.—Cotton firm at 11½ for Midling Uplands, and 11½ for do. Orleans. Breakfasts quiet, common, 4½d. Wheat, 13s 9d for W. Red, 14s 6d for Col. white. Oats, 3s 9d. Barley, 4s 9d. Peas, 4s 6d. Bacon, 3s 9d. Pork, 7s 6d. Beef, 12s 6d. Lamb, 13s 6d. Mutton, 13s 6d. Butter, 12s 6d. Cheese, 6s 8d. Ashes, 3s 4d. Tallow, 4s 9d. Rosin, 7s 6d. for common, and 13s 6d. for fine. Spirits Turpentine, 35s 6d. Petroleum, 18s 9d for refined. Clover, 57s.

LONDON, May 17, noon.—The regular weekly returns from the Bank of England show that the bullion in that Institution has increased £174,000. Money opens quiet and steady. Consols quiet, at 92½; Erie 48; Ill. C. 79½; Bond 72½; Sugar 24s 3d; Lined 65s. Oils quiet at 23s 10s for Linseed; 218s for Spermac; 23s for Whale.

QUEENSTOWN, May 17 2 p. m.—The *Cuba* from Boston, on the 8th, arrived today.

LONDON, May 17, noon.—The *Steamship North American*, from Portland arrived today.

LONDON, May 17, 2 p. m.—Money firmer. Consols 92½.

LIVERPOOL, May 17, 2 p. m.—No change in Cotton market.

LONDON, May 17, 2 p. m.—Sugar steady at 24s 3d for No. 12. Dutch Standard.

American Despatches.

RIOT AT NEW ORLEANS.

NEW ORLEANS, May 16.—Considerable disturbance took place among the negro stevedores on the levee to-day, amounting at most to a riot. Two policemen were badly injured while endeavouring to rescue a negro from a mob of negroes. The military were ordered not to aid the police.

JEFF DAVIS.

NEW YORK, May 17.—It is stated Jeff Davis and family are to leave New York for the mansion of Mr. O'Connor, Washington Heights, where, it is said, he will remain for a few days before proceeding to Canada.

FROM OTTAWA.

OTTAWA, May 17.—The Medical Council terminated its annual session yesterday. Matters of much interest to the Profession were discussed, and it was decided to resort to legislation for the removal of certain grievances at the earliest opportunity.

FROM MONTREAL.

MONTREAL, May 17.—A private suite of apartments have been secured at the St. Lawrence Hall for Jefferson Davis and family, who are expected here this evening.

The six pound loaf yesterday went up to 18d, causing much consternation in families.

It is rumored in well informed circles that Hon. Sir Narcissus F. Bellerue will be the first Governor of Quebec.

Mr. Brown Raving.

The Chief Organizer of the Discontented Grits, evidently finds that his little game of bringing together the scattered remnants of that party won't work. He commenced some months since to create an excitement, and for a time his paper was principally devoted to reports of Reform Meetings and Reform Conventions. Special Reports were despatched to every little village and neighborhood where a half dozen of his followers could be gathered, and the following day big black headings, strings of resolutions, and speeches of distinguished local gentlemen, followed a great "Reform triumph." "The Tories were routed," "horses foot and artillery," "the Corruptionists were defeated in their stronghold," "the Country is safe," and a great deal more of that sort of trash. Every Tom, Dick and Harry, in other parts of the country, who were ambitious to figure in print, went to work, got up meetings, and the "hall rang handsomely" for a time. But every dog has his day, and so had this uncalculated and senseless agitation. The more respectable section of the Reform party were not long in discovering the object the Chief Organizer had in view. They saw that the agitation was ill-advised, utterly uncalculated, and that it was calculated to do the country a great deal of harm. At the present crisis in the country's history, when it needs the foremost men of both parties to firmly establish the nationality which has just been created, they looked upon this attempt to stir up a bitter party feeling where no party issues existed, as in the highest degree mischievous. They found that Mr. Brown was "Resolved to ruin or to rule the State," and as they knew that if he ever succeeded in ruling it, it would be certain ruin to the country, they very wisely determined to allow him to do it without their assistance.

Mr. Brown, we said, has found that his game won't work, and he has grown furious, hitting right and left, indulging in coarse invective, personal abuse, writing out of the party those who won't humbly bow the knee, and is particularly severe upon those journals which have hitherto acted with his party who refuse to join him in his reckless crusade. The *London Free Press* is one of those journals, and it comes in for a large share of abuse from the *Globe*. The *Free Press*, in reply to the gross attack of Mr. Brown, gives some hard hits, which we subjoin:

"What the *New York Herald* is to the United States, the *Globe* is to Canada—a journal utterly reckless in its course, ready to defame and abuse its contemporaries who differ from it to serve its own selfish ends.

"And what man would ask, has made more out of politics than Brown and the *Globe*? It has lived off it for the last eighteen years. In Hicks's time it was the most humble applicant for printing and advertising favors than Brown himself; and has not ever since used his pen and ink, except to defame and abuse and establish his business? Utterly reckless of the character of public men, he has assailed and assails the leaders of the Conservative party, and has stood in the way of a more just and honest government. He has systematically sought to stamp down all who stood in his path, that he might attain the pinnacle of power himself, and through his efforts, and the country is on the eve of a new state of political life, he still continues the same bitter course and stirs up the dregs of party spirit to suit his own ends. "Traitor," "corrupt," "conspirator,"—these epithets are still freely applied to all who refuse to be bound hand and foot to the *Globe's* chariot wheels.

"The truth is, that the Hon. George Brown aims at being the Dictator of the Province of Ontario, and these frantic struggles and flaming appeals of passion and prejudice are the preliminary workings of what is to follow. It is clear that Mr. Brown sets himself up as Dictator-in-General and Dictator in matters political. He says, in effect, 'If you will adhere to me, and I will protect you from the attacks of the party-men; if not, you are a traitor' and 'conspirator.' That is about the true bearing of the case. Believe in Brown and the *Globe* and you are to be permitted to bask in his favor; dare to differ, and you are excommunicated, anathematized. It remains to be seen whether the people of Upper Canada are prepared to submit to the iron rule of the Hon. George, or to obey the Edicts as promulgated in his Imperial Gazette, ye-ye-ye the *Globe*."

Hon. John A. Macdonald.

This gentleman met with a most enthusiastic reception at Kingston yesterday.

The whole town and streets were crowded with people, there were displays from public and private buildings, and the City bells rang out a merry welcome to the Hon. gentleman. The volunteers were out, and fired a salute in his honor. A public reception took place at Wesley Hall, where an address was presented, and to which he replied in one of his happiest strains. After referring to his mission on the other side of the Atlantic, he said: "He had great pleasure in conveying the personal request of her Majesty, at a private interview, to express to her loyal subjects the deep interest she had always taken in the affairs of British North America. It would be her greatest pride to see the colonies joined in a grand union. He expressed his assurance that in

a few days the news would be flashed across the cable of the issue of the royal proclamation appointing the union to take effect about the first week of July. He referred to the great work of reorganizing the new Dominion, and showed the desirability of making all party differences in the or great object of union and future prosperity."

Mining Intelligence.

We are informed that a good show of gold was found in the quartz on lot 29 in the 5th con. of Madoc, last week. The lot is owned by Francis McAnany Esq., of Belleville, and the place where the gold was found is not far from the Gardiner mine.

The Cooke farm, part of Lot 19, in the 2nd concession Madoc, where gold has repeatedly been found in the creek, is likely to be developed before many days. The lot has been purchased by a company composed of the following gentlemen:—Messrs. Geo. Neilson, F. McAnany, John Bell, E. W. Holton, Pritchett & Kelo, John Sutherland, Messrs. Lazier, J. J. B. Plint, and W. H. and L. B. Graham, all residents of Belleville. It is the intention of the Company to commence operations at once, and if gold exists in paying quantities, it will very shortly be known.

East Riding of Hastings.

The following bit of news we clip from the *Toronto Canadian Freeman* of Thursday:

"We are happy to learn that our friends are the more in this constituency. A requisition to R. D. O'Brien, Esq., of Belleville, calling on him to offer himself as Candidate for the representation of this Riding in the local Legislature of Ontario at the next election, has already appended to it, a large number of signatures, and we feel confident before the active committee who had the matter in hands, will have closed its labors, a long and influential array of names, embracing every creed, country, color and calling, will be the result. This constituency is largely Catholic, and we trust our friends will insist on being represented in the Legislature of the country."

In 1861 the County of Hastings contained a Catholic population of about 12,200, or in the proportion of 2 to 7 of the entire population. Surely it is not too much to ask, that so large a proportion, equal socially and intellectually to their neighbors of opposite creeds, should have at least one-sixth of the representation in the commercial and financial experience of our friend O'Brien eminently qualifies him to be the representative of any constituency. We trust our friends throughout the entire country will make it a condition that he is elected."

Court of Revision.

An adjourned meeting of the Court of Revision was held this forenoon, at the Town Hall, at 9 o'clock, for the purpose of hearing appeals from assessments, &c., and continued in session until noon.

PRESENT.—G. E. Henderson, Chairman, and Messrs. C. G. Levesconte, A. Robertson, and R. H. Jones.

Several matters of appeal were taken up by the Court. The evidence of the appellants, as well as the assessors heard, and judgment deferred until a future day. The Court further adjourned until Tuesday evening next, at 7 o'clock, where it would be well for parties appellant to be present, otherwise their names may be struck off the list.

LITERARY SOCIETY.—The members of the Literary Club are reminded of the meeting which takes place to-morrow evening at Coleman's Hall. A full attendance is requested, as important business will be brought before the meeting.

GODBY'S LADY BOOK.—The June number of this monthly is replete with interesting and instructive reading; and is embellished with numerous well executed engravings. Its literary character is fully sustained and it maintains its position as the leading fashion periodical in the country.

THEATRICAL.—It will be seen by advertisement that a Theatrical Company, consisting of twenty-nine persons, will be here next week. They are from Broadway, New York, and are very highly spoken of by the papers of those places where they have visited. The company have been playing at Kingston this week, where they had crowded houses every evening.

CROPS OF 1867.—From statistics collected relative to the amount of Wheat in store in the State of Wisconsin, it is estimated that there is a decrease as compared with last year of between three and four millions of bushels. The growing crops in the West, however, are stated to be unusually promising in appearance. The *New York Annual Chronicle*, from the best information at its command, estimates that the present indications, and if nothing unforeseen happens during the summer, the crop of wheat in 1867 will be the most abundant ever harvested.

The demonstration in Chicago on Wednesday of last week, in support of the anti-slavery movement, is estimated to have cost the workmen about fifty thousand dollars in wages, and for the procession, and the cost of the procession, as much more. That was the first day. The riots since then are believed to have cost a hundred thousand dollars a day.

Butter Packing.

To the Editor of the Daily Intelligencer.

BELLEVILLE, May 16, 1867.

Sir, I noticed an article in your yesterday's issue, headed "Butter Packing," and thought while reading it, that it was a pity that "Excelsior" had not gone further with his views in enlightening the butter-making community. He says very truly that farmers use "too much salt," and when saying that he ought also to have added that but very few use the right kind, or pack their butter in the right kind of tubs. In making butter, particular care should be taken to get the buttermilk all out of the butter, and no more salt should be put in than will dissolve merely to give it flavor, as salt will not make bad butter good, or keep it from spoiling, and the salt used should be English imported salt; Ashton's is preferable, but that cannot be found in Canada, although good English salt can be got at some of the Groceries—Barrel salt, (the kind mostly used in Canada), that is made in the United States, is unfit for butter, and is more porous, and that purpose, (being too full of time and bad flavor); and lastly Oak tubs, or rather "ferkins," barrel fashion, that head up at both ends, are preferable for packages—Oak tubs are the best, and less porous, and being so, and being headed at both ends, will more effectively keep out the air, which is very important. As I hold that buttermilk, poor salt and air, spoil the butter in Canada, and lessen the value from three to five cents per pound.

ONE WHO KNOWS.

POLICE COURT.

ASSAULTS.

A young man named William Donaldson, charged William Stevenson with assaulting him on the evening of the 15th inst. Fined \$2 and costs.

A Frenchman with a wooden leg named Jacques Le Duc, summoned a young man named Charles Baker for hitting a two pound stone at him, and as he stated "De Garcon did hit me on the shoulder blade by gar; vramont, it is von garnd blow."

Baker was fined \$5 and costs. Two French boys, aged ten and twelve had a fight about a ball, and one struck the other on the head with a stone, inflicting a slight wound; but the Police clerk, the officials, and the magistrate were equally in the dark as to the origin, the result, or the nature of the quarrel, neither of the boys being distinguished for a knowledge of "the well of English unadvised." However, the case was dismissed to the intense satisfaction of the assembled natives of "La Belle France."

—Flour is \$30 a barrel in Chicago.

—Prices of everything in Paris have increased 50 per cent since the opening of the Exhibition.

—The profits of the Massachusetts State Prison for the present financial year will be \$23,000.

—The population of Toronto has declined from 44,821 in 1860, to 40,370 in 1867.

—Cobourg Gas Works have been stopped and the town is in the dark.

—A new schooner called the *Picton* was launched at Pictou on Saturday last.

—There are 1300 British newspapers at the Paris Exhibition, of which 700 are Provincial.

—300 cattle have died lately in the Eastern Townships from starvation.

—Female whiskey detectives are playing havoc with illicit dealers in Toronto.

—California is now engaged in building no less than five important lines of railroad.

—Cotton has declined about sixty dollars per bale since the 1st of January.

—Twelve vessels have been chartered to take wheat from South Australia to England.

—It is rumored that Mr. C. J. Brydges will run for the House of Commons in the County of Prescott.

—The iron frame work of a new roof in Buffalo yesterday afternoon, killing four persons and seriously wounding fourteen others.

—A new Arctic expedition is fitting out in Denmark for the exploration of the interior of Greenland.

—The Paris correspondent of the *London Court Journal* announces that the Empress of France is again en route.

—It was an apt answer of a young lady who, being asked where was her native place, replied: "I have none; I am the daughter of a Methodist minister."

—We are glad to hear that D. B. Solmes Esq., of Prince Edward, who was seriously injured a week or two ago, is rapidly recovering.

—A New Orleans lady—Miss May—is about to start a sugar refinery at Hamilton, employing a capital of \$50,000, and a number of operatives.

—"Was you drunk, Samuel, when you broke that window?" No, was retorted, "drunkenness is the stupid condition that comes after the exhilaration is over."

—If we may credit the *New Hampshire Statesman*, George Peabody sailed worded with the Columbian Hotel, in Concord, for a night's lodging, fifty days ago.

—Haw, who is a judge of morals as well as money, says that "being tender to tender man's wife isn't a legal tender, no more as pickled beetles for courtship, by law."

—An old lady required at one of the railway stations that time the 7.45 train would start, and was told at quarter to eight. "Doesn't me!" she exclaimed, "you are always changing the time on this line."

—It has been suggested that the day on which the British volunteers are to leave for the aid of the French is postponed to the 15th inst.

—A correspondent in a New England town, noticing a few weeks since a new house, said it was of "such rich and rare material and workmanship as almost to tempt one to wish for a ride."

The first time the house was used it was to convey his remains to the depot in that village.

—The review of the British volunteers at Dover on the 2nd of April was a brilliant affair, and a slight accident to the Duke of Cambridge saw the troops march past, and among other distinguished persons present were Prince Albert and Earl Granville.

The appearance of the volunteers was all that could be desired, and the spectacle of the sham fight was fine. Several war vessels took part in the mock battle.

The New French Gun.

The Paris correspondent of the *New York Herald* thus alludes to the new field piece which the French Army is now being armed with:

Mysterious hints are dropped that France is much more ready, and in a much better condition to fight with Prussia than is generally imagined. The French Army is now being armed with a new field piece, which is a small caliber cannon, which is said to be the invention of a French artillery captain, and a large number of which have been manufactured within the last year, although the peculiarity of their construction is kept a profound secret, the gun being, it is said, composed of three pieces manufactured separately in three different arsenals. It is claimed for this gun that a single discharge of it is sufficient to destroy the front of a battalion of infantry at a distance of from eighteen hundred to two thousand yards, and that from forty to fifty shots a minute can be fired. Doubtless the capacity of this gun is exaggerated, but it is evident that the military authorities have great confidence in its power.

The War of 1812-14.

We are glad to notice that the *Volunteer Review* has commenced the publication of a series of papers on the subject of the war during the war of 1812-14. While earnestly hoping that we may never again be called upon to defend our homes against the attacks of our American neighbors, we cannot too often call to mind the glorious recollections of that war.

The Americans saw that Great Britain was engaged in an arduous struggle against Napoleon's gigantic despotism, and in a base and cowardly manner took advantage of the moment when the British were engaged in the war of 1812-14. Out their long cherished project of conquering Canada which was to have been followed by the absorption of the British West India possessions. They failed, however, in both their objects, and received the reward due to their perfidy in the capture of their principal city, and the destruction of their Capital. Such as we may deprecate war with the States, it cannot be doubted that the American people cherish the same ideas and aspirations now which actuated them in 1812, and were the mother country engaged in a great European war, it is possible that we might be called upon like our forefathers to defend our hearths and homes from attack. The more therefore we keep alive the old memories the better.

The first of the papers to which we have referred above runs as follows:

Alluding to the ambitious designs of the Americans, it says:

"This scheme if successful, would have placed the United States at once in the foremost rank of the Great Powers, and given her a prestige and influence such as she has not since attained; for it is a noticeable fact that her political standing is due more to the unrequited and generous friendship and forbearance of England than to her own prowess or diplomatic skill. She has undoubtedly, the mistake made in the political arrangements of the war of 1812-14 was that the Washington Government had not discovered or discerned their natural ally. Hence, from the total annihilation of her naval power, she has been ever a diversion in their favor, and the war ended without its promoters securing a single advantage of its prosecution or acquiring any one of the objects from which it was ostensibly undertaken."

California is now engaged in building no less than five important lines of railroad.

—Cotton has declined about sixty dollars per bale since the 1st of January.

—Twelve vessels have been chartered to take wheat from South Australia to England.

—It is rumored that Mr. C. J. Brydges will run for the House of Commons in the County of Prescott.

—The iron frame work of a new roof in Buffalo yesterday afternoon, killing four persons and seriously wounding fourteen others.

—A new Arctic expedition is fitting out in Denmark for the exploration of the interior of Greenland.

—The Paris correspondent of the *London Court Journal* announces that the Empress of France is again en route.

—It was an apt answer of a young lady who, being asked where was her native place, replied: "I have none; I am the daughter of a Methodist minister."

EXCELSIOR!
OWING to the press of business in Pho-
tography, and the great demand of
their many friends and customers for the
subscribers have engaged a
Foreign Artist,
especially for that branch of photography.
Feeling assured that he can excel any-
thing on the continent, they cordially invite
all who wish something far surpassing any-
thing they have yet seen, to give them a call.
FORREST & LOZO.
P.S.—Rooms opposite the Anglo-Ameri-
can House, Front Street, Belleville.
May 2. 2D3m

The Reaper.

There is a Reaper, whose name is Death,
And with his scythe he reaps the grain,
He reaps the bearded and the bleached,
And the flowers that grow between.

"Glad I have fought that is fair," said he,
"I have fought, but the besting I have done,
I will give you all back again."

He gazed at the flowers with tearful eyes;
He kissed their drooping leaves.
"It was for the Lord of Paradise
He would have them in his leaves."

"My land has need of these flowers' gay,"
The reaper said, and smiled,
"Dear tokens of the earth are they,
Where he was once a soldier."

"They shall all bloom in fields of light,
Transplanted by my care,
And smile upon their garments white,
These sacred blossoms wear."

And the mother gave, in tears and pain,
The flowers she most did love;
She knew she should find them all again,
In the fields of light above.

O, not in cruelty, not in wrath,
The Reaper came that day,
"Twas an angel visited the green earth,
And took the flowers away."

**To a Pretended Friend, and
Real Enemy.**

Thy hesitating tongue and doubtful face
Show all thy kindness to be mere grimace.
Thou owest the mask; at once be foe or friend;
Thy base to soothe, when malice is the end.
The rock that's seen gives the poor sailor's dread,
But double terror that which hides its head.

Cold Water.
Cold water—bubbling up in the cool spring,
Sparkling in the rill, gushing from the rock,
Shining in the dew, and falling in the
shower—how pure and how refreshing,
and yet, dear children, very few of us realize what
a great blessing our Heavenly Father has be-
stowed upon us in thus providing for our
thirst; and, again, though it is so free and so
bountiful, how seldom we return thanks unto
God who gives us this and all the good and
perfect gifts which we receive so plentifully.
How ungrateful is man, that he should treat
and manufacture those vile drinks which
poison and destroy life, when his Maker has
given him such a life-giving drink as cold
water—delicious, pure, sparkling, cold water.

And now, children, since God—who know
all our wants and made ample and sufficient
provisions for them—has in his great wisdom
and love given us cold water, let us accept of
the precious gift, and never desire any of those
drinks which are so hurtful and deadly.

"The beautiful and innocent of all earth's liv-
ing things,
Drink nothing but the crystal wave that gushes
from the springs."

As a faint picture of what our condition
would be without it, and the worth of a drink
of water, we give the experience of an African
explorer:

"For twenty-four hours," says Burton, "we
did not taste water; the sun parched our
brains and the mirage mocked us at every
turn. As I jogged along with eyes shut
against the fiery air, every image that came
to my mind was of water; water in the cool
well water bubbling from the rock, water
rippling in shady streams, water in clear
lakes inviting me to plunge in and bathe—
Now a cloud seemed to shower upon me
drops more precious than pearls; then an un-
seen hand seemed to offer me a cup which I
would have given all I was worth to re-
ceive. But what a dreary, dreadful contrast!
I opened my eyes to a heat-reeking plain, and
a sky of that deep blue so lovely to painter
and poet, so full of death to us, whose only
desire was rain and temper. I tried to talk,
but could not; I tried to think, but I had
only one idea—water, water!"

"Water shoots a glad hoarse cry,
Bubbles up to the earth to be quenched,
Cheers it like the precious manna,
In the barren wilderness."

"To God be thanks, who pours out
Cold water from the hills.
In crystal springs and bubbling brooks,
In lakes and sparkling rills."

Hints to Business Men.
Keep good company or none. Never be
idle. If your hands cannot be successfully
employed, attend to the cultivation of the
mind. Always speak the truth. Make few
promises. Live up to your engagements.
Keep your own secrets, if you have any.
When you speak to a person look him in
the face. Good company and good con-
versation are the very sinews of virtue.
Good character is above all things else.
Your character cannot be essentially in-
jured except by your own acts. If any speak
evil of you, let your life be so that none
will believe him. Drink no kind of intox-
icating liquors. Ever live (misfortunes
expected) within your income. When you
have to bed, think over what you have
been doing during the day. Make no
haste to be rich, if you would prosper.
Small and steady gains give competency
with tranquility of mind. Never play at
any kind of game of chance. Avoid ran-
tation; though fear you may not with-
stand it. Earn money before you spend
it. Never run into debt, unless you see a
way to get out again. Never borrow if
you can possibly avoid it. Do not marry
until you are able to support a wife—
Never speak evil of any one. Be just be-
fore you are generous. Keep yourself in-
nocent, if you would be happy. Remember
when you are young to spend when you
are old.

LIVERPOOL, May 18, (2 p. m.)—Provisions firmer; Pork advanced 3s place opening and is now 7s 6d per lb of 300lbs for prime eastern meat. Corn quiet and steady.

American Despatches.

FIRE.

CHICAGO, May 17.—Kirk & Co's. Soap and Candlefactory was destroyed by fire this evening. Loss \$100,000.

THE EASTERN QUESTION.

NEW YORK, May 18.—The *Herald's* Constantinople correspondence contains matters relative to the progress of the Eastern question to a war crisis which is of the highest importance, particularly when read in connection with cable despatches announcing the defeat of Omar Pasha in two severe battles in Candia, and the renewed representation of the Great Powers to the Sultan, as to the advisability of the cession of Crete to Russia.

Russia according to report, was gradually encroaching the Turkish provinces due east and south east, with her troops, and large bodies of the soldiers of the Czar were situated near Simphoropol, between Kars and Tiflis, while the country between Kars and Erzerum was secured by Russian cavalry. Sebastopol is stronger than ever, and has 150,000 men in and around the city. Odessa was filled with troops and it is quite evident that Russia was prepared to administer at any moment to the effects of the "sick man" with profit to herself. Bankrupt almost in treasury and finance the Sultan was surrounded with home difficulties, tending to open insurrection in the capital.

In a case of grievance to some Italian *Escherman*, the Minister of Victor Emmanuel recently appeared in the Imperial presence and demanded redress in haughty and pre-emptory language.

The people subject to the Porte, grown under the heavy load of taxation which they are called to bear, while French officers travel the interior of the empire noting and reporting on its industrial capacities, products and mines.

MISCELLANEOUS.

NEW YORK, May 18.—It is reported that the Hudson River and Harlem Railroad intend to carry passengers to Albany for \$1.50, in opposition to the boats.

NEW YORK, May 18.—Shipments of

specie to-day for Europe, amounted to \$2,831,500.

SANDY HOOK, May 18.—The steamship *Albatross* from Bremen, will be up about 4 o'clock.

NEW YORK, May 18.—A forgery was committed on the Broadway Bank yesterday, amounting to \$17,000. No clue to forgers.

NEW YORK, May 18.—Steamers *Atlanta* and *Belinavia*, from London, arrived to-day.

NEW YORK, May 18.—Ristori, yesterday, made another donation \$140 to the widow of sculptor Fueni. She started for Europe to-day in the *Ville de Paris*.

FROM OTTAWA.

OTTAWA, May 18.

Three soldiers of the 100th Regiment, who deserted last Tuesday, were arrested yesterday at Morrisburg, and three others at Prescott. Four men are reported to have deserted yesterday morning.

The Canada Gazette contains the following Militia Order:—No. 1.—In future, whenever it may be desired to have a brigade parade of volunteer corps, the commandant or senior officer will be good enough to apply for the sanction of His Excellency the Commander-in-Chief before ordering the same.

Discount on American invoices 26 per cent.

An order in council was passed, permitting Horses, Horned Cattle, Sheep, Pigs and other animals, Poultry and Fancy Birds, to be imported, duty free, from the United States by Agricultural Societies, for the improvement of stock.

The Marmora Railway.

Work is being rapidly pushed forward on the Cobourg and Marmora Railway, and it is expected that the road will be graded and the rails laid down early in the month of June. A correspondent of the *Peterboro Review*, who went over the line recently, reports that on the west end of the line "there are five miles almost graded, and it appears to be a durable piece of work. Part of the ties were laid on the 8th inst., under the superintendence of E. Waite, Esq. The steamer *Forest City* arrived on the 9th, with two scow loads of railway iron. The track was commenced on the tenth. They commenced at the wharf, and have it laid into lot No. 1, in the 9th concession of Belmont, and by the time they get to where the graders are working, they will have those small pieces finished, and enable the track layers to lay five miles straight ahead. The road will be ready for the locomotive to draw the gravel train whenever it is removed to the track."

The correspondent says the Iron Ore Bed begins to have the appearance as if something was to be done to remove that silent but useful treasure. A gang of men are at work at the bed, and so soon as the road is finished, there will be plenty of business for the locomotive. "As for the wharf, at the Narrows on the River Trent, the wood-work is completed, and the contractor is now filling in the piers with stone. They are a good piece of workmanship; durable, substantial, and reflect much credit on the Company's Engineer, J. H. Dumble, Esquire, whose energy in pushing forward the whole work few men could surpass."

The Cobourg *Sentinel* of the 10th inst., gives us the following additional particulars respecting their road:—"Mr. A. F. Munson, the contractor for the building of the cars, has already turned out twelve of the dumping, and Mr. W. L. Payne, sub-contractor, has placed twenty flat bottomed cars upon the track ready for service. The remainder will be completed with all possible speed. The first of the new engines is expected here on the 6th of June next, and another on the 6th of July. The whole line to Marmora, it is expected, will be in working order by the 16th of next month. The pilot engine, which does such good service on the line last summer, is now busily engaged every day in delivering fence rails and ties along the line, and in bringing in lumber, flour, and other freight from the back country. Iron ore is now commanding a very high price in the American market, and every effort is being made to make the Marmora mines available."

While we cannot but rejoice that the mineral wealth of our own back country is, by the means of this Railway, about being developed, this country has much to regret at the loss sustained in not having the American capital, now being expended in Cobourg and along the line of route to the Big Ore Bed in Belmont, spent among our own farmers and artisans. Hundreds of thousands of dollars will go into the pockets of others, which might have been ours.

A person lately died at St. Petersburg, at 85, called Count Louis Carlowitch, who is believed to have been lost Dauphin of France. The story of his removal to Russia is circumstantially told.

Presentation and Supper to Major Bowell.

The members of No. 1 Company of the 15th Battalion, when they heard of Mr. Bowell's promotion from the Captaincy of that company to the Majority of the 49th Battalion, determined upon giving him a testimonial and supper. Yesterday evening was selected for the occasion. The supper took place at the Anglo-American Hotel, the large dining room of which was very respectfully filled. No. 1 company turned out in full force, to do honor to their late Captain, and the guests present swelled the number to over seventy. Amongst the latter were Lieut. Col. Brown, Lieut. Col. Sutherland, Major Levesque, Captains Thos. Wills, L. H. Henderson, J. W. Thompson, S. A. Lazier, R. C. Hulme, P. Hamblay, and Geo. James; Dr. Lister, Dr. Burdett, Lieut. Diamond, Hon. Robt. Read, and N. B. Falkner, Esq.

The Chair was occupied by Color Sergeant Meredith, and the Vice Chairs by Sergeant Watters and Corporal Stevens respectively. After supper was over the Chairman proposed the usual loyal toasts. To the toast of "The Army and Navy," Capt. James responded in one of his happiest speeches. After referring to the deeds of heroism which for hundreds of years have covered with glory the British arms, he alluded to the influence of England, as exhibited in the late letter of the Queen of England to Prussia. A few simple words from our beloved Queen, had the effect of sending back to their peaceful homes millions of men. This shows England's influence amongst the nations, and any one who says that England's prestige is waning, has only to look at that little incident to prove that she stands foremost amongst the Nations.

In proposing the toast of the evening, the Chairman briefly explained the object which had brought them together. It was to do honor to a gentleman who had been their Captain, and whose promotion to be Major of the 49th, they could not let pass without giving him some substantial evidence of the esteem in which he was held by the Company. He would only say that the officers and men of the 49th would find in him an able officer and warm friend. He then read the following Address:

TO MAJOR MCKENZIE BOWELL, 49TH BATTALION, V. M. I.

SIR.—We, the non-commissioned officers and men of No. 1 Company, 15th Battalion, V. M. I., cannot allow you to take leave of us, without showing some mark of our esteem for your uniform kindness and untiring zeal for our welfare, during the time that we were under your command.

We, therefore, ask you to accept from us this sword and spurs, and we trust that this presentation will be the means of awakening pleasant reminiscences of days of service in the company.

We also feel assured that if the day should come, which God forbid, when necessity requires the Volunteers of Canada to go forth in defence of the beloved country, no sword will be unsheathed with more readiness than the one which we now place in your hand.

Allow us to congratulate you upon your promotion, with our combined wishes for your future happiness and prosperity.

On behalf of the non-commissioned officers and men of No. 1 Company, 15th Battalion.

W. MEREDITH, Color Sergeant, No. 1 Co. JAMES WATERS, Sergeant, No. 1 Co. J. E. STEVENS, Corporal, No. 1 Co. W. HOPKINS, L. C., No. 1 Co. C. THOMAS, L. C., No. 1 Co. Belleville, May 17th, 1867.

At the conclusion of the Address, the Chairman presented to Major Bowell the Field Officer's Sword and Spurs. The sword contained the following inscription:

Presented to MAJOR MCKENZIE BOWELL, by No. 1 Co., 15th Battalion V. M. I., As a recognition of the esteem in which he was held while in command of that Company.

Belleville, A. D. 1867.

Major Bowell responded as follows:

TO THE NON-COMMISSIONED OFFICERS AND MEN OF NO. 1 COMPANY, 15TH BATTALION, V. M. I. BELLEVILLE.

COMRADES.—With no ordinary feelings of pride and pleasure do I accept of your hands, this flattering address, and the valuable present accompanying it. That is enhanced by your warm expressions of approval of my humble services while in command of No. 1 Co., 15th Battalion, and from the additional fact that with most of you it was my good fortune to be associated, when our soil was invaded by a band of miscreants.

I assure you that this compliment, which I feel is more than I deserve, will not soon be effaced from my memory, and that the possession of the sword and spurs, with which you have now presented me, will ever awaken reminiscences of the happy days spent with me, in whom the ever ready to do their duty—and whom it is an honor for any officer to command.

Allow me to congratulate the Company, on having for its present officers, gentlemen so well qualified for the position, and under whose command I have no doubt No. 1 will always sustain its reputation as the best Infantry Companies in the Province.

I thank you for your kind wishes for my welfare, and trust that nothing in my future life will give you cause to lessen the good opinion you have been pleased to express of me.

Yours respectfully,

M. BOWELL.

Belleville, May 17th, 1867.

The Chairman then gave the health of Major Bowell, to which that gentleman briefly responded. He referred to his connection with No. 1 Company, the Captaincy of which he had accepted with pleasure and regret. With regret because the young gentleman who was then in command was compelled, by circumstances over which he had

no control, to remain in charge of the Telegraph Office, but who was at the same time anxious to go with his comrades wherever his country called. He knew his position, he appreciated his sterling worth, and could testify to his undying loyalty and attachment to his Queen and Country. Mr. Thompson was, however, ordered to remain by the Adjutant-General, where his services were most required, and which he performed with satisfaction to the department and to the country. He accepted the command with pleasure because he knew the Company was in an efficient condition. It was composed of men of intelligence and education, men who knew their duty, and all he had to do was to give his orders and they were obeyed. He congratulated the Company upon the promotion of Lieut. Holton to the Captaincy, and he would take occasion to say that a young man of more sterling worth was not to be found in Belleville. Major Bowell concluded by proposing the health of the Captain and officers of No. 1 Company.

Captain Holton, Lieut. Malloch and Ensign Thompson acknowledged the toast.

Mr. Falkner as an ex-Lieutenant of No. 1 Company, was called upon to respond, which he did in a twenty minutes speech, detailing his experience and the exploits of the gallant 15th at Prescott, and keeping the company in a remarkable state of good humor during its delivery.

Vice Chairman, Sergeant Waters, next gave "Our Guests."

Hon. R. Read had great pleasure in being present to do honor to an old friend, who was in every respect worthy of the high compliment paid him to-night. The Hon. gentleman referred at some length to the volunteer system, the changes which had been made in our system of Government, and what we needed to make us a great and prosperous Nation.

Lieut. Col. Brown, of the 49th Battalion, felt great pride and satisfaction in being present with his honored guest. He was proud that an old esteemed friend had received such a substantial and worthy compliment. They had been associated together in the volunteer service for a number of years, and he need hardly tell those present that Major Bowell had always been an efficient officer. Referring to the two Battalions he trusted that they would always be found shoulder to shoulder, doing their duty faithfully and efficiently. The 15th is spoken of as one of the most efficient Battalions in the Province, a position he hoped it would always maintain.

The Mayor and Corporation, in the absence of the Mayor, was responded to by Major Levesque, who took occasion to express his gratification at being present to do honor to their guest.

Lieut. Col. Sutherland, also responded on behalf of the Corporation, regretting that the Corporation had neglected one most important duty, and that was to pave Front Street; but he trusted they would mend their ways by mending the streets.

The Ladies was appropriately acknowledged by Captain James W. Thompson.

The Press was responded to by Lieut. Diamond, Mr. Mason, and Mr. Shepard. Mr. Diamond took occasion to concur heartily in the flattering compliment given to their guest, remarking that he showed what commanders often failed to show—that he could be a strict disciplinarian, and at the same time be kind and gentlemanly to the men.

Second Vice-Chairman, Corporal Stevens, then gave the two last standard toasts.

The Bar was ably responded to by Capt. S. A. Lazier, who was proud of his connection with the volunteer force, and who had great pleasure in being present to give this compliment to their guest.

Mr. Falkner was again called to his pins, and kept the company in roars of laughter by his humorous description of the most distinguished characteristics of the profession.

The Dominion of Canada, the last regular toast, was briefly acknowledged by Hon. R. Read.

Several volunteer toasts followed, and the company broke up shortly after midnight, having spent a most pleasant and agreeable evening.

GRAND TRUNK VOLUNTEERS.—We understand that the order recently issued to have Nos. 7 and 8 Grand Trunk Rifles, Belleville, go to Montreal, on the Queen's Birthday, has been cancelled. We are glad these companies are not to leave Belleville on the 24th. They will probably turn out in connection with the 15th Battalion.

NEWSPAPERS OF OLD.—The following extract from an old Worcester newspaper of 1175 affords a curious illustration of journalism and credulity in those days: "Aynsley, 4 miles from Leominster in Herefordshire, Aug. 30. A strange Dragon of a vast magnitude, having Wings, 4 Legs, a long Tail, large Scales, of a brightish Colour, has been seen hereabouts. It inhabits about the Black Hill, a mile from hence. We hear it has this day destroyed 3 men and 5 sheep. People are in such fear that none dare pass that way. They have bought Powder and Ball to endeavour to destroy it, but it most commonly keeps in the Caverns of the Rocks."

Mining Intelligence.

The *Malac Mercury* of to-day contains the following gold items:—

"Mr. Lombard has commenced to work another mine on lot 26 in the 4th concession of Malac."

"James Morrison, Esq., of Morrison, Taylor, & Co., Toronto, on Thursday visited the 'Cariboo' Mine, at Bannockburn, in company with Mr. M. L. S. of Malac. A pan of the earth from the mine was washed in their presence, and yielded the very satisfactory result of 20 particles of gold."

"Mr. Obadiah Johnson has shown this week a very fine specimen of gold in a small piece of quartz, which he broke off from a boulder lying within a few rods of the Richardson mine. There can be no doubt of the richness of that locality."

"There are now more inquiries on the part of speculators for the purchase of mining lands, with more moderate views on the part of holders of real estate."

A Good Arrangement.

The *Hamilton Spectator* says:—"Our readers will be glad to hear that the two great Canadian Railways have at length come to a mutual understanding for the adjustment of rates and fares and the avoidance of that injurious competition which has long prevailed to the detriment of both, as well as to the injury of the country—by preventing the full development of traffic which the localities traversed by the two lines would be otherwise calculated to promote. The *Railway News*, from which we obtain our information, congratulates the proprietors of both roads on the fact that the fortunate presence in London of the general managers of those two important colonial undertakings, actuated by a spirit of concession and conciliation, has concurred to produce so important a result. *Esto perpetua*."

An Extraordinary Person.

From the *Mercantile Gazette*.

Certainly one of the most extraordinary persons whom that extraordinary conspiracy, the Fenian rebellion, has produced is "General Massey." The General, though fully informed about Fenianism, is singularly ignorant of his own history. In the first place, he does not know what his name is. He presumes that he was baptised, but he does not know what name he has assumed since that time. He has assumed many names and played many parts. At one time he was Pat Condon, of the Land Transport Corps, at Portsmouth, where, he says, he obtained his discharge, but the discharge was not forthcoming a month after Massey had departed from it, whether he lost it or not; a piece of forgetfulness which would tell rather bad against him if the "General" were being tried by court-martial for desertion. He went to America in 1856, and when the civil war broke out joined the Confederates as a Private. Yet soon afterwards we find him an officer, and he "thinks" he was a lieutenant, but is not sure. A little later he is a colonel under General George Smith, and he constantly urged his commission as he lost his discharge in England. After the war he became a commercial traveller. Next he took up with the Fenian business, and attended the meetings at New Orleans. He constantly urged Stephen to "excite" rebellion in Ireland. He was sent over to Ireland to carry out his own suggestion, swooned away directly he was arrested, and then turned informer. The only creditable part in this confession was when the "General" said that "he was only sorry that he never recovered from the swoon." We suspect a good many other persons are no less sorry.

—It is said that a new Reform paper is to be started in opposition to the *Globe* in Toronto.

—Greece is reported to have bought seven monitors of the United States.

—The *Chicago Evening Journal* says that beef has not been so high since "the cow jumped over the moon."

—Greeley says the man who pays more for sheep than for advertising, don't know his business.

—A backwoodsman saw a lady at a piano, and sung out, "Jim, is come here. Tarnation, if here ain't a woman playing music out of a chair!"

—A French physician pretends to cure rheumatism by placing a bee on the spot where the pain is the severest, and exciting it until it stings.

—It is said that Bessmer, the German inventor of the process by which steel pipe is converted directly into unalloyable, is already realizing \$50,000 a year for his patent.

—Wild pigeons are swarming pests in Jackson County, Wis. They cover the grain fields by thousands, and bid fair to rob many a wheat field of its seed.

—Panthers and wolves, driven out of the swamps by the overflowed rivers, are becoming dangerous in the hill-land of Jefferson county, Mississippi.

—The *Windsor Record* says: "In consequence of orders received from head quarters, the gunboat *Prince Alfred* has taken her departure from this port to be laid up at Goderich. Her crew, however, are, and are to be sent back to the *Avon*, at Quebec."

—Thousands of cattle have died in Kansas during the past winter from exposure and lack of proper food. The mortality has been especially severe in the southern part of the State. One company has lost twelve thousand in two or three weeks.

—Joseph Dixon and John McDevitt have decided to play their match, for the championship of America and \$1,000, at Montreal on the 10th of June, and Crell Dixon and J. Cronin play for the championship of Canada and \$500, at Quebec on the 14th of June.

—The British Government is round against allowing Finnegans all the benefits and privileges of American citizenship whilst they claim to be citizens of an Irish Republic; and it also continually remarks that Irishmen shed more blood in one street in New York, on last St. Patrick's Day, than was expended during the late Finnegans insurrection in Ireland.

can House, Front Street, Belleville.
May 2. 2Dm

Drops in the Bucket.

Red pepper mixed with soft feed may
be fed to poultry once a week.
Polymerized charcoal given occasionally is
good for fowls.

Oxen that have heavy Spring work to
do, must have attention.
Plaster of Paris not only purifies the at-
mosphere, but performs valuable services in
sowing manure. Use it freely.

Pounded glass mixed with dry corn meal
and placed within the reach of rats, it is
said, will banish them from the premises.
The man who takes no pains to make or
save manure, will not find farming a very
profitable business.

The roots of plants absorb oxygen, the
leaves carbonic acid and gas; feed the roots,
and the leaves will take care of themselves.
The tools and machinery on many farms
are more injured by exposure to the weath-
er than by wear or actual use.

Slow none but the best seeds. Keep
none but the best stock. Use none but
the best tools. Plant none but the best
trees or vines.

Twelve quarts of shot, a hoghead of
water, will make a powerful liquid manure,
which will improve the growth of flowers,
garden vegetables, or root crops.

To make a fancy or ornamental fence
and win the prizes at the regattas; Norway
spruce, and cedar, white pine are among
the best, and white willow. Set about
three evergreens, then a white willow, and
so on alternating.

Twenty-five farms have been sold in one
section of Alabama for the low price of \$1
per acre. A failure of crops caused credi-
tors to force sales. One of the sales thus
made was a plantation of 600 acres for
\$600.

There is in almost every family a daily
waste of bones that if saved and applied
to the roots of the pear-trees and grape-
vines in the garden, would supply yearly,
sufficient manure for one hundred plants.

Goats furnish a small supply of very
rich milk, and as their food costs little,
they have been found very profitable ani-
mals by families feeding but little milk.
Some of the best yield three quarts per
day, but generally from three to four pints.

The seed of the common sunflower is
greedily eaten by all poultry, and serves to
fatten them more rapidly than any other
grain. The plant is as easily grown as
Indian corn, equally prolific in yielding
quart for quart, and more or less of it
should be grown by every one who keeps
fowls.

ADVANCING IN SQUARE.—On the posi-
tion we passed over the spot on which one
of the Brunswick houses had stood, and
found lying there many of their killed and
badly wounded men. They had suffered
most severely by round-shot and shells. It
was one of the most shocking sights we
saw even on that most blood-stained battle
field. One poor fellow, whose thigh was
completely taken off, high up, by the ex-
plosion of a shell the moment it struck him,
and who was black in the face, raised one
self and caught hold of the hand of one
of our men, and then fell dead. Another,
who had not long to live, shook the hand
of another 62nd man, as we were passing
to the front, and cried "Brave Anglians!"
Close to this was a Brunswick square, pre-
pared to receive cavalry with the front
rank kneeling, and stood in a row. But
whether it was the square these wounded
belonged to, which had been moved out of
its exposed position, or another square, I
know not. We must have passed here
near to the right square of Mainland's Bri-
gade of Guards, but we saw nothing of
them. Our advance was just at the close
of the French cavalry on the allied squares.
I think, but I am not sure, that we saw at
this the 18th Light Dragoons, of Grant's
Brigade, ride down the slope on our left to
charge some French cavalry on their left
front.

A affectionate Irishman once enlisted
in the 75th Regiment, in order to be near
his brother, who was a corporal in the 78th.

A merchant died suddenly after writing
a letter to one of his correspondents. His
clerk wrote at the bottom, "Since writing

An excellent old lady says the only way
to prevent explosions is to make the engi-
neers' bile their water" ashore. In her
opinion all the busting is caused by "cook-
ing the steam on board."

A printer, who became a physician, gave
as a reason for the change, that in printing
all the faults, the exposed to the eye; in
physic, they are buried with the patient.

Lord Braxfield, a Scottish judge, once
said to an eloquent culprit at the bar, "You-
er a very clever chiel, man; but I'm think-
ing ye wad be nane the waur o' a
hangin'."

A Scotchman went to a lawyer once for
advice, and detailed the circumstances of
the case. "Have you told me the facts pre-
cisely as they occurred?" asked the lawyer.
"Oh, ay," replied he. "I took it best to
tell ye the truth. Ye can put the lie into
it yourself."

Daily Intelligencer.

BELLEVILLE, MONDAY, MAY 20.

TELEGRAPHIC NEWS!

BY ATLANTIC CABLE.

LONDON, May 19, (evening).—The Luxemburg question may now be regarded as finally settled, for the Emperor Napoleon and King William of Prussia, have signed the treaty looking to that end.

DUBLIN, May 19, (evening).—The motions for new trials in cases of McCafferty and others, Fenians recently found guilty, have been denied.

LONDON, May 19.—The City of London has voted £500,000, towards the erection of a statue to George Peabody.

LONDON, May 20, (A. M.).—Money market not yet opened. 30 & Erie shares are considered easier, but not notably lower than at the close Saturday evening.

LONDON, May 19.—A despatch has been received announcing the arrival of the *Montezuma* at Gibraltar.

American Despatches.

FROM MEXICO.

NEW YORK, May 20.—The following was received from Mexico:

ORIZABLA, April 20.—Yesterday a German princess, wife of one of Maximilian's aides, presented herself at the headquarters of Gen. Diaz and asked an interview. She proposed the following terms: Disbanding of the Austro-Belgian Corps, a guarantee of the lives of its members, and permission for their return to their countries. She also solicited a guarantee for the safety of the life of Maximilian.

CAMP BEFORE QUATERO, April 28th.—Nothing occurred during the past night. We are engaged in burying the dead and the field is covered with them. Losses of those corps of reserves, which made the attack as follows:—The *Canadiers de Guelana*, 28 men; the *Sapoteños*, 13 men; the first of the line 16 men, other losses trifling. (Signed) ESCABEDO.

SURRENDER OF THE PRISON.

NEW YORK, May 20.—The *Herald's* special says that the trial is set down for Monday week, there is reason to think the prosecution will not then be ready.

SPECIAL TELEGRAMS.

FROM TORONTO.

TORONTO, May 20.—The *Rothsay* and *City of Toronto*, had an exciting race from Toronto to Niagara, to-day. The latter made the trip in two hours and eight minutes, beating the former in seven minutes. Large sums of money were won by the race.

A revolting case is reported from London. Five men, respectively connected, were arrested.

FROM OTTAWA.

OTTAWA, May 20th.—A full review of Regular and Volunteer Force takes place to-morrow.

The Victoria Ride are to visit Ottawa on the Queen's Birthday.

Three deserters of the 100th Regiment were arrested on Saturday.

A Murder Case.

PORT COLBORNE, May 20.—A man named Meno Graybel living about seven miles west of here, shot his brother-in-law John Wallace through the head, and was shot himself by his brother Samuel Graybel. Graybel is not dead.

THE BROADWAY THEATRE.—The *Kingston* *Way of Sinners*, says: "After a brief but successful season of single work, Mr. Wilson has taken his Company away to Belleville, where we trust he will be received with favor. The Company over which he presides is an exceedingly good one, and the conduct of all its members has been marked with good demeanor and respectability. It affords us great pleasure to say this, because it shows that Actors and Actresses can be as correct in private life as in any other trade or profession. It is to be hoped that Mr. Wilson will soon bring his Company again to Kingston."

Mining Intelligence.

We learn from Col. Campbell Gold Inspector, that within a few weeks he has issued 46 Private Lands Gold Mining Licenses, 18 Crown Lands Gold Mining Licenses, and one Free License. The Free License was given to Mr. J. F. B. Morrice, who made a new and valuable discovery of gold last week on lot 16 in the 11th concession of Madoc. The gold was found in white quartz, two feet from the surface; in one piece of the quartz can be seen twenty distinct pieces of gold. The Inspector pronounces them the best specimens yet obtained outside the Richardson mine. Morrice made an affidavit that the discovery of gold was made by himself, previous to obtaining the license.

Eight Tavern Licenses have been issued by the Inspector, in pursuance of the provisions of the Mining Act. The Inspector reports that a considerable number of persons are arriving within the Gold District, and that work is being resumed at several of the mines, but the weather is still unfavorable for prosecuting mining operations extensively.

Mr. Strong, interested in the Barry mine, Elzevir, informed us this morning that they continue to find gold in small quantities in that mine. An old California miner is superintending operations at this mine, and he reports the prospects exceedingly promising. They are following the crevice between the Tale Slate and the quartz, and from the ochreous substance taken therefrom gold has been repeatedly washed.—This is the mine at which the accident occurred early in the spring, and at which operations were resumed only about ten days ago.

We are also informed that at the "Cariboo mine," on the Gardiner farm, near Bannockburn, gold is being continually washed from the sand found in the crevice. Experienced miners anticipate a rich deposit there when they reach the bed rock.

The "Cooke Mining Company" have complied with the terms required by the Act, and are now a corporate body. They will commence operations at once, and from what we have heard of this locality by experienced miners, we anticipate rich developments from that quarter.

Stations of Ministers.

The Ontario Conference of the Episcopal Methodist church closed its annual session on the morning of the 15th. The reports of the various schemes of the church show that the conference has had a prosperous year. The following are the stations of Ministers in this vicinity:—

Belleville.—Rev. Joseph Wild.

Sidney.—Rev. S. W. La Du and S. G. Thompson.

Sterling.—Revs. A. Campbell and R. Campbell.

Madoc.—Rev. J. Q. Adams.

Brighton.—Revs. P. L. Sparrow and S. Norris.

For Tudor and Marmora, Ministers will be supplied.

SAW LOGS.—The slides on the Moira have been opened during the week, and saw logs and railway ties are coming down in considerable quantities.

THE SENDER RILE.—The Army and Navy Gazette of the 1st inst., says: "We are glad to hear the very best accounts of the working of the Snider rifle with the No. 3 cartridge. It appears to leave nothing to be desired, and both officers and men now engaged in practice are quite enthusiastic about its merits."

CANADIAN RAILWAYS.—The traffic returns of the Canadian Railways for the month of April, appear in the *Canada Gazette*. They show an increase over the month of April 1866, of \$36,434. The increase of the Great Western was \$22,607; of the Grand Trunk, \$3,599; and of the Northern \$2,100.

MILITARY.—We observe by the Army and Navy Gazette of the 1st May inst., that the 3rd Brigade Royal Artillery and the 29th Regiment at present forming part of the garrison now in Malta are under orders for Canada. The 29th and a portion of the 3rd Brigade R. A., will embark next month, and the remainder of the Brigade in August.

MARKET FEES.—The Market Fees for the current year were sold at noon, at the Town Hall. The bidding was commenced by Mr. Mackie at \$1312, and was continued with some spirit by Messrs. E. Perkins, Robt. Howe, the present Lessee, Mr. Phillips, and Mr. Mackie. The highest bid by Mr. Howe was \$1400; by Mr. Phillips, \$1430; by Mr. Perkins \$1400; and by Mr. Mackie \$1510; when the bidding ceased, and Mr. Mackie was declared the purchaser at \$1500, being \$85 less than the sum obtained last year.

THE RICHMOND MINE.—We are informed by Mr. Glass, President of the Belleville Company, that the \$30,000 ordered to be paid in 5 days by the Court of Chancery, was paid in full to the order of the Court. This does not look as if the Belleville Company had lost confidence in the richness of the mine, and should be a sufficient answer to those croakers, both of the press and otherwise, who are continually asserting that the whole thing is a swindle.

Town Council.

A special meeting of the Town Council was held on Saturday evening the 15th inst. Present: His Worship the Mayor, Messrs. R. J. Jones, C. J. Levesque, John Sullivan, James Brown, Capt. McIntosh, R. Tannahill, T. Holden, A. Waters, A. Robertson, and W. A. Foster.

MARKET BY-LAW.

Mr. Holden gives notice to amend By-Law No. 101.

The rules were suspended to allow the 1st and 2nd reading.

Mr. Holden in explanation, said that it had come to the knowledge of the Committee on Market, that an application was to be made to set aside the present Market By-Law, and he had looked into the matter and found that the superior Courts had set aside Market By-Laws passed in other towns; not so much he thought on account of the corporation in these places making provision for the regulating and selling of certain articles; but, because they prohibited the sale of these articles in any other than certain places and at certain hours in such towns and cities. What he proposed was to amend the By-Law so as to bring it within the meaning of the superior Courts. He proposed to move this: the present By-Law prevented people from selling certain articles anywhere except on the Market between certain hours. The new section would allow the selling of such articles in any part of the town, but not until the Market dues shall have been paid. If this By-Law as amended would not be sustained some other plan would have to be adopted. He moved to amend the By-Law to admit to substitute the following clause for section 12 in the present By-Law:—

1st. That the following be substituted for section 12 of the said By-Law: That no person shall buy, sell or offer for sale any game, fish, poultry, eggs, butter, cheese, grain, vegetables, or fruit exposed for sale or marketed within the Town of Belleville, until the seller has paid the market fees required by this By-Law, or has obtained a ticket from the Collector of Tolls of the Market of the Town of Belleville, as provided for in the twenty-second section of this By-Law. And before the hour of ten o'clock in the forenoon, no person shall forestall, regrate or monopolize any market grains, meats, fish, fruits, roots, vegetables, poultry or dairy produce within the Town of Belleville, and before that time the hour of twelve o'clock, noon, no butcher's meat, fish, hay or straw, shall be bought or sold by any person in any part of the Town, except at the public Market place in the Town of Belleville; and further, except at the public Market place, no person shall purchase any market grains, meats, fish, fruits, roots, vegetables, poultry and dairy produce, brought to the Market, until the hour of eleven o'clock in the forenoon, no huckster or runner living within the municipality of the Town of Belleville, or within one mile from the Town of Belleville, shall purchase any market grains, meats, fish, fruits, roots, vegetables, poultry and dairy produce, brought to the Market, until the hour of eleven o'clock in the forenoon.

We give the clause in the old By-Law as follows, so as to enable the reader to see what changes are made.

12th. That no person shall buy, sell, or offer for sale any meat, game, fish, poultry, eggs, butter, cheese, grain, vegetables, or fruit exposed for sale, or marketed within the town of Belleville, (at any place, except at the public Market place, and no person shall forestall any grains or buy or forestall or monopolize any market grains, meats, fish, fruits, roots, vegetables, poultry or dairy produce, brought to the Market, until the hour of eleven o'clock in the forenoon, no person shall buy, sell, or offer for sale, or marketed within the town of Belleville, (at any place, except at the public Market place, and no person shall forestall any grains or buy or forestall or monopolize any market grains, meats, fish, fruits, roots, vegetables, poultry or dairy produce, brought to the Market, until the hour of eleven o'clock in the forenoon, no person shall buy, sell, or offer for sale, or marketed within the town of Belleville, (at any place, except at the public Market place, and no person shall forestall any grains or buy or forestall or monopolize any market grains, meats, fish, fruits, roots, vegetables, poultry or dairy produce, brought to the Market, until the hour of eleven o'clock in the forenoon, no person shall buy, sell, or offer for sale, or marketed within the town of Belleville, (at any place, except at the public Market place, and no person shall forestall any grains or buy or forestall or monopolize any market grains, meats, fish, fruits, roots, vegetables, poultry or dairy produce, brought to the Market, until the hour of eleven o'clock in the forenoon, no person shall buy, sell, or offer for sale, or marketed within the town of Belleville, (at any place, except at the public Market place, and no person shall forestall any grains or buy or Belleville, May 4, 1867. 3d W-1

QUEEN
INSURANCE COMPANY

CAPITAL, \$10,000,000.

FIRE and LIFE.

LIFE DEPARTMENT.

THE principles on which this Company is
founded contain all the elements required
to afford every facility to intending assureds.

One of the advantages secured by those who
insure their lives with this Company is that
the outside expenditure for Management is
absolutely restricted by the Deed of Settle-
ment to **Ten per Cent** of the Net Life
Income. This most important restriction
shows that the interests of participating policy
holders are closely watched, and carefully at-
tended to by the Company. Attention is es-
pecially called to this point, as the proportion
of premiums expended for Management
must largely influence Profits
and Bonuses.

The next division of profits takes place in
1868; and all those who wish to participate
in the profits should insure at once.

DE. CANTIERE, **M. BOWELL,**
Belleville, May 1867. 4d-6mo.

PRESIDENT:

HIS EXCELLENCY THE ADMINISTRATOR

OF THE GOVERNMENT IN

COUNCIL.

WHEREAS, It is expedient that the arti-

cle known as Lock Spindle Iron, used

in the manufacture of Spindles for Door

Locks should, though unmentioned in any

of the Schedules to Act 29th and 30th Vic-

toria Cap. 6, be held and deemed to be in-

cluded in the exemption from Customs duty

created in favor of Rod Iron, with which the

same should properly be classified.

The Excellency in Council on the recom-

mendation of the Honorable the Acting Min-

ister of Finance, and under the authority

conferred by the 17th Chap. Con. Stat. Can.,

has been pleased to order and declare, and it

is hereby ordered and declared, that square

rod used in the manufacture of Spindles

for Door Locks, shall be, and the same is

hereby declared to have been since the pass-

ing of the Act first above mentioned, exempt

from the payment of Customs duty on im-

portation into this Province.

W. H. LEE,

SYNOPSIS

GOLD MINING ACT OF 1864,

27 and 28 Vic. Chap. 9, and the

Gold Mining Amendment Act 1865,

29 Vic. Chap. 9.

THE Gold Mining Act of 1864 provides that Governor
in Council may erect Gold Mining Divisions.

Two Divisions erected in Lower Canada:—Chaudiere
Gold Mining Division, Richard Pope, Esq., Gold Mining
Inspector, St. Francis de la Riviere, and St. Francis
Gold Mining Division, J. K. Gillman, Esq., Gold Mining
Inspector, St. Hubert, 16th July, 1864, amended
20th July, 1864 and 20th Sept. 1865.

One Division erected in Upper Canada by Proclama-
tion, 2nd March, 1864, and Gold Mining Division, in
consisting the Townships of Barrie, Clarendon, Palmer-
ton, Miller and North and South in the County of
Renfrew, situated north of the Township of Miller, and
Caledon, the Townships in the County of Addington,
situated north of the Townships of Sheffield and Barrie,
the Townships in the County of Hastings, situated north
of the Townships of Sidney, Thurlow and Tyndwading,
the Townships in the County of York, situated north of
the Township of Peterborough situated north of the Township
of Belmont, Alfred Argyle Campbell, Esq., of Belleville
Inspector.

No person to mine without a license.

Two kinds of licenses, one "Crown Lands Gold Li-
cense" at \$2 per month, and the other "Private Lands Gold License" at \$1 per month, for
private lands, the latter first obtaining consent of the
proprietor.

Crown Lands Gold License may stake out and work
claim on Crown Lands as follows:

ALLUVIAL MINES.

On a river or large creek, 20 feet front by 50 from the
river's edge. On small creeks, 10 by 50 from centre
of stream. In gully, 60 feet along same, and from hill
to hill. On surface or hill side, 60 feet square. In case
of hill land, offer may grant larger claim. In bed of
river offer to determine size and position of claim.

QUARTZ MINES.

To each miner, 100 feet along lead by 100 on each side
from the centre of the lead. For companies, 25 feet ad-
ditional along lead for every additional miner, but not to
exceed 500 feet altogether.

Claims to be closed by the officer, and to be laid out
that same may be laid out by the officer, and to be laid out
and bounded under the surface by lines vertical to the hori-
zontal.

Crofters liable to locate to work continuously and renew
license.

No person to occupy more than one claim on Crown
Lands at one time.

Discoveries entitled to free license for one year in
manure provided by Act.

Parties liable to be laid claimants Crown Lands,
partly removing party wall to construct a new mode of
work.

Crown Lands licensees not to cause damage to others.

General use of water reserved opposite claim on
Crown Lands.

Registration of claim on Crown Lands, temporarily
unworkable, allowed for \$1. Provision: claim to be
worked.

Penalty provided for removal of stakes or fence.

All licenses to make returns.

Quartz crushing machines to be licensed. Fee \$5
per month. Books to be kept and returned.

Act extends to parties mining near Gold Mining Di-
visions.

The Victoria College University.

At a meeting of the graduates of the Mon-
treal and Toronto Medical Department, of Vic-
toria College University, held in the County
Council Chamber of the City Hall, in Colou-
C.W. on Wednesday, the first day of May, 1867,
for the purpose of organizing a Medical Al-
umni Association, in connection with the Arts
Alumni of Victoria College University, the
following proceedings were agreed to, viz:—

Moved by O. R. G. Buchanan, Toronto, sec-
onded by George Burnham, Peterboro, that
William A. Willoughby act as Chairman—
Carried.

Moved by I. S. Scott, Colouge, seconded by
O. R. G. Buchanan, Toronto, that the Report of
Potts, Belleville, be secretary to the Medical
Alumni—Carried.

Moved by Edward I. P. Fisher, seconded by
M. H. Williams, Toronto, that the Report of
Committee appointed by graduates of Toronto
Branch Medical Department, at Yorkville, be
read—Carried.

The following Report was then read by I. S.
Scott:—
To the Medical Graduates of Victoria Col-
lege University.

Gentlemen—Your Committee to consider
the propriety of forming a Medical Alumni
Association, beg to report, that George I.

1st. That it is desirable to sustain the pre-
sent general Alumni Association of Victoria
College University, by attending the annual
Convention and Alumni Dinner, and other ex-
ercises, conducted at Colouge every year.

2nd. That it is desirable to organize a Med-
ical Alumni Association, for the purpose of
discussing Medical subjects, and promoting
acquaintance among the Medical graduates.

3rd. That it is desirable to form such Asso-
ciation as a Medical Section of the present Al-
umni Association, if said Association desire it.

4th. That the following Officers be appoint-
ed: One President, three Vice Presidents, two
Secretaries, (Recording and Corresponding),
one Treasurer; Executive Committee of five
or more members.

5th. That the Officers and Executive Com-
mittee, draft a Constitution and By-Laws, and
call a meeting of the Alumni when necessary.

Sgd. O. R. G. BUCHANAN, Chairman.
GEORGE BURNHAM.
E. S. FISHER.
I. S. SCOTT.

At this stage of the proceedings, Professor
Berrymann, Secretary to Faculty of Toronto,
Medical Department, entered the room and
made recommendations regarding the ap-
pointment of the course about to be adopted and concurred
in the Report of Committee, as above recom-
mended its adoption.

The time being drawing close to the hour
of the Convention Session, it was
Moved by George Burnham, Peterboro, sec-
onded by I. S. Scott, Colouge, That this meet-
ing stand adjourned till 7 o'clock, p. m. then
to meet for dispatch of business—Carried.

Chairman announced the adjournment.
Adjourned meeting of the Medical Gradu-
ates of the Montreal and Toronto Branches
Medical Departments, Victoria College Uni-
versity, held in the City Hall at Colouge, on
the 1st day of May, 1867, at 8 p. m. to
take into further consideration the proceed-
ings for organizing Medical Alumni Association.

Moved by Marshall M. P. Dean, Esq., M. D.,
Port Hope, seconded by I. S. Scott, Esq., M. D.,
Colouge, That minutes of former meeting be
read and approved.

Minutes read and approved, and report of
Committee ordered to be adopted and publish-
ed with proceedings—Carried.

Moved by Dr. W. D. Wade, seconded by I. S. Scott,
Esq., M. D., Colouge, That the election of Of-
ficers for the university year of 1867 and 1868,
be now proceeded with—Carried.

Moved by George J. Potts, Esq., M. D.,
Belleville, seconded by Gabriel Leont, Esq.,
M. D., That Dr. Sangster, Professor of Chem-
istry and Botany, Toronto, Medical Depart-
ment, be requested to act as President of Med-
ical Alumni, for the year 1867-8—Carried.

Moved by J. S. Scott, Esq., M. D., Colouge,
seconded by M. H. Williams, Esq., M. D.,
Toronto, That Charles Berrymann, M. D., M. A.,
Professor of Medical Jurisprudence, H. Pel-
lier, M. D., Professor of Theory and Practice
of Medicine, and J. P. Rottor, M. D., Professor
of Medical Jurisprudence and Botany, be re-
quested to act as Vice-Presidents, for the
university year of 1867 and 1868—Carried.

Moved by Dr. Lount, seconded Dr. Wade,
That George Burnham, Esq., M. D., Peterboro,
be Fifth Vice-President, for the year 1867 and
1868—Carried.

Moved by Dr. I. S. Scott, seconded by Dr.
Thompson, That George J. Potts, Esq., M. D.,
be general Secretary to Medical Alumni Asso-
ciation, during the year 1867 and 1868—
Carried.

Moved by Dr. M. P. Dean, Port Hope, sec-
onded by Dr. Wm. Thompson, That I. S. Scott,
Esq., M. D., Colouge, be Treasurer to Medi-
cal Alumni Association, during the year 1867
and 1868—Carried.

Moved by Dr. I. S. Scott, Colouge, seconded
by Dr. Wade, That the following named gen-
tlemen be selected as the Executive Commit-
tee of the Medical Alumni Association, for the
university year of 1867 and 1868, viz:—

TORONTO BRANCH MEDICAL ASSOCIATION.
Gabriel Lount, Esq., M. D.
Moses H. Williams, Esq., M. D.
Marshall M. P. Dean, Esq., M. D.
Alexander Thompson, Esq., M. D.

QUEEN
INSURANCE COMPANY

CAPITAL, - - - \$10,000,000.

FIRE AND LIFE.
LIFE DEPARTMENT.

THE principles on which this Company is
founded contain all the elements required
to develop the benefits of Life Assurance, and
afford every facility to intending assured—
One of the advantages secured by those who
insure their lives with this Company is that
the outside expenditure for Management is
absolutely restricted by the Deed of Settle-
ment to **Ten per Cent** of the Net Life
Income. This most important restriction
shows that the interests of participating policy
holders are closely watched and carefully at-
tended to by the Company. Attention is es-
pecially called to this point, as the proportion
of premiums expended for Management
Must Largely Influence Profits
and Bonuses.

The next division of profits takes place in
1868, and all those who wish to participate in
the profits should insure at once.

M. BOWELL,
Intelligencer Office,

Government House,
OTTAWA.

Wednesday, Feb. 26, 1867.

PRESENT:
HIS EXCELLENCY THE ADMINISTRA-
TOR OF THE GOVERNMENT IN
COUNCIL.

WHEREAS, it is expedient that the arti-
cle known as Lock Spindle Iron, used in
the manufacture of Spindles for Door
Locks should, though unenumerated in any
of the Schedules to Act 29th and 30th Vic-
toria Chap. 6, be held and deemed to be in-
cluded in the exemption from Customs duty
created in favor of Rod Iron, with which the
same should be classified.

His Excellency in Council, on the recom-
mendation of the Honorable the Acting Min-
ister of Finance, and under the authority
conferred by the 17th Chap. Con. Stat. Can.,
has been pleased to order and declare, and it
is hereby ordered and declared, that square
rod iron used in the manufacture of Spindles
for Door Locks, shall be, and the same is
herby declared to have been, since the pass-
ing of the Act first above mentioned, exempt
from the payment of Customs duty on im-
portation into this Province.

W. H. LEE,
Clerk Executive Council.

BROWN'S FOUNDRY

AND
MACHINE SHOP,
FRONT STREET, BELLEVILLE.

G. & J. BROWN,
Founders and Machinists,

RESPECTFULLY inform the public that
they are still manufacturing

All kinds of Machinery.
in connection with
FLOUR, GRIST, SAW AND OTHER
MILL FURNISHINGS, &c.

Portable and Stationary Steam Engines of
any capacity, Engine and Wood Lathes,
Iron and Wood Planers, Shingle Machines
of various patterns; also, Agricultural Im-
plements of the most improved style and
make. Their Horse Powers and Thresh-
ing Machines, with or without cleaners,
are unsurpassed.

Brown's Ploughs are admitted to be of
the most improved style and manufacture.
They consist of some fifty different pat-
terns, and their celebrated STEEL PLOUGH
is the best in the country.

Amongst their other manufactures may
be enumerated Horse Hoes, Cultivators,
Harrows, Clod Crushers, Corn and Drill
Ploughs, Seed Sowers, Rollers, Straw Cut-
ters and Stamp Machines, and improved
Grain Grinders and Mills.

In the Stove Department
They are unequalled. They continue to
manufacture Box, Parlor and Cooking Stoves
of various descriptions, and their improved
"Northern Farmer" Cooking Stove is with-
out a rival for farm use.

Potato Kettles cast in loam, lip up, of
various sizes and of the best material.

Gold Crushers
Of the newest style and patterns made to
order.

Their facilities for manufacturing are
such as to enable them to successfully com-
pete with any similar establishment in the
Province.

Every description of patterns made to
order. Repairing done on the shortest
notice. All kinds of Brass Castings made
to order.

Belleville, May 1. 1D-4

The Daily Intelligencer.

WILL appear about five o'clock every after-
noon (Sundays excepted) and will be
furnished by Carriers at the rate of \$3 a year
paid in advance; \$5 otherwise. Mail sub-
scribers \$5 a year; \$2 50 for 6 months; \$1 50
for 3 months.

It will contain the latest telegraphic news up
to the hour of going to press, including Cable
despatches and the New York and Montreal
Markets.

Arrangements have been made with RELIABLE
CORRESPONDENTS in Madrid, Bridgewater, Mar-
mor and other points, who will furnish us with
full and full information respecting the Gold
Regions, and of matters of general interest.

Special attention will be paid to reporting the
proceedings of Council of Law, Corporations,
Public Meetings, &c., and in short, neither
pains nor expense will be spared to make the
DAILY INTELLIGENCER worthy of public patronage.

A large circulation has already been obtained
for it, not only in Belleville, but in the various
villages in the County. Arrangements have
been perfected by which the paper can be ob-
tained in Madrid the next morning after publi-
cation, at Eldorado the next afternoon, and at the
other villages a few hours after its issue from
the press.

As thousands of strangers will flock to the
gold regions this Spring and Summer, it is ex-
pected that several hundred copies will be sold
daily in addition to those sent to regular sub-
scribers. It will therefore present unrivalled
advantages for general advertising.

TERMS OF ADVERTISING.

A liberal scale of prices for advertisements has
been arranged as follows:

Cards, not exceeding six lines, 6
months, - - - - - \$5 00

Half Square, 6 months, - - - - - \$10 00

One Square, 6 months, - - - - - \$20 00

Two Squares, 6 months, - - - - - \$40 00

Four Squares, 6 months, - - - - - \$80 00

Notices of Births, - - - - - 50

Do of Marriages, - - - - - 50

Do of Deaths, - - - - - 50

"BUSINESS NOTICES"—All matter under this
heading, headed or signed by 30 cents per line,
measured by a scale of solid matter.

Advertisers contracting for any space not less
than half a square can have the privilege of
canceling in all cases in advance. When not paid
in advance, the insertion must be made by the
week.

Transient advertisements inserted at 7 cents
per line for first insertion, and 2 cents for each
additional insertion.

The Weekly Intelligencer.

Is published every Friday Morning at \$2 per
annum if called for at the Office, or sent by
mail; and \$3 1/2 if delivered by the Carrier, pay-
able in all cases in advance. When not paid
at the close of the year, 50 cents will be
added to each year's subscription. No paper
discontinued until arrears are paid up, except
at the option of the Publisher.

Within the past three months its circulation
has rapidly increased, and the number now
on our Subscription Books is over 1,400.

With such a large and general circulation
throughout this and adjoining Counties, the
WEEKLY INTELLIGENCER presents unsurpassed
advantages to advertisers.

RATES OF ADVERTISING.

Six lines and under, first insertion, - - - 0 50

Each subsequent insertion, - - - - - 0 12 1/2

Above six lines (per line) first insertion 0 07

Each subsequent insertion, per line, - - - 0 02

Large "BUSINESS NOTICES"—10 cents per line
each insertion, measured as solid matter.

A liberal discount made to those who adver-
tise by the year.

Advertisements for insertion must be deliv-
ered before 12 o'clock, noon, on Thursday to
secure their appearance.

All advertisements without written directions
inserted until forbid, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses,
and possesses every facility for the rapid and
neat execution of every description of plain and
fancy printing, at prices as low as any other es-
tablishment in the County of Hastings.

The DAILY and WEEKLY INTELLIGENCERS can
be had at the Book Store in Belleville, and at
Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly attended to.

**QUEEN
INSURANCE COMPANY**
CAPITAL, - - - \$10,000,000.
FIRE and LIFE.
LIFE DEPARTMENT.

THE principles on which this Company is
founded contain all the elements required
to develop the benefits of Life Assurance,
and afford every facility to intending assurers.
One of the advantages secured by those who
insure their lives with this Company is, that
the outside expenditure for Management is
absolutely restricted by the Deed of Settle-
ment to Ten per Cent of the Net Life
Income. This most important restriction
shows that the interests of participating policy
holders are closely watched and carefully at-
tended to by the Company. Attention is es-
pecially called to this point, as the proportion
of premiums expended for Management is
Must Largely Influence Profits
and Bonuses.

The next division of profits takes place in
1868, and all those who wish to participate in
the profits should insure at once.

The War of 1812-14.

NUMBER 2.

The leaders on either side to whom the
conduct of the contest was committed merit
passing notice. The Commander-in-Chief
in the Canadas—Sir George Prevost—
while estimable in private life possessed
none of the abilities of a Statesman nor
the dash of a soldier: without these quali-
ties a man may be a brave leader, but will
never make a successful General. His se-
cond in command—Sir Isaac Brock—for-
tunately possessed every amiable trait of
Sir George Prevost's character, as well as
all the qualities of which he was deficient,
with the addition of a chivalric valor,
which no peril can daunt. Hardly inferior
in courage, daring, and in his native man-
ner, in diplomacy, was the great Tecumseh,
the last bold Indian Prince who has been
able to collect the scattered bands of the
aboriginal inhabitants to infuse something
like organization into their rude class, and
to assume the command of the force collected
in the thin wilds of Michigan, for the
purpose of acquiring the command of the
lakes and intercepting the trade of the
Hudson Bay Company.

Van Rensselaer, on the Niagara frontier,
was a dashing, puzzle-headed soldier, with
only one of the qualities necessary to con-
stitute a General—bravery—in his whole
character; but otherwise without conduct
or ability to qualify him for the command
of a battalion.

The General-in-Chief, Dearborn, appears
as one of those marionettes in a Punch and
Judy show: all tinsel and glitter, but how-
ever by the wires in the hands of a skilful
manipulator, and was, in reality, used as
such by one of the principal actors of the
war—General Armstrong—who filled the
office of Secretary-at-War to the American
Government, and was stationed on the river
Napoleon in a small way, by planning cam-
paigns to be carried out by his creatures.

Consequently, only for the relief afforded
by Brock and Tecumseh, it would be hard
to define to which party the greatest in-
debtedness was attached. To understand the
exact position of both parties it is neces-
sary to state that Dearborn and Rensselaer
drew their supplies of men and material
from the New England States, while Hull
derived his from the State of Ohio and
Pennsylvania, in his rear. The State of
Illinois, and all those busy haunts between
the lakes and the Mississippi, were then the
homes of the Indian tribes, and were at
deadly feud with the white States, and
United States—the people of which had
considerably advanced in that course of
civilization, combined of murder and
whiskey, which has culminated in the all
but total extinction of the race. Conse-
quently, the Indian tribes were a power in
the contest which no wise man could afford
to despise. The savage, wary and cunning,
awaited the striking of the first blow be-
fore they would declare for either, although
whatever feeling they possessed was in
favor of the British, because in their mode
of warfare, the first successful onset gen-
erally decided the fate of the contest, and
they understood no other mode of warfare.

With the keen eye of a soldier, Brock, on
whom the defence of Upper Canada de-
volved, discerned the weak point in his ad-
versary's position, and, with the presence of
a statesman, knew that by delivering the
first and effective blow, the only point he
secured the alliance of the Indian warriors,
and virtually decided the future fate of the
contest. Accordingly, he dispatched
orders, on the 26th of June (having received
private intelligence of the declaration of
war at Washington on the 18th, of which,
by some strange blunder on the part of the
British Ambassador, the official notification
did not reach Sir George Prevost till the
7th of July), to Captain Roberts, of the
41st Regiment, commanding at Fort St.
Joseph, on an island at the head of Lake Hu-
ron, to attack the American post of
Mackinac Island, called usually Mackinac,
on an island in the straits of the same
name, commanding the entrance to Lake
Michigan, the possession of which would
leave the country in rear of Hull, and from
which his pieces were drawn, at the mercy
of the Indian allies of Brock.

Roberts, a brave and energetic officer,
commanding a detachment of his regiment, on
an isolated post in the wilderness, nearly 300
miles from the next British garrison, fully
appreciating the importance of the object
to be achieved, prepared to carry his orders
into effect: and the great demand of the
Agent of the Agent of the Hudson Bay
Company, the late Hon. Toussaint Potier,
of Montreal, he was enabled to add 160
Canadian voyageurs, armed with muskets
and fowling pieces, and three-pounder
guns, used for firing salutes to his force—
With this addition, he landed, on the morn-
ing of the 17th of July, on the island of
Mackinac, and instantly summoned the
American officer in command to surrender,
a request which was at once complied with,
as the latter was quite unprepared for at-
tack, not knowing that war existed. The
planners of the campaign for the conquest

of Canada entirely forgot to protect their own most vulnerable portions, and that on which the final issues of the contest depended. On the day on which this victory was achieved, Brock met the Legislature of Upper Canada in an extra session at Toronto then called Little York, and in the graphic words of the author of "1812; a Chronicle of the War," "The Legislature were despondent, and the people misgoverned,—but a speedy change took place; the noble character of Brock rapidly assumed its natural ascendancy; the public mind became reassured; public confidence revived, and the lava tide of loyalty, living though latent, surged up and blazed forth as a bonfire inextinguishable in the land."

On the 13th of July, Hull had invaded Canada at the head of two thousand men by crossing from Detroit to Sandwich, the only force to oppose him being about 350 men, under Col. Preston, at Amherstburg, and a portion of the Indian contingent under Tecumseh. Here he issued one of those senseless proclamations, which are such a burlesque on the great Napoleon, which provoke a smile at the childish fatuity of the writer. The American Gen. speedily found that in taking the bull by the horns, he had got himself into a position from which it was impossible to extricate his way without imminent peril. He could neither procure supplies from the country nor advance through the impassable St. Clair flats. One or two feeble attempts to cross a paltry stream called Duck Creek, which was foisted in the first instance by the Indians, and in the latter by the regular troops at Fort Malden, was magnified by the American press into a victory, and were the sole fruits of this senseless campaign. Tecumseh, who was the eyes and ears of the British army, learned the advance of a detachment under Major Van Horne, and with Captain Talbot, commanding a detachment of Canadian Militia, intercepted and captured the whole party with the despatches of the American General, on the 8th of August. By that time Hull had learned the capture of Michilimackinac, and from the officer in command of the Niagara frontier the information that he could make no diversion in his favor; consequently it became necessary to abandon the projected conquest, and look well to the safety of his own position. On the seventh of August he recrossed the river, and thus closed by a disgraceful retreat, the first attempt at the conquest of Canada.

Hull's mistakes evidently lay in his disregard of the defence of Michilimackinac; in his attempt to invade Canada above, instead of immediately at Amherstburg.—The sole object which he should have sought would have been the capture of that post, which would have enabled him to occupy Lake Erie, impossible, and would have enabled him to co-operate against the right flank of the British with the invading army on the Niagara frontier.

Daily Intelligencer.

BELLEVILLE, WEDNESDAY, MAY 22.

TELEGRAPHIC NEWS!

BY ATLANTIC CABLE.

LONDON, May 21, evening.—Earl Derby says officially that the American question will be amicably adjusted. The proposition made some time since to arbitrate the whole case has been refused.

BERLIN, May 21.—A horrible plot has just been discovered in Hanover, having for its chief purpose the assassination of King William and Count Von Bismarck. Several notable personages in this city are involved in the plot. Numerous arrests, both here and at Hanover, have been made of persons believed to be implicated, and it is thought that by these timely precautions the scheme has been frustrated.

LONDON, May (noon) 22.—Consols 98; Erie 42½; Ill. 76½; Bonds, 73½.

LIVERPOOL, May (noon) 22.—Cotton tends down. Uplands, 11d; Orleans 11½; other articles unchanged.

LONDON, May 22, 2 p. m.—5.30 73½; Ill. 76½; Erie 42½.

LIVERPOOL, May 22, 2 p. m.—Cotton quiet, steady and firm at opening figure. Breadstuffs generally quiet. Corn declines 3d, new quoted at 3s 6d per quarter for mixed western.

HON. JOHN A. MACDONALD.—The British Whig has authority from Hon. John A. Macdonald to announce that he will not offer for the seat in Kingston in the House of Assembly, for Ontario.

LAUNCH AT MILL POINT.—A new vessel just built at Mill Point by the Messrs. Rathbun for Messrs. Urial Thompson, D. Graham and John A. Philpott, of this town, will be launched at Mill Point to-morrow. The vessel is one of the largest on the lakes, carries 500 tons, and has a capacity of 17,000 bushels. She is one of the prettiest craft on the water, and will be ready to sail on Monday next.

American Despatches.

BOAT DESTROYED BY FIRE.

MEMPHIS, May 21st.—The packet *Albert Prince*, with 600 tons weight, was destroyed by fire, yesterday morning, near Lake Providence. The boat was valued at \$30,000. No lives lost.

BOAT RACE.

PITTSBURG, Pa., May 22.—A great five mile sculling match for \$1,000 a side, and the championship, between Harrill, of Peterboro, and Brown, of Portland, took place at 4 o'clock. Brown came in a head. Time: 46 minutes and 30 seconds. Harrill alleges that in attempting to pass, Brown fouled him. Judges have not yet decided. It is believed the decision will be in Harrill's favor.

SAXON PARLIAMENT.

NEW YORK, May 22.—During the debates in the Saxon Parliament on the question of adoption of new North German constitution prominent members asserted that the instrument was accepted through fear of the Prussian military power, and that its enforcement was in such a manner would lead to a revolution in Germany.

MEXICO.

NEW YORK, May 21.—The *World's* correspondence says, at Vera Cruz the mortality from yellow fever, was 59 per day. Maximilian has with him Marquis Miramon, Medoja and other Generals, who seemed to consider Queraro their last ditch.

FAILURE.

NEW YORK, May 21.—The *Herald's* Washington telegram says the information of the failure of Fraser, Stenholm & Co., of Liverpool, agents of the Rebel Government, has caused some excitement. The State Department had instituted suits in the English courts against the firm for the recovery of vessels, cotton and munitions of war and other property of the Confederates, held by them. The assets cover several million of dollars. It is understood the United States Government is simply secured and incur no loss by the failure.

CHINA.

SAN FRANCISCO, May 17.—The ship *Tennguyen*, five days from Hongkong has arrived. Commercial news unimportant. British residents and newspapers of the ports of China were exercised over the fact that the American firms of Augustin, Hard & Co., and Russell & Co., have been given each the monopoly of river steam navigation, first firm controlling all steamers on the Canton River, and latter all steamers on the Tansing. The imperial forces in the Province of Shouling had sustained severe reverses; their army had been cut to pieces, and its general captured.

The first steam fire engine ever seen in China was received at Hong Kong in March. STEAMSHIP ASHORE—6 LIVES LOST.

ATLANTIC CITY, N. J., May 22.—The steamship *De Cuba* from Nicaragua with California passengers is ashore here. Six passengers were drowned while attempting to land.

STEAMER BURNED NEAR CAPE VINCENT—25 LIVES LOST.

WATERTOWN, May 22.—The steamer *Wisconsin* was burned three miles from Cape Vincent last night. From 25 to 30 lives were lost. The steamer will probably be a total loss. Among the list of the lost are the mate, the two engineers, and the steward. No further particulars.

NEW YORK, May 22, 10 a.m.—Gold opens at 138.

FROM TORONTO.

TORONTO, May 22.—An incendiary fire in Brantford last night destroyed \$3,000 worth of property. The body of an unknown man was washed ashore on Burlington Beach to-day.

FROM OTTAWA.

OTTAWA, May 22.—Eight hundred volunteers were reviewed yesterday.

It is believed in official circles that the Queen's Proclamation for the Union of the Provinces, will be published on Saturday next.

FROM MONTREAL.

MONTREAL, May 21.—MONTREAL, May 22.—The Dinner to Mr. Galt comes off to-night at Sherbrooke. Mr. Cartier and several notables from Montreal are expected to be present.

Mr. Molson has headed the subscription list for adding a fever ward to the Montreal General Hospital with the munificent donation of \$5,000. It is said several of our millionaire merchants will follow his example, and the building will be commenced forthwith.

A Cabinet Council is called to assemble at Ottawa on Friday.

It is raining hard and likely to continue. In the country the prospects are awfully gloomy, and farmers are almost despairing. Ploughed land cannot be sown.

NOVA SCOTIA AND NEW BRUNSWICK.

Public attention is now being turned to the Bay Verte Canal project as being essential to the prosperity of the whole country.

Is it a Humbug?

Just now there appears to be a very laborious effort on the part of certain individuals, and journalists, to prove that there is no gold in Hastings, and that the Richardson mine is a humbug. It is not a matter of surprise that there should be some disappointed gold seekers. It is not strange that amongst the thousands who have visited the gold regions, there are some who should go away with the idea that all this excitement has been got up for the benefit of speculators. They came with large expectations, hoping to pick big nuggets off the surface of the earth, as they would gather apples from heavily laden trees in autumn. They expected to find the bottom of the creeks covered with the precious stuff, to see it cropping out of every quartz ledge, and that all they were required to do was to stake out their claim, dig a few days, wash a hundred or so pans, and then retire with their "pile." But they did not find anything, they did not see even a speck of gold except that which was in the hands of others. They wandered over the country, spent what little money they had, and returned to their homes disappointed, and convinced that the whole thing was a humbug. We repeat, it is not surprising to hear of instances like this, it is no matter of astonishment to us that even respectable newspapers should be influenced by them. The history of California is only repeating itself here. Of the thousands who went to those golden shores, but very few returned with as much as they took away. Hundreds and thousands did precisely as hundreds and thousands are doing here, and as hundreds and thousands would do if new Gold fields were discovered in some remote part of the world. A few will gain valuable prizes; the great mass must be content with blanks. But the experience of these disappointed persons does not prove that there is no gold in this district, any more than the experience of similar persons would prove that there was no gold in California. The gold region of California was not developed the first year, nor the second year, nor the third year, and we found then the croakers and grumblers coming back from that country just as they are leaving this country. We must expect therefore to hear from these grumblers, and must not be surprised if certain journalists, for the mere sake of fault-finding and croaking, pronounce the gold region a humbug, the Richardson mine a swindle, and the whole thing a "South sea bubble."

The fact is, however, neither in California, Australia, Colorado, British Columbia, nor in any other gold region, has there been found such a remarkable deposit of gold as the Richardson mine in Madoc, remarkable not only for the peculiarity of its condition, but for its extraordinary richness. That mine can hardly be exceptional in this region, and recent developments give promise that other deposits of a similar character will be found. We might reproduce evidence of the most incontrovertible character, to establish the truth of the foregoing statements; but that would be a waste of time and words. If necessary, we might procure the affidavits of a hundred of the most respectable inhabitants of this County to show that our reports of the richness of the Richardson mine are true in every respect; but that would be superfluous.

What we are surprised at, is the thoughtless manner in which some journalists treat this matter. The *Leader*, the other day, in referring to the assay made of a portion of the four barrels of sand and quartz taken to Rochester, copied an extract from an American paper in which it was said that "the appraiser, from a trifling amount of the mud, found about two grains of gold and they estimate that the yield will be, from \$2 to \$2.50 per ton. The test of the quartz is not yet completed." Now if the *Leader* had taken the trouble to examine that statement, it would have found that if there are two grains of gold to a pound of mud it would yield about \$160 a ton, a yield of extraordinary richness.—We observe the *Ottawa Citizen* has fallen into the same error, and says: "We incline to the opinion that the Madoc mines will turn out something like Chaudiere and Nova Scotia mines." The Nova Scotia quartz yields we believe between \$5 and \$7 to the ton, so that there is not much similarity between the mines of that Province and the Richardson mine. But some of the sand and quartz taken from the Richardson mine, produced a much richer yield than \$160 to the ton. Some assays made of the decomposed quartz and of the quartz itself, gave a yield of from \$50,000 to \$60,000 a ton, and we are sure that neither in Nova Scotia, nor in Chaudiere, nor in California, nor in Australia, have there been found deposits of such extraordinary richness. These facts are well known here, and are well known to our principal Geologists and practical miners throughout the country. It is not

likely, as we before stated, that the Richardson mine is exceptional in this region, and from the developments that are being made, we have every reason to believe that before long, similar rich deposits will be found in other parts of the country. In the meantime we advise such papers as the *Hamilton Times* to possess their souls in patience.

Coal in Prince Edward.

A friend furnishes us with the following important information: "Yesterday in digging a well upon lot 77 in the second concession of Ameliasburgh, on Mr. Daniel F. Way's farm, three miles from Redenerville on the road to Roblin's mills, a seam of coal four feet in thickness was struck at a depth of twelve feet from the surface. Specimens were taken out, and sent by Owen Robin, Esq., to a competent authority to have it tested; Mr. Robin intends to sink a shaft immediately on a lot he owns along-side Way's. The village blacksmith pronounces it first rate coal. As might be expected, there is a good deal of excitement among our usually staid and sober neighbours, and they are already instituting comparisons as to the merits of gold and coal. What say the geologists to this discovery? Will it astonish them as much as the 'impossible' gold in Madoc?"

FROM MADOC.

FROM OUR OWN CORRESPONDENT.

El Dorado.—West End.—Desperado Mine.—Finding Gold Continually.—What we hear.—Gossip.—Lower El Dorado.—What it has.—Richardson Mine.—Montreal Police.—Kept Busy.—The Quartz Mill.—The Anglo-Saxon.—Building going on.—An improved Feeling.—Cook's Mine.—Reports about Gold Mining.—Yarns spun.

UPPER EL DORADO.

"El Dorado House," May 18. As London has its "West End," so has many other places, and El Dorado among the rest. The Upper El Dorados consider themselves a little superior to the denizens of the "lower village." Whether it is because they are on higher territory, more select as a people, or have a "Desperado mine," I cannot say; but one thing is certain, they think there is no doubt as to which place it is most desirable to locate. Hotels, lawyers, and surveyors appear to have plenty to do.

The "Desperado mine" is being vigorously worked, and the owners are in the best of spirits, and speak most confidently with reference to their success. They report gold being found wherever they "take the trouble" to wash the sand in the crevices of the rock as they push their way down. The "El Dorado House" is kept by Messrs. Cameron & McCarty, and every attention paid to travellers that can be expected. As the people gather in during the evening, and conversation becomes general—above the confused hum of voices, you hear "Cariboo mine," "Desperado mine," "Lower El Dorado," "Spindling quartz," "\$5,000," "\$20,000," "Struck a lead," "Licenses a humbug," "Gold in the quartz," "Richardson mine," "Lombard & Hardin," "Belleville," "Chaucery suit," and "don't care who wins if they only work the mine," but one feeling seems to be permanent above all others here, and that is the wish that somebody would work the "Richardson mine."

Some way they seem to think this is to wonder on behalf of their interests, and I hope it will; but one cannot help thinking, that even if it is worked, it will not employ such a number of men as many seem to imagine. A hundred men in a gold mine is a large number, and cannot add much to the prosperity of the place. It is more likely, however, that it is the increased impetus to the interest in mining in other places that they are looking to.

LOWER EL DORADO.

"Anglo-American Hotel," May 18. Here our old friend Moon, of the Hastings House, Madoc, has stuck down his stake, and through the manager, Mr. Craig, offers first class accommodations to all who may visit this part of the country.

As Artemus Ward said about the "States" after visiting the Tower in London, "Poor America, it is a great country, but then it has no Tower!" So Lower can say to Upper El Dorado, "you are a great place, but then you have no Richardson Mine," and consequently no "Chaucery suit" and no "Raid." This village is certainly lower than the other, though it has by far the larger number of buildings, and being closer to the "Richardson Mine," the naturally attracted strangers more. Since the "Raid," the territory immediately around the "Mine" is rather exclusive and you don't see so much of the movements going on—on if there are any—very busy yesterday issuing Licenses.

There is a squad of the Mounted Police here doing duty, very much to the satisfaction of all parties concerned. Col. Campbell has had a pretty busy day for the last few days, looking after Miners and Tavern-keepers, notifying them with reference to Licenses. The effect has been that the Gold Inspector was kept busy yesterday issuing Licenses. Messrs. Gilbert and Turley are preparing to erect their Quartz Mill at this place. I am under the impression they would have succeeded better at Hannocksburg, but after all what is one crushing mill to what we will require if the Quartz throughout the region should prove so suddenly rich in the precious metal to pay for crushing.

The celebrated "Anglo-Saxon" is rather thrown in the shade by the new extensive Hotel erected here within the last three months; but the "Anglo-Saxon" like the "Richardson Mine" is now a matter of history and most strangers have an inclination to call and see the establishment. Building is still going on here and the villagers say there is

an improved state of feeling here within the last two weeks. The men arriving appear to be anxious to invest if fair chance of success can be shown.

The sale of the Cooke Mine gives very great satisfaction here, it being understood that mining will commence at once and all seem to feel sure that it will turn out a success.—To judge from what I hear, almost every one has tested "gold" spring for himself, and can bear testimony to the fact that gold is to be found there. If you wish to hear reports with reference to gold mining, El Dorado is the place to go to. Here you will meet miners from California, Australia, British Columbia, Colorado, Nova Scotia, and almost every where else with a speck of "ile" from every State in the Union. The yarns spun here, if of the right material would supply all the stocking yarn in the country. But truth is often stranger than fiction. Take for instance the "Richardson Mine," its discovery, richness, Chaucery suit, raid, &c. Could there be any thing nearer the improbable.

GRANITE.

THE BROADWAY THEATRE.—This Company have been performing to full houses since their opening, and their playing has given general satisfaction. Last night "Arrah-Na-Pogue," a very difficult piece, was well rendered. To-night "Uncle Tom's Cabin" will be given.

GODFREY'S LADY'S BOOK for June has been laid out for sale by Mr. Overell, who will furnish them gratis to subscribers. *Godfrey* has taken the lead amongst the Lady's Magazines on this continent, and amidst a large number of able competitors has steadily maintained it. The present number is replete with interesting reading and is worth a handsome illustration.

NEARLY A FIRE.—A fire occurred in the tailor shop of Mr. Jas. Hogg, adjoining the INTELLIGENCER office, last night, which had not been fortunately discovered by some of the workmen of this office, must have proved disastrous. As it was, Mr. Hogg lost about \$100 in damage to goods, which is covered by insurance in the British America.

Maritime Provinces.

The Legislature of Nova Scotia closed its Session on Tuesday. In dismissing the representatives, His Excellency the Lieutenant-Governor remarked in the course of his speech as follows: "I cannot close this Session without expressing my cordial sympathy with which I have witnessed the action of both Branches of the Legislature on the question of the Union of the two Canadas, Nova Scotia, and New Brunswick, under one Government. Parliament, as I firmly believe that your adoption of that measure will not only greatly increase the general prosperity of British America, and elevate all these Provinces in the scale of Nations, but that the Union was imperatively demanded, in order to give stability to the Institutions you enjoy, and permanent security to this portion of Her Majesty's dominions as an integral portion of the Empire."

The amended Educational system in P. E. Island, increases the salaries of schoolmasters five pounds a year for three years until the amount shall reach £80, and also increases the salaries of female teachers in like proportion. It specifies that no teacher is to be allowed the highest salary unless he has without exception a good certificate. It stipulates that the whole of the salary is to be paid by the treasury, instead of partly by the people as formerly, and it requires the average attendance of scholars to be calculated each year, instead of at the end of each quarter.

The total return of the seal fishery out of St. John's, N. E., up to the 29th ult., amounted to 126,739 seals, taken in 65 vessels. This gives an average of 1951 for each vessel employed.

Editorial Summary.

—Jeff. Davis arrived in Montreal yesterday.

—Hon. Mr. McGee and C. F. Byrnes, Esq., arrived at Halifax yesterday by the Africa.

—The *Danfoe*, a fine steamer has been launched at Oakville.

—Hon. John Young says, the present high value of wheat and other cereals is owing to deficiency in the harvest last year.

—A statue to the memory of the late Lord Clyde is about to be erected on the parade in St. James' Park, London.

—A weekly line of steamers to ports on the South shore of the river and gulf of the St. Lawrence is being now established.

—Over five and a half-million of passengers have been carried in the cars in the State of Connecticut during the past year, and only six killed.

—Orders have been given to recommence the manufacture of war material at Woolwich upon a great scale, the work being to go on night and day.

—The Agricultural Improvement Factory of Messrs. Patterson near Toronto, tumbled down on Saturday last. The structure was two light for the quantity of stuff in it.

—The contract for the repairs to the Parliament Buildings has been awarded to Messrs. Webb & Manning, of Toronto, for the sum of \$27,000.

—A sharp-talking lady was reproved by her husband, who requested her to keep her tongue in her mouth. "My dear," responded the wife, "it is against the law to carry concealed weapons."

—The St. Catherine's Journal informs us that the ex-President of the late Confederate States, Mr. Jefferson Davis, has purchased Mr. McGivern's property in that town, for a summer residence.

—The Paris exhibition building has already been sold for its purchaser, to be possessed, on the first of November, it is intended to transport the structure to Russia, and afterwards erect it in St. Petersburg.

THE GOLD MINING ACT OF 1864,
and 28 Vic. Chap. 9, and the
Gold Mining Amendment Act 1865,
29 Vic. Chap. 9.

THE Gold Mining Act of 1864 provides that Governor
in Council may appoint Officers for Division.
Two Divisions erected in former Canada: "Chaudron
Gold Mining Division," Richard Poirer, Esq., Gold Min-
ing Inspector, St. Francis de la Riviere, and "St. Fran-
cois Gold Mining Division," J. N. Gilmour, Esq., Gold
Mining Inspector, Stantard. 16th July, 1864, amended
28th July, 1864 and 23rd Sept. 1865.

One Division erected in Upper Canada by Proclama-
tion, 21st March, 1867: "Quadrant Gold Mining Division,"
constituting the Township of Barrie, Chaudron, Point-
sable, Miller and North and South Canons, in the
County of Frontenac, the Township of the County of
Renfrew, situated north of the Township of Miller and
Canons, the Township of the County of Renfrew, situated
north of the Township of Miller and Canons, the Town-
ship of the County of Renfrew, situated north of the Town-
ship of Miller and Canons, the Township of the County
of Renfrew, situated north of the Township of Miller and
Canons, the Township of the County of Renfrew, situated

QUEEN

INSURANCE COMPANY
CAPITAL, - - - \$10,000,000.
FIRE and LIFE.
LIFE DEPARTMENT.

THE principles on which this Company is
founded contain all the elements required
to develop the benefits of Life Assurance, and
afford every facility to intending assured.
One of the advantages secured by those who
insure their lives with this Company is that
the outside expenditure for Management is
absolutely restricted by the Deed of Settle-
ment to **Ten per Cent.** of the Net Life
Income. This most important restriction
shows that the interests of participating policy-
holders are closely watched and carefully at-
tended to by the Company. Attention is es-
pecially called to this point, as the proportion
of premiums expended for Management
Must Largely Influence Profits
and Bonuses.

The next division of profits takes place in
1868, and all those who wish to participate in
the profits should insure at once.

EXCELSIOR!

OWING to the press of business in Pho-
tography, and the great demand of
my many friends and customers for the
PORCELAIN PICTURE,
the subscribers have engaged a
Foreign Artist,
especially for this branch of photography.
Feeling assured that he can excel any
thing on the continent, they cordially invite
all who wish something far surpassing any
thing they have yet seen, to give them a call.

A Short Story for Little Folk.

John and George had been very quarrel-
some but they shook hands and became
friends for a little time. Their relations
were pleased to see them do so, and watched
them as they worked together to build a lit-
tle boat, which they were to launch upon the
river of Progress. Before the boat was la-
unched, George—who was a very early riser
and a very early sleeper—saw a very mis-
erious boy, said he would not have any more to
do with John and the boat. So he left him
and went and sat down by himself, and threw
his hat upon the river, and they named her the
"Union," and all the little boys were very
glad. But George said, "now let us all begin
to fight, and call each other ugly names," for
that was all George cared to do. A battle
between the boys, which they did not want to fight
about nothing, that when they fell out about
anything they would take their jackets off
quickly enough, but that as they had laun-
ched the boat they would all try and row her
down the river, together. John pulled and
Jama, Jellies, Marmalades, Pickles, Sauces,
Canned and Bottled Fruits, Oranges, Lemons,
&c. All fruits in their season, wholesale
and retail.
Opposite the Wood Market, Front Street,
Belleville.

May 1. 1D-6m

Courage.

Have you courage to discharge a debt
while you have the money in your pocket?
Have you the courage to do without that
which you do not need, however your eyes
may covet it?
Have the courage to speak to a friend in
a "seely" coat, even though you are in com-
pany with a rich one, and richly attired at
the same time.
Have the courage to make a will, and a
just one.
Have the courage to tell a man why you
will not lend him your money.
Have the courage to "cut" the most agree-
able acquaintance you have, when you are
convinced that he lacks principle. A friend
should bear with a friend's infirmities, but
not with his vices.
Have the courage to show your respect
for honesty in whatever guise it appears;
and your contempt for dishonest duplicity
by whomsoever exhibited.
Have the courage to wear your old clothes
until you pay for your new ones.
Have the courage to obey your Maker at
the risk of being ridiculed by man.
Have the courage to prefer comfort and
property to fashion in all things.
Have the courage to acknowledge your
ignorance, rather than to seek credit for
knowledge under false pretences.

AMERICAN LADIES.—The following is
an extract from Hopworth Dixon's *New*
America:—"What do you say now to our
ladies?" said to me a high Yankee, as we
sat last night under the verandah, here in
the hotel at Saratoga. "Charming, of
course I answered, 'pale, delicate, be-
witching, too, and radiant.' 'Pooh!' cried
he, putting up his hands. 'They are just
not worth a—'—a. They can't work; they
can't walk; they can't ride; they can't
nurse!' 'Ah, you have no wife,' said I,
in a soothing tone. 'A wife!' he shouted,
I should tell her. 'With kindness!'
'Ugh!' he answered, 'with a poker. Look
at those girls over there, dawdling by the
fountain. What are they doing? What
have they done all day?—Fed and dressed.
They have changed their clothes three
times, and are sitting in their dresses, combed
and curled three times. That is their life.
Have they read a book? Have they sown a
seed? Not a bit of it. How do your Eng-
lish ladies spend their time? They put on
good boots, they tuck up their skirts, and
hark away through country lanes. I was in
Hamshire once, my host was a duke; his
wife was out before breakfast, with cloaks on
her feet and roses on her cheeks; she rode
to the hunt, she walked to the cove; a
ditch would not frighten her, a hedge would
not turn her back. Why, our women, poor,
pale, flat chested—' 'Stop,' I said, 'they
are lovely. Ugh!' said the Yankee,
'they have no bone, no fibre, no juice; they
have nothing but nerve; but what can you
expect? They eat pearls for bread, they
drink ice-water for wine; they wear tight
stays, thin shoes and barrel skirts. Such
things are not fit to live, and thank God,
in a hundred years not one of their de-
scendants will be left alive.'"

—As the quickest way to make a fortune
now-a-days, a contemporary suggests marry-
ing a fashionable young lady, and selling
her clothes!
—It is well to let something for those
who come after us, as the boy said when he
threw his hoop in the way of a policeman
who was chasing him.
An impatient boy waiting for the grist,
said to the miller, "I could eat the meal as
the mill grinds it." "How long would you
do so?" inquired the miller. "I'll starve
to death," was the sarcastic reply.

—A Colonel of a volunteer company in
England, in offering his services to his
country, Mr. Pitt Lee are not to go out of
the country." "Except, I suppose," said
the minister, coldly, "in case of actual in-
vasion."

SYNOPSIS

GOLD MINING ACT OF 1864,
27 and 28 Vic. Chap. 9, and the
Gold Mining Amendment Act 1865,
29 Vic. Chap. 9.

THE Gold Mining Act of 1864 provides that Government
in Council may erect Gold Mining Divisions.

Government appoint Officers for Divisions.

Two Divisions erected in Lower Canada:—Chaudière
Gold Mining Division, Richard Pope, Esq., Gold Min-
ing Inspector, St. Francis de la Prairie, and St. Fran-
cis Gold Mining Division, J. K. Giguère, Esq., Gold
Mining Inspector, St. Hubert, 1864 amended,
30th July, 1864 and 23rd Sept. 1865.

One Division erected in Upper Canada by Proclama-
tion, 1st March, 1867:—Queen's Gold Mining Division, con-
sisting the Townships of Barrie, Clarendon, Palm-
erston, Mulrany, North and South Canons, is the
County of Frontenac, the Township in the County of
Renfrew, situated in the County of Mulrany and
Canons, the Townships in the County of Addington,
situated north of the Township of Sheffield and north
of the Township of Saline, Thurlow and Tynesburgh,
situated south of the Township of Mulrany, in the
County of Peterborough situated north of the Township
of Belmont, Alfred Argyle Campbell, Esq., of Belleville,
Inspector.

No person to mine without a license.

Two kinds of licenses, one for Crown Lands, and the
other for Private Lands, Gold License, \$1 per month, for
private lands, the holder first obtaining consent of the
proprietor.

Crown Lands Gold License may stake out and work
claim on unoccupied Crown Lands as follows:

ALLUVIAL MINES.

On a river or large creek 30 feet from the
water's edge. On small creeks, 40 by 50 feet from
centre of stream. In gully, 60 feet from shore, and from
hill to hill. On surface or hill 50 feet square. In case
of hill tunnel, officer may grant larger claim. In bed of
river officer to determine size and position of claim.

QUARTZ MINES.

To each miner, 100 feet along lead by 100 on each side
from the centre of the lead. For companies, 25 feet ad-
ditional lead for every additional miner, but not to
exceed 500 feet altogether.

Claims to be closed by the officer, and to be laid out
in quadrilateral and rectangular shapes, horizontal, and
bounded under the surface by lines vertical to the horizon.

Crown Lands licensee to work continuously and renew
license.

No person to occupy more than one claim on Crown
Lands at one time.

Discoverer entitled to free license for one year in
maneuver provided by Act.

Party willing to be left between claims on Crown Lands,
party removing party will to construct a new mode of
access to water.

Crown Lands licensee not to cause damage to others.

General use of water reserved opposite claim on
Crown Lands.

Registration of claim on Crown Lands temporarily
unworkable, allowed for \$1. Provision: claim to be
marked.

Provision for removal of stakes on claims.

All licenses to make return.

Quartz crushing machines to be licensed. Fee \$5
per month. Books to be kept and returns furnished.

Act extends to parties mining under Gold Mining Di-
visions.

Sale of land prohibited except under license, month-
ly fee \$5.

Provisions made for appointment of constables and
potholders, and for returning of returns.

Persons working under Gold Mining Patents to furnish
returns and pay royalty, &c. (only one such patent
exists, viz., for the Township of Mulrany, in the County
of Frontenac, one of the Divisions erected, and royalty
to be paid to the holder of the Gold Mining Act.)

Government in Council may make regulations.

Officers may convict on view.

THE GOLD MINING AMENDMENT ACT OF 1865.

Repeals clause in Gold Mining Act of 1864, providing
that no license fee shall be exacted for exploring for
gold until the previous year's license has expired.

Enacts that Crown Lands provision in previous Act
may be applied to territory covered by Mining Patents,
and that disputes between miners and landowners &c.
in Gold Mining Division, may be determined by officer
of division.

INFERIOR METALS AND SALE OF MINERAL
LANDS.

The following are the Regulations:—

DEPARTMENT OF CROWN LANDS,
Ottawa, 13th July, 1867.

REGULATIONS for the sale of Mineral Lands ap-
proved by His Excellency the Governor General in
Council.

INFERIOR METALS.

1. That each regular mining tract in an unsurveyed ter-
ritory shall consist of blocks of two hundred or four hun-
dred acres.

2. That the dimensions of each regular mining tract of
four hundred acres be forty chains in front by four hun-
dred chains in depth, and smaller tracts, except on lakes
and rivers, in the same proportion. The bearings of the
outlines to be North and South and East and West, di-
visionally and parallel to the outlines of the Township
elementary.

3. That mining tracts bordering upon lakes and rivers
shall have their frontage upon such waters, and shall be
subject in all cases to the public rights in navigable or
fishable waters, and that mining tracts, on situated
shall have a frontage of one hundred chains back
from such water's edge, exclusive of road allowance of
one chain in width, which shall be reserved along the
margin of such river or lake in conformity with the
above mentioned bearings.

4. That mining tracts in unsurveyed territory shall be
surveyed by a Provincial Land Surveyor, and each
surveyed tract shall be marked in previous survey by
the tract that may be laid down on the office maps of the
territory at the foot of the application, and shall be re-
quired to furnish with their applications the surveyor's
plan, field notes and descriptions thereof in accordance
with the foregoing regulations, and to the satisfaction
of the Department, and pay the price of one dollar per
acre for the survey of the Crown Lands at the time of
making application.

5. That a surveyed township, not presenting indica-
tions of minerals be sold on the above conditions, but not
less than one dollar per acre in any township and at
the same price for the whole of the township when it
is more than one dollar per acre.

6. That mining lands in surveyed townships be sold
in lots of not less than one acre, and in unsurveyed
territory shall be sold by the department.

7. The above regulations do not apply to mines of gold
and silver.

GOLD AND SILVER.

8. That in selling the lands in the gold mining division
the department to make provision for the sale of pre-
ferred purchasers for actual settlement. Some of the
land for mining or speculative purposes, and some for
settlement for the present price and terms (subject to an
increase to \$2 an acre, under the order of His Excellency
the Governor General, in Council, and to the order of
the department for one dollar an acre, each).

9. That in all letters Patent for lands, the clause re-
serving all mines of gold and silver be omitted.

10. All previous regulations inconsistent with the
above are cancelled.

A. CAMPBELL,
Commissioner.

BROWN'S FOUNDRY

MACHINE SHOP,
FRONT STREET, BELLEVILLE

G. & J. BROWN,
Founders and Machinists,

RESPECTFULLY inform the public that
they are still manufacturing

All kinds of Machinery,
in connection with

FLOUR, GRIST, SAW AND OTHER
MILL FURNISHINGS, &c. &c.

Portable and Stationary Steam Engines of
any capacity, Engines and Wood Lathes,
Iron and Wood Planes, Shingle Machines
of various patterns; also, Agricultural Im-
plements of the most improved &c. &c.
and make. Their Horse Powers and break-
ing Machines, with or without cleaners,
are unsurpassed.

Brown's Ploughs are admitted to be of
the most improved style and manufacture.
They consist of some fifty different pat-
terns, and their celebrated STEEL PLOUGH is
the best in the country.

Amongst their other manufactures may
be enumerated: Horse and Cattle
Harrows, Cold Crushers, Corn and Drill
Ploughs, Seed Sowers, Rollers, Straw Cut-
ters and Stamp Machines, and Improved
Grain Grinders and Mills.

In the Stove Department

They are unequalled. They continue to
manufacture Box, Parlor and Cooking Stoves
of various descriptions, and their improved
"Northern Farmer" Cooking Stove is with-
out a rival for farmer's use.

Potash Kettles cast in iron, lip up, of
various sizes and of the best material.

Gold Crushers

Of the newest style and patterns made to
order.

Their facilities for manufacturing are
such as to enable them to successfully com-
pete with any similar establishment in the
Province.

Every description of patterns made to
order. Repairs done on the shortest
notice. All kinds of Brass Castings made
to order.

Belleville, May 1, 1867.

10-4f

The Daily Intelligencer.

Will appear about five o'clock every after-
noon (Sundays excepted) and will be
furnished by Carriers at the rate of \$5 a year
if paid in advance. \$2 50 for 6 months; \$1 50
for 3 months.

It will contain the latest telegraphic news up
to the hour of going to press, including Cable
despatches and the New York and Montreal
Markets.

Arrangements have been made with RELIABLE
CORRESPONDENTS in Madoc, Bridgewater, Mar-
mora and other points, who will furnish us with
early and full information respecting the Gold
Regions, and of matters of general interest.

Special attention will be paid to reporting the
proceedings of Courts of Law, Corporations,
Public Meetings, &c., &c., and in short, neither
penn nor expense will be spared to make the
DAILY INTELLIGENCER worthy of public patron-
age.

A large circulation has already been obtained
for it, not only in Belleville, but in the various
villages in the County. Arrangements have
been perfected by which the paper can be ob-
tained in Madoc the next afternoon, and at the
other villages a few hours after its issue from
the press.

As thousands of strangers will flock to the
gold regions this Spring and Summer, it is ex-
pected that several hundred copies will be sold
daily in addition to numerous regular sub-
scribers. It will therefore present unrivalled
advantages for general advertising.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has
been arranged as follows:

Cards, not exceeding six lines, 6
months, \$5 00

Half Square, 6 months, \$10 00

One Square, 6 months, \$20 00

Two Squares, 6 months, \$30 00

Four Squares, 6 months, \$50 00

Notices of Births, \$50 00

Do of Deaths, 50

Do of Marriages, 50

"BUSINESS NOTICES."—All matter under this
heading, headed or solid, 10 cents per line,
measured by a scale of solid matter.

Advertisers contracting for any space not less
than half a square can have the privilege of
changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents
per line for first insertion, and 2 cents for each
additional insertion.

The Weekly Intelligencer

is published every Friday Morning at \$2 per
annum if called for at the Office, or sent by
mail; and \$2 50 if delivered by the Carrier, pay-
able in all cases in advance. When not paid
until the close of the year, 50 cents will be
added to each year's subscription. No paper
discontinued until arrears are paid up, except
at the option of the Publisher.

Within the past three months its circulation
has rapidly increased, and the number now
on our Subscription Books is over 1,400.

With such a large and general circulation
throughout this and adjoining Counties, the
Weekly Intelligencer presents unsurpassed
advantages to advertisers.

RATES OF ADVERTISING:

Six lines and under, first insertion, \$0 25

Each subsequent insertion, 10 cents per line

Above six lines, (per line) first insertion 0 07

Each subsequent insertion per line, 0 05

"BUSINESS NOTICES."—10 cents per line

each insertion, measured as solid matter.

A liberal discount made to those who adver-
tise by the year.

Advertisements for insertion must be deliv-
ered before 12 o'clock, noon, on Thursday to
insure their appearance in the following issue.

All advertisements without which directions
inserted until forbid, and charged accordingly.

QUEBEN
INSURANCE COMPANY
CAPITAL, \$10,000,000.
FIRE and LIFE.
LIFE DEPARTMENT.

The principles on which this Company is
founded contain all the elements required
to develop the benefits of Life Assurance, and
afford every facility to intending assured.
One of the advantages secured by those who
insure their lives with this Company is that
the outside expenditure for Management is
absolutely restricted by the Board of Settle-
ment to Ten per cent of the Net Life
Income. This most important restriction
shows that the interests of participating policy
holders are closely watched and carefully at-
tended to by the Company. Attention is es-
pecially called to this point, as the proportion
of premiums expended for Management
Must Largely Influence Profits
and Bonuses.

The next division of profits takes place in
1868, and all those who wish to participate in
the profits should insure at once.
DR. CANNIFF, Medical Referee. Agent.

EXCELSIOR!
OWING to the press of business in Pho-
tography, and the great demand for the
PORCELAIN PICTURE,
the subscribers have engaged a
Foreign Artist,
especially for that branch of photography.
Feeling assured that he can excel any-
thing on the continent, they cordially invite
all who wish something far surpassing any-
thing they have yet seen, to give them a call.

FROM MADOC.

From our own Correspondent.
More Gold Reports—McMahon's Farm—Down-
ing's Results—A new Discovery—Mining
Licenses.

MADOC, May 22nd.
Madoc village looks odd after a visit to
Upper and Lower El Dorado, where every-
thing is so new, but still it has a more sub-
stantial appearance and not likely to be so
seriously affected by any changes in the Gold
excitement. Reports are continually coming
in with reference to the finding of gold in
various parts of the country, but so I have
repeatedly stated before, not sufficiently au-
thenticated. For instance, a party this morn-
ing has just been stating that a company, of
which he is one, are sinking shafts on Lot 3,
in 1st concession, Madoc, four shafts going
down. Gold has been found in every shaft; not
particles that you have to bring a microscope
to bear upon, in order to see, but the size of
the head of a pin, a kernel of wheat, &c. He
says any one can go and see for themselves.
Special attention is paid to the Family Groceries,
Jams, Jellies, Marmalades, Pickles, Sauces,
Canned and Bottled Fruits, Oranges, Lemons,
&c. All fruits in their season, wholesale
and retail.
Opposite the Wood Market, Front Street,
Belleville.

May 1. 1Dm

At McMahon's farm, Lot 18, in the 8th con-
cession, the company who lease the part of his
land have eight or ten men employed, main-
taining a blacksmith shop, but a coal
pit, and evidently are in earnest. They speak
lightly of their prospects.

At Downey's Rapids, they have put up
a blacksmith's shop, and intend to resume
further work at an early day, being fully sat-
isfied that, it will pay. "Honest Joe" has
charge of this.

For sometime a number of persons have
been prospecting in the neighborhood of
Quebec, and a few days since it was
reported that Mr. I. F. B. Morice, a practical
Australian miner, had found gold in the soil
on Francis Martin's lot No. 16, in the 11th
concession; but as Morice did not confirm it,
the report was soon forgotten. Yesterday,
however, it was found that a Company, Messrs.
Prince Edward, which Morice represents, had
purchased the mineral right from Martin—
he having previously leased the mining right—
and further, that gold had been found in a
quartz ledge on the same lot. I have seen
the specimens that are reported to come from
this lot, they are very fine. One thing in its
favor is that the lot is not in the 8th con-
cession, but in the 11th, and the quartz ledge
are trying to get land in the neighborhood,
and are arranging to commence at once to
strip the quartz ledges. From Morice, but I
can't get further than this. It is said that
he has applied for a free license on the ground
of being the first discoverer in that neighbor-
hood. You will remember that it was reported
that gold was found in lot No. 37, in the
11th concession last fall. The quartz exhibit
is a bluish white in color, and on breaking
it the gold appears in this flaking specks
on the face of the quartz.

The gold inspector was here on Thursday
and Friday and issued a number of mining
and trade licenses, only a little fancy of
what should or will be issued, which the min-
ers are discovered.

One o'clock stages in, and no daily; this is
a disappointment. Like the Times for the
Englishman's breakfast, we wait daily for
dinner.

GRANITE.

FROM BRIDGEWATER.
More Gold near the Village—The Barry Mine—
More Gold Discoveries—Land sold for \$30-
600—Operation of Companies—Great Copper—
A Valuable Mine—Silver and Iron—Mining
for Fine Weather—Spring Work—Sheep kill-
ed by a Wolf.

BRIDGEWATER, May 21, 1867.
We are likely, soon to have gold at our
very doors. A mine was just opened before
winter set in, close by the scythe factory in
this village, and has lain dormant till yester-
day, when a party of men went there, and
having "washed some of" the earth ob-
tained a very good show of gold; the mine
is about eight feet deep, and it is the opin-
ion of those who profess to be judges—that
gold will be found here in large quantities.
There has been a further show of gold in the
Barry mine, and one of the people from
there, who saw it, said it was likely to
prove very valuable.

I told you in my last of a very fine sam-
ple of gold having been exhibited here by
Mr. Jones Bay, found in the 11th concession.
I have had a convincing proof of the value
of the land on which this was found. A
Mr. Simpson it appears being in search
of mines about six weeks ago, took a sam-
ple of the quartz found on this lot to But-
falo, and had it tested, when it was found
to contain a large per centage of the pre-
cious metal; he has been exhibiting it here
since I wrote to you last, and every one has
pronounced it a very fine sample. It is re-
ported that gold has been found in a very
fine state, on a farm belonging to Mr. F.
Johnson, close by.

Mr. George Clark, living in Kalar, has
sold his lot of 50 acres to a Company in
Belleville for a certain sum down, which is to
be made up to \$300,000 when a very
large state, on a farm belonging to Mr. F.
Johnson, close by.

P. S.—Rooms opposite the Anglo-Ameri-
can House, Front Street, Belleville.
May 2. 2Dm

confidence that the Company will find this a good investment. Mr. Felix Collins, living in the sixth concession, has been offered £100 for eight acres of his land; but would not accept it. The Mechanics Mining Company is still at work; but I have not yet seen this time heard with what results, no one having come from the direction their miners are working in; but they appear to have every confidence that the spot they have chosen for their operations, will turn out a good one.

The Joint Stock Company have commenced a mine on a farm belonging to Mr. Burns; they had previously pitched upon this lot as showing very good indications of copper, and have not been disappointed—a very fine sample of grey copper having been exhibited, which was very much admired. This mine is but a short distance from the village. I paid a visit to it yesterday to see how it was going on, and found they had got down about seven feet below the surface; the whole of the quartz which has been taken out shows large quantities of copper quite equal to the sample shown in the village, and I think it will in all probability prove a valuable mine; indeed it is the general opinion of all who have seen it that such will be the case. One man who was there expressed his belief that there were several other good sites for copper on the same lot, and having conferred with another visitor, a spade was procured and a hole cut in the earth about a foot and a half in depth, when signs of copper became very evident.

Perhaps a further search would have been made, but the field of operation lying in a hollow the water came in to the extent, so they decided, but expressed themselves satisfied that it was a good site.

Besides the "indications" already spoken of as existing in this township there are very good signs of both silver and iron, and I am told other metals, but gold being the rare I suppose people will look for that first, but if a man chances upon a mine producing silver, copper, iron, or any of the baser metals he may find that in a pecuniary sense it would be as good a gold mine as he could wish for, and certainly this section of country seems to be teeming with mineral wealth.

Having had a few fine days we are beginning to hope that settled weather has come at last. Miners are getting ready for work in earnest, they will empty the mines of the water collected in them, and once more try their fortune, when I hope the weather will prove propitious, and then we shall see what this part of the country can produce, not only in quality—upon which point we are already satisfied—but in quantity also.

Farmers are advancing with their Spring work and when they have completed it most of them will turn miners. I heard that several sheep have been worried in the fifth concession, which have been put down to the depredations of a wild cat. There has been more business stirring since the fine weather set in, and things wear a more cheerful aspect altogether.

ST. ROCHER.—The steamer *Recher* leaves Flint's Wharf on Monday at two o'clock, for Oswego, touching at Mill Point and Pictou.

Daily Intelligencer.

BELLEVILLE, SATURDAY, MAY 25.

TELEGRAPHIC NEWS!

BY ATLANTIC CABLE.

LONDON, May 23.—The Queen has issued a proclamation declaring the union of the provinces of Upper and Lower Canada, Nova Scotia and New Brunswick under one government, to be called the Dominion of Canada. Appended to the proclamation is a list of senators appointed by the Queen to the Upper House of the new Canadian legislature, in accordance with the provisions of the bill of confederation recently passed by the British Parliament.

LONDON, May 23 (evening).—The English government has made representations to the leading powers of Europe urging a general disarmament.

VIENNA, May 23 (evening).—The Austrian minister at Washington has been instructed by his government to enter into negotiations with President Juarez, of Mexico, with the view to securing the safety of the Emperor Maximilian in case he should fall into the hands of the liberals.

LONDON, May 24.—Sir Archibald Alison, the historian, is dead.

COKE, May 24.—The Fenian prisoner, McClure, on being arraigned for treason entered the plea of guilty.

PARIS, May 24.—The frigate *San Bart*, of the French West India squadron, has been ordered to proceed to New York to take the monitor *Daubigny* to France. The *San Bart* is now lying at Annapolis, Md.

LIVERPOOL, May 24, evening.—Advises received here from Hong Kong say it was reported there that the United States gunboat *Ashland* had

been captured in the island of Formosa, the natives of which murdered the shipwrecked crew of the American bark *Rover*.

VIENNA, May 24, evening.—A rumor of the death of the Emperor Maximilian, which has been prevailing here, is officially contradicted and declared to be without foundation.

BREST, May 25.—The steamer *Wm. Dean* from New York on the 11th, arrived yesterday. **LONDON, May 25, (noon).**—Erie has declined 3/4, now quoted at 39 1/2 declined 3/4; now quoted at 72; Ill. 70.

LONDON, May 25, noon.—Consols, 93 1/4; Erie 39, Bonds, 72 1/4; Illinois, 70.

LIVERPOOL, May 25, noon.—Cotton firm at 11 1/4; Uplands, 11 1/4; Orleans, unchanged.

LONDON, May 25, noon.—Despatches have been received from Cork, which state that McElmure and the other Fenians who have been on trial in that city, have been convicted and sentenced to be hanged. O'Brien will be next placed on trial.

American Despatches.

SUICIDE.

MOBILE, May 25.—John M. Parkman, the defaulting President of the first National Bank of Selma, Alabama, who was confined in jail, escaped yesterday, and plunged into the river, and drowned himself.

THE FENIANS AGAIN.

Boston, May 24.—At a Fenian meeting held here tonight, speeches were made by Gen. Spear and others, and companies were organized for the invasion of Canada.

BRITISH COLUMBIA.

SAN FRANCISCO, May 24.—A telegram from Victoria reports that the *British Colonist* publishes despatches of an important nature from England, concerning the confederate scheme. The *Colonist* says it is believed that the cry for annexation will be the means of attracting the attention of the Imperial Government to the deplorable condition of this neglected colony, and hasten Confederation.

MISCELLANEOUS.

NEW YORK, May 25.—Wm. H. Hostin, one of the proprietors of the cotton warehouse burned on Thursday, was arrested yesterday, and held to await the result of the investigation into the cause of the conflagration.

Mr. Carr, who was shot by W. T. Skidmore, in Brooklyn, on Tuesday, died yesterday.

MORE ABOUT THE FENIANS.

NEW YORK, May 25.—The *Herald* says the Fenians are making extensive preparations for war—that arms and ammunition for 100,000 men are being prepared—that the iron foundry of McDermott & Co., in 18th street, since January 1st, 1866, have made large numbers of 12 and 24 pounders and shells at the rate of 200 per day; also three or four tons of grape and canister shot have been manufactured daily. The foundry has 35 men constantly at work on Fenian war material. The Fenians have several secret arsenals in this city, all stored with this material.

A St. Albans special to the *Herald* says there are mysterious movements in that quarter, looking to an attack on Canada.

A Buffalo despatch makes a similar report.

GREAT FIRE.

SAN FRANCISCO, May 25.—Idaho City was destroyed by fire on the 17th inst. All Main Street was burned from Bear Run to Moose Creek, including the office of Wells, Fargo & Co.

NEW YORK, May 25.—Steamers *Etna*, from Liverpool on the 14th, and *Hermann*, from Southampton, have arrived.

FROM OTTAWA.

OTTAWA, May 26.

The Queen's Birthday was celebrated with great enthusiasm. The Victoria Rifles from Montreal, and excursion parties from Prescott, Brockville, and other places, took part in the celebration.

A Cabinet Council was held yesterday, at which Hon. Messrs. Macdonald, Blair, Campbell, Belleau, and Langevin, were present.

Discount on American invoices for next week 25 per cent.

The *Gazette* contains no appointments of importance.

Railway Accident.

A melancholy accident occurred at Whitby on the Grand Trunk Railway yesterday morning, by which four emigrants, Germans, lost their lives, and several others injured. It seems that while an emigrant train was standing at the station, a special freight came up, and through some fault of the signal man, the semaphore was not regulated, and the engine of the freight ran into the emigrant train. The hind car was the conductor's Van, and this was forced into the next car, which was filled with men, women and children. Five persons, three women, a man and a child were killed, two others were dangerously injured, and several others slightly hurt. The injured were taken to Toronto where medical attendance was procured. A searching investigation will be made immediately, when it will be known who was at fault.

New Senators

We received yesterday a special telegram from Ottawa, giving the names of the new Senators appointed for Ontario. They are as follows:—Hon. Messrs. John Hamilton, of Kingston, R. Matheson, John Ross, Samuel Mills, Benjamin Seymour, W. H. Dickson, James Shaw, A. J. Ferguson Blair, Alex. Campbell, D. Christie, Jas. C. Aikins, David Reesor, E. Leonard, W. McMaster, A. A. Burnham, J. Simpson, James Skead, D. L. Macpherson, G. Crawford, Donald McDonald, Oliver Blake, Billa Flint, W. McCrea, G. W. Allen.

A Big Thing.

The Cobourg correspondent of the *Coburne Express* says: "A Big Thing" in a vulgar phrase will most assuredly be realized by the Marmora Company from their iron speculation. The deposits of iron are proving rich beyond expectation, and the price of ore is going up rapidly in the American market—in fact, has been for some time past. The able and energetic manager, John Dumble, Esq., is doing his utmost to compass heavy shipments of the ore this season. He confidently expects to bring forward 60,000 tons before the close of navigation—30,000 tons are to be shipped to Charlotte and 30,000 to Cleveland. Messrs. Charles Elliott and Adam Holmes have contracted for the unloading and shipment of the ore. "What a pity it is that Hastings has no share in this 'Big Thing'." It might have been otherwise, had the representatives of this County performed their duty to their constituents.

The Queen's Birthday.

Yesterday—the forty-eighth anniversary of the birth day of our most Gracious Majesty Queen Victoria—was celebrated throughout the length and breadth of the Dominion of Canada as a public holiday. In no place was it celebrated with greater manifestations of loyalty and genuine enthusiasm than in Belleville. At an early hour, long before chancelier announced the dawn of day, reports of fire arms of all kinds and sizes were heard in every direction, and there was little chance of the sluggish indulging himself in a little more sleep and a little more slumber, so loud and continuous were the noises to be heard on every side. At sunrise a royal salute was fired, and from that time until the close of day, there was incessant firing of small arms, fire crackers, &c., much to the annoyance of nervous men and timid women; but to the intense gratification of the youngsters, who by common consent have special license on this National holiday of ours.

The weather, which has formed the chief topic of discussion for some weeks past, agreeably disappointed every one who, from the appearance of the heavens the night previous expected a repetition of those cold and cheerless rains for which the season has thus far been noted. Old Sol came out from behind the clouds early in the morning, and exposed his face to the admiring multitude the whole live-long day, giving hope of the fulfillment of the promise that "seed time and harvest" would still be ours. It was emphatically "Queen's weather."

At an early hour, in accordance with time-honored custom, the Moira Band called at the residences of our principal citizens and furnished them with a number of favorite airs. Between nine and ten o'clock the Firemen turned out in considerable force and marched in procession through the principal streets, accompanied by the Band. Long before this time the sidewalks were thronged with men, women and children, dressed in holiday attire, and the large number of well-filled carriages coming in at the leading roads, showed that our country friends were gathering in large numbers to see the sights and participate in the day's enjoyments. From public buildings and private dwellings, and from the shipping in the port, there was a magnificent display of bunting, such a display has not been seen here for years.

About ten o'clock, the Band of the 15th Battalion went up to the Railway Station and escorted the two Companies of the Grand Trunk Rifles to the Armory of the Battalion. As they marched down Front Street, their fine and soldierly appearance showed that they were well drilled. At the Armory they were joined by the 15th Battalion, under the command of Lt. Col. A. A. Campbell, and headed by the Band they marched up Front Street to Hotel Street, and from thence to the Race Course ground, where, after forming in line, a *feu-de-joie* was fired. The force went through a number of evolutions, amongst which was marching past in quick time, wheeling into line and retiring. The two Grand Trunk Companies were then thrown out as skirmishers, supported by Companies 1 and 2 of the 15th, fired, changed position and retired. They were then relieved by Nos. 1 and 2 of the 15th, who went through

the same movements, all of which were done in proper order. The force then advanced in *chelon* of Companies from the left at wheeling distance, halted and formed Company Squares, keeping up continuous firing, which was done with remarkable precision. After this movement they re-formed Companies, went through several evolutions, and subsequently formed hollow square to resist cavalry, and kept up a continuous firing; after which they formed line and fired in succession of Companies. Various other military evolutions were gone through with, all of which, in the estimation of experienced officers, they performed in a highly creditable and soldierly manner. About three o'clock the force marched back to the Armory, when they were dismissed, having been out over three hours. No. 7 of the Grand Trunk Rifles, of the 3d Battalion, had three officers and forty-two men; No. 8 of the same Battalion, had three officers and fifty-one men. Altogether there were about two hundred and fifty men in the ranks, and their appearance was highly creditable. When the Battalion was dismissed, the Adjutant informed them that, pursuant to orders they were required to turn out for drill in future at four o'clock on Tuesday and Friday afternoons.

About eleven o'clock the Belleville Rifle Company, under the command of Captain Hamby, assembled at their Armory, and shortly before twelve, headed by the Moira Band, proceeded to the Court House hill, where they fired a *feu-de-joie*, and went through various evolutions in a manner which showed they had preserved their drill and efficiency to a remarkable degree. After marching through the principal streets they proceeded to the Armory where they were dismissed.

In the afternoon several games of base ball, cricket and quoits came off on Taylor's Hill, and a large crowd went to the Railway Station to witness the games which were advertised to come off there. We are informed that the officials at the Station had no knowledge that such games were to come off until they saw the advertisement, and no preparations had been made for them. However, after the review was over a few games were got up, which afforded considerable amusement to those present. Amongst other games there was a wheelbarrow race, for which there were four entries; it was won by Mr. M. Sheehan. For the foot-race there were ten entries; this was won by Mr. George Roche, latter. A race backward, blindfolded, one of the three competitors, severely scalding the fireman, W. Carly. Both of his legs were badly burned. He was taken to his home and placed under medical care, and will probably be about in a month.

THE DISUNIONISTS.

Hon. Joseph Howe has made a speech since his return to Nova Scotia, in which he expressed a decided opinion for Washington. It is thoroughly republican in its tone and would just suit an adherent of the Munroe doctrine. And this is the man whom Mr. Brown wishes the reformers of Upper Canada to unite with to form an opposition party.

FENIANS IN DETROIT.—At a Fenian meeting held in Detroit last week, one of the speakers said that in less than a month an army of 30,000 would cross the border, to be followed by 30,000 more, and another 30,000 if necessary, to drive the British out of Canada. The speakers on the occasion generally concluded with an appeal for the Fenians and it is said \$500 were contributed. Volunteers to make up a battalion for Michigan, were called for, but no account is given of the number enlisted.

BROADWAY THEATRE.—This Company plays the "Household" and "Kiss in the Dark" to night, and we hope as it is their last night in Belleville they will have a crowded house. Yesterday they had two performances—giving "Uncle Tom's Cabin" in the afternoon, and the "Factory Girl" and the "Ghost" in the evening. Both performances were very well attended, and the acting gave general satisfaction. The Company contains several really good players, and their general deportment has been such as to win the esteem and good will of all those with whom they have come in contact.

Mr. McDougall and his Position.

The Montreal *Daily News*—a journal of the Grit spirit—holds a much higher opinion than does its brother Grit of the Perth *Courier* of Mr. McDougall's career and position. The *News* speaks as follows:—

Mr. McDougall is one of those statesmen who has slowly and steadily risen to high position in this colony, under adverse conditions; and it has been his good fortune, since his elevation to a high position, to have acquired confidence by an even-tempered and courteous manner, a frank and honest expression of his convictions, and a conscientious respect for his obligations. It must be admitted that he has acted the part of an honorable antagonist and a trusted ally during the vicissitudes of political life; and since his tenure of office he has evinced an administrative ability and industry which his earlier life promised; between his friends, highly as they estimated his talents, were not prepared for the proofs of statesman like capacity he has displayed during the last eventful year. Mr. McDougall is one of those natures moved by profound convictions; he has erected a moral standard of his own, by which he

side was fired, and 21 rounds were fired from an anvil, which made the woods echo with its thunder. After the drill the Company was complimented on its efficiency by Lieut. Col. Brown. At 2 o'clock the Company sat down to a splendid dinner at the "Stirling House;" after which the usual loyal toasts were drunk, and a sword presented by Capt. Boulter, on behalf of the Company, to Adjutant Fidler, as a mark of approval of the manner in which he has drilled the Company. A pair of spurs were also presented by Lieut. Colonel Brown.

The afternoon was spent in various ways, the principal amusements being sack and wheelbarrow races, climbing a greasy pole, and a chase for a crossed pig. Towards evening, Orange Lodge No. 10, marched through the village, and displayed a very pretty new flag; and a procession was formed by the Firemen, who turned out in uniform, and displayed the readiness with which they could handle their engine. In the evening there was to be a torch-light procession. On the whole the day was very pleasantly spent.

A Case of Abortion.

A QUACK DOCTOR ARRESTED.

On Monday last the 20th inst., a poor woman named Mary Lavelle, the wife of a French labourer in the grove, was taken suddenly unwell, and her husband was induced by some person to employ a man calling himself "Doctor Waldron," a vendor of Quack Medicines from London, C. W. He called to see the woman and having learned that she was two months advanced in pregnancy, administered for four dollars such a course of medicines as almost deprived the woman of life, and which resulted in a shocking case of abortion on Wednesday. Her husband alarmed at the condition of his poor wife and the mother of five small children, called upon Doctor Hope, who immediately with Doctors Lister and Holden inquired into the matter, and sent for the Police Magistrate; he at once received an information from the woman, and the fellow was promptly arrested by Capt. James. He was remanded until to-day, and we shall publish a summary of the evidence in our next issue. The woman's declaration was received on Thursday, by the Police Magistrate in the presence of Dr. Hope, as it was not supposed she could live many hours. She is still in a most precarious condition.

ACCIDENT.—On Thursday, shortly after the mixed train left Shannonville, one of the flues of the engine burst, severely scalding the fireman, W. Carly. Both of his legs were badly burned. He was taken to his home and placed under medical care, and will probably be about in a month.

THE DISUNIONISTS.—Hon. Joseph Howe has made a speech since his return to Nova Scotia, in which he expressed a decided opinion for Washington. It is thoroughly republican in its tone and would just suit an adherent of the Munroe doctrine. And this is the man whom Mr. Brown wishes the reformers of Upper Canada to unite with to form an opposition party.

FENIANS IN DETROIT.—At a Fenian meeting held in Detroit last week, one of the speakers said that in less than a month an army of 30,000 would cross the border, to be followed by 30,000 more, and another 30,000 if necessary, to drive the British out of Canada. The speakers on the occasion generally concluded with an appeal for the Fenians and it is said \$500 were contributed. SYNOPSIS

GOLD MINING ACT OF 1864.

27 and 28 Vic. Chap. 9, and the

Gold Mining Amendment Act 1865.

29 Vic. Chap. 9.

THE Gold Mining Act of 1864 provides that Governor

in Council may erect Gold Mining Divisions,

Governor may appoint Officers for Divisions.

Two Divisions erected in Lower Canada: "Chaparral

Gold Mining Division," Richard Roy, Esq., Gold Min-

ing Inspector, St. Francis de Regence, and "St. Fran-

cis Gold Mining Division," J. K. Giguere, Esq., Gold

Mining Inspector, St. Jean, 16th July, 1864, amended

30th July, 1864 and 21st Sept. 1864.

One Division erected in Upper Canada by Procla-

mation, 21st March, 1867: "Quinn's Gold Mining Division,"

constituting the Townships of Barry, Glenora, Paim-

erston, Miller and North and South Canote, in the

County of Frontenac, situated north of the Township of Miller

and Canote, the Township in the County of Adolphus,

situated north of the Township of Barry, and the Town-

ships in the County of Hastings, situated north of the

Township of Barry, and the Township in the County of

Belmont, situated south of the Township of Barry, and

the Township of Belmont, and the Township in the County

of Peterborough, situated north of the Township of

Belmont, and the Township of Belmont, and the Township

in the County of Peterborough, situated north of the

Township of Belmont, and the Township of Belmont, and

the Township in the County of Peterborough, situated

north of the Township of Belmont, and the Township

in the County of Peterborough, situated north of the

Township of Belmont, and the Township of Belmont, and

the Township in the County of Peterborough, situated

north of the Township of Belmont, and the Township

in the County of Peterborough, situated north of the

Township of Belmont, and the Township of Belmont, and

the Township in the County of Peterborough, situated

north of the Township of Belmont, and the Township

in the County of Peterborough, situated north of the

Township of Belmont, and the Township of Belmont, and

the Township in the County of Peterborough, situated

north of the Township of Belmont, and the Township

in the County of Peterborough, situated north of the

Township of Belmont, and the Township of Belmont, and

the Township in the County of Peterborough, situated

north of the Township of Belmont, and the Township

in the County of Peterborough, situated north of the

Township of Belmont, and the Township of Belmont, and

the Township in the County of Peterborough, situated

north of the Township of Belmont, and the Township

in the County of Peterborough, situated north of the

Township of Belmont, and the Township of Belmont, and

the Township in the County of Peterborough, situated

north of the Township of Belmont, and the Township

in the County of Peterborough, situated north of the

Township of Belmont, and the Township of Belmont, and

INSURANCE COMPANY

CAPITAL, \$10,000,000.

FIRE AND LIFE.

LIFE DEPARTMENT.

THE principles on which this Company is
founded contain all the elements required
to develop the benefits of Life Assurance,
and afford every facility to intending assurers.
One of the advantages secured by those who
insure their lives with this Company is that
the outside expenditure for Management is
absolutely restricted by the Deed of Settlement
to **Ten per Cent** of the Net Life
Income. This most important restriction
shows that the interests of participating policy
holders are closely watched and carefully at-
tended to by the Company. Attention is es-
pecially called to this point, as the proportion
of premiums expended for Management
Must Largely Influence Profits
and Bonuses.
The next division of profits takes place in
1888, and all those who wish to participate in
the profits should insure at once.

To-Morrow.

A bright little boy with a ruddy face,
Whose every motion was full of grace,
Who knew no trouble, and feared no care,
The light of our household—the youngest here.

He was too young—the little of
With troublesome questions to vex himself;
But for many days a thought would rise,
And whisper, "Is it to-morrow?"

And he went to one whom he thought more
Than any other beneath the skies—
"Mother"—O word that makes the home—
"Tell me when will it to-morrow come?"

"It is almost night," the mother said:
"Most time for my boy to be in bed;
When you wake up, and it's day again,
It will be, my darling, to-morrow then."

"The little boy slept through all the night,
But woke with the first red streaks of light:
He pressed a kiss on his mother's brow,
And whispered, 'Is it to-morrow now?'"

"No, little Eddie, this is to-day—
To-morrow is always one night away,
He pondered awhile, but joy came quick,
And the vexing question quickly passed.

But it came again with the shades of night;
"Will it be to-morrow when it is light?"
Four years had passed, he seemed care to borrow,
He tried so hard to catch to-morrow's light.

"You cannot catch it, my little Ned—
Enjoy to-day, and let it pass away,
Some wait for to-morrow through many a year,
And it is always coming, but never here."
—Friedrich.

"God of my Mother."

An infidel of talent and outward respectability,
under the power of truth, bowed
upon his knees and cried, "God
of my mother, have mercy on me."
His mother was a devoted Christian woman.

"God of my mother!" How much
is revealed in that single word! How con-
clusively it proves that this man had a
mother whose faithfulness left an impression
on his soul too deep to be effaced even by
time and sin.

"Save the son of time, handmaid," cried
King David unto God. "It was a comfort to
know that he was the son of a godly mother,
who had consecrated him to God in in-
fancy, had prayed for him, and conversed
with him, and had sought to train him up
in the ways of piety. Although his godly
mother had long been dead, the royal Psalm-
ist pleads with God to remember him in mercy
as the child of prayer, and covenant en-
gagements. And no doubt every pious man
and woman born of a godly and faithful
mother, has experienced something of
David's feelings and been in some degree a
partaker of his consolation."

What an inestimable blessing a pious
and faithful mother to any one. However
unseen may be the results of her labors,
those labors never are without blessed re-
sults in the case of every one of her children.
Those who may have been children of God in
after life will always rejoice to acknowledge
her silent and powerful influence as one of
God's chief agencies in accomplishing the
result. Even those who may never become
the disciples of Jesus will be restrained by
that influence from entering upon courses
of vice and transgression, in which they
might otherwise have become bold, had
men.

The writer of this article lost his mother
at the early age of twelve years, but never
can he forget her gentle, loving, and
memory at her feet will be committed to
memory the "Shorter" catechism of an ap-
pointed hymn. Never can he forget kneeling
by her side in the evening before he
was dismissed to bed, while he repeated
aloud his simple prayer to "Our Father
who art in Heaven." Long years had
passed after her form was laid in the grave
before he was brought to embrace Christ
as his Saviour. Through all those years he
was nearly without thought of concern
about his soul's salvation. He was sur-
rounded by worldly companions, and was
tempted to enter various paths of sinful en-
joyment. But when once the spirit of God
began to work upon his soul, the memory
of his mother came up fresh and strong
upon him, and he felt that his happy in-
fluence although unrecognized at the time,
had hindered him from many an evil thing.

My young readers, love your mothers and
honor them. Your mother is to you one of
the most inestimable boons God has ever
given you. Perhaps, next to the blessed
Saviour, she is one of the best gifts ever
God could give you. —Sunday School. Vin-
cent.

How to Prepare Milk for the Factory.

A CORRESPONDENT sends the following to the *Times Herald*:

Pails, cans, and everything with which milk comes in contact, should be thoroughly washed, scalded and aired, if not sunned, once every twenty-four hours. At night, in warm weather, these things should be well rinsed with cold water. Those who milk in stables, should keep their cows clean and well littered, and refrain from feeding green corn fodder in the stable, as the practice produces a great deal of filth, and it is impossible to keep the taint from the milk. All dirt should be rubbed off from the cow's bag before beginning to milk, and the greatest care should be taken to keep dirt from dropping into the pail. The can should be set in a cool place, most especially out of the sun, and the top kept uncovered till the last moment before starting for the factory. The milk should be strained into the can as fast as taken from the cows. (For this purpose a strainer pail is best, as a cloth strainer covers the top of the can too closely, preventing cooling, and the washing and scalding of it is apt to be neglected. The pail is easily cleaned, is nearly as handy, and if the strainer gets filled up with dirt, (there ought not to do this), it can readily be rinsed with cold water. Frequently stirring up the milk in the can with a long-handled dipper, while milking, is beneficial. Tin pails are better than wooden pails, as the latter are much harder to keep clean and sweet. Newly painted pails are quite bad, the milk absorbing a taint from the paint. Wooden pails with a round bottomed tin lining are much the best, and are growing rapidly in favor in the oldest and best dairy districts. In short, the most scrupulous cleanliness should be observed throughout, not only care being taken to clean the utensils, but to use such as are easily cleaned; for without greater cleanliness, we can never rival the nice flavor of the best grades of English cheese. But flavor is the great objection brought against American cheese, and it is the verdict of the best judges that this is mainly due to the filthy condition of the milk when it reaches the factory. What American dairyman will not have his national pride aroused at the thought of taking two or three cents a pound less for his cheese because of filthy dairies in milking? Let our farmers led to this, and give us clean sweet milk, and we can beat the world in quality and price. Even with their "foggy" processes of manufacturing, John Bull rivals us by virtue of his dairies. Let us adopt that virtue, and we can far exceed him in the world's market.

BROWN'S FOUNDRY

MACHINE SHOP, FRONT STREET, BELLEVILLE.

G. & J. BROWN,

Founders and Machinists,

RESPECTFULLY inform the public that they are still manufacturing

All kinds of Machinery,

in connection with

FLOUR, GRIST, SAW, AND OTHER

MILL, FURNISHINGS, &c.

Portable and Stationary Steam Engines of any capacity, Engines and Wood Lathes, Iron and Wood Planers, Shingle Machines of various patterns; also, Agricultural implements of the most improved style and make. Their Horse Powers and Threshing Machines, with or without cleaners, are unsurpassed.

Brown's Engines are admitted to be of the most improved style and manufacture. They consist of some fifty different patterns, and their celebrated STEEL PLOUGH is the best in the country.

Among their other manufactures may be enumerated Horse Hoes, Cultivators, Harrows, Clod Crushers, Corn and Drill Ploughs, Seed Sowers, Rollers, Straw Cutters and Stumps, Mowers, and improved Grain Grinders and Mills.

They are unequalled. They continue to manufacture the Patent and Cooking Stoves of various descriptions, and their improved "Northern Farmer" Cooking Stove is with out a rival for farmer's use.

Potash Kettles, and all kinds of up, of various sizes and of the best material.

Gold Crushers

Of the newest style and patterns made to order.

Their facilities for manufacturing are such as to enable them to successfully compete with any similar establishment in the Province.

Every description of patterns made to order. Repairs done on the shortest notice. All kinds of Brass Castings made to order.

Belleville, May 1. 1D-1f

The Daily Intelligencer.

Will appear about five o'clock every afternoon (Sundays excepted) and will be furnished by Carriers at the rate of \$5 a year if paid in advance, \$6 otherwise. Mail subscribers \$5 a year. \$3 50 for 6 months; \$1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable despatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgeport, Marston and other points, who will furnish us with correct and full news respecting the Gold Regions, and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., and all other matters of public interest.

A large circulation has already been obtained for it, not only in Belleville, but in the various villages in the County. Arrangements have been perfected by which the paper can be obtained in Madoc the next morning after publication, at Eldorado the next afternoon, and at other villages a few hours after its issue from the press.

As thousands of strangers will flock to the gold regions this Spring and Summer, it is expected that several hundred copies will be sold daily in addition to the regular circulation.

It will therefore present unparalleled advantages for general advertising.

RATES OF ADVERTISING.

A liberal mode of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 5 00

Months, 10 00

Half a Square of 10 lines, 10 00

One Square, 6 months, 30 00

Four Squares, 6 months, 40 00

Notices of Births, 50

Do of Marriages, 50

Do of Deaths, 50

"BUSINESS NOTICES"—All matter under this heading, headed or sold, 7 cents per line, measured by the number of lines.

Advertisements for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

is published every Friday Morning at 12 per annum in advance, or by the Carrier, per mail, and \$2 50 delivered by the Carrier, per mail, in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months the circulation has rapidly increased, and the number now on our subscription books is over 1,400. With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unparalleled advantages to advertisers.

QUEEN
INSURANCE COMPANY
CAPITAL, \$10,000,000.
FIRE and LIFE
LIFE DEPARTMENT.
THE principles on which this Company is
founded contain all the elements required
to develop the benefits of Life Assurance,
and afford every facility to intending assurers.
One of the advantages secured by those who
insure their lives with this Company, is that
the outside expenditure for Management is
absolutely restricted by the Deed of Settlement
to Ten per cent of the Net Profit Income.
This most important restriction
shows that the interests of participating policy
holders are closely watched and carefully
protected to this point, as the proportion
of premiums expended for Management
Must Largely Influence Profits
and Bonuses.
The next division of profits taken place in
1885, and all those who wish to participate in
the profits should insure at once.

IN CHANCERY.

CARR vs. RICHARDSON.

The Richardson Gold Mine Case—
Value of Lands in Madoc—
Their Richness and Quality—
Affidavits in Support—What
the Mine Cost, and what it is
Worth.

(From the Daily Telegraph.)
The case of Carr vs. Richardson came
up on Wednesday before Vice-Chancellor
Mowat, on the motion of the defendants,
who at present are in occupation and pos-
session of the lot, to the Township of
Madoc, now known as the "Richardson
Gold Mine," for an order to dissolve the
charge and set aside the order of the
Chancery, made on the 29th of April,
1887, in the case of Carr vs. Richardson,
restraining the defendants, Leonard and
Handie, from removing mineral from the
mine, and on motion of plaintiff to col-
limate injunction restraining defendants from
working the mine pending litigation.

For the plaintiffs, S. H. Richards, J. C. Co.
Mr. Hopkins and Mr. Dickson, J. D. de-
fendants, A. Crooks, Q. C. E. Blake, Q. C.
and Mr. Holden.

The richness and auriferous qualities of
the Richardson mine have been long spo-
ken of, and many persons have been under
the impression that the favourable reports
which have been circulated of the gold-
bearing nature of the soil in that vicinity
were untrue and merely put forth for pur-
pose of speculation by those in possession
of the land, but the facts which have be-
fore the court on Wednesday clearly
demonstrate that we have a gold region in
our midst, which, if it does not surpass,
promises to equal the gold fields of Aus-
tralia or California.

THE RICHMOND MINE, situated on the
east half of lot No. 18, in the 6th con-
cession of the township of Madoc, and on
the 3rd of November last year was purchas-
ed by the plaintiffs in the present suit for
the sum of twenty thousand dollars, to be
paid by them before the tenth of the follow-
ing month. On the day the plaintiff, Carr,
proceeded to the residence of Richardson,
and requested of him to show him his title
to the land, before he paid the amount
agreed upon, and gave the sum of those
hundred dollars to bind the agreement,
which Richardson accepted; but afterwards
returned, observing, "We will be down to-
morrow and get the title right, and I will
hold you for the day." On the following
effect, which led the plaintiffs to believe
that the defendant, Richardson, did not
intend to hold them, the plaintiffs, bound
to the strict terms of the written agreement,
between this time and the twenty-fourth of
December, negotiations were pending be-
tween the solicitors of the respective parties
regarding the title of the land in question,
which it was alleged, was defective, and on
that day, notwithstanding the above agree-
ment, the defendant, Richardson, entered
into written terms with certain parties
named Nicholas, Anstee, and St. Charles,
who are made co-defendants in the suit to
sell to them the same property for the sum
of \$20,000. The plaintiff, Richardson, in-
stituted a suit in Chancery for the specific
performance of the contract, and shortly after
the bill had been filed, Nicholas, Richard-
son and Anstee, disposed of their interest in
the lot to Benjamin Lombard and S. W.
Hardin for the sum of \$20,000. The
amended bill which came before the Chan-
cellor in Kingston, showed that the defend-
ant intended forthwith to open and work
a valuable gold mine upon the land, the
title of which was in dispute, and he
prayed an injunction to restrain them from
doing so. The defendants in their answer
set forth that the plaintiff had broken their
engagement by not fulfilling the original
contract, and on the latter being argued
His Lordship granted the prayer of the
petition. The present application was made
with the object of setting aside that order.

The following affidavit of George Louis
Toussaint Bell on the original motion, which
was read on the present application speaks
of the fact as follows: "I am a resident of
Belleville, in the County of Hastings, and I
was sworn to the following facts: That on the
29th of April, 1887, I went to the
Richardson Gold Mine and found it en-
closed by a fence of cordwood, enclosing about
an acre and a half of ground. That order
the pit or shaft of the mine is built a few
feet deep, about eighteen or twenty feet
square, containing no windows but has two
apertures, one on the east and the other on
the west side, with wooden shutters to close
them up. That he was informed that the
mine but the defendants were allowed to go
inside, and on approaching the building, he
heard sounds proceeding from underneath
the house, like the sound of a pump, and
the hard ground, or amongst the
quartz rock, and other sounds like the
drilling of hard rocks with an iron drill.
He also heard the voices of men, as if pro-
ceeding from the mine, one of whom said,
"Does that vein run much to the east?"
which a reply was given in the affirmative.
That he then went away, and returned in
about an hour, and shortly after heard a
small call out, as if from the top of the shaft.
Now hold up! hold away! and in a few

seconds heard an explosion, as if from a blast of the rock. He retired, and on returning in five minutes afterwards, heard a man say that "if the mine was as rich as the stuff taken out of it, it was one of the richest mines in the world."

The following passages are contained in the different affidavits read regarding the

VALUE OF THE MINE

and its richness. Mr. James Glass states, "That it has been reported to me as having come from a party directly interested with and connected with the defendants. Lombard and Hardin, in the matter of the said mine; that the blasting, mining, and excavations which have been made and done in the said mine during the last few days have disclosed the fact, that the said mine is of unprecedented richness, and that a vein of almost solid gold was laid bare there."

Richard Taylor states, "That I heard the defendant Lombard say quite openly that they had taken out of the said mine, and had on the floor of the building, entering the said mine about five tons of ore, and if they had a little more time, they could have taken away enough to pay for the said mine."

The following important passage is contained in the affidavit of Lanchin McQuarrie:

"That I am a practical miner and have washed in gold mines in California for several years, and that I am fully competent to judge of the value and richness of a gold mine. That I did on Wednesday, the first of May inst., gain access to the interior, and did examine the Richardson gold mine, in company with two of the defendants, Hardin and Anstee, and found that the ore in said mine was of unrivalled richness, and am of the impression that I could, with two men, extract from said mine at least \$2,000 worth of gold per day for the next seven days. That I washed out of about three parts of decomposed quartz and sand, which I took out of a pan nearly filled with the same material, some \$12 to \$14 dollars' worth of gold, besides three pieces of quartz largely impregnated with gold."

The defendants put in a number of affidavits admitting the richness of the mine, but asserting that the statements contained in the affidavits of the plaintiffs witnesses were overdrawn, amongst others the affidavit sworn to by the defendant, Benjamin Lombard, shows what actually was

to John Richardson and D. N. Powell. It contains the following passage:

"That on the 19th day of January of the present year the defendant, Richardson, entered into a written agreement to dispose of the lands and appurtenances therein mentioned, to the deponent, and defendant Hardin (being the ground known as the Richardson mine) for the sum of \$30,000, and that on the same day, \$1,000, Canada money, was paid to him, and \$1,000 to Powell, on account, and that subsequently, on the 27th day of March, a further sum of \$14,000 was paid, and a mortgage executed to said John Richardson upon the said property for \$5,000, and on the following day a sum of \$11,000 was paid to D. N. Powell, and \$3,000 secured to him by mortgage making in all the sum of \$30,000 fully paid up and secured as agreed upon."

A number of affidavits in relation to the title of the land in question, and other matters, having been read and commented on, defendant's counsel proposed to make an opposition to both injunctions remaining in force until the hearing of the cause, and that of "Powell vs. Carr," which will be tried at Cobourg next month, provided the plaintiff paid into Court to the credit of the cause \$35,000, the purchase money owing to Richardson and Powell.

The court ordered that the plaintiff pay into court \$35,000 in seven days, and in case of default, that both injunctions should be dissolved, and the defendant relieved from them.

Heretofore we have had nothing but the *ipse dixit* of correspondents, and those who have visited Mexico, and reported on its richness, but the extracts we have given above, some of them made by old miners under oath, clearly show that there is an "El Dorado" in Upper Canada which will not be so difficult to discover as that one written by Sir Walter Raleigh, in Guiana, which has never yet been found.

The Accident at Whitty.

VERDICT OF THE CORONER'S JURY.

At the inquest on the body of William Parasett, killed by the German emigrants who were killed by the recent railway accident on Friday, at one o'clock this morning:

"Your jury find on examination of the evidence that William Parasett, Augusta Parasett, Carolina Lundenberg, Frederica Kleiner, Anna Louisa Schlegel came to their deaths by the collision of a special freight train with the merchants' express which was conveying emigrants, at Whitty station on the Grand Trunk railroad, on the morning of the 24th May, 1897; said collision resulting from the neglect of the switchman, Wallace Fraser, to raise the semaphore signal, and from inattention to the rules of the company by their employees generally."

Wallace Fraser has been committed to stand his trial for manslaughter at the next assizes.

Troubles are once more brewing in Spain. In Barcelona, hostile manifestations have been made; and in other parts of the unhappy country armed bands are in the field. The watchword of the insurgents is "Primo and the Republic for ever! Down with the Queen! Down with Narvaez!"

TELEGRAPHIC NEWS!

The English Reform Bill.

HABEAS CORPUS IN IRELAND.

FENIAN SENTENCES COMMUTED.

BY ATLANTIC CABLE.

New York, May 29.—The *Herald's* London special of the 28th says: In the House of Commons at an early hour, and after an exciting debate on the question of borough franchise right, as embodied in Mr. Disraeli's Reform Bill, was settled on the basis of household suffrage. The compound household plan at first proposed, is practically abolished. As the measure now stands, the tenant in a borough town is to pay his tax rate personally instead of voting the landlord, and so secure the right of voting. In the matter of the franchise qualification in counties, it has been voted that the settled occupants of lands or tenements, worth the sum of £15 sterling, shall enjoy the right of voting when duly registered. The government at first proposed that the value of the lands or tenements should be £15 sterling. The Liberals wanted it fixed at £10 sterling. A compromise took place in the House, when £12 sterling was agreed on. After which the House adjourned.

In the House of Lords to-night, the Bill continuing the suspension of the writ of *habeas corpus* in Ireland was passed.

The *Herald's* London special says: Individual deputations with petitions signed by independent citizens are arriving in that city.

Cardinal Paul Cullen had called on the Lord Lieutenant of Ireland, advising that the lives of all the condemned should be spared.

Prayers were offered in all the Catholic Churches of Dublin on Sunday, invoking the Almighty to incline the Royal mind to clemency. A public meeting was called at Birmingham for the same purpose.

A deputation of members of the House of Commons, with the Mayor of Dublin at its head, was to call upon the Queen and present a petition for mercy. The movement has been so influential as to turn the determination of the Derby Government.

In the case of Burke there were fears of Fenian revenge.

Lord Derby tendered a Cabinet recommendation to the Queen, who, after anxious consideration, assented to it. The announcement of the result was received in the Houses of Parliament with loud cheering. Lord Derby stated that the only reason for giving way was the overwhelming testimony of the Irish people that it would be politic not to let the law take its course.

The *Herald's* Dublin special says: The news of Burke's commutation was received with joy by all classes.

The *Herald's* Cork special says: Advice from the country districts reports that the Fenian force attacked the military stationed in Mitchelstown in this county on Thursday, and beat them with bullets and stones. No particulars or relation of facts are given. The Fenian O'Brien, has been sentenced to be hanged on June 29th, though the sentence will be commuted.

The reported disturbances in Mitchelstown are not credited at London.

LONDON, May 29, noon.—Cotton 94; 530; 29½; 111 7/8; 70½; Erie, 40.

QUEENSTOWN, May 29.—Steamship *City of New York*, from New York, May 18th, arrived this morning.

On Friday, 24th inst., at Montreal, a locomotive and tender were precipitated into the Canal. The bridge was open at the time to let a steamer pass, and the engine-driver, owing to a defect in the locomotive, was unable to stop it. The fireman and driver escaped by jumping.

American Despatches.

RACE.

New York, May 29th.—The race between "Dexter," and "Lady Thorne," for \$2,000, was won by "Dexter" in two straight heats; time 2:24, 2:25. "Lady Thorne" was distanced in the second heat.

FIRE IN MEMPHIS—LOSS \$13,000.

MEMPHIS, May 28.—A fire this morning consumed property to the amount of \$13,000.

FIRE IN IDAHO—LOSS \$1,000,000.

SAN FRANCISCO, May 27.—The fire at Idaho city, May 17th, destroyed 443 houses. Loss \$1,000,000.

SIX MEN DROWNED.

Capit. Dinkle and five men were drowned, May 26th, by the capsizing of a boat in Vietnam creek Bay, Oregon.

WRECK.

Rescue services to May 28th, have been rendered.

The whaling bark *David Wood*, of New Bedford, was wrecked on French Frigate Shoals, the 14th of April. Capt. Richmond and a portion of the crew, arrived at Honolulu, after a passage of 450 miles in an open whale boat.

The United States *Lackawanna* immediately sailed for the scene of the wreck, to rescue the remainder of the crew, 17 men who were left behind.

IRON CLAD SOLD.

New York, May 29.—The *Time's* special says, it is understood that the Japanese Commissioners purchased the ex-rebel ironclad *Shenandoah* for \$400,000.

It is reported that George Greely has written to Mr. C. Breckenridge, inviting him to return to this country and take part in reconstruction.

Fenians.

The sensational articles of the New York *Herald* in reference to Fenian invasions are attracting notice in this country as well as in the United States. The New York *Tribune* of Monday says: "Messrs. John O'Mahony, McDermott & Co. deny the statements recently made through some of the city journals, that they have contracted to furnish arms to the Fenian 'organization.' The Buffalo *Courier*, too, says that the reports about Fenian activity in that city are without foundation."

There was a rumor in Toronto on Tuesday to the effect that the British consul at Buffalo had communicated with the military authorities here, informing them that the Fenians were quietly arriving in Buffalo with a view of making an immediate attack upon the Niagara frontier. The report, says the *Leader*, gained some credence amongst a few excitable volunteers, but sober-minded citizens consider it all "bosh." And yet the same paper tells us in the same article, that "The Queen's Own battalion" received orders last evening to hold itself "in readiness to leave for the front, if required, by Thursday. We understand that a similar order was issued to the 'Royals.' This does not look like 'bosh,' yet we can hardly bring ourselves to believe that the Fenians are foolhardy enough to make another attempt. If they do, it is gratifying to know that the country is prepared to receive them warmly."

Editorial Correspondence.

MONTREAL, May 28, 1897.

Montreal is hopeful to-day under the genial influence of the warm sun which shines with new brilliancy, and has not a rival in the heavens, not even a cloud as big as a man's hand to dim its brightness or lessen its warmth. It was despondent two days ago as it has been for weeks past at the prospect. Men shook their heads and looked grave as they looked at the beclouded sky, and contemplated the pouring rain, and contemplated the condition of the half-ploughed fields which were converted into ponds and lakes. It was natural. Montreal, more than any other place in Canada, is dependent for its prosperity upon the products of the soil. It is the great wholesale mart of the country, and its trade increases and diminishes as the harvest turns out good or bad. Last year, the crops in Canada East were seriously affected by the heavy rains, and this spring the continued rains have nearly put a stop to agricultural operations, so that it is not wonderful that Old Sol's bright, unclouded face should make Montreal hopeful, joyous, jubilant. How long this gratifying state of things will continue, of course no one can tell. In ordinary seasons we might conjecture with some degree of safety—this season we cannot tell what an hour may bring forth. But sufficient for the day is the evil thereof.

Just now, the harbor of Montreal presents a lively appearance. I counted this morning, leaving out barges and wood vessels, over sixty vessels, some loading, others being emptied of their valuable cargoes, others just coming to anchor, and others hoisting sail for other lands. The wharves and streets adjacent are filled with barrels, hogsheads, boxes, bales, crates, &c., and laborers and carters have a busy time of it.

By the way, the *Grecian*, which struck in the Lachine Rapids the other day, and grounded on shore, was towed into the canal basin to-day. She was pulled off yesterday through the exertions of Capt. Davidson, Salvage Agent, who obtained two powerful pumps from Kingston. Having controlled the water, a sail was drawn underneath the steamer, which closed the hole so that they were enabled to float her. The damage sustained is not very great, and it is expected she will be ready to sail in a few days.

The Fenian excitement is attracting considerable attention here. In well-informed circles it is not believed they will make an attempt at invasion at present, though it is believed they may before the summer passes away. The *Miner* says that but few Fenians are at St. Albans or Malone, but the latter place there are gathered three thousand men and accoutrements. At St. Albans and vicinity, there is said to be a large quantity of war material secreted.

Some excitement was created here a few days ago by a letter from "A Loyalist" to the Police authorities, detailing the movements of a person who was supposed to be a Fenian spy. Detectives were put on the track, and the "spy" turned out to be a half-witted fellow, who has been taken care of.

The funeral of the late James L. Matheson, Esq., took place this afternoon, and was attended by an immense concourse of people. Mr. Matheson was a man universally respected—a conservative of the old stripe, a leading Orangeman, a leader in all charitable undertakings, a warm friend, and one who will be very much missed in the community.

Jeff Davis is in the city stopping at the house of a private friend, and keeps as much as possible from the public gaze. He was out last evening, visited Nelson's monument, the Camp de Mars, and other points of interest, but was recognized by but very few parties.

I observed on the road from Belleville that the Fall crops are looking splendidly, and what Spring grain was in presented a beautiful appearance.

The track of the Grand Trunk is in very good condition, considering the heavy rains. A considerable portion has been relaid with the new T rail, and when the road is supplied altogether with this rail it will be one of the best tracks in America. The traffic on the road is gradually increasing, and we hear less of the grumblers and croakers who used to make the Grand Trunk the object of their special abuse.

Queen's Birthday at Melrose.

No. 5 Volunteer Infantry Company, 49th Battalion, under the command of Captain Pashley, mustered at the Town Hall, Melrose, Tyndinaga, to the number of about forty, on the 24th instant. Parade was formed at eleven a. m., and after some preliminaries, fired a *feu de joie* at noon, and went through some company drill, marched into the Town Hall and piled arms, where a lunch had been provided. After lunch, parade again was formed, and volley firing, firing from company square, &c., was practiced. They then marched to a large field on Mr. Johnson's farm, where they had some skirmishing, and various other evolutions, occasionally to the alarm of the fair sex, of whom quite a number were on the ground. After firing the last of their "blank," the proceedings of the day were closed by giving three cheers for the Queen, and cheers for the Officers, and all quietly dispersed, well pleased with the day's enjoyment. A not uninteresting feature of the day's proceedings, was a procession of boys carrying a flag, who accompanied the Volunteers to Mr. Johnson's field. Throughout the day the utmost order prevailed, and before sundown all had dispersed for home, and "every man sober." It may be added that the various evolutions which the company performed, were done in a very creditable manner. The *feu de joie* was well done, and the volley firing capital, reflecting much credit upon the men and officers of the company.

FATAL ACCIDENT.—We regret to learn that on Tuesday, May 28th, about 8 o'clock in the morning, a most melancholy accident occurred in the Village of Lonsdale, Tyndinaga, by which Francis Whitman, Esq., an old and respected farmer, who lives but a short distance from the village, lost his life. Deceased left his home on Tuesday morning for the purpose of proceeding to Lime Lake to collect some money which was due to him, and as he was his custom, put a revolver into his breast pocket, having been threatened by several parties with violence. On arriving at Lonsdale he stopped at a blacksmith's shop to get a horse shod, and in jumping out of the carriage the pistol went off, whether from striking on the tire of the wheel, or the concussion occasioned by the jumping, is not known. The ball entered the left side, and death ensued five hours after. Mr. Whitman has been a resident in Tyndinaga for over 30 years, and was generally respected as an honest and upright man. He was 66 years of age.

Enamelled in Mr. Bell's fourth letter on Mineralogy, the following sentence occurs: "It is remembered that one part is few thousand is equal to the other, it should read ten thousand."

MUSICAL.—The Moire Band will play on the Court House Hill on Thursday evening, May 28th, weather permitting. The band will play once or twice every week during the summer.

THE RICHMOND MINE.—We give to-day a fuller report of the application in Chancery to set aside the injunctions. Though it is some days since argument, there are some facts in this report which may be of interest to our readers.

COURT OF REVISION.—A special meeting of the Court of Revision was held last evening, for finally determining matters of appeal from the present year's assessment. Pres. J. C. Levesconte and R. H. Jones. A large number of applicants were present, and their evidence was received and recorded, and the statements of the Assessors were also taken, when the Court adjourned until this evening at half-past seven o'clock, for the purpose of closing the Rolls for the year. Parties who have not presented last evening, may therefore still have an opportunity of being heard.

CHILD MURDER.—From the investigation which took place before John P. McDonald, Esq., Coroner, yesterday afternoon, it is evident that the infant, which was found floating in the river caught in the boom at the lower end of the town, had been murdered. The body was found to be that of a male child, and must have been in the water for some time, for it was partly decomposed. A cord was tied tight round the neck with a knot under the chin, and then brought up in front of the ears and tied again on the top of the head, so tightly that it had left marks. This must have been done to strangle the child before throwing it into the water, or to prevent its crying and making a noise, when thrown in. That it is an infanticide case of infanticide there can be no doubt, and we hope every exertion will be made by the authorities to discover the perpetrator of so foul a deed. The jury returned the following verdict: "That from appearances the child was born alive, and we the said Jurors are of opinion from the fact of a cord having been tied round the child's neck, that the said child was strangled, and then thrown into the river, but by whom it is not known to the jury."

FROM BRIDGEWATER.

From our own Correspondent.

Queen's Birthday.—Fine weather.—Disappointment.—Prospecting, etc.—Copper.—Kaiser.—Barry Mine.—The Fenians.—The Fenian Mining Company.—Hon. Sidney Smith.—Young Man Drowned.—The gigantic hang-bug.

BRIDGEWATER, May 28th. Yesterday being the anniversary of the birth of Her Most Gracious Majesty, it was observed here with all honors, of course we do not attempt to place our demonstrations beside the pageant which was announced to take place in your town, bands, we had none, tin or brass, cannons were none, but the loyalty of the villagers found substitutes in the shape of a half hundred weight anvil, the cavities of which were charged with powder and exploded to the intense delight of all, juveniles in particular, till the half hundred weight burst from an overcharge, administered by an extra enthusiastic individual, which caused remarks to be passed which were anything but complimentary to his gunnery. During the day jumping in sacks, climbing poles, propelling wheelbarrows blind-folded, and other sports were carried on with great gusto. The entertainment lasted till a late hour; the day was very fine, in fact a regular "Queen's day," with just a sufficient quantity of dark clouds passing occasionally overhead to enhance the value of fine weather. This morning a fog, equally bright and promising, so summer-like was it, that many were deluded into wearing straw hats, and miners were collecting their tools to commence work. But alas! the truth of the old adage, "that man proposes, God disposes," was fully verified by an unexpected rain fall, which has not ceased yet. Of course while such weather continues, it is impossible to work either at mining or farming; but nothing daunted, the miners, if they cannot continue the work they have commenced, go about seeking fresh sites and have been from all accounts, very successful so far as shows of gold are concerned.

Some very beautiful specimens of copper have been exhibited here from Mr. Carless' assays from Mr. Lezard's, both at Flinton, also from Mr. Miller's, who's place is on the Perry Road. It is the general opinion "of those who know," that the Township of Kalendar, in which Flinton is situated, is very rich in copper, and will also be a great mining country. It is reported that Mr. A. Ross, living on Lot 14 in the last concession has found gold.

I was shown a very fine sample of yellow ochre, taken from the Barry mine; and was washed from it and there are large quantities of it there. Gold has also been found in a large rock at the back of the store belonging to the Hon. Bill Flint—I was shown a small piece which had been thoroughly tested with nitric acid, and a beautiful specimen it was pronounced to be by all who saw it, it was found in yellow ochre, similar to that found in the Barry mine, owing to its proximity to the same and other buildings, being in fact, in the very centre of the village, they have only been using a pick, what drilling and blasting would do of course cannot be said, though judging from appearances, if the work was carried on into the interior of the rock instead of

as now merely working along the surface, return for the labor and outlay.

It has been said that gold has been found by the Mechanics' Mining Company, but it appears that there was some doubt about the sample tested having come from there; the secretary has sent for a further supply of specimens for testing purposes.

Among the last visitors to this part of the country in search of mines, was the Hon. Sidney Smith, who has been looking about him while here, and it is said that in one place he washed out gold; but only took this from him hearsay, but in my presence he stated that gold was to be found here in paying quantities, and seemed confident that many places he had examined would pay well to work, he having said such indications had never been known to fail.

What we want now to decide this all important question is, fine weather, settled weather does not express it, for it is settled now; settled wet.

A fatal accident occurred this week about six miles up the river, to a young man named Charles Kenney. He was following the men who were driving the logs down the river, and it is supposed he attempted to cross the water to where the men were at dinner on a log and so got drowned.

I cannot close without saying a word about those newspapers that have been denouncing the whole of the gold region as a gigantic humbug. To those who have found gold, this is highly amusing, in fact cheerful I may say, in these times of dull weather, it has caused many a laugh, and one individual said it reminded him very much of "The fox and the grapes."

Business Notice.

PATENT TUB UPSTAIRS AND MAGIC AUGER HANDLE.—Mr. P. J. Ayers, of Peterboro, is now at the Anglo-American Hotel, Belleville, where he will exhibit to mechanics and others these useful inventions, which have been pronounced by mechanics as the best and most complete ever invented. His stay will be but a few days, during which time he will dispose of rights of territory to suit purchasers.

2096, 2097, 2098, 2099, 2100, 2101, 2102, 2103, 2104, 2105, 2106, 2107, 2108, 2109, 2110, 2111, 2112, 2113, 2114, 2115, 2116, 2117, 2118, 2119, 2120, 2121, 2122, 2123, 2124, 2125, 2126, 2127, 2128, 2129, 2130, 2131, 2132, 2133, 2134, 2135, 2136, 2137, 2138, 2139, 2140, 2141, 2142, 2143, 2144, 2145, 2146, 2147, 2148, 2149, 2150, 2151, 2152, 2153, 2154, 2155, 2156, 2157, 2158, 2159, 2160, 2161, 2162, 2163, 2164, 2165, 2166, 2167, 2168, 2169, 2170, 2171, 2172, 2173, 2174, 2175, 2176, 2177, 2178, 2179, 2180, 2181, 2182, 2183, 2184, 2185, 2186, 2187, 2188, 2189, 2190, 2191, 2192, 2193, 2194, 2195, 2196, 2197, 2198, 2199, 2200, 2201, 2202, 2203, 2204, 2205, 2206, 2207, 2208, 2209, 2210, 2211, 2212, 2213, 2214, 2215, 2216, 2217, 2218, 2219, 2220, 2221, 2222, 2223, 2224, 2225, 2226, 2227, 2228, 2229, 2230, 2231, 2232, 2233, 2234, 2235, 2236, 2237, 2238, 2239, 2240, 2241, 2242, 2243, 2244, 2245, 2246, 2247, 2248, 2249, 2250, 2251, 2252, 2253, 2254, 2255, 2256, 2257, 2258, 2259, 2260, 2261, 2262, 2263, 2264, 2265, 2266, 2267, 2268, 2269, 2270, 2271, 2272, 2273, 2274, 2275, 2276, 2277, 2278, 2279, 2280, 2281, 2282, 2283, 2284, 2285, 2286, 2287, 2288, 2289, 2290, 2291, 2292, 2293, 2294, 2295, 2296, 2297, 2298, 2299, 2300, 2301, 2302, 2303, 2304, 2305, 2306, 2307, 2308, 2309, 2310, 2311, 2312, 2313, 2314, 2315, 2316, 2317, 2318, 2319, 2320, 2321, 2322, 2323, 2324, 2325, 2326, 2327, 2328, 2329, 2330, 2331, 2332, 2333, 2334, 2335, 2336, 2337, 2338, 2339, 2340, 2341, 2342, 2343, 2344, 2345, 2346, 2347, 2348, 2349, 2350, 2351, 2352, 2353, 2354, 2355, 2356, 2357, 2358, 2359, 2360, 2361, 2362, 2363, 2364, 2365, 2366, 2367, 2368, 2369, 2370, 2371, 2372, 2373, 2374, 2375, 2376, 2377, 2378, 2379, 2380, 2381, 2382, 2383, 2384, 2385, 2386, 2387, 2388, 2389, 2390, 2391, 2392, 2393, 2394, 2395, 2396, 2397, 2398, 2399, 2400, 2401, 2402, 2403, 2404, 2405, 2406, 2407, 2408, 2409, 2410, 2411, 2412, 2413, 2414, 2415, 2416, 2417, 2418, 2419, 2420, 2421, 2422, 2423, 2424, 2425, 2426, 2427, 2428, 2429, 2430, 2431, 2432, 2433, 2434, 2435, 2436, 2437, 2438, 2439, 2440, 2441, 2442, 2443, 2444, 2445, 2446, 2447, 2448, 2449, 2450, 2451, 2452, 2453, 2454, 2455, 2456, 2457, 2458, 2459, 2460, 2461, 2462, 2463, 2464, 2465, 2466, 2467, 2468, 2469, 2470, 2471, 2472, 2473, 2474, 2475, 2476, 2477, 2478, 2479, 2480, 2481, 2482, 2483, 2484, 2485, 2486, 2487, 2488, 2489, 2490, 2491, 2492, 2493, 2494, 2495, 2496, 2497, 2498, 2499, 2500, 2501, 2502, 2503, 2504, 2505, 2506, 2507, 2508, 2509, 2510, 2511, 2512, 2513, 2514, 2515, 2516, 2517, 2518, 2519, 2520, 2521, 2522, 2523, 2524, 2525, 2526, 2527, 2528, 2529, 2530, 2531, 2532, 2533, 2534, 2535, 2536, 2537, 2538, 2539, 2540, 2541, 2542, 2543, 2544, 2545, 2546, 2547, 2548, 2549, 2550, 2551, 2552, 2553, 2554, 2555, 2556, 2557, 2558, 2559, 2560, 2561, 2562, 2563, 2564, 2565, 2566, 2567, 2568, 2569, 2570, 2571, 2572, 2573, 2574, 2575, 2576, 2577, 2578, 2579, 2580, 2581, 2582, 2583, 2584, 2585, 2586, 2587, 2588, 2589, 2590, 2591, 2592, 2593, 2594, 2595, 2596, 2597, 2598, 2599, 2600, 2601, 2602, 2603, 2604, 2605, 2606, 2607, 2608, 2609, 2610, 2611, 2612, 2613, 2614, 2615, 2616, 2617, 2618, 2619, 2620, 2621, 2622, 2623, REMOVAL.

Belleville Temple of Fashion.

T. WALTERS.

Having removed
 his place of business to the
 Victoria Buildings,
 begs respectfully to re-
 turn thanks for the lib-
 eral patronage received
 during the past 7 years,
 and now having remov-
 ed to a more commodi-
 ous store, would beg
 to call attention to a
 much larger and better stock than heretofore.
 You will find a good assortment of
TWEEDS, CASSIMERES,
BROADCLOTHS,
Doeskins, Vestings, &c.
 Gentlemen's Furnishing Goods.
READY-MADE CLOTHING
 constantly on hand.
 Ordered promptly filled.
 Please call before purchasing elsewhere.
 You will find
 My stock is good, my price is just,
 I deal quite fair, but try to trust.
 Wherever I may call with mine,
 Their humble servant I will be.
 Belleville, May 1, 1897. IDtf

 Belleville, May 4, 1897. IDtf

American Invoices—Discounts.

Quebec, 6th March, 1898.
 It is directed by the Hon. The Finance
 Minister, that hereafter Weekly Notices
 be published and furnished to Collectors of
 Customs, as to the rate of discount to be al-
 lowed on American Invoices, which is to be in
 accordance with the price of gold, as regu-
 lated by Exchange, at a rate equal thereto.
 Such notices to appear every Saturday in the
 Canada Gazette.
 R. S. M. BOUTCHER.

FINANCE DEPARTMENT, CUSTOMS.

OTTAWA, 27th May, 1897.
 IN accordance with the above Order, Notice
 is hereby given that the authorized dis-
 count is declared to be the rate 20 per cent,
 which percentage of deduction is to be con-
 tinued until next Weekly Notice, and to ap-
 ply to all purchases made in the United States
 during that week.
THOMAS WORTHINGTON,
 3D14tf Assistant Commissioner of Customs.

Crown Lands Department.

FISHERIES BRANCH.

OTTAWA, 26th April, 1897.

The following Fishery Regulation has been
 approved and adopted by His Ex-
 cellency the Administrator of the Government
 in Council, on the 25th instant, under the
 Statute 29th Vic. Chap. 11, (Fisheries Act):—
 "Fishing by means of nets, for the pur-
 poses of trade and commerce, except under
 license of the Minister of the Department of
 Crown Lands, is prohibited in the waters
 of Upper Canada."
 Certified
A. CAMPBELL,
 Commissioner of Crown Lands.

BROWN'S FOUNDRY

AND
MACHINE SHOP,
 FRONT STREET, BELLEVILLE.

G. & J. BROWN,

Founders and Machinists,
 they are still manufacturing

All kinds of Machinery,
 in connection with

FLLOUR, CRIST, SAW AND OTHER
 MILL FURNISHINGS, &c. &c.

Portable and Stationary Steam Engines of
 any capacity. Engines and Wood Lathes,
 Iron and Wood Patterns, Shingle Machines
 of various patterns, &c. Agricultural Im-
 plements of the most improved style and
 make. Threshing Horse Powers and Thresh-
 ing Machines, with or without cleavers,
 are unsurpassed.

Brown's Ploughs are admitted to be of
 the most improved style and manufacture.
 They consist of some fifty different pat-
 terns, and their celebrated STEEL PLOUGH
 is the best in the country.

Amongst their other manufactures may be
 enumerated: Harrows, Mowers, Reapers,
 Harrows, Chod Crushers, Corn and Drill
 Ploughs, Seed Sowers, Rollers, Straw Cut-
 ters and Stump Machines, and Improved
 Grain Crushers and Mills.

In the Store Department

They are unequalled. They continue to
 manufacture Box, Parlor and Cooking Stoves
 of various descriptions, and the imported
 "Northern Farmer" Cooking Stove is with-
 out a rival for farmer's use.

Potash Kettles, and all kinds of up-
 per and lower sizes of the best material. Cap-
 able of doing all the work of the Province.

Gold Crushers

Of the newest style and patterns made to
 order. Their facilities for doing all the work of the Province
 such as to enable them to successfully com-
 pete with any similar establishment in the
 Province.

Every description of patterns made to
 order. Repairing done on the shortest
 notice. All kinds of Brass Castings made
 to order.
 Belleville, May 1, 1897. IDtf

The Daily Intelligencer.

Will appear about 6 o'clock every after-
 noon (Sundays excepted), and will be
 furnished by Carriers at the rate of 25 cts a year
 if paid in advance, 30 cts a year if paid by
 carriers. Single copies 5 cts. 50 for 25 cts; 100
 for 50 cts.

It will contain the latest telegraphic news up
 to the hour of going to press, and all the
 news of the Province and the New York and Montreal
 Markets.

Arrangements have been made with RELIABLE
 CORRESPONDENTS in Madag, Bridgewater, Mar-
 hams and other points, who will furnish us with
 early and full information of all the news of the
 Regions, and of matters of general interest.

Special attention will be paid to reporting the
 proceedings of Courts of Law, Corporations,
 Public Meetings, &c., and in short, no matter
 how small or unimportant, will be spared to make the
 DAILY INTELLIGENCER worthy of public patronage.

A large circulation has already been obtained
 for it, not only in Belleville, but in the various
 villages in the County of Hastings, and in other
 villages a few hours after its issue from the
 press.

As thousands of Agents will flock to the
 gold regions this Spring and Summer, it is ex-
 pected that several hundred copies will be sold
 daily in addition to those sent to regular sub-
 scribers. It will therefore present an unequalled
 advantage for general advertising.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has
 been arranged as follows:

Cards, not exceeding six lines, 6
 months, \$1.00
 Half Square, 6 months, \$2.00
 One Square, 6 months, \$3.00
 Two Squares, 6 months, \$4.00
 Four Squares, 6 months, \$6.00
 Notices of Births, 50
 Do of Marriages, 50
 Do of Deaths, 50
 Business Notices—All matter under this
 heading, headed or solid, 10 cents per line,
 measured by a scale of solid minion.

Advertisers contracting for any space less
 than half a square, will have the privilege of
 changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents
 per line for first insertion, and 5 cents for each
 additional insertion.

The Weekly Intelligencer

Published every Friday Morning at 25 cts per
 annum if called for at the Office, or sent by
 mail, and 25 cts if delivered by the Carrier, pay-
 able in all cases in advance. When sent by
 mail, the close of the year, 50 cents will be
 added to each year's subscription. No paper
 discontinued until arrears are paid up, except
 at the option of the Publisher.

Within the past three months the circulation
 has rapidly increased, and the number now
 on our Subscription Books is over 1,400.
 Will add a large and general circulation
 throughout this and adjacent Counties, the
 WEEKLY INTELLIGENCER presents unsurpassed
 advantages to all who desire to advertise.

RATES OF ADVERTISING.

Six lines and under, first insertion, 10 cts
 Each subsequent insertion, 7 cts
 Above six lines (first insertion), 10 cts
 Each subsequent insertion per line, 7 cts
 "Business Notices"—10 cents per line
 each insertion, measured as solid minion.

A liberal discount will be made on adver-
 tisements for insertion on the Thursday to in-
 sure their appearance.

All advertisements without written directions
 inserted until forbid, and charged accordingly.

The Intelligencer Job Office

is supplied with Power Presses, Hand and
 letter press, and is prepared to execute all
 and every description of plain and fancy
 printing, at prices as low as any other es-
 tablishment in the County.

The DAILY and WEEKLY INTELLIGENCERS
 are had at the Book Stores in Belleville, and at
 Wilson's Drug Store, Madag, and at E. D. Dineen's.
 All orders by mail promptly attended to.

QUEEN
INSURANCE COMPANY
CAPITAL, - - - \$10,000,000.
FIRE and LIFE.
LIFE DEPARTMENT.
THE principles on which this Company is founded contain all the elements required to develop the benefits of Life Assurance, and afford every facility to intending assured. One of the advantages secured by those who insure their lives with this Company is that the outside expenditure for Management is absolutely restricted by the Deed of Settlement to Ten per Cent of the Net Life Income. This most important restriction shows that the interests of participating policy holders are closely watched and, carefully attended to by the Company. Attention is especially called to this point, as the proportion of premiums expended for Management Must Largely Influence Profits and Bonuses.
The next division of profits takes place in 1868, and all those who wish to participate in the profits should insure at once.
DE. CANNIFF, Medical Referee. May 1867. 1Dm-WH.

EXCELSIOR!
OWING to the press of business in Photography, and the great demand of their many friends and customers for the PORCELAIN PICTURE, the subscribers have engaged a Foreign Artist, especially for this branch of photography. Feeling assured that he can excel anything of the kind, they are sure to give them something far surpassing anything they have yet seen, to give them a call.
FORREST & LOZO.
P. S.—Rooms opposite the Anglo-American House, Front Street, Belleville. 1Dm-WH.

European Summary.

An enterprising English firm offers to pay the Colombian national debt of \$20,000,000 for a ninety-nine years lease of the Panama railroad, at \$500,000 a year.

King Victor Emmanuel has set an example of economy in the present financial crisis in Italy by renouncing the sum of \$3,800,000 of his civil list.

Great distress is experienced in the mining district of Cornwall. At least 3,000 miners are out of employment, owing to the complete or partial stoppage of a large number of the works.

Major Corcoran, one of the "Six Hundred" of Balaklava, died a few days ago, from the effects of an accident in the hunting field. He was in his thirty-fifth year.

The Russian Government has ordered all the Catholic churches of Poland to provide special altars for the service of the "Green church." The Bishop of Warsaw protested in vain against the ordinance.

A letter to *Le Moniteur* states that a magnificent collection was opened at Pekin on New Year's day, and that a solemn service was performed in presence of the diplomatic corps and the Chinese authorities.

News from Moscow to the 31st of March, is to the effect that a sanguinary struggle had just taken place between the troops of the Emperor Theodore and the rebels of the interior, who had advanced to the centre of the province of Tigris.

The principal chiefs of the insurrection were killed or taken prisoners by the imperialists, who remained masters of the field.

The British Consul at Jerusalem reports that the population of that city in 1866 was 18,000, of whom 5,000 were Mohammedans, 9,000 Jews, and the remainder Christians of various denominations. Two lines of telegraph connect Jerusalem with Europe. The chief native industry is the manufacture of soap, and what is called Jerusalem ware, consisting of chaplets, crucifixes, beads, crosses, and the like.

A writing machine has been invented. In appearance, it is like a miniature piano, with alphabets engraved on the keys. It can write 150 to 200 letters per minute. The paper is placed immediately under an alphabet, which is arranged in a circle, and when the operator strikes one of the keys, a motion is communicated to the metal which holds the type, which descends with sufficient force upon the paper to produce an impression, through the agency of an inked ribbon.

The Paris correspondent of the *Times*, writing under date of the 7th inst., says: "The commemorative service of the death of the Emperor Napoleon I., was celebrated on Sunday, in the chapel of the Tuilleries, before the Emperor, the Empress, the Prince Napoleon, the Princess Mathilde, Princess Lucien Murat, Prince Lucien Napoleon Bonaparte, and Princes Joachim and Archibald Murat. There were also present the Ministers of the Empire, the President and of the Senate, the Grand Officers of the Crown, the Commander-in-Chief of the Imperial Guard, the Emperor's Aide-de-Camp on service and Lady of Honor of the Empress, the officers and Ladies of the Household of their Majesties and of the Prince and Princesses of the Imperial family, with the wives of the Grand Officers of the Crown."

The commemorative service of the death of Napoleon I., was also celebrated yesterday in the Church of the Invalides, by the presence of the Governor and his staff, while several of the old servants of the First Empire and some of the testamentary legacies of the Great Captain occupied reserved places. In addition to a number of Senators and members of the Council of State and Legislative body, were to be seen the Princesses of the family of the Prince de Camille, with their husbands and children; Baron Larrey, son of the great surgeon; and Colonel Langlois, the painter of the panorama illustrating several feats of the French army. After the absolution the old soldiers filed before the tomb which contains the Emperor's remains.

"I stand," said a Fenian orator, "on the broad platform of the principles of 1848, and painted Henry and I. I stand on nothing of the kind, interrupted a little shoemaker in the crowd. 'You stand in my boots that you never paid for, and I want the money.'"

The editor of the *Cincinnati Ohio Union*, on retiring to the purpose of seeing an asylum in the State Charities Hospital, stated that during thirty-four years of continual editorial service, he wrote eight thousand columns, and all for virtuals and clothes.

"Does the court understand you to say, Mr. Jones, that you saw the editor of the *Aurifer of Freedom intoxicated*?" "Not at all sir. I merely said that I had seen him frequently harped in his mind that he would undertake to cut out a copy with the snuffers—that's all."

The War of 1812-14.

NUMBER 3.

(From the Volunteer Review.)

The retreat of Hull may be said to have virtually terminated the campaign in the West so far as offensive operations were concerned; but it was not the action of a soldier who knew the full value of striking such an effectual blow as would prevent the possibility of a repetition of a similar movement on his part.

Having protracted the Legislature at Little York on the 6th of August, Brock left that town and embarked at Long Point, on Lake Erie, for Amherstburg, accompanied by 300 Militia and a few regulars. After a perilous voyage of four days, he landed at midnight on 13th August, without losing a man of his little force. The whole available troops assembled amounted to 300 regulars, 400 Militia, and 400 Indians. On the 15th he summoned Hull to surrender, which after two hours' hesitation, was declined, and that night Tecumseh crossed the river with his warriors and invested Detroit. Before they light on the 16th, Brock crossed the river at the head of 730 men, landing four miles below the fort. The Americans, panic-stricken, abandoned a strong outwork, and the British boldly advanced to the assault. But the American general was not prepared to allow matters to reach any such climax. A flag was despatched to the British, General, and a capitulation was finally entered into, by which the whole Michigan territory, Port Detroit, 33 pieces of cannon, a ship of war, stores, military chest, one stand of colors, and 2,500 were surrendered to the British. This placed the issues of the war in Brock's hands; and his correspondence testifies, he was determined to follow up this success by most energetic measures, calculated to sweep the frontier from Buffalo to Fort Niagara of everything in the shape of an American soldier to be found there, and to finish up by the reduction of Sackett's Harbor, a standing menace to Central Canada, directly on the line of his communications with Montreal by the St. Lawrence.

It is painful to record the diplomatic folly which neutralized this grand scheme, and virtually sacrificed, in a useless skirmish, the life of this great and gallant soldier. The Orders in Council, the ostensible cause of the war, had been revoked, and Sir George Prevost, acting, it is said, by instructions from home, and not that most mischievous of all measures under the circumstances, an armistice, to General Dearborn. The latter, finding it impossible to collect supplies of men and material capable of striking a decisive blow, and knowing Hull's position, he proposed. Like all other acts of this description, it gave them just the time wanted to collect men and transport stores, remove from under the guns of Fort Wellington nine fine vessels, which subsequently gave the British command of Lake Ontario, and enabled them to destroy Little York, and finally led to the death of the gallant officer whose professional ability enabled him to foresee the disastrous consequences of this inane policy. The interval between the capture of Detroit and the actual close of the campaign is filled with deeds of individual heroism and prowess. While the couriers and courtesans of Louis XV. might court their disgrace and the honors of the world by the assertion that Canada was only a few acres of snow, for which it was not worth fighting, the parties most interested were of a contrary opinion.

If the pertinacity with which Canada is defended is any proof of its value, then Canada must be the most fortunate country in the world. Frenchmen, English, no matter under what standard—the gay lilies and “drapauds,” or the old red cross—the defenders of Canada have fought for their “Lava” and “Penates” with a determination which merits the admiration of all true soldiers. Nor in this instance did they either flinch from the contest or seek to avert its consequences by any submission; in fact, the ground covered by the American army, and at all times marked the terminus of their conquests in Canada.

Many actions, of greater or less note, diversified this contest, but in every one of them the individuality of the Canadian Militia soldiers shone pre-eminent.

On the 13th of October, 1813, the Americans, under Major-General Van Rensselaer, crossed the Niagara river, and effected a landing a little above Queenstown before daybreak. They succeeded in capturing a single gun battery, from which they dislodged the light company of the 49th Regiment. The whole force by which they were opposed consisted of two companies of the 49th Regiment and 200 of the York Militia, against 1,000 American soldiers. Manfully the odds were accepted, and a conflict began which ended in the total and unconditional surrender of the American troops at a late period of the day. In the meantime, General Brock, aroused by the firing, hastened from Fort George to the scene of action, and in assisting to repel the first attack, met a soldier's death with the heroism and fortitude which so eminently marked his career.

Gen. Dearborn had been concentrating troops at Plattsburg, on Lake Champlain, and with 10,000 men menaced Montreal. He attacked a picket of Canadian Militia and a few Indians, under the command of Col. McKay, at Lacolle, but was repulsed with such aggravated disgrace and loss that he went into winter quarters. Meanwhile, the astute Secretary of War, desirous to retrieve his losses on the Niagara front, and to prevent the achievement that had been effected, and therefore appointed a General Smythe to the command of the forces there, with whom Gen. Sheaffe concluded one of those armistices which distinguish this war. This arrangement terminated on the 20th November, and the Yankee general was obliged to prepare 2,500 men for an invasion of Canada. This affair

came off on the 27th of November, between Port Erie and Chippewa and was signally defeated by a third of the numerical force employed. General Smythe, whose principal fear appeared to have been the maintenance of a bulwark, went into winter quarters, and finally was obliged to make a speedy personal retreat to the South to avoid the fate and dangers from his own troops. Thus ended the first campaign; signally favorable to Canadian prowess, dimmed by diplomatic stupidity, and suffering fearful loss by the death of General Brock. The mistakes made were in not following out Brock's design in the first place, and secondly, because he would have annihilated Van Rensselaer's army, and prevented the possibility of reassembling a force of any magnitude in that neighborhood.

In a review of this description, it would be impossible to detail the events of the various naval encounters, which, while they tested the courage and skill of the combatants, exerted no permanent influence on the events of the war, simply because they were isolated, and undertaken without any other object than the mere weakening of the enemy's forces. On the lakes, the American Commander-in-Chief, General Dearborn, and the British Commander-in-Chief, General Brock, were the results of the first armistice concluded with General Dearborn; while Lake Erie, led to the capture of English and unenterprising officers, was witnessing the construction of a flotilla which finally gave its supremacy to the American flag.

American Despatches.

EMIGRANTS.

New York, May 29th.—828 Emigrants have arrived here during the present year.

MEXICO.

The Imperial Consul, notwithstanding the news from Mexico, was investing heavily in war material, to be shipped to Vera Cruz. The brig Orizaba had, it was thought, already taken a large quantity of war material to that port, and a schooner had sailed early with 300 men, presumed to be recruits for the Imperial army. Men are recruited daily and agents receive two dollars for each recruit. Some secrecy is maintained however, in the manner of shipping them; in other respects the branch of neutrality is open and avowed.

A small war steamer called at Mosquito, in the Imperial service, and sought refuge in Havana from the Liberal cruisers on the coast of Yucatan.

Several Imperial gun boats had been transferred to the Liberal navy.

All the small vessels of the Imperial navy had been transferred to the Liberal service, and the Commander of one of the sloops was immediately ordered to be shot.

CUBA.

The new system of taxation was producing general discontent throughout Cuba. Considerable trouble in connection therewith had

occurred at Santiago, but of what nature is not known.

The small port was increasing and there were many cases of venereal disease.

HAYTI.

Advices from Hayti state that Salnave was at the head of the revolutionary army, making use of despotic powers. The provisional government was dissolved on the 2nd, and Salnave declared himself protector, in the name of Solange, who was axiomatically expected to take the reins of the Government on the invitation of the Protector.

SURRATT.

New York, May 30.—The Herald's special says: A remark made in open Court yesterday by Mr. Merrick one of the Counsels for Surra, that his client would never be tried, is eliciting considerable comment. It is believed to be based on an amendment of the indictment for murder, with a view of having the next Grand Jury bring in a bill against Surra for treason. If this is done it will again postpone the trial.

New York, May 30.—The steamship Virginia, from Liverpool, has arrived. News anticipated.

FROM TORONTO.

Jeff. Davis.—Bishop Lynch's illness.—Hamilton Races.—Robbery.

TORONTO, May 30. Jefferson Davis arrived here to-day by steamer Champion and received an ovation, seven thousand people being on the wharf to receive him. Cheering and hand-shaking was the order of the day; he made no speech. It is not known how long he will remain here.

A despatch from Buffalo says, Bishop Lynch is still dangerously ill, and has been removed to the Hospital of the Sisters of Charity.

Arrangements are made for races in Hamilton on the first of June. A number of fine horses in this city are being prepared to take part, some of which belong to the Hussars.

Two young girls named McGuire at Mimico, robbed their father and brothers, who are farmers, of \$1,000 in gold, and \$50 paper money, and fled to the States.

FROM MONTREAL.

MONTREAL, May 30.

It is reported here and in Ottawa that Mr. McGee will not be a member of the Privy Council.

Sir N. Bell, it is understood, will be the first Lieutenant-General of Quebec.

Maple wood is selling at \$7 per cord, Leligh coal at \$6 per ton.

Editorial Correspondence.

MONTREAL, May 29th, 1867.

The ink had scarcely dried on my letter of yesterday before the sky was overcast with clouds, and in the evening the rain came down, gently at first, but before day-break it came in good old-fashioned style, and to-day it has been raining with only an occasional interval of sunshine. The effect of this continued wet weather must be distressing in the extreme. The fact is, the season has so far advanced that even with good weather from this time forward, it is thought impossible to produce half a crop of spring grain, and matters begin to assume a serious aspect.

In the Townships below Quebec the habitation are said to be in great distress, not being able to procure food from the villages and towns on account of the impassable condition of the roads. A local paper says in some parishes wealthy farmers have been compelled to live on soup made of "perza" and potatoes and bran. All through the country farming operations are as yet totally suspended, and great anxiety exists with respect to the future. The apprehensions of a general scarcity in the crops this year are indeed so well founded, that many persons have already commenced to subscribe for the relief of their poorer neighbors, and a public meeting for this purpose is about to be called in Quebec.

There is scarcely anything new occurring here. Some heavy sales of groceries, teas, and liquors come off this week, and I observe a large number of western men here attending the sales. So far, the prices have been better for the seller than last fall, and higher than generally anticipated.

It is reported that Jeff. Davis goes to Toronto to-night. I give it a mere rumor and indeed anything that you see about his movements is simply rumor, for you can find no one who can give you any positive information about him. Everybody is anxious to see him, but few have the privilege.

There is considerable feeling amongst a certain class here respecting the rumor about Mr. McGee being left out of the Executive Council of the New Dominion, and it is reported that an influential deputation will proceed to Ottawa to insist upon that gentleman having a bureau in the new government.

Col. McDougall arrived from Ottawa on Tuesday, and is stopping at the St. Lawrence Hall.

At the Cabinet Council about to be held at Ottawa, it is supposed that some decision will be come to, respecting the elections. But very little interest has as yet been taken with regard to the elections in this city.

The sensational telegrams of the N. Y. Herald about Fenian movements, are looked upon as trash in well-informed circles, though the feeling is very general that they will give us some trouble before the summer is over.

The Fenian Order.

The order of the Fenian President, which the New York Herald has given to the world, is couched in the bombast usual to such manifestoes. It is simply a question whether the whole thing is not a concoction of the fertile brain of the Herald's newsmen. It is said that secret instructions were sent with this letter, instructing the different centres to deny the authenticity of the circular, in case it should obtain publicity.

HEADQUARTERS OF THE IRISH REPUBLIC, May 23, 1867.

"The army organized and equipped in the interest of Irish liberty throughout the world will soon be again summoned to the field, and its camp fires on the border will rekindle the cause of Irish nationality, and warn its enemies that the arrogance of British power must and shall be stricken down. Fifty thousand armed patriots will march to the defence of our principles, unfurling their sacred symbol, animated by their undying hope that the hour of Irish regeneration is at hand. Should they yet see another fifty thousand will march on the British enemy, Ireland's common foe, and still fight for the auspicious result. Let every devotee of the sunburst of Erin prepare to strike for his country and God."

By order of THE PRESIDENT, Commander-in-Chief.

An Absurd Story.

An absurd rumor that Secretary Seward was "negotiating for the purchase of all British America from the Pole to 49° latitude, and from the Pacific to the Canadian" with Lord Stanley, is actually treated seriously in England, by some of the leading papers. The London Spectator gravely remarks, "If Mr. Seward has made 'say such offer, we trust Lord Stanley will remember that the owner of the American 'Pacific seaboard will always be the most 'formidable enemy India could have.' A moment's reflection would have taught the Spectator that England does not sell her colonies nor her subjects, as a dealer would his surplus stock, to the highest bidder, whatever Russia may have done, or may do in the future. Even if such a proposition were made, it bears absurdity on its face, it would be rejected with scorn and contempt; besides Canadians would have something to say in the matter. It is useless to argue the question, no such offer we feel convinced, was ever made, and if made, we feel confident that Mr. Secretary Seward got such a rebuff as to prevent him from repeating it."

THE CANADIAN CONVENTION.—This book is now ready, as will be seen by the advertisement in to-day's issue. This work will prove of incalculable value to all business men.

DROWNED.—A child named St. Luc Gougeon about 5 years of age, was drowned near Flint's wharf, on Wednesday, May 29th. He was playing on the logs and it was supposed he fell into the water, where it was subsequently found. An inquest was held by Dr. Power, and a verdict of accidental death by drowning returned.

MONTREAL TELEGRAPH COMPANY.—The Montreal Gazette says: "The Montreal Telegraph Company has remodelled its tariff, and the new scale comes into operation on the 1st June. The reductions, which are very general, embrace a range of from ten (10) to thirty (30) per cent, and the rates are much more equal than under the previous tariff."

MADRID TO GEORGIAN BAY.—The Perth Courier says: "J. G. Haggart, Esq., and two companions started for a trip to Georgian Bay via Madoc on the 19th. They hired a conveyance to take them as far as Currie's, whence they made a detour to the Georgian Bay, from which they will proceed to Georgian Bay, intending to accomplish almost the whole distance in a small boat. The object contemplated by the adventurers is to take a general survey of the country through which they pass, with a view to determine its general characteristics, and whether any valuable mineral may be found there."

COURT OF REVISION.—Present.—Alexander Robertson, Chairman, pro tem; C. S. Levesconte and R. H. Jones. The Court of Revision resumed their duties last evening at the Town Hall, at 7 o'clock. A large number of cases upon which the evidence of the appellants, and assessors had been recorded, were taken up and judgment given. The court will resume its sittings to-morrow at 8 o'clock, for the purpose of determining those matters yet undecided and correcting clerical errors in the rolls. As final notice has been given all parties who have appealed, no further

appeals will be heard. The court will continue its session every evening until the 1st of June.

JAS. L. MATTHEWSON, Esq. In noticing the funeral of this estimable gentleman, the Montreal Gazette says:—"As showing the good understanding existing between the different classes of the citizens we may say that we observed a large number of Irish and French Canadian Catholics at the funeral of the late Mr. Matthewson yesterday. Nothing could better show the respect in which he deserved to be held. Probably there were never before so many Irish Catholics gathered in the Wesleyan Methodist Church in Great St. James St., as yesterday." Mr. Matthewson was for a number of years Grand Master of the Orangemen of Lower Canada, and Deputy Grand Master of British North America. To know him was to respect and admire him for his many sterling good qualities. And while he was a thorough Protestant, and never flinched from upholding the principles of the order to which he belonged, he had a heart sufficiently large to encompass the whole human family, and the fact that so many of all classes of the community paid tribute to his memory, proves that he was duly appreciated by his fellow citizens. We deeply sympathize with his bereaved family.

FROM MADOC.

From our own Correspondent.

Gold in Huntingdon. Man drowned.—Another Stage Line.

MADOC, May 29th.

Yesterday a Mr. Ira Dowd exhibited a sample of gold, found on lot No. 1, in the 13th concession of Huntingdon, and about two and a half miles from Peterson's mills. He says the discovery was first made on the morning of the 24th, by himself and partners, in the crevices of the quartz, rock, about an inch from the surface. He intends making application to the gold inspector for a free license. The owners seem very hopeful, and judging from the sample of gold shown, they have good reason.

The body of a man was found on Monday afternoon, in the River Moira, about a mile below Peterson's mill, and information conveyed to Mr. Charles Groom, Coroner here. The body was found lying across a log near the shore, the hands fastened together by a leather strap, which had a slip noose at each end, and may possibly have been so used by the party found. The Coroner's jury who set on the case yesterday, adjourned until to-day, in order to get further evidence in reference to the identification of the body. From what has been already elicited, the general impression is that it is the body of a man by the name of Green, who has been missing for the last three weeks, and who his relatives say was crazy, and had threatened to put an end to his life.

Dr. Jones who made a post mortem examination states that he thinks the same man applied to him three or four weeks ago for strychnine to kill rats, having no strychnine he gave him arsenic. From the appearance of the body he was about 50 years of age, he wore a plaid vest and pants, with a light summer coat, nothing of any kind was found in his pockets that would lead to his identification. It is a case of suicide—it has been a very deliberate one—as shown by the manner in which the strap was fastened on his hands—if a murder it is a horrible one. The investigation at the Coroner's jury to-day will probably throw more light on the matter.

We have a new stage line from this village to Allan's settlement, and from the number of persons mining in that neighborhood, it will no doubt be found a great convenience. The stage is owned by Mr. Robert McKnight. The finding of gold by Mr. McKnight, on the 19th of May, has excited considerable interest in that direction, and Mr. Francis Martin, the owner of the lot has since sold a quarter of an acre for \$200 and has been offered \$2,000 for the balance of the farm, 70 acres not leased to the Black Rock Mining Company.

Rain as usual, and a general feeling of depression on the part of the farmers, fears being entertained that they will not be able to get in their seed.

MILITARY HONORS TO A CANADIAN.—The Army and Navy Gazette of the 2nd inst., announces the appointment of Mr. Charles E. Vanstittart, son of Mr. J. G. Vanstittart, of the Civil Service, to a commission in the Military Store Staff Corps, with the rank of Deputy Assistant Superintendent of Stores, which, we believe, is equivalent to the grade of Lieutenant in the army. Mr. Vanstittart qualified for his commission at the last examination of the Royal Military College, and said the competitors present on that occasion he was awarded the second seniority—a fact which speaks well for his talent and assiduity. In view of the extremely difficult nature of the examination. On leaving Sandhurst, Mr. Vanstittart was presented by his brother-cadet with a sword, as a mark of their esteem. Few Canadians have past Sandhurst. We believe there are only three, beside Mr. Vanstittart, who have had the honor, viz.—Lieut. Gervais of the 7th Regt. Mr. Bettridge, late of the 74th Highlanders, and Mr. Uly of the 11th Regt. Mr. Vanstittart was educated at Lennoxville, and we feel certain all his former college companions will be glad to hear of his success.

FANCY GEOGRAPHY.—A light city—Cork.

The way for banish—Galway. For farmers—Barnstable. For the military—The Marlborough. A pleasant trip—Going to Have-Ann. A dangerous place—Bon-Bay. An Indian tale—Irish-Land. An un-felicitous country—Kam-chaka. A place for Fenians—Fatogah. A place for Fenians—Pencil-via. Good place for picnics—Sandwich Islands. Warm and cold—Hot-entots and Chili-ans. A race of sculptors—The Chip-away Indians. A prophetic view of real pain—Champagne. Civilized Africans—those living in A-shante.

Editorial Summary.

—The Hon. Attorney General McDonald is expected next week in Toronto.

—Jeff Davis passed through Kingston on Wednesday the 29th on his way Westward.

—Murders and attempts at murder are estimated to average one per day in New York, by the Tribune.

—Mr. McEwen was presented with an address by the officers and clerks of the Department of Agriculture, on his arrival in Ottawa.

—The expense of repairing the Hyde Park railway and footpaths, which were injured on the occasion of the reform riot in London last year, is estimated at fifty thousand dollars.

—A Bill to abolish capital punishment passed the Lower House of Stockholm, by a majority of fifty, but was defeated in the Upper House by one.

—Missouri is a nice place to live. The vigilance committee in Johnson County, recently hung two outlaws without the benefit of Judge or Jury.

—Advices from Algiers announce the reappearance of locusts. General Garnier has placed at the disposal of the local authorities a detachment of soldiers to assist in their destruction.

—At Portsmouth, near Kingston, a lad 16 years of age named Angus McLaughlin went into a steam saw mill and got caught by the belt, he was carried to the shaft and was so fearfully mangled, that he died in a few moments.

—A man in Buffalo has been sent to the workhouse for fifty days for whipping his wife as she lay in bed, and then pulling her out and otherwise mistreating her in a fit of jealousy, because she had accepted an orange from some one.

—A dissenting minister advertises in the London *Nonconformist* that he is in want of an engagement which will afford him "liberty to teach that benevolence is the characteristic of God's government, that God loves everybody, and will finally save all."

—Mr. Tarrant, veterinary surgeon, who has been bitten several times by rabid animals, says that crystals of nitrate of silver rubbed into the wound, will certainly prevent hydrophobia. As the dog days are at hand, it would be well to cut this receipt out and preserve it.

—In the year 1866 the total amount granted by the British parliament for the building of schoolhouses in Great Britain was £24,292,114; the total number of the schools inspected, 12,130; the average attendance, 1,099,183; present at the inspection, 1,364,829; the number of certified teachers, 11,971.

—A fire occurred in Kingston on the night of the 29th inst., in a frame house on the Kingston road, belonging to Miss Brangan. The building was burned to the ground, and an old apple woman, named McEwen, and a girl named Ann Rooney, 15 years of age, were burned to death. The bodies were afterwards taken from the ruins, burned to a cinder.

—On the other side of the fireplace on a bed or mattress lay a poor fellow, belonging to the grenadiers of the French Guard. He had, I thought, a fatal wound, from which the bowels protruded. When he saw one of our men washing the wounds of the Russian, he begged that he would bring the water to him also; and on this being done, he eagerly seized the basin, and quenched his burning thirst by drinking deeply of the bloody water which it contained. — *The History of Lord Selton's Regiment.* By Rev. William Leake, M.A.

For Sore Throat and Diphtheria, Perry Davis' Pain Killer is the great standard remedy. — *See Ad.*

QUEEN
INSURANCE COMPANY
CAPITAL, - - - \$10,000,000.
FIRE and LIFE.
LIFE DEPARTMENT.

THE principles on which this Company is
founded contain all the elements required
to develop the benefits of Life Assurance, and
afford every facility to intending assureds—
One of the advantages secured by those who
insure their lives with this Company is that
the outside expenditure for Management is
absolutely restricted by the Deed of Settle-
ment to Ten per cent of the Net Life
Income. This most important restriction
shows that the interests of participating policy
holders are closely watched and carefully at-
tended to by the Company. Attention is es-
pecially called to this point, as the proportion
of premiums expended for Management
Must Largely Influence Profits
and Bonuses.

The next division of profits takes place in
1888, and all those who wish to participate in
the profits should insure at once.

Dr. CANNIFF, M. BOWELL,
Medical Referee. Intelligencer Office. Agent.
May, 1887. 4Dm

G. C. HOLTON & Co.
Belleville, May 15, 1887. 1Dm

A Calculating Bridegroom.

I've known some very mean men in my
time. There was Deacon Overcash; now
he was so mean he always carried a bag in
his gig box when he traveled to pick up the
old his wife wanted in the baggage,
and lay an egg for his breakfast in the morn-
ing. And there was Hugo Himmelman,
who made his wife dig potatoes to pay for
the marriage license. "I must tell you, that
story of Hugo, for it is not a bad one, and
good stories, like potatoes, sink so easily
as they are used to them. I was a boy. Hugo
is a neighbor of mine, though considerably
older than I be, and a really intelligent he
is, too. Well, when he was going to get
married to Gretchen Kulp, he goes down to
Parson Rogers, at Digby, to get a license.

"Parson," said he, "what's the price of a
license?"
"Six dollars," said Hugo. "That's a dreadful
sight of money! Couldn't you make
less?"

"No," said he, "that's what they cost me
at the secretary's office at Halifax."
"Well, how much do you at for publish-
ing in church, then?"

"Nothing," said the parson.
"Nothing?" said Hugo. "That's cheap! I
expect any change back. I think I'll be
published. How long does that take?"

"Three Sundays," said Hugo. "Well,
that's a long time, too. But three Sundays
only make a fortnight after all, two for the
covers and one for the inside like; and six
dollars is a great amount of money for a
poor man to throw away."

So off he went, a joggling toward home,
feeling about as mean as any new shodder
sheep, when all at once a bright thought
came into his head, and back he went as
fast as his horse could carry him.

"Parson," said he, "I've changed my
mind. Here's the six dollars. I'll tie the
knot to night with my tongue that I cannot
untie with my teeth."

"Why, what in nature is the meaning of
all this?"

"Why," said Hugo, "I've been a 'sper-
hing' it out in my head, and it's cheaper than
publishing after all. You see, sir, it's po-
tato digging times; I wait to be called in
church, but father will have his part for
nothing; and as hands are scarce and wages
are big, if I marry her to-night she can be-
gin to dig for the license, and just seven shil-
lings over, for there ain't a man in all Glen-
ville that can dig and carry so many tubs
in a day as Gretchen can. And, besides
fresh wives, like fresh servants, work like
smoke at first, but they get husky and lazy
after a while."

THE FATE OF DR. LIVINGSTONE.—Sir R.
Murchison writes:—Her Majesty's Govern-
ment have, to their great credit, listened
favorably to the appeal of the Geographical
society, and have resolved to send out a
search party, which is to be the present go-
ment, being organized for this object, in
which the action at large takes so deep an
interest. I may add, that the search party
will be a small one, consisting only of four
Englishmen, including the leader, Mr. E.
D. Young, of Zambesi reputation, and all
will be men already acclimatized in similar
regions. They will ascend to Lake Nyassa
by the Zambesi, and the Shire, and it is es-
timated that, if they leave England, via the
Cape, on the 10th of June, by which time
the boat, now making, will be ready; they
will soon reach the head of Lake Nyassa,
near which the disaster is said to have oc-
curred. There is nothing in the truth or
falseness of the death of the great traveler,
they will be back again at the mouth of
the Zambesi by November. Thus, at a lit-
tle risk and small cost, the painful suspen-
sion in which the public mind has been held
on this subject will be relieved, and we shall
know whether Livingstone was killed, as
reported, or has passed onward to Ostende
and the Lake Tanganyika.

The agricultural correspondent of a Lower
Canada paper, draws a picture of the
state of things in the country parishes at pre-
sent. He says: "The rain has so soaked the
roads in certain localities that the municipal
authorities have felt it their duty to close
them up with the view of preventing acci-
dents. The habitants in the parishes below
are unable to reach the railway stations in
their wagons, and in some parts it has been
necessary to use picks and shovels to free the
horses of those who attempted to do so." "The
Charlesbourg and Beauport roads have been
closed, several horses narrowly escaped in-
jury on it. The farmers in some of the richest
parishes are reduced to the extremity of sus-
taining life with bread, and the wheat is
rotting in the fields, and potatoes, owing to the
difficulty of communication and the scarcity
and high price of provisions. He urges the
calling of a relief meeting in Quebec, and
in the connection that subscriptions have al-
ready been taken up for the purpose in some
places.

A Mississippi paper, writing about the
losses by overflow, says: "We have had and
reports from the Mississippi bottoms. 'Water,
water' everywhere, and 'no dry ground' any-
where; thousands of farmers have staked
their last dollar upon the hazard of this year's
crop, and in the rapid torrent that courses
over their worn fields they read ruin irre-
trievable."

Single copies of the "Daily Intelligencer" can be obtained at J. C. O'Connell's Book Store, Belleville.

TELEGRAPHIC NEWS!

BY ATLANTIC CABLE.

LONDON, May 30.—Despatches received last night from the continent indicate that a fresh complication, the character of which is not known, has arisen in the Schleswig question.

CORK, May 30.—The trial of the prisoner O'Connell is now in progress before the Special Commission in session here.

LONDON, May 30.—Uncertainty of the fate of Maximilian creates painful anxiety throughout Europe.

PARIS, May 30.—It is expected that Francis Joseph, the Emperor of Austria, will arrive in this city on the first day of July.

ST. PETERSBURG, May 29, evening.—The Emperor Alexander left this city to-day for Paris.

BERLIN, May 29, evening.—It is stated that King William will be accompanied by his Prime Minister, Count Von Bismarck, on his visit to the French capital.

MADRID, May 29, evening.—The Spanish Government is considering the question of the abolition of slavery in all the colonies of Spain.

LIVERPOOL, May 31 (noon).—Onion sales during the week, 32,000 tons; market firm and moderate, time sales 17,000 tons; "Tulands," 114; Orleans 111; Breckinridges and Provins 108 and 110.

LONDON, May 31, 3 p.m.—Consols have advanced 1/4 since closing, now quoted at 95 1/4; U.S. bonds unchanged; New unchanged; 4 1/2; U.S. 3 1/2.

LIVERPOOL, May 31, 2 p.m.—Peece declined 1/4; all other articles unchanged.

The steamship *Erin*, from New York, May 29th, has arrived.

American Despatches.

RACES.

CINCINNATI, May 30th.—The Buckeye races came off to-day. The first race, a dash of one mile and three-quarters, for all ages. Eight horses started. The race was won by W. B. Cook's *Cal. Grey*, in time 3:14. The second race, two mile heats, for all ages, for \$50, won by *Amel*; time 3:51. Other horses distanced.

BOOTH'S DIARY.

NEW YORK, May 31st.—The *Herald's* telegraph says: "The testimony of Gen. Eckhardt, formerly assistant secretary of war, confirms the statement that Booth's diary is now in the same condition it was when first seen by him."

BOILER EXPLOSION.

By an explosion of a locomotive last evening on the Lynchburg and Alexandria Railroad, Mr. Lynch, engineer, and Mr. Rose, fireman were killed.

DROWNED.

ST. PAUL, May 30th.—George Henry and Miss Stubbs from Michigan were drowned on Monday, while attempting to cross Lake Minnola.

NEW YORK, May 31.—The steamers *Bavaria* from Southampton, May 15th, and *Belona* from London, May 12th, have arrived.

The Marmora Railway.

The *Cobourg World* of the 31st inst. says:

"We are pleased to say that the work in connection with the Cobourg and Marmora Railway is rapidly approaching completion. Already the rails on five miles of the track have been laid, leaving only three or four miles to be completed; and of this portion the greater part is graded. A locomotive has been placed upon the finished portion; and a second one will be taken thither next week. It is fully anticipated that before the end of June the conveyance of iron to our wharves will have been commenced. Three members of the C. P. & M. R. M. Company, Messrs. Blair, Schenberger & Butts, have lately, in company with the Managing Director, spent some days at the mines, and are well satisfied with the quality of the ore already dug out, and the prospect of an exceedingly large yield."

This does not look as if the Cobourg people would never be able to "raise money enough to grease the wheels."

Counterfeit ten dollar bills on the Third National Bank of Philadelphia, are being circulated lately. They are very well executed.

Parties and the Dominion.

It is gratifying to find that there are but few men in the Dominion, of talent and experience, who do not deprecate at the present time, the revival of questions long since settled, and the reverting back to old party names, which at the present moment are meaningless. While they admit the advantages of honest party government, they are equally desirous of establishing parties as circumstances may call them forth. Questions will arise in the administration of the affairs of the country upon which men will differ, and it is then that they will take sides, and legitimate parties be established; but until these do arise, it is folly, say worse, it is madness, to agitate the country upon questions which divided men, years ago, and which have been forever removed from the arena of party strife, by mutual concessions made by both parties. It may not suit the political demagogue who delights in revelling in strife and turmoil, to allow the Dominion of Canada to be inaugurated in peace and harmony, all lending their ability and practical experience in setting the new machinery in motion. Those who have devoted most time and labor in bringing about great changes in the government of our country, see the great necessity of parties uniting in establishing the new Constitution upon a firm and permanent basis. Any other course would be fatal to the well-being of Canada, and likely to end in turmoil and confusion. These views were fully and admirably brought out at a dinner given to Mr. Galt, at Lennoxville, C. E., a few days since. The Chairman, Mr. Pope, M. P. P., in proposing the first toast, said: "As to the present, we had reached a period when our old politics were to be dropped, and we were all to start anew, and, thank God, that was the case." This sentiment was echoed by every man present, and by none more heartily than the Hon. Mr. Sanborn, a prominent Reformer in Lower Canada, who has for years taken an active part in the politics of the country, and is looked upon as the leader of the advanced party of Lower Canada in the Upper House. Mr. Sanborn said:

"I am desirous to see in the new Dominion, as there has been in the old Province, parties; that I desire to see them grow out of the circumstances of the time. We are now entering into a different partnership from any that has existed heretofore. We are bringing to the new allies which with us, are to form in the constitution of the New Dominion; and they have their local interests. If they dwell on those interests, and endeavor to pursue whatever the local interests of each Province respectively, each will have a party in its own narrow sphere, and, consequently, there will be a tendency rather to ANARCHY THAN UNION."

Such views are a credit to the man who utters them, and contrast favorably with the senseless cry that the Hon. George Brown, that great mar-plot to the quietude of the country, is endeavoring to raise. The same idea is admirably enunciated by Mr. Galt, in one of his happiest efforts. We regret that space will not permit us to give his speech entire, and therefore have to content ourselves with one or two extracts. Upon the necessity of unity Mr. Galt said:

"If the people are willing—and I think I may take this meeting as indication that they are willing—to let bygones be bygones, to bury the old acerbities of the past, to unite in a generous support of the Government of the day, whose duty it is to carry out the policy of their solution of the great questions which are arising—then, I say, we may indeed become a nation worthy of the name and of our inheritance. But if we are to have the old faction fights of Whig and Tory renewed; if French and English Catholic and Protestant are to be brought up against each other; if, I say, these cries are to be once more sounded in our ears, then, gentlemen, our attempt will be a wretched failure. There is no constitution that can give peace to a people who are determined to waste their energies in miserable struggles among themselves."

"My view is, sir, that the government of the new Dominion must practically be a continuation of the Quebec Convention. We have as yet only received permission to unite the Province; to carry out that Union we must have the same representation of interests we had at Quebec. If you were to organize pure party government you might perhaps do it for Canada, but the same party might perhaps not be the government party in Nova Scotia or New Brunswick. In Canada there was a coalition of parties for the purpose of carrying the Union Resolutions. Can we imagine for a moment that the actual assimilation of the laws, and the many necessary measures, can be carried out by one of those parties alone? I believe, sir, it cannot safely be done, but that the principle which must be kept in view is the representation of all the local wants of each part of the Dominion. I think the people of the country at large will feel this to be the really necessary for the success of the experiment." (Applause.) Of course there must be different opinions on almost all questions of moment, but let not these opinions be formed upon the basis of old party names. One of the first things that are to be done is to form the local governments, governments for each of the Lower Provinces as well as for our own. If we constitute them on a party basis such as exists now, we lay the seeds of very great opposition, indeed of civil strife in the country from the very first. But if we form governments which embrace the best men of all opinions, one of two things will happen—either that their measures will be so wise that no opposition to them can be formed, which is too good a thing to expect of the government; or they will make some mistakes, which will display some faults, and so on. Opposition will soon be created, but it will rise up naturally. There are some questions, at least in the general government, which must be settled by the people. I refer to the abolition of the Tariffs, to the adoption of the Trade policy which is to prevail. These are questions which will do with the policy of the hour, and yet they very nearly touch the whole future policy of the country. They must not be treated with ignorance. It will not do for a man in Canada to presume that he

knows enough of all the Provinces to be able to decide what rate of duty should prevail; he must have in Council the assistance of men who are familiar with the circumstances of each part of the country, so as to prevent injury being done to any important district. Let me take, by way of illustration, the case of Maritime Provinces. We know that some opposition has prevailed in Nova Scotia, in regard to Confederation, because the people have been told that their industry, and the position that the manufacturers of Canada would be thrown upon them, such an extent as to damage and destroy them; that the Union of the Provinces meant, for them, nothing but disaster. Now, the policy of the Government must be shown, by its acts, that while the common interests of Nova Scotia as well as Canada, while the advancement of the country at large, and the promotion of its material interests, may possibly require the two tariffs to be assimilated as to their duties on manufactured goods, yet, in other respects, their special interests will be considered."

The reasons given above are indisputable, and none but the wildest fanatic, who would throw the Province into a state of anarchy and confusion for his own benefit, would take exceptions to them.

Editorial Correspondence.

MONTREAL, May 30.

It is rumored in well-informed circles that Mr. McGee will be a member of the Privy Council for Quebec. The other members are to be Messrs. Cartier, Galt and Laurier. Those for Ontario are said to be Messrs. John A. Macdonald, Alex. Campbell, McDougall and Howland.

The Rouge party are endeavoring to get up an opposition to Mr. McGee in the Western Division. Mr. Devlin has been selected to oppose him, and I am informed that he gave his consent to the Committee last evening. A meeting is to take place this evening to bring out another candidate to run in connection with Mr. McGee for the Local Legislature. Mr. Devlin has considerable influence amongst the Irish Catholics, and it is supposed he will give McGee a hard run.

The Montreal *Gazette*, the ablest Conservative journal in Lower Canada, announces this morning that it will be published in a new form, and on the co-operative system, under the name of the "Montreal Printing and Publishing Company." The Company will be composed of the firm of Lowe & Chamberlin, M. Longmore & Co., and will take in Assistant Editors, Reporters, the heads of the printing and press departments, a number of literary men and a few friends. By this combination of capital, talent and interest, the *Gazette* must become a power in the new Dominion, and will take the lead of the newspaper press. Arrangements will be made so that the paper can be obtained at the principal points in the Dominion for 1d., and no expenditure of capital will be spared to obtain the latest and fullest news from every part. Every one who has a proper estimate of the hands of high-minded, able men, must have upon the future well-being of this new Nation, will wish the new enterprise the fullest success.

Le Pays announces that the Hon. Mr. Dorion will try to obtain a seat in the House of Commons for Hochelaga. Rumor has it that Hon. Mr. Galt will be a candidate for the centre division of Montreal, for the House of Commons, and that Hon. John Rose, the present representative, will be appointed Lieut. Governor of New Brunswick.

The Fenian news by way of Toronto to-day, has been a principal topic of discussion in the streets. The conduct of Gen. Barry last summer, in promptly carrying out his orders, won for him the respect of Canadians, and his statements are therefore considered worthy of credence. His statements, however, are corroborative of the opinion entertained by many leading men in Canada, and it will be well if the authorities are prepared. It will not do to be caught napping.

Amongst the attractions here just now, is Her Majesty's Ship of War, the *Volcano*, the largest vessel of the kind that ever visited Montreal. She is as trim and neat a craft as ever appeared in these waters; she carries twenty-one guns, and has a crew of 275 men. Every afternoon she is crowded with visitors, and the officers take a great deal of pains in showing them about the vessel. It is said she will remain here during the summer.

I have just come from a visit to the Tobacco Manufactory of W. C. McDonald, the largest in the Province, and well worth a visit. A description of this extensive manufactory as well as of other points of interest I must defer to another time.

BAKERS' ASSOCIATION.—Many of the citizens of Ottawa, says a contemporary, have formed themselves into a Bakers' Association, owing to the high prices of bread at the present bakes. This new association guarantees bread at \$1.80 per dozen, while at the old establishments it is now \$2.40 per dozen. The shares in the association are \$5 each. Companies of this sort have been organized in other cities, and are said to have paid well, besides making the price of bread less.

Dismissing Registrars.

The McDonald-Dorion Ministry when in power, made every vacancy that was possible, and filled them with their friends; any man in whom a shadow of fault could be found was unceremoniously turned out of office, and a partizan of J. S. McDonald's put in his place. A notable case was that of the Registrar of Bruce, who was dismissed more for political purposes than ought else. At the time we contended that the act was not only a high handed one, but illegal, and such the Judges have decided it. The *Leader* says:

"The somewhat celebrated case of the Bruce office was recently decided by the Court of Queen's Bench. Mr. Hammond, the late Registrar, it will be recollected, was dismissed by Mr. Sandfield Macdonald's Administration, on the ground which undoubtedly afforded a pretext, but, as now appears, not a justification for doing so. The action was for a certain portion of the fees supposed or known to be accrued, since the appointment of Mr. McClay, at the time the action was commenced. But though the action took this shape, the decision settles the whole question as to who is the legal Registrar. Since the dismissal of Mr. Hammond, now proved to have been illegal, all the registries have been illegal. We do not approve of the act which dismissed him, but the dismissal, but the case was one for reprimand rather than dismissal. He might fairly have been reinstated with; but as a punishment, which, besides being disproportionate to the offence, was an illegal exercise of executive power, Mr. Hammond will, of course, resume his duties as Registrar, and Mr. McClay will have to 'fork over' the fees he has illegally received. For the special legislation required to give legal validity to all the acts of registration since Mr. McClay was appointed."

DISMISSED.—It is stated in a telegram from Ottawa, that Mr. Partridge, Superintendent of Woods and Forests, has either been dismissed or suspended from office, No reason is given.

CRICKET.—The pupils and ex-pupils of the Grammar School, Belleville, are to play a game of Cricket with the Belleville Cricket Club, on Monday next.

MOUNTED POLICE.—Sergeant Dunbar and 12 of the Mounted Police have been ordered to the Chaudiere gold fields in Lower Canada. They leave to-day on the steamer *Empress*. This force has been sent to the Chaudiere, owing to some disturbances which have taken place there lately among the miners.

THE PARTY.—The *Globe* is unfortunate in any position it may take for it can always be quoted against itself. It is now denouncing every man, and every journal in Canada, that will not cry "party," "party." A few years ago when it had another game to play, it followed the doctrine. "It is a sure sign that a political combination is on its last legs, when its paid organs feel the argument is 'powerless'; that their friends are cold and 'apathetic,' and that the only rallying cry which is left to them is the howl of 'the Party,' 'the Party.'" Is the "political combination" between George Brown and his Rouge associates of Lower Canada, "on its last legs" and is that the reason for the howl of "the party," "the party?"

THE CURRENT WORM.—Now is the time to provide against the ravages of the current worm. An exchange says: One method of getting rid of current worms effectually, if faithfully applied, is removing the earth in around the bush early in the spring, to the depth of twenty three inches, and supplying the place with fresh earth, and destroying the eggs on the leaf. Thus, the progenitors of thousands may be easily destroyed. His receipt might prove effectual, but the difficulty would be in "destroying the eggs on the leaf." A much more easy and more effectual way is to use powdered redoubt. Fill a common pepper box with the powder, and dust it on the current leaves including those not infested with the worms, and they will disappear, and the current is saved. Sometimes an additional application is necessary.

JEFF DAVIS.—The American press has become furious, because Jeff. Davis has visited Canada, and because we do not gibbet him or something else of that sort, forgetting that they have had him in their power since the fall of Richmond, and have not, either from fear or policy, brought him to trial. The "regular New York correspondent of the *Advertiser*" writes on the 16th.—"That our apple tree about which we have heard so much in song of late years, evidently does not grow in this vicinity, if in fact it is growing anywhere. Jeff, the great arch-rebel, has arrived in this city and left for the home of all rebel-sympathizing Canada. It is generally thought in this city that he never will return to the United States." We have no doubt but that is just what the Americans would like. If Mr. Davis were to remain in Canada, it would relieve them of much trouble.

FUNERAL OF THE LATE F. WHITEMAN.—The remains of the late Francis Whiteman, whose untimely death we noticed in our issue of the 28th inst., was laid in its last resting place Thursday afternoon. The funeral procession left the family residence on St. N. 30, 2nd concession of Tyendinaga, at 12 o'clock noon, and proceeded to the English Church burying ground, some 6 or 7 miles distant; it was an unusually large and respectable one; the teams, carriages, and horsemen extending quite a mile in length, and forming a scene of different political and religious principles. The Rev. G. A. Anderson preached an appropriate sermon, and read the funeral service of the Church of England—after which in pursuance of the request of the deceased—the funeral service of the Loyal Orange Association was read, and the deceased was an old and prominent member, was read by Geo. A. Anderson, Esq., County Master. The brethren present, of whom there was a very large number, taking part in this service.

In the township of London, C. W., a man by the name of Little got into the arm, while charivaring a newly married couple.

Editorial Summary.

—The loss by fire in the United States during the first four months of 1867, have been \$15,405,000.

—At Buffalo, sailors are shipping at a dollar a day, there being plenty of men and little work.

—The Primitive Methodists in Canada are agitating the question of establishing a Theological institution, in which to educate their young ministers.

—The carpenters in London are on strike, they commenced work this spring at \$1.50 per diem, which was raised to \$1.62 1/2, and now they demand \$1.75.

—On Wednesday morning, early, says the *Free Press*, a man entered the bedroom of a Mr. Wylie, in London, C. W., and walked off with \$5, the amount in Wylie's vest pocket.

—During the past winter 407 1/2 cords of wood were sold by the Toronto City Council to the poor at \$4.50 per cord—about one-half the price they would otherwise have to pay.

—The Secretary of the Treasury has given it as his opinion, that peas imported into the United States, can be admitted at 10 per cent ad valorem, if intended for domestic use or manufacture.

—A quantity of bread was seized by the Police in London, C. W., being under weight. The defence set up by the baker, was that it was not for sale, but "to be remanufactured." Rather ingenious!

—Canadian government securities have again advanced in the English stock market, and fully recovered the fall which took place when the recent war panic set in, to the temporary detriment of nearly every class of security.

—The number of visitors at Niagara Falls has been much greater than for this season than in previous years. An association of hackmen has been formed, and to the surprise of visitors, is countenanced by one hotel, the proprietors of which, it is said, have leased some six carriages to this association of forty-four hackmen for \$9,000 for the season.

—The *Pictou Gazette* says: The Hon. Robert Read has issued his address to the Electors of the Eastern Division of Hastings, announcing himself as a candidate for the House of Commons. Mr. Read, by his straight forward and upright course as a political and private individual, has won for himself a host of friends in the adjoining County, and will doubtless be returned.

POLICE COURT.

MAY 31, 1867.

NUISANCE.

Charles McCarthy was fined \$1 and costs for permitting his pigs to run at large in Front Street, and on the day after (yesterday), he was again fined \$1 and costs for a similar offence. Great complaints are being made of the damage occasioned by hogs running at large.

BOUND IN SUBTILES.

George W. Reeves, of Trenton was bound in two sureties of \$50 each, and himself in \$100, to keep the peace towards James March, of the same place, for one year.

LARCENY.

Police Constable Allen arrested a young man named Wm. Donaldson, at the railway station, on the 29th inst., on a charge of robbing a fellow lodger, named Scott, of a number of greenbacks, some Commercial Bank Bills, and a suit of clothes. The robbery occurred on the 24th April last, and the police have been watching Donaldson's movements since. The matter was investigated yesterday, but no proof having been produced of the boy's guilt, he was discharged by the Police Magistrate.

BREAKE OF MARKET LAW.

A man named McDonald was fined \$1 and \$1 costs, for purchasing potatoes for exportation before 10 o'clock a.m. He paid the amount.

Fenian Movements in Buffalo.

The reporter of the *Hamilton Times*, now in Buffalo, thus writes of the Fenian movements in that city:

"Appearances about this city at present, to a careful observer, show conclusively that another raid on Canada is contemplated before many days. The fact is public that large quantities of arms and war material are stored in the city or vicinity, and that artillery has been brought over by the Fenians this spring. The Buffalo companies of the I. R. A. are completely untrained, and drill constantly. There is said to be an entire regiment enrolled in the city."

I took a stroll last evening through a section of the city where the Blackstone monument most doth congregate, and frequently encountered small knots of the Fenian stripe upon the street engaged in earnest discussion. As a stranger approached their conversation was suppressed, and it was evident that something more than commonplace gossip engrossed their attention. I overheard the remark once, that the Rochester and Syracuse delegates were to do this and that, but my inquisitive ears were rewarded with no definite piece of information.

Doyle and Leahy, both reporters of the *New York Herald*, have arrived here, and have instructions to remain until further orders.

I shall have intelligence more positive to transmit before the close of the week.

A young lady refused to go into the Woolwich Arsenal the other day, because she heard that some of the muskets were without breeches.

The Hamilton Spectator says:—"We notice that butter is now bringing 21 cents per lb. in Halifax. A gentleman in the neighborhood, who has shipped a lot of butter to the Maritime Provinces, informs us that he realized a very handsome profit by the transaction. It is essential that the butter should be really a first class article; or western butter is not suitable, and had butter is not suitable and had a large quantity of Yankee butter has lately been sent into Halifax under the name of Canadian butter, buyers in that city are now more cautious than ever as to the quality of the article offered. But if our farmers will see to it that their butter is well made and well packed they may rely upon it that quick sales and large profits may still be realized."

While we in Canada have experienced the coldest and most ungenial weather in May for many years, the weather in England has been intensely hot. English papers of May 11th speak of a great heat which prevailed all over that island for three or four days. Several deaths occurred from sunstroke. Correspondents writing to the Times say that in Jersey from noon till sunset on Sunday, the 12th, the thermometer at that island was 90 degrees in the shade. At Tisbury 93 was reached on Tuesday, and 136 in the sun. At Kettering in Northamptonshire, a maximum of 86 in the shade was reached on Wednesday, the 15th. The tropical heat culminated in a severe thunderstorm, when the temperature moderated.

The Montreal Herald calls attention to the fact that Judge Mack, of that city, recently refused an insolvent's certificate of discharge, because it had opened on the ground of overtrading. This is an objection so vague in itself that strictly dealt with, many—perhaps most—of the discharges already granted might have been refused upon the same ground; but doubtless, it is only in flagrant cases that the objection would either be made or sustained. It is, however, well for traders of all kinds to know that a precedent has been established for refusing a discharge upon this ground—a precedent which cannot but have a wholesome effect on the business of the country in future.

London, C.W., is a fast city. Three juvenile burglars were arrested on Saturday for breaking into Mr. W. S. Smith's store. They were respectively of the tender ages of thirteen, ten and seven years. Upon information given by one of them, seven other juveniles were arrested for robbing a grocery. Their names, ages and demeanor are thus referred to by the Press:—"They were John O'Hearn, aged ten, Frank Ryan, ten, John Sturgeon, nearly ten, Henry Sturgeon, twelve, Thomas Groves, thirteen, Charles Groves, seven, and Catherine Ryan, eight. When arraigned in the dock yesterday morning they would have made a fine subject for a Tenier. Never was such a juvenile gang charged with such an offence before in London. Some were sobbing bitterly, others with their tongues in their cheeks grinning at the novelty of their position, and looking very sober and innocent."

COMMERCIAL.

BELLEVILLE MARKETS.

Intelligence Office
Belleville, May 31, 1897.

Wheat—None offering.
Spring Wheat—\$1.75 to \$1.80.
Barley—\$1.50 to \$1.60. None offering.

Belleville, May 30, 1897. 16W2-1

To Whom it may Concern.

TAKE NOTICE, that the Council of the Corporation of the County of Hastings will meet at the Shire Hall, in Belleville, on Tuesday, the Eighteenth day of June next,

for the despatch of general business.
By order, THOS. WILLS,
Shire Hall, Co. Clerk, C. H.
Belleville, May 30, 1897. 24d-wtd.

TENDERS.

TENDERS will be received at the office of the County Clerk, in Belleville, up to the 15th day of June next, for the supplying the prisoners in the County Gaol with meat.

By order, THOS. WILLS,
County Clerk, Co. Hastings.
Belleville, May 30th, 1897. 24d-wtd.

GREAT SALE BY AUCTION.

FOR THREE DAYS ONLY.

BANKRUPT STOCK OF DRY GOODS!

In the Store opposite the Willard House, Front St., lately occupied by Mr. Coleman, on Saturday, Monday & Tuesday, June 1st, 3d, & 4th.

Commencing every day at 10 o'clock A.M., and 6 P.M. Private sales in the interval.

\$10,000!

COMPRISING a most valuable lot of Rich Black Silk, Broad and Narrow; Colored and Fancy Striped and Figured French Silks; Silk Velvets, both Black and Colored; Black Lace Shawls, Grenadine Shawls, and a Large Stock of Rich Paisley Wove Long Shawls; French Merinos, Black and Colored; French Delaines, Black and Colored; Paramattas, Co-burys, Lustres, and Circassian Cloths; Black and White Check Challie Cloths; New Fancy Striped and Checked Mohairs; a large stock of Rich Black Silk Mantles; Rich black Lace Mantles and Jackets; black and colored Cloth Jackets, Tissue Mantles, &c. Besides the above Rich Goods, there will be a very large assortment of more Domestic Goods, such as Prints, White and Grey Cottons, 8 & 10-4 White Linen and Cotton Sheetings, Damasks, Table-covers, Towels and Towelling, Trimmings, Furnishings, &c.

A Large Variety of Fancy Goods.

SPECIAL NOTICE to Tailors, Clothiers, and Country Merchants—Fine Black West of England Cloths, broad and narrow; Fancy West of England Tweeds; Scotch Tweeds, 3-4 and 6-4 wide; Fancy Vestings, colored and white; Cashmere, Silasias, Buttons & Trimmings. SPECIAL to Milliners and Dress-makers—A large lot of French Flowers, Feathers, Ribbons, black and white Nets, black and white Silk Tulle, Bonnet Silks, Terry Velvets, Ba-quill, Gimps, Trimmings, &c.

TO THE PUBLIC GENERALLY.—Such an opportunity never did occur in Belleville, for buying first-class goods at such prices as the whole will be sold for. No price list is quoted, as it could give no adequate idea of the real value of the goods without inspection.

Observe the Address, and note the time is limited—opposite Willard House, Front St.

Belleville, May 4, 1897.

American Invoices—Discounts.

FINANCE DEPARTMENT, CUSTOMS.

Ottawa, 27th March, 1893.

It is directed by the Hon. The Minister,

that heretofore Weekly Notices

be published and furnished to Collectors of

Customs, as to the rate of discount to be al-

lowed on American Invoices, which is to be in

accordance with the price of gold as repre-

sented by Exchange, at a rate equal to the

Such notices to appear every Saturday in the

Canada Gazette.

J. S. M. BOUCHETTE.

FINANCE DEPARTMENT, CUSTOMS.

Ottawa, 27th May, 1897.

In accordance with the above Order, Notice

is hereby given that the authorized dis-

count is declared to be this day 26 per cent,

which percentage of deduction is to be con-

sidered until next Weekly Notice, and to ap-

ply to all purchases made in the United States

during that week.

THOMAS WORTHINGTON,

Assistant Commissioner of Customs.
